NOTICES

The following properties have been determined to be eligible for inclusion in the National Register. All determinations of eligibility are made at the request of the concerned Federal Agency under the authorities in section 2(b) and 1(3) of Executive Order 11593 as implemented by the Advisory Council on Historic Preservation, 36 CFR Part 800. This listing is not complete. Pursuant to the authorities discussed herein, an Agency Official shall refer any questionable actions to the Director, Office of Archeology and Historic Preservation, Department of the Interior, for an opinion respecting a property's eligibility for inclusion in the National Register.

Historical properties which are determined to be eligible for inclusion in the National Register of Historic Places are entitled to protection pursuant to section 106 of the National Historic Preservation Act of 1966, as amended, and the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800. Agencies are advised that in accord with the procedures of the Advisory Council on Historic Preservation, before an agency of the Federal Government may undertake any project which may have an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal.

**INTERAGENCY
AGREEMENT**

[4510-30]

NATIONAL OCCUPATIONAL INFORMATION COORDINATING COMMITTEE

OCCUPATIONAL INFORMATION Interagency Agreement

ACTION: Notice.

SUMMARY: Published below is a revised Interagency Agreement of the National Occupational Information Coordinating Committee (NOICC). This agreement replaces the original interagency agreement of the NOICC signed on March 2, 1977 and published as a NOTICE in the FEDERAL REGISTER on April 21, 1977.

The National Occupational Information Coordinating Committee has been established with the general purpose of improving coordination communication, and cooperation in the development of an occupational information system designed to meet the common occupational information and data needs of the vocational education programs and employment and training programs at national, State, and local levels.

In addition, the NOICC is mandated to give special attention to the problems of unemployed youths and to assist and encourage the use of occupational information especially by promoting its use in career decisionmaking.

SUPPLEMENTARY INFORMATION: The Education Amendments of 1976 (Pub. L. 94-482) section 202(a) amends the Vocational Education Act of 1963 and establishes a National Occupational Information Coordinating Committee. An Interagency Agreement of the National Occupational Information Coordinating Committee specifying the purpose and designed to activate working arrangements was signed by the four statutory members March 2, 1977.

This revised agreement among the agencies, signed at a meeting of the four statutory members on January 24, 1978 incorporates those provisions as mandated in the Youth Employment and Demonstration Projects Act of 1977 (Pub. L. 95-93) which amend by the Comprehensive Employment and Training Act.

The Committee, as specified in the Act, is composed of the Commissioner of Education, the Administrator of the National Center for Education Statistics, the Assistant Secretary for Em-

NOTICES

ployment and Training and the Commissioner of Labor Statistics.

R. E. ALLYN,
Staff Director, National Occupational Information Coordinating Committee.

INTERAGENCY AGREEMENT OF THE NATIONAL OCCUPATIONAL INFORMATION COORDINATING COMMITTEE

Section 161(b) of the Vocational Education Act of 1963, as amended by Title II of Pub. L. 94-482, the Education Amendments of 1976, establishes a National Occupational Information Coordinating Committee (NOICC). The Committee's legislative mandate was expanded by section 348(c) of the Comprehensive Employment and Training Act of 1973, as amended by Title II of Pub. L. 95-93, the Youth Employment and Demonstration Projects Act of 1977. The members of this Committee are the Commissioner of Education, the Administrator of the National Center for Education Statistics, the Commissioner of Labor Statistics, and the Assistant Secretary of Labor for Employment and Training.

This Agreement replaces the NOICC Interagency Agreement executed on March 2, 1977.

Specifically, the Office of Education and the National Center for Education Statistics of the U.S. Department of Health, Education, and Welfare, and the Bureau of Labor Statistics and the Employment and Training Administration of the U.S. Department of Labor agree to carry out the intent of Congress as set forth in section 161(b) of the Vocational Education Act as amended, and section 348(c) of the Comprehensive Employment and Training Act of 1973, as amended.

The parties agree to the following paragraphs:

1. The NOICC in the use of program data and employment data will improve coordination between and communication among vocational education and employment and training program administrators, planners, researchers, and other trainers. These efforts will be directed toward assuring the availability and systematic use of uniform program and occupational information and employment data giving special attention to the problems of unemployed youths. To this end a system will be designed so that accurate comparisons can be made from State to State and, whenever possible, will include reporting of data by labor market areas within the State for purposes of planning and program development.

2. The NOICC will develop and implement by September 30, 1978, an occupational information system to meet the common occupational information and data needs of the vocational education program and employment and

training programs at the national, State, and local levels. This system will include data on occupational demand and supply based on uniform definitions, standardized estimating procedures, and standardized occupational classifications. The system design will also include different delivery systems applicable to user needs including but not limited to the needs of administrators and planners of programs and of clients, students, and others making career choices.

3. The NOICC will assist each State's Occupational Information Coordinating Committee (SOICC) as required by law and as specified in regulations promulgated by NOICC.

4. The NOICC, in carrying out the activities under the Acts, will assist and encourage SOICC's (1) to adopt methods of translating national aggregate occupational outlook data into labor market terms; (2) to provide technical assistance for States and localities that seek to establish facilities to process, disseminate, implement or otherwise use occupational and outlook information and projections; and (3) to encourage and promote greater cooperation in the development of career information systems between those who collect and disseminate occupational information and those who utilize, plan or operate on the basis of such information.

5. NOICC will utilize funds for (1) national activities in improving coordination and communication; (2) designing and implementing an occupational information system (OIS); and (3) funding SOICC activities. These activities will meet the needs for planning and operating programs of the State Board for Vocational Education and administering agencies under the Comprehensive Employment and Training Act (CETA) of 1973.

6. The NOICC will determine the purposes for which disbursement of funds are to be made consistent with fulfilling the requirements of the Acts. Within the legislative authorization, the NOICC will annually estimate the amount of funds required to carry out its functions. A formal budget request to support NOICC's activities, based on such estimates, will be submitted by the Office of Education and the Department of Labor. All funds available to the NOICC under the Comprehensive Employment and Training Act and the Vocational Education Act may be used by the Committee to carry out any of its functions and responsibilities authorized by law.

7. Memoranda of Understanding will be developed, as needed, and agreed to by four statutory members of NOICC covering areas such as policy, staffing, administrative services, and space.

8. The signatories, the four statutory members of NOICC, agree that each will delegate authority to a person on

his or her staff to act as a member of a Technical Steering Group. The signatories further agree that the Commissioner of the Rehabilitation Services Administration should designate a person on his or her staff to work with the Technical Steering Group because the State vocational rehabilitation agency is legislatively required to be represented on each State Occupational Information Coordinating Committee.

9. The Technical Steering Group will, in accordance with Memoranda of Understanding agreed to by the members of the NOICC, carry out the functions assigned to it.

NOTICES

ERNEST G. GREEN,
Assistant Secretary for Employment and Training, Department of Labor.

ERNEST L. BOYER,
Commissioner, Office of Education, Department of Health, Education, and Welfare.

JULIUS SHISKIN,
Commissioner, Bureau of Labor Statistics, Department of Labor.

MARIE ELDRIDGE,
Administrator, National Center for Education Statistics, Department of Health, Education, and Welfare.

GRANTS FOR
COMMUNITY AND
MIGRANT HEALTH
SERVICES

Acquisition and Modernization
of Existing Buildings

[4110-84]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 51c—GRANTS FOR COMMUNITY HEALTH SERVICES

PART 56—GRANTS FOR MIGRANT HEALTH SERVICES

Acquisition and Modernization of Existing Buildings

AGENCY: Public Health Service, HEW.

ACTION: Final rule.

SUMMARY: On December 30, 1976, a new Subpart E of 42 CFR Part 51c, entitled "Acquisition and Modernization of Existing Buildings," was adopted and published in the FEDERAL REGISTER (41 FR 56999). The new Subpart E implements part of section 330 of the Public Health Service Act (42 U.S.C. 254c). Although Subpart E was effective upon publication, the Secretary invited public comment and stated that Subpart E of the regulations would be revised as warranted by the comments received. A summary of the substantive comments and actions taken with respect to the regulations appears in the Supplementary Information section below. A revised Part 56 of Title 42, Code of Federal Regulations, entitled "Grants for Migrant Health Services" and consisting of Subparts A through G, was published as interim regulations in the FEDERAL REGISTER on September 13, 1976 (41 FR 38887). The preamble to the interim regulations announced that Subpart H, which would contain specific requirements applicable to all grants under section 319 of the Public Health Service Act (42 U.S.C. 247d) for acquiring and modernizing existing buildings, would be published at a later date. Subpart H is published here following the revision of Subpart E. Publication of the two subparts is necessary to complete the implementation of sections 319 and 330.

EFFECTIVE DATE: February 7, 1978.
FOR FURTHER INFORMATION CONTACT:

For Subpart E: Youn Bock Rhee, Associate Bureau Director for Community Health Centers, Bureau of Community Health Services, Health Services Administration, Room 7A-55, Parklawn Building, Rockville, Md. 20857, 301-443-2260.

For Subpart H: Billy M. Sandlin, Associate Bureau Director for Migrant Health, Bureau of Community Health Services, Health Services Administration, Room 7A-55, Parklawn Building, Rockville, Md. 20857, 301-443-1153.

RULES AND REGULATIONS

SUPPLEMENTARY INFORMATION:

Comments received on Subpart E of 42 CFR Part 51c and the changes made to the regulations are as follows:

1. It was recommended that the regulations be revised to permit grantees to substitute new construction in lieu of acquiring and modernizing existing buildings. This recommendation was rejected because the Act specifically limits grants to the acquisition and modernization of existing buildings.

2. The definition of "existing building" in § 51c.502(b) has been revised to make clear, in response to inquiries, that purchase of a building without land (such as where a building is moved to the project site) may be supported under this subpart.

3. It was suggested that minimal requirements or exceptions for small projects—for example, those under \$10,000—should be established. This suggestion was not accepted because it is intended that most small projects be handled under the Department's usual procedures for alterations and renovations, rather than under these regulations for acquisition and modernization. Accordingly, § 51c.501 has been revised to limit explicitly the applicability of the regulations to project costs which could not otherwise be supported under the usual alteration and renovation procedures.

4. One commenter recommended that the period of not less than 20 years required by § 51c.503(7)(i) to assure undisturbed use and possession of the site for the purpose of the operation of the project be reduced to the duration of the grant period. This recommendation was not accepted because an interest sufficient to assure undisturbed use and possession for a 20-year period is believed to be reasonably close to a "fee simple" interest and thus more within the intent of the term "acquisition."

5. Minor technical corrections were made to 42 CFR § 51c.503 and § 51c.504.

Since Subpart H is identical in substance to Subpart E and issuance of the regulations at this time will enable currently appropriated grant funds to be used for needed acquisition and modernization, the Secretary has determined that public participation prior to the issuance of Subpart H and a delay in its effective date should be waived as unnecessary and contrary to the public interest, and, accordingly, that good cause exists for making Subpart H effective immediately upon publication.

NOTE.—The Department of Health, Education, and Welfare has determined that these documents do not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: November 23, 1977.

JULIUS B. RICHMOND,
Assistant Secretary
for Health.

Approved: January 31, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary.

1. Section 51c.501 of 42 CFR is revised to read as follows:

§ 51c.501 Applicability.

The regulations of this subpart, in addition to the regulations of the other applicable subparts of this part, are applicable to grants under section 330 of the Act for project costs which include the cost of acquisition and/or modernization of existing buildings (including the cost of amortizing the principal of, and paying the interest on, loans), except that, these regulations are not applicable to grants for project costs which include the costs of modernization of existing buildings if those costs can otherwise be supported under subparts B, C, or D of this Part.

2. Section 51c.502 of 42 CFR is revised to read as follows:

§ 51c.502 Definitions.

(a) "Equipment" means nonexpendable personal property as defined in 45 CFR 74.132.

(b) "Existing building" means a completed or substantially completed structure, and may include the realty on which it is or is to be located.

(c) "Modernization" means the alteration, repair, remodeling and/or renovation of a building (including the initial equipment thereof and improvements to the building's site) which, when completed, will render the building suitable for use by the project for which the grant is made.

§ 51c.503 [Amended]

3. 42 CFR 51c.503(a)(7)(vii) is amended by inserting the word "Disaster" between the words "Flood" and "Protection."

§ 51c.504 [Amended]

4. 42 CFR § 51c.504(c)(3)(ii) is amended by inserting the word "applicable" between the words "the" and "requirements."

5. The "Authority" provision of 42 CFR Part 51c is revised to read as follows:

AUTHORITY: Sec. 330, Public Health Service Act, 89 Stat. 342, (42 U.S.C. 254c); Sec. 215, Public Health Service Act, 58 Stat. 690, (42 U.S.C. 216).

6. A new subpart H of 42 CFR Part 56 is adopted, to read as follows:

Subpart H—Acquisition and Modernization of Existing Buildings

Sec.
56.801 Applicability of 42 CFR Part 51c, Subpart E.

RULES AND REGULATIONS

AUTHORITY: Sec. 319, Public Health Service Act, 89 Stat. 334, (42 U.S.C. 247d); Sec. 215, Public Health Service Act, 58 Stat. 690, (42 U.S.C. 216).

Subpart H—Acquisition and Modernization of Existing Buildings

§ 56.801 Applicability of 42 CFR Part 51c, Subpart E.

The provisions of 42 CFR Part 51c, Subpart E, establishing requirements for the acquisition and modernization of existing buildings, shall apply to all grants under section 319 of the Act for

project costs which include the cost of acquisition and/or modernization of existing buildings (including the cost of amortizing the principal of, and paying the interest on, loans); except that, for purposes of this Subpart, references within Subpart E to Part 51c, or to subparts of Part 51c, shall be deemed to be references to Part 56, or to the appropriate subparts of Part 56, and references to section 330 of the Act shall be deemed to be references to section 319 of the Act.

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS: FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Amendment of Administrative Rules and Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule would revise some of the district boundaries for independent producer membership positions of the Prune Administrative Committee. The marketing order for California dried prunes requires that these districts be as equal as practicable in terms of the number of independent producers and their collective prune production.

EFFECTIVE DATE: February 10, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: Notice of the proposed revision in district boundaries was published in the January 16, 1978, issue of the FEDERAL REGISTER (43 FR 2182). No comments were received.

This rule revises paragraph (a) of § 993.128 of Subpart—Administrative Rules and Regulations (7 CFR 993.101-993.174). The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

As recommended by the Prune Administrative Committee, the rule revises some of the boundaries of the seven independent producer election districts in § 993.128(a). The districts are for the purpose of obtaining nominations for producer members to represent independent producers on the

Committee. The rule shifts: Butte and Yuba Counties from their current districts (Districts 2 and 6, respectively) to District 5; Monterey, San Benito, and part of Santa Clara Counties from District 5 to District 4; and Stanislaus County from District 4 to District 6. By making these realignments, the seven districts will have, insofar as practicable, equal representation by number of independent producers and production of dried prunes by such producers, as required by § 993.28.

After consideration of all relevant matter presented, including the proposals in the notice, the recommendation of the Committee, and other available information, it is found that the following regulation should be approved.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The districts, as defined by their boundaries, serve as the basis for selecting independent grower members of the Prune Administrative Committee and current membership positions end on May 31, 1978; (2) the Committee will begin holding nominations for new members soon in order to submit its recommendations to the Secretary by April 16, 1978; and (3) no useful purpose would be served by delaying the effective time of this action.

The regulation is as follows:

§ 993.128 Nominations for membership.

(a) *Districts.* In accordance with the provisions of § 993.28, the districts referred to therein are described as follows:

District No. 1. That portion of Sutter County south of a line extending along Nuestrro Road easterly to the Yuba County line and westerly to the Colusa County line.

District No. 2. That portion of Sutter County not included in District No. 1.

District No. 3. The counties of Del Norte, Humboldt, Lake, Marin, Mendocino, Siskiyou, Sonoma, and Trinity.

District No. 4. The counties of Alameda, Contra Costa, Monterey, Napa, San Benito, San Francisco, San Mateo, Santa Clara, Santa Cruz, and Solano.

District No. 5. The counties of Butte and Yuba.

District No. 6. The counties of Amador, Fresno, Merced, Placer, Sac-

ramento, San Joaquin, San Luis Obispo, Stanislaus, Tulare, and all the counties in the area not included in Districts No. 1 through 5, inclusive, and in District No. 7.

District No. 7. The counties of Colusa, Glenn, Shasta, Tehama, and Yolo.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: February 3, 1978, to become effective February 10, 1978.

CHARLES R. BRADER,
Deputy Director,

Fruit and Vegetable Division.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

Reductions of Certain Service Fees

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: This final rule amends the regulations of the Immigration and Naturalization Service to reduce the amount of certain fees in the Service's fee schedule. The amendments are necessary to comply with a stipulated order issued by the U.S. District Court for the District of Columbia.

EFFECTIVE DATE: February 8, 1978.

FOR FURTHER INFORMATION CONTACT:

James G. Hoofnagle, Jr., Instructions Officer, Immigration and Naturalization Service, 425 I Street NW., Washington, D.C. 20536, telephone 202-376-8373.

SUPPLEMENTARY INFORMATION:

A. BACKGROUND

Corporate plaintiffs, the Urban Law Institute of Antioch College, Ayuda, Inc., and other individual plaintiffs brought an action for declaratory judgment against the Commissioner of Immigration and Naturalization alleging that certain fee increases pub-

lished by the Service in the FEDERAL REGISTER on January 13, 1976, at 41 FR 1887-1888 to become effective February 12, 1976, were not authorized by the "user" statute (31 U.S.C. 483a) on which they were based; were arbitrary, capricious, unreasonable, and excessive in comparison with other Service fees and with the services performed; and that their imposition would inhibit the efforts of the persons dealing with the Immigration and Naturalization Service from obtaining fair administrative consideration and from seeking judicial review of Service actions, thus violating the due process clause of the Fifth Amendment. It was further alleged that enforcement of the Service order increasing the fees would cause immediate and irreparable injury to the individual plaintiffs and to the clients who would be represented by the corporate plaintiffs, and to other large numbers of persons having to deal with the Service throughout the United States, by requiring the payment of illegal and exorbitant fees.

In a stipulated order, the Court dismissed the action with prejudice and approved a stipulation entered into by the parties in which the Service agreed to promulgate an order in the FEDERAL REGISTER reducing certain fees. The stipulation provided that nothing contained in it would preclude the Service from raising any of its current fees, establishing new fees, or reinstating discontinued fees pursuant to 31 U.S.C. 483a or any other applicable statute, at any time after one year from the repromulgation of the revised fee schedule.

B. THE FEES INVOLVED AND THE COURT ORDER

The fees described below are the subject of the action.

(a) \$50 for filing appeal from any decision under the immigration laws in any type of proceeding over which the Board of Immigration Appeals does not have appellate jurisdiction. Prior to the increase, this fee was \$25. The Service agreed to reduce this fee to \$35.

(b) \$65 for filing application for waiver of the foreign-residence requirement under section 212(e) of the Act. Prior to the increase this fee was \$25. The Service agreed to reduce this fee to \$50.

(c) \$50 for filing appeal from any decision under the immigration laws in any type of proceeding over which the Board of Immigration Appeals has appellate jurisdiction in accordance with § 3.1(b) of this chapter. Prior to the increase, this fee was \$25. The parties agreed that this fee should remain at \$50. They further agreed that the fee for an appeal from a bond decision of an Immigration Judge to the Board should be abolished.

(d) \$40 for filing application for stay of deportation under Part 243 of this chapter. Prior to the increase this fee was \$25. The Service agreed to reduce this fee to \$25.

(e) Finally, the Service agreed to reduce the fee for motions to reopen or reconsider any decision under the immigration laws (before the Service or before the Board) from \$50 to \$25.

Accordingly, the fee schedule in 8 CFR 103.7(b)(1) will be revised to effect the reductions in the fees stipulated by the parties and approved by the Court. A corollary amendment will be made in 8 CFR 103.3(a) to reduce the fee appearing therein.

C. REVISED FEES PRESCRIBED

1. In § 103.3(a) the third sentence is amended by changing \$50 to \$35. As amended the third sentence reads as follows:

§ 103.3 Denials, appeals, and precedent decisions.

(a) *Denials and appeals.* . . . When the applicant is entitled to appeal to another Service officer, the notice shall advise him that he may appeal from the decision, and that such appeal may be taken within 15 days after the service of the notification of decision, accompanied by a supporting brief if desired and a fee of \$35, by filing Notice of Appeal, Form I-290B, which shall be furnished with the written notice. . . .

2. § 103.7(b)(1) is revised by amending the description and reducing the amounts of four existing fees and by adding a new separate \$25 fee for the filing of a motion to reopen or reconsider any decision under the immigration laws in any type of proceeding. These fee schedule revisions read as follows:

§ 103.7 Fees.

(b) *Amounts of fees.* (1) The following fees and charges are prescribed:

For filing appeal from any decision under the immigration laws in any type of proceeding over which the Board of Immigration Appeals does not have appellate jurisdiction. (The fee of \$35 shall be charged whenever an appeal is filed by or on behalf of two or more aliens and all such aliens are covered by one decision), \$35.

For filing application for waiver of the foreign-residence requirement under section 212(e) of the Act, \$50.

For filing appeal from any decision under the immigration laws in any type of proceeding over which the Board of Immigra-

tion Appeals has appellate jurisdiction in accordance with § 3.1(b) of this chapter, except that there shall be no fee for an appeal to the Board of Immigration Appeals from a bond decision of an Immigration Judge. (The fee of \$50 shall be charged whenever an appeal is filed by or on behalf of two or more aliens and all such aliens are covered by one decision), \$50.

For filing a motion to reopen or reconsider any decision under the immigration laws in any type of proceeding. When the motion to reopen or reconsider is made concurrently with any application under the immigration laws, such application will be considered an integral part of the motion and only the fee for filing the motion or the fee for filing the application, whichever is greater, is payable. (The fee of \$25 shall be charged whenever a motion is filed by or on behalf of two or more aliens and all such aliens are covered by one decision), \$25.

For filing application for stay of deportation under Part 243 of this chapter, \$25.

(Sec. 103, 8 U.S.C. 1103.)

These amendments are published in accordance with section 552 of Title 5 of the United States Code (80 Stat. 383), as amended by Pub. L. 93-502 (88 Stat. 1561), and the authority contained in section 103 of the Immigration and Nationality Act (8 U.S.C. 1103), 28 CFR 0.105(b) and 8 CFR 2.1. Compliance with the provisions of section 553 of Title 5 of the United States Code as to notice of proposed rulemaking and delayed effective date is unnecessary in this instance because the amendments made in this order reduce the amounts of certain Service fees in compliance with an order of the United States District Court for the District of Columbia.

Effective date: The amendments made in this order become effective on February 8, 1978.

Dated: February 2, 1978.

LEONEL J. CASTILLO,
Commissioner of
Immigration and Naturalization.
(FR Doc. 78-3373 Filed 2-7-78; 8:45 am)

Title 10—Energy
CHAPTER I—NUCLEAR REGULATORY COMMISSION
PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

Caution Signs, Labels, Signals, and Controls;
Notice of Approval by Comptroller General

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Final rule. Approval of reporting and record keeping requirements by Comptroller General.

SUMMARY: On December 27, 1977, the Nuclear Regulatory Commission

published in the FEDERAL REGISTER a notice of rulemaking, effective March 14, 1978, amending its Standards for Protection Against Radiation.

The notice included a note that: (1) The Nuclear Regulatory Commission has submitted the rule to the Comptroller General for such review as may be appropriate under the Federal Reports Act, as amended and (2) the date on which the reporting and record keeping requirements of the rule become effective, unless advised to the contrary, accordingly reflects inclusion of the 45-day period which that statute allows for such review. The reporting and recordkeeping requirements set out in the rule have been approved by the U.S. General Accounting Office under No. B-180225 (R0084).

EFFECTIVE DATE: March 14, 1978. The reporting and record keeping requirements set out in § 20.203(c) of the rule published in the FEDERAL REGISTER on December 27, 1977 (42 FR 64619), have been approved by the U.S. General Accounting Office under No. B-180225 (R0084) and the effective date of the rule is March 14, 1978.

FOR FURTHER INFORMATION CONTACT:

Gerald L. Hutton, Rules and Procedures Branch, Division of Rules and Records, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, tel. 301-492-7211.

Dated at Bethesda, Md., this 1st day of February 1978.

For the Nuclear Regulatory Commission.

LEE V. GOSSICK,
Executive Director
for Operations.

Title 12—Banks and Banking
CHAPTER II—FEDERAL RESERVE SYSTEM
SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM
(Reg. Z; FC-0143 through FC-0145)
PART 226—TRUTH IN LENDING
Official Staff Interpretations

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Official Staff Interpretation(s).

SUMMARY: The Board is publishing the following official staff interpretations of Regulation Z, issued by a duly authorized official of the Division of Consumer Affairs.

EFFECTIVE DATE: February 8, 1978.

FOR FURTHER INFORMATION CONTACT:

Anne Geary, Chief Staff Attorney, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3946.

SUPPLEMENTARY INFORMATION: (1) Identifying details have been deleted to the extent required to prevent a clearly unwarranted invasion of personal privacy. The Board maintains and makes available for public inspection and copying a current index providing identifying information for the public subject to certain limitations stated in 12 CFR 261.6.

(2) Official staff interpretations may be reconsidered upon request of interested parties and in accordance with 12 CFR 226.1(d)(2). Every request for reconsideration should clearly identify the number of the official staff interpretation in question, and should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

(3) 15 U.S.C. 1640(f).

12 CFR Part 226, FC-0143, § 226.8(b). Where customer is under no obligation to refinance balloon payment at end of term, and creditor may not increase APR during term of loan, § 226.8(b)(8) is inapplicable.

JANUARY 17, 1978.

This is in response to your letter of . . . , in which you ask whether the provisions of § 226.8(b)(8) of Regulation Z, which requires certain disclosures in connection with credit transactions in which the annual percentage rate is prospectively subject to increase, apply in the fact situation discussed below.

To begin our discussion, I would point out that staff, as a general matter, believes that § 226.8(b)(8) applies only when the rate is subject to increase during the term of the loan to which the customer is committed.

In the situation you pose, a bank makes a consumer loan to a customer for the purchase of a single family dwelling and takes as a security interest a first lien on the dwelling. The loan is repayable in fifty-nine equal monthly installments which are based upon a twenty year amortization schedule. In the sixtieth month, one final "balloon payment" (see § 226.8(b)(3) of Regulation Z) of all unpaid principal and interest is due. At no time during the sixty-month term of the loan may the bank increase, decrease or otherwise vary the annual percentage rate. Neither the bank nor the customer is under any commitment or obligation to refinance the balloon payment at the end of the sixty-month term of the loan.

In the foregoing circumstances, the staff is of the opinion that § 226.8(b)(8) is inapplicable. Inasmuch as the customer is not obligated to refinance the loan at the end of sixty months and can terminate all obligation to the bank by making the balloon payment when due, and since the annual percentage rate cannot be increased during the term of the loan, the loan is not a credit transaction in which the annual percentage rate is prospectively subject to increase, and the bank is not required to make the disclosures specified in § 226.8(b)(8) in connection with the loan. (Our Public Information Letter 1200 (June 27, 1977) bears upon the issue you raise, and a copy of that letter is enclosed for your reference.)

This is an official staff interpretation of Regulation Z, issued in accordance with

§ 226.1(d)(3) of the regulation and limited in its application to the facts and issues discussed above. I trust that this is responsive to your inquiry. If you have further questions, please contact the Federal Reserve Bank of St. Louis or this office.

Sincerely,

NATHANIEL E. BUTLER,
Associate Director.

12 CFR Part 226, FC-0144, § 226.6(g). Purchase and financing by creditor of required property insurance upon customer's failure to do so is subsequent occurrence. § 226.8(j). Financing of required property insurance subsequent to consummation at customer's request is not a refinancing and requires no new disclosures.

JANUARY 18, 1978.

This is in response to your letter of . . . , which requested an official staff interpretation of Regulation Z. You asked several questions concerning a program that your company (the "creditor") may undertake in conjunction with an insurance company (the "insurer") by which the insurer would offer physical damage insurance to your company's credit customers.

Under this program the insurer, either on its own or with the help of the creditor, will contact customers of the creditor whose required physical damage insurance is about to expire and solicit them to purchase the insurance offered by the insurer. The creditor requires that the customer maintain physical damage insurance with respect to the goods used as security for the extension of credit. Upon expiration of the initial term of the insurance, the customer has the obligation to either renew the insurance or otherwise insure the goods. If the customer elects to purchase the required insurance from the soliciting insurer, he or she may do so either by paying cash or by requesting the creditor to finance the purchase of the insurance by increasing the existing obligation.

Your first question is whether the purchase of the insurance by the customer from the soliciting insurer where the customer requests the creditor to finance the cost of the premiums constitutes a refinancing under § 226.8(j) of Regulation Z. It is the staff's opinion that the financing of the insurance premium at the request of the customer is not a refinancing of the obligation subject to the Regulation. No disclosures would be required of the creditor. Section 226.8(j) of the regulation provides in part that "any increase in an existing obligation to reimburse the creditor for undertaking the customer's obligation in perfecting, protecting or preserving the security shall not be considered a new transaction subject to this Part." In this situation the creditor is undertaking the customer's obligation, at his or her request, to protect or preserve the security by continuing the insurance coverage. Therefore, it is unnecessary for the creditor to make disclosures regarding the transaction.

Your second question is whether your client must make disclosures when the customer fails to purchase the required physical damage insurance and the creditor purchases the insurance and adds the amount of the premium to the existing obligation. It is the staff's opinion that purchase by the creditor of the required insurance upon failure of the customer to do so constitutes a subsequent occurrence under § 226.6(g) of the regulation, and no new disclosures are required. (See footnote 6 to § 226.6(g).)

RULES AND REGULATIONS

Your third question is whether or not the promotional material sent to customers which solicits the purchase of the physical damage insurance constitutes an advertisement that must comply with § 226.10(d). It is the staff's opinion, as stated in Public Information Letters 227 and 861, that no disclosures would be required in solicitation material which advertises a credit transaction for which there are no disclosure requirements.

Your other questions concerning specific disclosure requirements are irrelevant, as the transaction is not subject to the regulation.

This is an official staff interpretation of Regulation Z issued in accordance with § 226.1(d)(3) of the regulation, and limited in its application to the facts and issues presented herein. I trust this is responsive to your inquiry.

Sincerely,

NATHANIEL E. BUTLER,
Associate Director.

12 CFR Part 226, FC-0145, § 226.8(g). Loan by mail program in which the only contact between the creditor and the potential customer is by mail or national advertising is "without personal solicitation" within the meaning of § 226.8(g).

JANUARY 27, 1978.

This is in response to your letter of . . . in which you requested official staff interpretations of §§ 226.2(r) and 226.8(g) of Regulation Z. This letter will respond to your inquiry regarding § 226.8(g). Your remaining question will be considered in a separate letter.

Your question involves a client which operates a loan by mail program. The only contact between the lender and the customer is through national advertising or by mail. You request an official staff interpretation on the issue of whether your client's program is accomplished "without personal solicitation" so as to permit delayed delivery of disclosures pursuant to § 226.8(g). You state that the loan program complies in all other respects with that section.

In the staff's view, "without personal solicitation" means without direct, immediate influence by the creditor, such as a telephone conversation or a face-to-face interview with the customer. With this in mind, staff believes that magazine advertisements and contact by mail do not constitute "personal solicitation," since both methods allow applicants to review the credit information at their leisure without pressure by the creditor. In staff's view, the loan program complies with the provisions of § 226.8(g) of Regulation Z in that it is accomplished without personal solicitation. Thus, the delay in delivery of disclosures is permissible pursuant to that section. It might be noted that the Board itself originally suggested the legislative provision on which § 226.8(g) is based, and the plan you describe appears to be one of the types of programs which the Board considered in recommending this provision.

This is an official staff interpretation of Regulation Z, issued pursuant to § 226.1(d)(3) of the regulation. Its application is limited solely to the facts and issues

presented. We hope that it will be of assistance to you.

Sincerely,

NATHANIEL E. BUTLER,
Associate Director.

Board of Governors of the Federal Reserve System, February 2, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

[6720-01]

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—REGULATIONS FOR THE FEDERAL HOME LOAN BANK SYSTEM

[No. 78-66]

PART 523—MEMBERS OF BANKS

Loans in Flood-Hazardous Areas

FEBRUARY 2, 1978.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final amendment.

SUMMARY: This amendment implements in part the recently enacted Housing and Community Development Act of 1977, by deleting provisions prohibiting certain loan transactions in communities not participating in the national flood insurance program and requiring lenders to give written notice whether Federal disaster relief assistance will be available if property in a designated flood-hazardous area is damaged by a flood. This opportunity has been taken to also simplify and remove obsolete language from the affected regulations.

EFFECTIVE DATE: February 8, 1978.

FOR FURTHER INFORMATION CONTACT:

Harry W. Quillian, Associate General Counsel, Federal Home Loan Bank Board, 202-376-3556, or the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street NW., Washington, D.C. 20552.

SUPPLEMENTARY INFORMATION: Section 703(a) of the Housing and Community Development Act of 1977 changes the national flood insurance program by amending § 202(b) of the Flood Disaster Protection Act of 1973.

Prior to its amendment, § 202(b) required the Board to issue regulations which, with certain exceptions, prohibited member institutions from making, increasing, extending, or renewing any loan secured by improved real estate or a mobile home located or to be located in a designated flood hazard area unless the area was participating in the National Flood Insurance Program. Section 523.29(c) of the regulations was issued to impose the prohibition mandated by the statute. This amendment deletes the regulatory prohibition, because the statute

no longer requires it. However, loans in communities participating in the National Flood Insurance Program are still required to have the flood insurance available under that program.

Section 202(b) of the Flood Disaster Protection Act of 1973, as amended by section 703(a) of the Housing and Community Development Act of 1977, requires the Board to issue regulations to require member institutions, as a condition of making, increasing, extending or renewing any loan secured by improved real estate or a mobile home located or to be located in an identified flood hazard area, to notify the property's purchaser or lessee whether, in the event of flood damage to the property, Federal disaster relief assistance will be available. This amendment implements that statutory requirement by revising § 523.29(h) of the regulations. This provision is also redesignated as § 523.29 (e) to reflect simplifying changes to § 523.29 made by this amendment.

This amendment simplifies § 523.29 by deleting paragraphs (f) and (g) thereof and including their substance in paragraph (a) and otherwise shortening and improving the language of the regulation. These simplifying changes are not intended to change the regulation's meaning or effect.

The Board finds that (1) notice and public procedure are unnecessary under 5 U.S.C. § 553(b) and 12 CFR 508.11, because this amendment is necessitated by statute, and (2) publication of said amendment for the 30-day period specified in 5 U.S.C. § 553(d) and 12 CFR 508.14 prior to effective date is unnecessary for the same reason.

Accordingly, 12 CFR Part 523.29 is revised to read as set forth below, effective February 8, 1978.

§ 523.29 Flood disaster protection.

(a) *General.* This section implements, in part, sections 4012a (b) and (c), 4104a, and 4106(b) of Title 42 of the United States Code. This section does not apply to a member whose accounts are insured by the Federal Deposit Insurance Corporation or to a service corporation or a holding company parent of a member. As used in this section, the term "loan" includes an installment sale contract.

(b) *Flood insurance.*—(1) *Requirement.* A member shall not make (including purchase, except as provided in paragraph (d) of this section), increase, extend, or renew any loan (other than a loan closed after March 1, 1974, as to which there was outstanding at the close of March 1, 1974, a commitment to make such loan) secured by improved real estate or a mobile home located or to be located in an area identified by the Secretary of Housing and Urban Development ("Secretary") as having special flood

hazards and in which flood insurance has been made available under the National Flood Insurance Act of 1968, as amended ("Act"), unless the property securing such loan is covered for the term of the loan by flood insurance at least equal to the outstanding principal balance of the loan or the maximum coverage available with respect to the particular type of property under the Act, whichever is less.

(2) *Exception.* However, flood insurance is not required on any State-owned property covered under an adequate State policy of self-insurance satisfactory to the Secretary. The Secretary is required by statute to publish and periodically revise a list of States which have such adequate self-insurance.

(c) *Records of compliance.* Each member shall maintain in connection with all loans secured by improved real estate or a mobile home sufficient records to indicate the method used by it to determine whether such loans require flood insurance under this section.

(d) *Purchase of loans.* This section does not prohibit purchase after March 1, 1974, of a loan if:

(1) As to a loan closed before that date, the loan has not thereafter been increased, extended, or renewed; or

(2) As to a loan closed on or after that date, the loan was closed under a loan commitment outstanding on that date and the loan has not thereafter been increased, extended or renewed.

(e) *Notice of special flood hazard area and availability of Federal disaster relief assistance.* A member shall, as a condition of making (including purchasing), increasing, extending, or renewing any loan secured by improved real estate or a mobile home located or to be located in an area identified by the Secretary as having special flood hazards, mail or deliver as soon as feasible, but not less than 10 days before closing of the transaction (or not later than the member's commitment, if any, if the commitment and closing are less than 10 days apart) a written notice to the borrower stating that the property securing the loan is or will be located in an area so identified; or in lieu of such notification, a member may obtain satisfactory written assurances that a seller or lessor has notified the borrower, prior to execution of any agreement for sale or lease, that the property securing the loan is or will be located in an area so identified. A member shall similarly notify the borrower whether, in the event of damage to the property caused by flooding in a Federally-declared disaster, Federal disaster relief assistance will be available for the property. A member shall require the borrower, prior to closing, to provide the member with a written acknowl-

edgment that the property securing the loan is or will be located in an area so identified and the borrower has received the above-required notice regarding Federal disaster relief assistance.

(Sec. 17, 47 Stat. 736, as amended (12 U.S.C. § 1437); sec. 202(b) of the Flood Disaster Protection Act of 1973, 87 Stat. 982, as amended (42 U.S.C. 4106(b)); Reorg. Plan No. 3 of 1947, 12 CFR 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

RONALD A. SNIDER,
Assistant Secretary.

CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

PART 701—ORGANIZATION AND OPERATIONS OF FEDERAL CREDIT UNIONS

Share Draft Programs

AGENCY: National Credit Union Administration.

ACTION: Final rule—Delay of effective date.

SUMMARY: This regulation prescribes the requirements for the establishment and implementation of permanent share draft programs by Federal credit unions. A share draft program allows Federal credit union members to write drafts on their share accounts to obtain cash or to pay for goods or services. It eliminates the delay and inconvenience in making withdrawals by mail or in person.

EFFECTIVE DATE: March 6, 1978.

ADDRESS: National Credit Union Administration, 2025 M Street NW., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT:

J. Leonard Skiles, Deputy General Counsel, at the above address, telephone 202-632-4870.

SUPPLEMENTARY INFORMATION: On December 8, 1977, this Administration published a final rule (42 FR 61977) which prescribed the requirements for the establishment and implementation of share draft programs for Federal credit unions (12 CFR 701.34).

On December 9, 1977, the American Bankers Association and Tioga State Bank filed suit to permanently enjoin the implementation of the rule by this Administration. Simultaneously, the same parties filed a motion for a temporary injunction to prevent additional approvals of share draft programs until the issues involved were finally litigated.

It being an objective of this Administration to have the legality of the

share draft program judicially determined as expeditiously as possible, it was considered that, even under the best of circumstances, a hearing on the motion for preliminary injunction would further delay a final resolution of the legal issues involved. This Administration, therefore, offered to delay the effective date of the rule until March 6, 1978, or if a hearing is held in the case prior to that date, until such time as an opinion was issued. After consultation with all parties present to ascertain any objections, the court agreed to the proposal and it was subsequently so ordered.

Accordingly, the effective date of the share draft rule (12 CFR 701.34) is amended to read March 6, 1978.

(Sec. 120, 73 Stat. 635 (12 U.S.C. 1766) and sec. 209, 84 Stat. 1104 (12 U.S.C. 1789).)

LAWRENCE CONNELL,
Administrator.

FEBRUARY 3, 1978.

[7535-01]

PART 720—DESCRIPTION OF OFFICE, DISCLOSURE OF OFFICIAL RECORDS—AVAILABILITY OF INFORMATION, PROMULGATION OF REGULATIONS

Simplification of Procedures

AGENCY: National Credit Union Administration.

ACTION: Final rule.

SUMMARY: This rule amends the National Credit Union Administration's (NCUA) regulations implementing the Privacy Act of 1974. Experience with the present regulations has indicated that individuals not sophisticated with administrative agencies may find certain requirements needlessly complex and discouraging. Changes made include simplifying requirements for identification of recipients of written requests, decreasing copying costs, extending the suggested time frame for appeals to access denial (and clarifying the nonmandatory nature of this limit), and shortening the time for agency acknowledgement of requests.

DATE: These regulations are to be effective on March 1, 1978.

ADDRESS: National Credit Union Administration, 2025 M Street NW., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT:

Robert M. Fenner, Office of the General Counsel, National Credit Union Administration, 2025 M Street NW., Washington, D.C. 20456, telephone 202-632-4870.

SUPPLEMENTARY INFORMATION: On July 25, 1977, the Administration published a proposed rule (42 FR 37823) to amend the regulations implementing the Privacy Act of 1974. Public comment was invited to be received on or before August 5, 1977. No comments were received on the proposed rule, and after further review, the amendments are now published in final form without substantive change.

Accordingly, 12 CFR Part 720 is amended as set forth below:

§ 720.21 [Amended]

1. In § 720.21, by designating each paragraph as (a) through (g).

§ 720.22 [Amended]

2. Section 720.22(a) is revised as follows:

(i) The words "in person or in writing" are deleted; and

(ii) The following is inserted at the end of paragraph (a): "An individual who does not have access to the FEDERAL REGISTER and who is unable to determine the appropriate official to whom his request should be submitted may submit his request to the Assistant Administrator for Administration, National Credit Union Administration, 2025 M Street NW., Washington, D.C. 20456, in which case the request will then be referred to the appropriate Administration official(s) and the date of receipt of the request will be determined as the date of receipt by that official(s)."

§ 720.23 [Amended]

3. Section 720.23 is revised as follows:

(i) In paragraph (a) the word "minimum" is deleted, and after the word "request" the words "either in person or by mail" are added;

(ii) In paragraph (a)(1) the word "may" is deleted, and, in lieu thereof, the words "shall, if not personally known to the Administration official responding to the request," are added;

(iii) In paragraph (a)(2) the word "shall" is deleted, and, in lieu thereof, the word "may" is added. After the words "other document" a period and the following words are inserted: "If less than all of this requisite identifying information is provided, and unless that which is provided is considered sufficient to establish the requestor's identity, in view of the nature of the information requested, the Administration official responding to the request may require further identifying information prior to any notification or responsive disclosure;"

(iv) A new paragraph (c) is added as follows:

(c) Individuals may request notification of the existence of and access to

records about themselves and contained in a system of records by telephone. In such a case, the Administration official responding to the request shall require, for the purpose of comparison and verification of identity, at least two items of identifying information (such as date of birth, home address, social security number) which are already possessed by the Administration. If the requisite identifying information is not provided, or otherwise at the discretion of the responsible Administration official, the individual may be required to submit his request by mail or in person in accordance with paragraph (a), above;

(v) Paragraph (c) is redesignated as paragraph (d); and

(vi) Paragraph (d) is redesignated as paragraph (e). The word "and" after the words "in paragraph (a)," is deleted, and, in lieu thereof, a comma is inserted. After "(b)" the words "and (c)" are inserted.

§ 720.24 [Amended]

4. Section 720.24 is revised as follows:

(i) In paragraph (a), the words "within thirty days" are deleted the first time they appear therein, and, in lieu thereof, the words "preferably within 180 days" are inserted; and

(ii) In paragraph (b)(1) the number "20" is deleted, and, in lieu thereof, the number "10" is inserted.

§ 720.26 [Amended]

5. Section 720.26(a) is revised by adding the following to the end of paragraph (a): "An individual who does not have access to the Administration's 'Notices of Records Systems,' and to whom the appropriate address is otherwise unavailable may submit his request to the Assistant Administrator for Administration, National Credit Union Administration, 2025 M Street NW., Washington, D.C. 20456, in which case the request will then be referred to the appropriate Administration official and the date of receipt of the request will be determined as of the date of receipt by that official."

§ 720.27 [Amended]

6. Section 720.27 is revised as follows:

By adding a period following the words "by the individual", in paragraph (c). After that period, the words "It is requested that they be furnished" are added.

§ 720.34 [Amended]

7. Part 720.34 is revised as follows:

(i) In paragraph (a), the colon following the words "to pay" is deleted, and, in lieu thereof, the words "or the cost of collecting the fee:" are inserted;

(ii) In paragraph (a)(1) the figure "\$0.25" is deleted, and, in lieu thereof, the figure "\$0.10" is inserted; and

(iii) In paragraph (b) the words "Where it is anticipated" are deleted, and, in lieu thereof, the words "If it is determined" are added.

(Sec. 120, 73 Stat. 835 (12 U.S.C. 1766) and Sec. 209, 84 Stat. 1104 (12 U.S.C. 1789).)

LAWRENCE CONNELL,
Administrator.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket 9083-c]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Perpetual Federal Savings & Loan Association

AGENCY: Federal Trade Commission.

ACTION: Final order to cease and desist.

SUMMARY: This order, among other things, requires a Washington, D.C. savings and loan association to cease having as directors individuals who simultaneously serve, or may serve, as directors for the American Security & Trust Co., National Bank of Washington, Union First Bank of Washington, or any other competitive financial institution.

DATES: Complaint issued, May 13, 1976, Final order issued, Dec. 6, 1977.

FOR FURTHER INFORMATION CONTACT:

David J. Saylor, Assistant Director, Bureau of Competition, Federal Trade Commission, Sixth Street and Pennsylvania Avenue NW., Washington, D.C. 20580. 202-724-1441.

SUPPLEMENTARY INFORMATION: In the Matter of Perpetual Federal Savings & Loan Association, a corporation. The prohibited trade practices and/or corrective actions, as codified under 16 CFR 13, are as follows:

Subpart—Interlocking Directorates Unlawfully: § 13.1106 Interlocking directorates unlawfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.)

The Final Order to cease and desist, including further order requiring report of compliance therewith, is as follows:

¹ Copies of the Complaint, Initial Decision, Dissenting Opinion by Commissioner Collier, Opinion and Final Order filed with the original document.

FINAL ORDER

This matter having been heard by the Commission upon the appeal of respondent from the initial decision, and upon briefs and oral argument in support thereof and opposition thereto, and the Commission, for the reasons stated in the accompanying Opinion, having determined to sustain the initial decision with certain modifications:

It is ordered, That the initial decision of the administrative law judge, pages 1-49, be adopted as the Findings of Fact and Conclusions of Law of the Commission, except to the extent indicated in the accompanying Opinion.

Other Findings of Fact and Conclusions of Law of the Commission are contained in the accompanying Opinion.

It is further ordered, That the following Order to Cease and Desist be, and it hereby is, entered:

I

It is ordered, That the following definitions shall apply in this Order:

(a) "Director" includes voting members of boards of directors, non-voting members of boards of directors, advisory directors, and directors emeriti.

(b) "Financial services" means any financial service presently or hereafter offered by Perpetual including, but not limited to solicitation and maintenance of demand, savings or time deposits or accounts; residential loans; other mortgage loans; any other type of loans; retirement accounts; or direct deposit services.

(c) "Parent" of a corporation means any other corporation which owns or controls 50 percent or more of the voting stock of such corporation.

(d) "Residential loans" are loans secured by mortgages or other liens on non-farm property containing 1-4 dwelling units.

(e) "Savings" includes all savings accounts, savings deposits, passbook savings accounts, and savings deposit accounts offered by any business organization.

(f) "Sister" corporations are corporations sharing a common parent.

(g) "Subsidiary" of a corporation is any corporation of which the subject corporation is a parent.

(h) "Time deposits" are all deposits, including certificates of deposit, that are not demand deposits or savings.

II

It is further ordered, That for purposes of this Order, a corporation, including Perpetual Federal Savings and Loan Association ("Perpetual") and any corporation which shares a common director with Perpetual, shall be deemed to be engaged in the provision of a financial service, if any parent, subsidiary, or sister of such corporation is so engaged.

III

It is further ordered, That upon this order's becoming final respondent Perpetual, its successors and assigns, do forthwith cease and desist from having, and in the future shall not have any individual serve as a director who either:

(a) Is or would be at the same time a director of Perpetual and a director of American Security and Trust Co. ("American Security"), National Bank of Washington ("National Bank"), Union First National Bank of Washington ("Union First") or any other corporation, so long as such corporation is engaged in the provision of any financial service in competition with Perpetual;

(b) Fails to submit to Perpetual any statement required by Paragraph IV of this order.

IV

It is further ordered, That within thirty (30) days of the date of service of this order and prior to each election of directors or to the solicitation of proxies for such election, whichever is earlier, hereafter, Perpetual shall obtain a written statement from each member of its board of directors (except directors whose terms expire at the next election and who are not standing for re-election) and from each nominee for a directorship (who is not then a director) showing:

(a) The name and home mailing address of each director or nominee; and

(b) The name and principal office mailing address of, and a description of each product or service produced or sold by, each corporation in which each such person then serves as a director or has been nominated as a director.

The requirements of this Paragraph shall not apply to elections of directors occurring after five (5) years from the effective date of this order.

Nothing in this Paragraph shall be construed to relieve respondent of its obligation under Paragraph III(a) hereof.

V

It is further ordered, That within forty-five (45) days of the date of service of this order and annually for a period of ten (10) years thereafter, Perpetual shall file with the Commission a written report setting forth in detail the manner and form in which it has complied with this order. Copies of the statements obtained pursuant to Paragraph IV of this order shall be submitted to the Commission as part of the reports of compliance required by this Paragraph during the first five (5) years. Expiration of the obligations imposed by this Paragraph shall not excuse Perpetual's obligation to comply with Paragraph III of this order.

VI

It is further ordered, That the provisions of Paragraphs III through V hereof shall not apply where the interlocking corporation is Perpetual's (1) parent, (2) sister, or (3) subsidiary.

VII

It is further ordered, That Perpetual shall give the Commission at least thirty (30) days prior notice of any change in the corporation such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of a parent, sister or subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this order.

Commissioner Collier dissented and issued a dissenting Opinion.

CAROL M. THOMAS,
Secretary.

DISSENTING OPINION OF COMMISSIONER COLLIER

I concur in the majority's conclusion that these interlocking directorates must be measured by the standard of Section 5 of the FTC Act which prohibits, among other things, unfair methods of competition. I dissent, however, from the Commission's holding that a violation has been proved and I would remand the case for further hearings.

The majority holds that a director interlock between competing corporations constitutes a per se violation of section 5. This rule is consistent with the standard of liability for such arrangements that is embodied in section 8 of the Clayton Act. By its terms, however, section 8 does not reach the instant transaction.

It is now familiar doctrine that the potential reach of section 5 may exceed the limitations of the Sherman and Clayton Acts. E.g., *FTC v. Brown Shoe Co.*, 384 U.S. 316, 321-22 (1966); *Grand Union Co. v. FTC*, 300 F.2d 92 (2d Cir. 1962). "[L]egislative and judicial authorities alike convince us that the Federal Trade Commission does not arrogate excessive power to itself if, in measuring a practice against the elusive, but congressionally mandated standard of fairness, it, like a court of equity, considers public values beyond simply those enshrined in the letter or encompassed in the spirit of the antitrust laws." *FTC v. Sperry and Hutchinson Co.*, 405 U.S. 233, 244 (1972). In my view, however, the Commission's invocation of a per se rule of section 5 liability for director interlocks is an unwise exercise of this extremely broad grant of statutory authority.¹

¹ Although this statement immediately follows a discussion of the Wheeler-Lea Amendment, 52 Stat. 111, to the FTC Act, its context makes clear its application to "unfair methods of competition."

² Further sources of Commission liberty in assessing business conduct are found in the general and established doctrines of judicial deference on review of administrative agency decisions. For example, under 5 U.S.C. §§ 556 and 706, Commission findings of fact are affirmed if supported by substantial evidence on the whole record; and, under the doctrine of *Udall v. Tullman*, 380 U.S. 1, 16 (1965), the Commission's interpretations of its own statute are entitled to great weight.

This case involves the discovery of neither a new form of business conduct nor familiar conduct in the context of new circumstances. Compare *FTC v. Sperry and Hutchinson, supra*, at 240-44. Even more importantly, the majority's rule is not based on independent evidence or other facts indicating that director interlocks between companies that compete to any extent are likely to cause consumer injury. Rather, the majority's interpretation of section 5 relies heavily upon the policies underlying section 8 of the Clayton Act. One difficulty with that approach is that the Congress which enacted this provision apparently did not regard these policies as absolute, as it did not include within the coverage of section 8 the class of interlock that this case represents.

Another difficulty with the majority's decision to establish a rule of per se illegality is that this approach ignores the recent teaching of *Continental TV, Inc. v. GTE Sylvania, Inc.*, U.S. (June 23, 1977):

Per se rules thus require the Court to make broad generalizations about the social utility of particular commercial practices. The probability that anticompetitive consequences will result from a practice and the severity of those consequences must be balanced against its procompetitive consequences. Cases that do not fit the generalization may arise, but a per se rule reflects the judgment that such cases are not sufficiently common or important to justify the time and expense necessary to identify them. Once established, per se rules tend to provide guidance to the business community and to minimize the burdens on litigants and the judicial system of the more complex rule of reason trials, see *Northern Pac. R. Co. v. United States*, 356 U.S. 1, 5 (1958); *United States v. Topco Associates*, 405 U.S. 596, 609-10 (1972), but those advantages are not sufficient in themselves to justify the creation of per se rules. If it were otherwise, all of antitrust law would be reduced to per se rules, thus introducing an unintended and undesirable rigidity in the law. — U.S. at — n. 16.

We need to know more than we do about the actual impact of these arrangements on competition to decide whether they have such a "pernicious effect on competition and lack . . . any redeeming virtue" (*Northern Pac. R. Co. v. United States*, *supra*, p. 5) and therefore should be classified as per se violations of the Sherman Act. (Quoting from *White Motor Co. v. U.S.*, 372 U.S. 253 (1963).)

It seems to me that these admonitions directed at courts in Sherman Act cases are no less salient when applied to the Commission in cases arising under section 5. Certainly the Commission's authority to ignore this counsel is not a reason to do so.

It is, of course, arguable that the Commission enjoys a relative advantage over Federal courts in fashioning per se rules. Our more frequent exposure to antitrust issues and varying factual situations, as well as our reservoir of economic analysts, equip us well to consider the adoption of such rules. Our authority to conduct broad investigations into business practices¹ and to initiate rule-making proceedings² certainly complement

this potential for enlightened lawmaking in the public interest.³

With regard to the class of transactions covered by the per se rule of this case, however, we can claim none of these advantages. Our prior experience with director interlocks has been acquired in the per se context of section 8. We therefore know little of the effects of these arrangements and even less of their consequences when employed by financial institutions. At most, we have gained some experience in framing remedial orders.⁴

In the absence of a factual foundation for inferring public injury and in cases such as this one that are outside the terms of a statutory per se rule, I would turn for policy guidance to the controlling standard of section 7 of the Clayton Act. In my view, arrangements such as the one before us should be declared unlawful if their effects "may be substantially to lessen competition . . . in any line of commerce in any section of the country . . ." While the antitrust laws are not without anomalies,⁵ I would not employ our discretion to proliferate new ones. And it is at least anomalous to me that a showing of competitive injury should be required for illegality when two corporations become one but not when they share a director. That this result is commanded in situations covered by § 8 is no reason to extend the anomaly to situations that are not.

While it might be argued in response that the social cost of limiting the supply of eligible directors is less than that of prohibiting mergers that cannot be expected to cause discernible injury to competition, I know of no basis for such a conclusion.⁶ Moreover, there is every reason to suppose that the presence of an interlocked director poses less threat to competition than does a permanent and complete union of the firms.

Because anticompetitive effects were neither alleged or proved in this case, I would

¹ 15 U.S.C. § 45.

² See, e.g., our recent orders in *Addressograph-Multigraph*, Docket No. 9084; *Kane-Miller Corp.*, et al., Docket No. 9034; *International Business Machines Corp.*, Docket No. C-2864; and *Kraftco Corp.*, Docket No. 9035.

³ For recent examples, see the diverse treatment of price and non-price vertical restrictions in the majority's opinion in *GTE Sylvania, supra*, n. 17 and accompanying text, as well as Justice White's comment on this distinction, n. 10 and accompanying text. See also the Third Circuit's decision in *U.S. v. U.S. Gypsum Co.*, 550 F.2d 115, 120-127 (1977), cert. granted, October 3, 1977, No. 76-1560, allowing, as a defense to a horizontal price-fixing allegation, the argument that communications concerning prices were necessary to avoid violations of the Robinson-Patman Act. See generally R. Bork & W. Bowman, *The Goals of Antitrust: A Dialogue on Policy*, 65 Colum. L. Rev. 363 (1965). Compare R. Bork, *The Rule of Reason and the Per Se Concept: Price Fixing and Market Division*, 74 Yale L.J. 775, 830 (1965).

⁴ One might, however, infer the low costs of regulating directorships from both the relatively modest compensation of directors and from the readiness with which corporate respondents have usually been prepared to settle section 8 cases.

amend the complaint and remand the case for further proceedings.

Title 18—Conservation of Power and Water Resources

CHAPTER 1—FEDERAL ENERGY REGULATORY COMMISSION, DEPARTMENT OF ENERGY

[Docket No. RM75-25]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Amendments to Policy Regarding Certification of Pipeline Transportation Agreements

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: On June 24, 1977, the Federal Power Commission¹ issued a notice of its intent to review the policy set forth in Order No. 533 and 533-A (10 CFR 2.79) with respect to the transportation by jurisdictional pipelines of natural gas from the onshore domain and the offshore non-Federal domain to non-resale industrial and commercial customers for high priority uses. The purpose of the policy was to provide high priority users with a means to mitigate the effects of curtailments by purchasing supplemental gas supplies directly from producers.

At its inception, that policy was regarded as experimental in nature and as requiring a subsequent review based on experience with the program to determine if it should be continued. The June 24 notice therefore requested comments on whether the policy should be continued and on whether it should be modified in certain respects.

Upon review of the comments, staff reports and experience with the program, the Federal Energy Regulatory Commission has determined that the policy set forth in Order No. 533 and 533-A has been of assistance to high priority users, and that since the conditions which led to its adoption persist, it should be continued. The Commission has also adopted a number of minor modifications to the policy as explained in detail below.

EFFECTIVE DATE: February 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Frederick Cornelius, Office of Producer and Pipeline Regulation, Federal Energy Regulatory Commission, 825 North Capitol Street, Washington, D.C. 20426, 202-275-4496.

¹ On October 1, 1977, jurisdiction over this proceeding was transferred to the Federal Energy Regulatory Commission pursuant to the Department of Energy Organization Act, Pub. L. 95-91.

Jane Drennan, Office of General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, Washington, D.C. 20426, 202-275-4252.

I. PROCEDURAL BACKGROUND

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) the Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by Section 402(a) (1) or (2) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC", 10 CFR —: *Provided*, That this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

By notice issued June 24, 1977, and published at 42 FR 34521, July 6, 1977, the Federal Power Commission stated its intent to review the policy statement of Order Nos. 533 and 533-A. At its inception, the policy statement was viewed as experimental in nature, and recognizing that requests for renewal of previously issued authorizations under Order No. 533 would be filed this winter, the Commission concluded that it was appropriate to consider whether the policy should be continued, and if so, on what basis. Although the Commission set forth issues which it considered to be of primary importance, it also invited any interested person to raise any issue or suggestions believed to be helpful to its inquiry.

In Order No. 533, the Commission adopted as § 2.79 of its General Policy and Interpretations, 18 CFR Part 2, a statement of policy with respect to the transportation by jurisdictional pipelines of natural gas sold by certain

producers from the onshore domain and the offshore non-Federal domain to non-resale industrial and commercial customers for high priority uses. Due to the steady increase in curtailment levels on interstate pipelines, which resulted in production cutbacks, plant closing, employee layoffs, and shortages of various products and services, the Commission found it appropriate to issue the statement of policy with regard to specific pipeline transportation arrangements so that industrial customers requiring gas for high priority use could obtain an independent source of gas for their operations. The policy was viewed as a vehicle for obtaining required gas supplies for high priority use due to the anticipated severe curtailment on the interstate pipelines during the 1975-1976 winter.

The Commission projected that this policy would increase the amount of gas available to the interstate market, thereby resulting in utilization of idle pipeline capacity with attendant cost benefits to pipelines and their customers. There was also perceived a potential for increased producer revenues, which would then promote increased exploration and development of gas supplies. In adopting this policy statement, the Commission stated:

The policy is admittedly experimental and requires empirical evidence on its merits in specific applications and trial before we can determine whether the public convenience and necessity demand that the policy be made permanent. (Citations omitted.) If, upon review, it appears that the policy has not resulted in the attraction of incremental gas supplies to meet the demand of the interstate market and to avert an imminent crisis in the winter of 1975-1976, we will revise or abandon the experiment.²

In response to the notice of intent to review the program, an overwhelming majority of the parties filed comments in support of the policy's continuation asserting that the gas transported under Order No. 533 represented a crucial part of the energy supply for many industrial users requiring gaseous fuel for process, plant protection and other direct-fired applications in their manufacturing facilities. The parties supporting the program also maintained that it has reduced the adverse impact of the severe natural gas shortage on the United States' economy. Many comments detail the benefits to specific commercial and industrial establishments which otherwise could not have continued production or maintained their labor forces.

In its initial comments, the Commission Staff described the operation of the policy. As the 1975-1976 winter was considerably warmer than normal, only 28 arrangements were filed with the Commission during the heating season. As of May 1976, only 365,183 Mcf had been transported under the

² Order No. 533, Docket No. RM75-25, 54 FPC —, mimeo p. 28 (1975).

program, or an average seasonal daily volume of slightly more than 2,000 Mcf. From May 1, 1976, through December 31, 1976, 35 arrangements were filed; however, with the onset of the severe winter, a dramatic increase in applications occurred.

As of June 1977, a total of 106 separate arrangements have been filed pursuant to this program.³ For the period of August 1975 through March 1977, a total of 7,969,587 Mcf had been delivered of which 1,857,708 Mcf was delivered in the month of March 1977. The consumers served by eleven pipelines have purchased gas directly under this program,⁴ however direct and indirect customers of Columbia Gas Transmission Corp., Transcontinental Gas Pipe Line Corp. and Texas Gas Transmission Corp. have purchased more than 75 percent of the total supply transported under this program and more than 60 percent of the March volumes thereof.⁵ Of the applications filed from August 1975 to June 1977, 40 percent were filed during the emergency period.

II. POLICY CONSIDERATIONS

In its notice, the Commission set forth issues that interested parties should address. In light of the two years of actual experience with the experimental 533 program, the first question was whether the program should be continued. We have independently reviewed past transactions under Order No. 533 to ascertain the effects of this program.

A. CONTINUATION OF THE POLICY

Of the parties that filed comments, the majority were strongly in favor of continuing the 533 policy. The level of anticipated economic disruption that has been forestalled for the past two years through utilization of the 533 procedures is predicted to continue and therefore, the need for these supplemental supplies also will continue.

It is evident from our review that the program has become an important means of maintaining plant operations in facilities which use natural gas and are subject to curtailment. As of November 30, 1977, 113 certificates had been issued under this program,⁶ and

³ Each arrangement may involve a group of purchasers, multiple delivery points and/or a number of transporters so that the actual number of certificate applications filed with the Commission is greater.

⁴ This figure represents the primary pipelines who were directly responsible for the particular end-uses of supply.

⁵ See Appendix I, "Notice of Proposed Rulemaking to Review Policy Statement of Order Nos. 533 and 533-A," Docket No. RM75-25, — FPC — (June 24, 1977).

⁶ Twenty-two are currently being reviewed. One hundred and thirty five applications have been filed. See Appendix A which sets forth the number of applications certificated and the volumes delivered and consumed at plant facilities.

approximately 16 million Mcf of gas had been transported. The deliveries under this program were a critical element last winter in maintaining the operating capacity of many industries in the eastern United States. Approximately 40 percent of the certificates issued and 38 percent of the 533 deliveries occurred during last year's emergency period, from November 1, 1976, to March 31, 1977. Over 6 million Mcf of gas was delivered during the winter emergency period.⁷

These supplies were used primarily by customers in industrial states. The major states receiving the largest quantities of 533 supplies were Pennsylvania, North Carolina, and Ohio. Over 85 percent of the gas involved in these transactions was produced in the states of Louisiana, Ohio, and Texas where many marginal sources of supply are available. The following indicates the number of purchases which occurred in the consuming states:

Pennsylvania.....	27
South Carolina.....	24
Ohio.....	19
Tennessee.....	14
Indiana.....	13
Virginia.....	12
North Carolina.....	10
Kentucky.....	9
West Virginia.....	6
Maryland.....	3
New York.....	3
Alabama.....	2
Illinois.....	2
Iowa.....	2
Mississippi.....	2
New Jersey.....	1

The following table sets forth the number of applications for transportation and percentage of such which involved 533 gas from the eight producing states. Nine applications to transport industrial owned gas are not included.

	Number	Percent
Louisiana.....	70	56.0
Ohio.....	26	21.0
Texas.....	13	10.0
Oklahoma.....	7	5.0
West Virginia.....	6	5.0
Mississippi.....	2	2.0
Michigan.....	1	0.5
New Mexico.....	1	0.5
Total.....	126	100

The February 4, 1977, report of the Natural Gas Action Group of the Department of Commerce stated that 1.2 million workers were unemployed as a direct result of gas curtailments. The

⁷During the winter of 1976-77, a total of 6,065,969 Mcf was delivered. The monthly deliveries were as follows:

November 1976.....	666,344
December 1976.....	654,110
January 1977.....	1,444,039
February 1977.....	1,443,768
March 1977.....	1,857,708
Total.....	6,065,969

533 supplies offset curtailment into Priority 2 which was being experienced on many major interstate systems forestalling plant shut-downs and work stoppages. Of the 92 applications filed through March 31, 1976, the 533 transactions allowed more than 215,000 workers to continue their employment. Without this program, the number of unemployed workers could have been larger.

Through this policy, many natural gas consumers, including factories, schools and hospitals, have been able to remain in operation when gas curtailments otherwise would have forced them to shut down for extended periods of time. In addition to hospitals and public schools, over 100 industrial facilities in at least 16 states have remained in operation during periods of severe gas curtailment as a result of gas obtained under Order No. 533. Without these supplies, the economic repercussions would probably have been significant. Many of the products produced by these industrial consumers are essential and any shortage resulting from plant closings could have caused a ripple effect throughout both regional economies and the nation, as a whole. The applications indicating the end uses to which the gas has been utilized are as follows:⁸

General usage	Number of facilities
Metals.....	58
Glass.....	34
Textiles.....	32
General plant usage.....	18
Chemicals and synthetics.....	17
Commercial.....	17
Food processing.....	11
Brick.....	5
Paper.....	2
Oil production.....	2
Agriculture.....	1
Coal gas.....	1

The 533 program in conjunction with Emergency Natural Gas Act of 1977 proved to be critical programs as they provided means of securing necessary gas supplies for facilities without alternate fuel capability and allowed industrial production and the employment of workers to continue.

In summary, the effects of the policy have been positive as economic dislocation and unemployment were minimized. Pipeline curtailments are continuing and will certainly continue for the next several years. High priority industrial users must have access to additional gas supplies or the severe economic disruptions that were prevented in the past by the 533 policy will occur.

One of the arguments that has been proffered in opposition to the 533 policy is that it may divert gas from the interstate market. Most of the parties that filed comments dispute this

⁸Above total end use applications will exceed total of filed applications because a few applications were filed on behalf of a number of small industries.

contention. They view these limited gas supplies as being produced from marginal reserves that otherwise would not have been developed at the national ceiling prices or would have been sold to the intrastate market for boiler fuel or other low priority use.

Several of the interstate pipelines oppose the continuation of this policy. They argue that they are placed at a competitive disadvantage in securing additional supplies.⁹ While stating that deregulation is necessary, these pipelines maintain that Order No. 533 provides a method whereby a producer of new reserves may obtain a price above the national rate. They claim that the result of Order No. 533 is not to enable a prospective high priority customer to purchase gas actively sought by the intrastate market, but to allow industrial customers to obtain the same gas supplies sought by the interstate pipelines at the national rate for its system supply.

The American Public Gas Association (APGA)¹⁰ opposes Commission consideration of the continuation of the policy on two grounds. APGA argues that the Commission should wait for the issuance of a decision by the U.S. Court of Appeals for the District of Columbia Circuit as to the legality of Order Nos. 533 and 533-A.¹¹ APGA also excepts to this program on the basis that since certain interstate pipelines were curtailed into Priority 1 last winter, supplies might have been available to the interstate resale market to offset curtailment absent the alternative offered producers by Order No. 533.

After examining the certificate applications and reports filed pursuant to Order Nos. 533 and 533-A, the Bureau of Natural Gas, as part of the staff comments, concluded that there was no evidence of diversion. In its comments, Staff recommended that the current reporting requirements be expanded to elicit additional information from future applicants so as to better assess potential diversion. Staff suggested that the following factors be considered in reviewing future proposals: Location of the sale, proximity and availability to the interstate market, and the relative value of the gas. We adopt herein additional reporting requirements to obtain this information.¹²

⁹These pipelines are Florida Gas Transmission Co., Mid-Louisiana Gas Co., Southern Natural Gas Co., Arkansas-Louisiana Gas Co., Northern Natural Gas Co., and Cities Service Gas Co.

¹⁰Although the Consumers Federation of America is named in the instant petition, only counsel for APGA signed the filing.

¹¹"APGA v. FPC", No. 75-2105 (D.C.).

¹²The Commission has determined that in certain instances the information should be

The assertion that the implementation of the 533 program diverts gas from pipeline supply is the most serious challenge to the 533 program. The stated purpose of the policy was to supplement available pipeline supply by making what would otherwise be intrastate gas accessible to curtailed interstate customers through direct purchase.

While a bifurcated pricing system exists (intrastate versus interstate), gas will continue to be sold intrastate for prices in excess of the Commission's national rate. The Commission recognizes that most 533 sales were made at rates in excess of the nationwide rate as shown in Appendix B.¹³ It is also apparent that interstate pipelines can not compete for these supplies at that price, however, we have found no evidence that the 533 program has resulted in either an increase in intrastate prices or a deterrent to interstate dedications. So long as the intrastate market demand is greater than the supply, the prices unregulated, and the uses unrestricted, parity of access will not be restricted by Commission action; but it will be restricted instead by the dynamics of the marketplace.

In reviewing these transactions to determine whether this policy resulted in the diversion of gas from the intrastate pipeline systems, we assessed the nature of the producing properties. Staff experience indicated that most of the wells involved produced small amounts of gas. The volumes transported under those arrangements substantiated this finding. In addition, a further measure of the marginal nature of these producing properties was considered to be the number of amended applications filed. Amended applications were submitted by the transporting pipelines to allow the delivery of previously certificated volumes of gas from new sources of supply. The need for such amendments arises when the initial producing property did not deliver as projected. In the past 6 months, six applications were filed, about 15 percent of all applications filed during that period, which indicates the marginal nature of the 533 supply sources.

The Commission attempted to avoid any possibility of diversion by requiring the sellers of 533 gas to certify that the gas was otherwise not avail-

provided where "available". Availability is defined for the purpose of these requirements as that information which the non-resale industrial or commercial consumer has obtained as a result of a good-faith effort. All participants in Section 2.79 transactions are reminded that the Commission must base its findings on substantial evidence.

¹³See Appendix II of the June Notice, Supra, note 4.

able to the interstate market. Nevertheless, in order to further ensure that diversion does not occur, we will adopt the requirements suggested by Staff to assist in our continuing monitoring program.

Each applicant is required to submit data in support of the proposed price. In reviewing the proposed rate, the Commission will assess data available in Form 45, other publicly available sources and information supplied by the Applicant. Consideration will also be given to the intrastate price levels in determining whether a certificate should be issued. The Commission has sought to avoid approving applications that include a purchase price¹⁴ which would create upward pressure on gas prices in the area of production. Our review process is intended to ensure that the level of prices in the intrastate market will be unaffected by this program. It will be the intention of the Commission to review applications with regard to price following the policy stated above.

In response to APGA's argument that a Commission determination in the 533 review should be deferred pending a decision of the appellate court as to the legality of this program, it should be sufficient to refer to our discussion herein of the exigencies of the winter period, the deepening curtailment of most pipelines and the need to avoid severe economic disruption through extensive industrial shut-down.

Upon review, we have concluded that the program should be continued. Last winter many direct industrial consumers were able to maintain plant operations solely due to the availability of these 533 supplies. In the absence of this program, severe economic disruption caused by shut-down of many industrial plants would have occurred. This conclusion is substantiated by the number of authorizations which were issued by the FPC during the first three months of 1977.

The continued need for this program has been established in the recent omnibus pipeline hearings conducted to ascertain the magnitude and potential impact projected curtailments during the 1977-78 winter heating season. By

¹⁴The Commission has rejected certain applications where it found the rate to be excessive or has conditioned certificate authorization by limiting the term, volumes or price in order to limit the rate to an appropriate level. Transcontinental Gas Pipe Line Corp., et al., Docket Nos. CP77-427, et al., issued August 29, 1977; Natural Gas Pipeline Co. of America, et al., Docket Nos. CP77-242, et al., issued July 14, 1977; Texas Gas Transmission Corp., et al., Docket Nos. CP77-298, et al., issued May 31, 1977; Transcontinental Gas Pipe Line Corp. et al., Docket Nos. CP77-452, et al., and United Gas Pipeline Co., Docket No. CP77-428, issued January 6, 1978.

Order issued May 11, 1977,¹⁵ the FPC instituted proceedings to review the supply situation on 29 major interstate pipelines and to provide an overview of potential curtailment impact for the forthcoming winter on both a normal and 10 percent colder than normal basis.

As a result of these hearings, the Commission concluded that if the actual weather were 10 percent colder than normal, 23 pipelines would experience no significant economic dislocations; however, six pipelines anticipated severe industrial curtailments, which would undoubtedly result in plant closings. By Order issued September 14, 1977,¹⁶ the Commission reopened these proceedings to more thoroughly evaluate the curtailment impact on these six pipelines. In so doing, the Commission elicited information as to what self-help measures, such as implementation of Order No. 533 procedures, were under consideration. The results of these proceedings were set forth in Staff reports,¹⁷ which we incorporate into the record herein, detailing the projected impact of the 1977-78 winter curtailment on these pipelines which clearly establish that Order No. 533 procedures should be available this winter in order to provide a means of mitigating potentially severe industrial curtailment.

B. TERM OF THE CERTIFICATE

In Order No. 533, the certificates were limited to 2 years. The 533 program is an emergency type of measure designed to assist currently curtailed high priority users to secure supplemental gas supplies while they arrange to convert to more plentiful alternate fuels. It is not intended to be a permanent solution to these industries' energy needs. That answer is conversion to alternate and more abundant fuels, such as coal and other fuels. Legislation to effectuate such conversions and to encourage more efficient use of natural gas is presently before Congress.

This Commission will not, through its policy pronouncements, elevate an essentially stop-gap measure to the level of a permanent palliative to the natural gas shortage for the relatively small group of industrial concerns that are in a position to take advantage of this program. We recognize, however, that conversion to alternate

¹⁵Alabama-Tennessee Natural Gas Company, et al., Docket Nos. RP77-65, et al.

¹⁷El Paso Natural Gas Co., Docket No. RP77-74; East Tennessee Natural Gas Co., Docket No. RP77-72; Tennessee Gas Pipeline Co., Docket No. RP77-86; Tennessee Natural Gas Lines, Inc., Docket No. RP77-87; Transcontinental Gas Pipe Line Corp., Docket No. RP77-89; United Gas Pipeline Co., Docket No. RP77-92 and Reports were issued October 14, 1977.

sources of energy is expensive, difficult, often slow and sometimes infeasible depending on the state of the technology for any particular use. We do not want to unduly disrupt industrial processes by prematurely terminating the 533 policy, a result which would defeat the very purpose for which the program was begun. Therefore, we find that the certificates should be limited to no more than a two year period to avert critical economic dislocations and maintain the Commission's flexibility to review and respond to the changing national gas supply situation."

We will grant a buyer of 533 gas an extension of the existing authorization for 2 years if all qualifications are met. Any additional extension, however, will be granted only if substantial evidence establishes that conversion to an alternate fuel was infeasible during the term of the sale. In reviewing these requests on a case-by-case basis, the Commission will determine whether the industrial consumer has made a good faith effort to inquire into alternate fuel capability and conversion potential and further, that there is an insufficient period of time to develop such capability during the period of proposed use of 533 supplies. The reasons for the consumer's inability to implement alternate fuel capability should be clearly set forth in order to present adequate substantive evidence.

C. DIVERSION OF 533 GAS TO PRIORITY 1 CUSTOMERS

In its notice, the FPC requested the parties to comment on whether the Commission should condition transportation authorization for 533 supplies upon diversion to the transporting interstate pipeline when there is a threat of actual curtailment. Under such a condition, if the pipeline supply were inadequate to meet the requirements of residential, small commercial and human needs consumers in Priority 1, the pipelines would have an alternate method of coping with emergencies of limited duration.

Staff endorsed the proposed condition with certain limitations. Staff argued that if any gas were to be diverted, only those volumes over and above the amount necessary for plant protection should be made available, adequate notice should be provided in order to prevent damage to the equipment and materials being processed by the industrial consumer, and explicit assurance should be provided that the Commission will not assert jurisdiction upon the supplying producer. In addition, Staff advocated that the pipe-

lines be required to pay back the gas diverted from industrial customers; however, in the event the customer were unable to utilize the volumes in accordance with the provisions of the policy, an exception should be created whereby the customer could take the volumes for lower priority use during the term of the authorization.

Many of the parties disagreed sharply with Staff's proposal, stating that such a condition would violate the Natural Gas Act as producers would be selling gas to be resold in interstate commerce at rates in excess of those permitted under the Act without a certificate of public convenience and necessity authorizing such sales. Noting that some producers now require that the gas purchase contract covering the sale of 533 supplies contain a clause providing for its automatic cancellation if the gas is resold, they argued that the proposed amendment to the policy would result in the automatic termination of many 533 contracts. Many parties also cited the Emergency Natural Gas Act of 1977 as support for their contention of the inadvisability of requiring this limited diversion."

Others argued that "Priority 1 curtailment" at the pipeline level does not necessarily mean that there is actual curtailment of Priority 1 uses because the distributor customer may have supplemental supply sources in addition to pipeline supply. In order to mitigate these effects, some suggested that the emergency condition protecting Priority 1 customers adopted in Opinion No. 778¹ should be incorporated if the Commission finds that a protective condition is in the public interest.

Alternate means of protecting Priority 1 essential uses are available without Federal regulation. The distributors may defer delivery of gas to the 533 purchaser during an emergency, although the purchaser would continue to request gas at the wellhead making a supply available to the interstate pipeline. After the crisis passes, the distributor would deliver to the 533 purchaser an amount equal to that obtained during the emergency. This procedure is viewed as superior as there would be no unlawful passage of title of the 533 gas to a third party. Its viability depends upon the voluntary cooperation of the industrial consumer, distributor, pipeline. This commission cannot mandate such transactions; however, they appear desirable.

We find the arguments against our imposition of a diversion condition to

be persuasive and therefore reject the Staff's suggestion. Order No. 533 sales are exempt from Commission jurisdiction because they are direct sales and not sales for resale. If the Staff proposal were adopted, diversion of the gas to resale markets would result and the character of the transportation would be legally changed since title would change and the gas would be unlawfully sold to a third party for resale. We conclude that at the present time the policy need not be modified to incorporate the proposed condition. During the severe emergency last winter, the pipelines were able to provide natural gas to essential human uses through voluntary cooperative efforts.

D. PERMITTING PRIORITY ONE CONSUMERS TO PARTICIPATE

In the initial rulemaking proceeding, the FPC rejected arguments to expand the policy to include direct sales to Priority One consumers. In Order No. 533, the Commission found that due to the "exceedingly large number of residential and small commercial customers that might try to take advantage of such a policy,"² further study was necessary. The majority of the parties, including Staff, oppose the proposed expansion for a variety of reasons. They argue that these loads are temperature-sensitive and therefore do not require a relatively consistent gas supply. Moreover, the administrative and regulatory aspects of the proposed modification would create an unwarranted burden on the pipeline. It would be impractical for an individual household or a small commercial consumer to enter into such contracts. These arguments were previously considered during the initial rulemaking whereupon the Commission concluded that Priority One consumers should not be allowed to participate in this program. No new arguments have been raised which would form a basis for modification of that determination.

A related question is whether Order No. 533 should be modified to allow the transportation of gas purchased or developed by distribution companies. Northern Illinois Gas Co. (NI-Gas), Citizens Gas and Coke Utility (Citizens) and Michigan Gas Utilities Co. (Michigan Gas) argue that such a modification is necessary and in the public interest as it would encourage domestic drilling activity and production of additional gas supplies for consumers located outside gas producing States. Maintaining that many local distribution companies are experienced in finding gas, parties favoring this view state that these companies should be allowed to compete with in-

¹Supra, note 1 at Mimeo p. 22.

²By legislation, Congress created the authority to reallocate natural gas supplies under certain emergency situations; however, it specifically excluded Order No. 533 gas from such reallocation.

³Transcontinental Gas Pipe Line Corp., Docket No. RP72-99.

trastate purchasers and thereby divert additional gas from the intrastate market. Since some distributors operate large storage reservoirs and therefore can purchase gas which non-resale purchasers cannot economically purchase, these companies assert that they should be allowed to participate in an expanded 533 program.

These arguments are similar to those previously raised during the initial rulemaking proceedings. Upon review, the FPC determined that the proposed modification would be inadvisable since distributors would resell the supply which would be a jurisdictional activity and subject to the just and reasonable standard of sections 4 and 5 of the Natural Gas Act. For this reason, we find no basis upon which to amend the previous findings.

In a related matter, NI-Gas proposed that purchases by industrial and commercial users under this program not preempt pipeline capacity that would otherwise be available to local distributors and that all certificates issued under § 2.79 be conditioned to contain a provision subjecting that transportation to interruption where necessary to allow the pipeline capacity to be used in an emergency situation by local distributors acting under §§ 2.68 and 157.22 of the Commission's regulations. NI-Gas did not cite a single instance where the pipeline capacity on any interstate system has been preempted. In addition, one of the necessary findings in the approval of the 533 application is that there is available pipeline capacity. A concerned distributor could therefore address this issue in a specific proceeding when the proposed transportation is under consideration; however, since this problem does not appear to have actually happened, there is no basis at the present time for a general pronouncement on this point. Should the need for a condition as suggested by NI-Gas arise, the Commission will reexamine the question.

E. NEW CUSTOMERS

In the initial rulemaking, the FPC considered and rejected the application of § 2.79 to others than "existing customers" of interstate pipelines who are subject to curtailment. In its June notice, the FPC raised this point for discussion again and set forth three proposed categories for possible inclusion: (1) The transportation of direct sale gas to new customers, (2) customers not served by the interstate pipeline, and/or (3) volumes in excess of those presently being received by existing customers through jurisdictional pipeline suppliers.

Many parties favored the expansion of the policy beyond the current category of "existing customers", arguing that there is no basis to deny these customers the use of gas which would

not otherwise be available to the interstate market. The Commission's Office of Policy and Analysis (now Office of Regulatory Analysis) concurred with these arguments, stating that supplies to new customers represent an addition to the flow of interstate gas which would not have been forthcoming in the absence of these customers' efforts and further that there are economic benefits from permitting the transportation. Moreover, it concluded that the gas contracted for by such customers is no more likely to be diverted from potential interstate supplies than any other gas under Order No. 533.

In their comments, the Commission's Office of the General Counsel and the Bureau of Natural Gas (now Office of Pipeline and Producer Regulation) opposed the expansion of the present policy to allow the transportation of direct sales gas under the three proposed categories. Allowing the transportation of 533 gas to new customers, such as a new fertilizer plant constructed in 1977, was seen as creating an unwarranted dependence on supplies which are authorized for a limited term. The use of 533 gas would allow users to postpone development of a reliable energy supply for two years and could require the incurrence of an unjustifiable expense in subsequent conversion of plant facilities to utilize alternate energy sources. The Office of the General Counsel and Bureau of Natural Gas believe that a better energy policy would be for such customers to utilize alternate fuels from the inception rather than requiring the conversion to such after a limited term.

We concur with this recommendation for the reasons advanced. The underlying purpose of the 533 policy is temporarily to assist existing customers mitigate the effects of curtailment pending conversion to alternate fuels. Adding new customers would be contrary to that intent. The application of the current 533 policy should not be extended to customers not presently served by the interstate pipeline as that would also be contrary to the purpose of Order No. 533. Due to the unregulated price of gas supplies in the intrastate market, customers of an intrastate pipeline are in a better position to obtain needed gas supplies than the customers of an interstate pipeline. To allow this expansion of the policy could diminish the limited potential supplies available to ultimate existing users by permitting additional competition.

In a related matter, United Gas Pipeline Co. (United) proposed that the Commission expand its policy statement to include two new classes of industrial customers: (1) Small industrial customers with requirements under 300 Mcf per day; and, (2) large

industrial customers converting to alternate fuel but still lacking total alternate fuel capability. United maintained that the continued operation of these plants is essential to avoid the same type of economic dislocation with which Priority 2 and 3 consumers qualifying under the current policy statement are threatened.

As to the first category, United proposed that the small industrial with requirements of less than 300 Mcf per day should be included in the highest curtailment category available to industrial gas. United further argues that there is an apparent inconsistency in Commission policies in that these industrial requirements are often placed in the highest industrial category under Order No. 467-B type plans but remain ineligible for Order No. 533 consideration as they do not fall within the definition of plant protection, feedstock or process use. Because of economies-of-scale considerations discouraging their conversion to alternate fuels and the *de minimus* volumes involved, United asserts that there is adequate justification for expanding the policy.

Section 2.78(b) of the Commission's regulations provides for proceedings for extraordinary relief from curtailment and is the appropriate vehicle for seeking relief in the aforementioned situation. Order No. 533 would provide an alternate means to meet the projected curtailment of industrial customers, however, further consideration appears necessary prior to our adoption of the proposed modification. As to United's proposal to expand the policy to include large industrial consumers who are in the process of converting to alternate fuel, we find that it could have an adverse impact in minimizing the urgency of completing the necessary conversion. Moreover, there would be extreme difficulties administratively in distinguishing which plants made a good faith effort to effectuate such conversion on a prompt and expeditious basis resulting in an exemption to the current policy standards.

F. TRANSPORTATION OF USER OWNED GAS

In its initial policy statement, the FPC did not include the transportation of gas produced or owned by the industrial consumer; however, it did indicate that any filing requesting such authorization would be considered. In its recent notice, the Commission proposed to review the advisability of including this type of arrangement in the 533 program. Most parties, as well as the Office of Policy Analysis, supported the proposed expansion of the policy, arguing that the development of reserves in remote locations would be encouraged and supply of available gas for Priority 2 and Priority 3 uses would be augmented.

ed. It is asserted that marginal on-shore reserves will not be developed unless industrial consumers are willing to make the substantial effort and investment necessary and, therefore, the expansion of the policy in this manner would not create any additional risks of diversion from the interstate market.

The supporting parties stated that continuation of the two-year limitation on the transportation certificate would effectively preclude the development of such reserves despite modification of the policy to include consumer-owned gas or reserves-in-place because the industrial consumer (investor) would not be assured of an adequate opportunity to recover the substantial investment necessary to acquire a long-term gas supply. Consequently, long-term certificates for these projects were requested by these parties.

OGC and BNG contended that development of consumer-owned supplies or the purchase of reserves-in-place are not short-term ventures and the nature of these transactions places them outside the intent of Order Nos. 533 and 533-A. Staff argued that they should be subject to a case-by-case scrutiny under section 7(c) of the Natural Gas Act.

We concur that the requested modification of the policy does not fall within the intent of Order No. 533 as it would allow much more than short-term emergency measures to maintain high priority use. The considerations implicit in such proposals should be reviewed in the context of section 7(c) as they do not conform to the criteria of Order No. 533. The transportation of consumer-owned gas or reserves-in-place for a period not exceeding two years can be construed as falling within the scope of the policy.

G. INTERMEDIARIES (BROKERS)

In its notice, the FPC sought comments referring to the role of intermediaries (brokers) that attempt to bridge the gap between the industrial consumers seeking to purchase and the producers wanting to sell natural gas supplies. These intermediaries have acted in the role of "agents" in locating supplies of 533 gas for industrial and commercial buyers and arranging transportation from the point of production to consumption. They charge a fee for the various types of services performed, such as, planning, purchasing, contracting for gathering systems, negotiating transportation agreements, and fulfilling administrative requirements. They act solely for the industrial consumer from whom they receive all their compensation. In some instances, the brokers charge their industrial customer a fee based upon the number of Mcf's of gas delivered to the facility.

The Commission is not opposed to brokering activities and we do not want to discourage the use of these important services, but the Commission is concerned about the amount of any brokerage fee and any impact it may have on the price paid by the industrial customer. Although the Commission has no direct jurisdiction over the producer price in a direct sale, in reviewing the transportation certificate application the Commission is required to examine the effect of the price paid on market forces in the area of the purchase.¹¹ The Commission has examined several transactions in which brokers participated¹² and has concluded that the total cost of the gas delivered to the industrial must be reviewed in determining whether the proposed transportation is in the public interest. When brokers participate, the application for certification of the transportation must include a statement as to the total fee charged, how it is computed, and any affiliation between the broker and the seller, buyer, or pipeline applicant.

H. COST OF GATHERING FACILITIES

Some of the 533 applications recently received have included a provision whereby the buyer paid for the cost of installing gathering lines between the pipeline and the source of the gas, but the producer retained title to these facilities. The inclusion of these costs increases the total price of the gas to the industrial consumer. The Commission is not opposed to the consumer paying for such facilities provided that the total cost of the delivered 533 supplies remain consistent with the market price in the producing area.¹³ Accordingly, we will amend our filing requirements to ensure that the information necessary to make an informed judgment on this matter is before the Commission. Under such arrangements, the filing made with the Commission should itemize these costs incurred by the customer, ownership, date of construction and the terms of payment.

I. USE OF INTRASTATE PIPELINES

After reviewing past transactions under the existing policy statement,

¹¹ *Transcontinental Gas Pipe Line Corp. v. FPC*, 365 U.S. 1 (1961).

¹² *Transcontinental Gas Pipe Line Corporation*, Docket No. CP77-542, issued November 8, 1977; *Transcontinental Gas Pipe Line Corporation*, Docket No. CP76-423, issued November 5, 1976; and *Transcontinental Gas Pipe Line Corporation*, Docket No. CP77-240, issued October 26, 1977.

¹³ See *Consolidated Gas Supply Corp. (Westinghouse)* Docket No. CP77-211 (April 22, 1977) where the FPC analyzed a connection cost charged on an Mcf basis and conditioned the certificate by limiting the industrial payment to the actual cost of the facilities.

the Commission is aware that the transportation costs may be a major factor in the industrial consumer's consideration of the total costs of purchasing a particular supply. Under some arrangements that have been approved by the Commission the transportation of the supply from the producer to the consumer has required the participation of two or more interstate pipelines when intrastate pipelines might have transported the supply more efficiently and economically.

A hypothetical example is illustrative of the value of an intrastate pipeline participation in the transportation of 533 supplies. Assume a producer in the vicinity of Ward County, Tex., which is near Midland, has marginal supplies available and a high priority industrial consumer, which is a customer of Transcontinental Gas Pipe Line Corp., (Transco), needs these supplies to offset curtailment. For purposes of the hypothetical, it is assumed that the redelivery point to Transco will be at a point near Houston, Tex., where a potential intrastate pipeline company has facilities. In order to transport the available gas to the Transco system through solely interstate pipelines, the gas would go through three interstate systems prior to arrival at Transco's system at a point near Houston, Tex. The gas would be picked up by Northern Natural Gas Co. in Texas and be transported approximately 460 miles to Kansas where it would be transferred to Panhandle Eastern Pipeline Co. (Panhandle). The gas would travel 610 miles on this system where there would be a point of inter-connection with Trunkline Gas Co. which would exchange the gas with Transco by displacement in Texas. The total cost of this transportation would be approximately 35.4 cents per Mcf.¹⁴

If an intrastate facility in Texas with available capacity were willing to transport the gas approximately 600 miles to a point near Houston for delivery to Transco, the total cost of the transportation would be 18.0 cents.¹⁵ The cost savings are significant. This example focuses only on transportation costs; however, the reluctance of intrastate entities to participate in 533 transactions could result also in construction of unnecessary facilities, or the abandonment of potential arrangements.

Participation by an intrastate pipeline in a 533 transaction involves it in

¹⁴ Northern 460/100×14.5 cents/Mcf=20.70 cents, Panhandle 610/100×2.41 cents/Mcf=14.70 cents: Total=35.40 cents/Mcf.

¹⁵ Intrastate 600/100×3.0 cents/Mcf=18.00 cents/Mcf.

interstate transportation which is a jurisdictional activity. In order to encourage intrastate pipelines to participate in 533 arrangements, the Commission will assert only a limited claim of jurisdiction over participating intrastate pipelines. Commission jurisdiction will be restricted to the 533 service performed and will not serve as a basis for the assertion of authority over other activities of the intrastate pipeline nor its facilities. Should an intrastate entity choose to participate, the Commission will issue a certificate providing pregranted abandonment authorization to discontinue service upon expiration of the term.

We also find it appropriate to limit the filing requirements and waive most reporting requirements. We therefore will adopt Staff's proposals which provide two options for the intrastate entity. The intrastate pipeline may file a joint application with the interstate pipeline setting forth the proposed transportation fee and the cost basis thereof. Under this procedure, the intrastate pipeline would have the primary obligation of preparing the application; however, it would incorporate the required information relating to the intrastate transaction. Both applicants would receive the appropriate certificates. In the event that the intrastate pipeline chooses not to file a joint application, the second option allows the intrastate pipeline to file an abbreviated certificate application¹⁶ that would subject it to only limited jurisdiction arising only from the transportation transactions, with waiver of most of Section 157 filing requirements. These are procedural alternatives; the certificate issued to the intrastate pipeline would be identical under either method.

As part of this certification procedure the Commission must approve the proposed intrastate pipeline transportation rate as just and reasonable.¹⁷ In contrast to interstate pipelines, the Commission does not have tariffs on file which establish the appropriate transportation rate, although Section 5(b) of the Natural Gas Act provides a vehicle for obtaining such information.¹⁸ In the event an intrastate pipeline takes advantage of our invitation to participate on a limited jurisdictional basis, it will be incumbent upon the applicant to demonstrate that the proposed rate is just and reasonable by the submission of appropriate data. Proposed transportation rates derived

¹⁶ The intrastate pipelines may file an abbreviated application as provided for in § 157.7 of the regulations of the Natural Gas Act. The application will be deemed sufficient if it includes a general description of the facilities and location (or a map of the same), a statement concerning the proposed rates, and the cost-of-service used to develop such rates.

from rates approved by state regulatory commissions will be considered, and given some evidentiary weight when the intrastate transporter submits a statement of the proposed rates and the supporting data provided the state regulatory body.

J. TAKE OR PAY PROVISIONS

In its notice, the Commission characterized the [take-or-pay] provision, coupled with the limitations on the purpose for which the gas may be used, (as) possibly the most problematic issue resulting from the implementation of this program.¹⁹

Most of the parties agreed with the Commission's assessment and suggested that the Commission should modify the policy to allow for additional flexibility. The comments highlighted the conflict with the policy statement in that there is an attempt to attract intrastate gas to the interstate market while imposing strict limitations on its end use. We recognize that the fluctuations in an industrial customer's use of natural gas may not be conducive to the full realization of both of these objectives.

The problem arises because the producer desires a guarantee that as long as certain volumes are available for sale, the supplies will either be sold or paid for, even if not actually purchased. If the latter occurs, the price of each unit of gas obtained by the user increases. This is of concern to the Commission because of the price impact and the loss to the interstate market of supplies that have been purchased but not delivered. This situation arises because the level of curtailment fluctuates such that during the summer season many industrial users are not being curtailed and cannot use 533 gas. Also, if the winter curtailment is not deep enough to make up the difference, gas will be paid for but not taken. Consequently, some parties filing comments proposed extending the term of the certificate to permit make-up and/or easing the priority restrictions on the use of 533 gas.

One method of dealing with this problem was suggested by the Staff, which proposed that the policy should be amended to establish a general rule that the underlying sales contract should not include a take-or-pay provision that exceeds 80 percent on an annual basis. In the event that the take-or-pay provision is 100 percent, a limit of 75 percent should be established for the period April through October of the calendar year. The

¹⁷ Natural Gas Act, Section 4(a), 15 U.S.C. Section 717c(a); *FPC v. Texaco Inc.*, 417 U.S. 380, 394 (1974).

¹⁸ 15 U.S.C. Section 717d.

¹⁹ *Supra*, note 4, p. 6.

foregoing was proposed as a means of reducing the "inflated cost" of gas actually taken when the inability to take all of the gas which has been purchased exists. In conjunction with this, Staff proposed that a purchaser should be permitted to receive make-up gas for six months after the expiration of the original transportation authorizations.

Upon review we find that it would be inappropriate to approve any form of percentage limitations upon the take-or-pay provision in sales contracts. Such action could establish both the upper and lower limits of such provisions and would be disadvantageous to the parties and the public interest. Individual applications shall be analyzed with regard to this provision. We do find, however, that additional flexibility should be provided to allow the industrial consumer an opportunity to take the gas for which it has paid and we will therefore adopt Staff's proposal to grant a six month extension for receipt of these volumes upon compliance with certain reporting requirements.

Accordingly, contracts of sale that contain a take-or-pay provision must include a provision permitting the extension provided for herein. Furthermore, when an extension is needed, the certificated pipeline shall file a request for extension with the Commission stating the volumes that need to be made up and the estimated time necessary. Extension for the full six month term will be deemed approved upon receipt by the pipeline of a letter from the Secretary of the Commission acknowledging the filing.

Many parties proposed modifications to current end-use restrictions imposed by Order No. 533 in order to allow the industrial customer greater flexibility in receiving the supply. United proposed that § 2.79 (e) and (f) be amended to allow a customer to take up to 50 percent of his authorized MDQ under his direct purchase contract in addition to his entitlement under his supplier's curtailment plan, prior to being obligated to reduce curtailment entitlements. Others suggest that the Commission should require that the pipeline system supply be the "first through the meter" whereby 533 supplies would be backed off. In other words, the 533 deliveries could be "banked" by the pipeline for future delivery to the industrial customers. The Ohio Commission requires the "first through the meter" option in all the contracts that it approves under its self-help program. It reported that there have been no objections by the participating pipelines to this provision.

Some of the parties suggested that the Commission should provide for an automatic one-year extension of the certificate's original term or such

shorter period as is necessary for transportation of all make-up volumes outstanding under take-or-pay provisions of gas purchase contracts. Staff recommended that the end-use limitations be relaxed during the summer months to meet the dilemma that is particularly acute during this period. Under its proposal, the industrial consumer would be permitted to accept that volume of the 533 supply which would represent the difference between the actual pipeline supply and the total volume to which it is entitled under the pipeline's curtailment plan, regardless of the priority of service. An industrial consumer would be able to accept not only its pipeline supply, but a portion of its 533 pipeline supply limited by the total volumes to which it is entitled for all priorities of service. In the event that 533 volumes are still available, the Staff recommended that they be available to the industrial consumer for additional or new requirements.

We find that the priority restrictions on the use of 533 gas should not be changed. The 533 program was promulgated for the benefit of curtailed high priority users. If we were to implement the suggestions discussed above, gas supplies that were intended for these uses would be consumed for lower priority purposes, a result inconsistent with Commission policy. There is, however, the possibility that users could contract for storage service to store 533 gas during periods when it could not be used by the industrial for later delivery or arrange for an exchange of gas, and the Commission will entertain such applications.

A necessary factor of our decision to extend this policy is the promulgation of stricter reporting requirements with regard to alternate fuel capability. Order Nos. 533 and 533-A limited its application to situations "where gas is purchased for high priority uses that otherwise would be curtailed and without an alternate fuel capability." We intend to examine whether the industrial consumer has made a conscientious effort to develop and utilize alternate fuel capability. There are a number of industrial customers that do not have the ability to convert to more abundant fuels due to the present level of combustion technology. Nevertheless, there are many industrial processes which are classified as "process use" in most pipeline curtailment plans and are now using 533 supplies for which alternate fuel could easily be substituted. Certain information should be provided by the industrial customers in order for the Commission to have an opportunity to attempt to make this distinction. To accomplish this and meet the more stringent standard, the industrial consumer will have the burden of presenting substantial evidence that it has in-

quired into alternate fuel capability and conversion technology. The feasibility of implementing alternate fuel capability will be a primary consideration in our determinations of whether further extensions of existing authorizations should be granted subsequent to the first "rollover."

K. MISCELLANEOUS MATTERS

National Gypsum Co. supported the proposal that the Commission reexamine the criteria it has used in identifying high priority industrial uses. In determining which industrial uses are properly included in Priority 2 National Gypsum states the terms "feedstock" and "plant protection" have caused relatively little problems; however, "process gas" has been subject to multiple interpretations. In order to eliminate the uncertainty, it proposed an amendment to the language. Although the proposed definition may be preferable, staff and many of the parties do not support this amendment. We concur because this policy statement is not the appropriate vehicle to redefine what constitutes "process gas." A redefinition of this term should occur in the context of a reevaluation of Order Nos. 467, et seq., and 493-A.²⁰

During the past two years, the Commission has followed the practice of issuing temporary certificates, when warranted, to applicants for permanent 533 certificates. All parties to the proceeding supporting continuation of the policy also support the issuance of temporary certificates. Staff concurs in the continuation of the administrative practice, but emphasize that all necessary information must accompany the application if the Commission is to review the application on an expeditious basis. We will continue the administrative practice of issuing temporary certificates where the necessary requirements have been met.

Several parties suggested that certain of the reporting requirements established under Order No. 533 should be modified. For example, it was suggested that the intermediary pipelines which transport the supplies between the producer and the pipeline providing service to the industrial customer should not be required to file monthly reports but that the primary transporting pipeline should provide all necessary information. It has also been urged that the monthly reporting requirements should be changed to provide a quarterly reporting. Upon our reassessment of the reporting requirements, we find that only the delivering pipeline need file a monthly report. Monthly information from in-

²⁰FERC authority to take such action may be proscribed by section 402(a)(1)(E) of the DOE Act.

termediary transporting pipelines is unnecessary. However, we shall continue the requirement of monthly rather than quarterly reports from delivering pipelines in order to assist our assessment on the supply situation on major interstate pipelines during the winter.

III. CONCLUSION

Order No. 533 program was promulgated in 1975 as a statement of policy to clarify the circumstances under which the FPC would permit an interstate pipeline to transport certain supplies of gas not owned by the pipeline. Specifically, the FPC was responding to the ever-deepening curtailment situation on most jurisdictional pipelines by providing a method by which high priority industrial users could obtain supplemental supplies through direct purchase from producers. The criteria adopted for judging whether the proposed transportation of the purchased volumes was within the public convenience and necessity reflected judicial opinion²¹ as well as a review of the comments filed in response to the FPC's notice of proposed rulemaking.

When the FPC issued Order No. 533, it defined the program as "experimental" and requiring "empirical evidence of its merits."²² If the policy were to be continued. To that end, the FPC published a notice of proposed rulemaking to review the policy statement and numerous comments were filed. After careful review and consideration of these submittals, this Commission has determined to continue the 533 policy.

The evidence in the record, comprised of the historical experience of the past two years, the comments filed by the parties, and the Staff reports to the Commission in the omnibus pipeline proceedings, demonstrate that the 533 policy has been a success. The program has provided high priority users with a method whereby they can mitigate the effects of curtailment by purchasing supplemental supplies directly from producers for the express purpose of decreasing the likelihood that curtailment will cause industrial plant shut-downs, which could produce a severe economic disruption in the communities affected. The gas transported under 533 and the overwhelming support of the program, as displayed in the comments, demonstrate the efficacy of the program. Since the conditions that required the 533 policy in the past persist today and are anticipated to continue in the near future, this Commission considers it prudent to maintain the policy in operation, as modified herein.

²¹FPC v. Transcontinental Gas Pipe Line Corp., 365 U.S. 1 (1961); Arizona Public Service Co. v. FPC, 483 F. 2d 1275 (D.C. Cir. 1973).

²²Order No. 533, mimeo p. 28.

The Commission finds. (1) The notice and opportunity to participate in this proceeding with respect to the matters presently before the Commission through the submission, in writing, of data, views, comments and suggestions in the manner as described above are consistent and in accordance with all procedural requirements therefor as prescribed in section 553, Title 5 of the United States Code. Since the amendment prescribed here does not prescribe an added duty or restriction, compliance with the effective date requirements of 5 U.S.C. 553(d) is unnecessary.

(2) The amendment of Part 2, General Rules of Practice and Procedure, General Policy and Interpretations, Subchapter A, Chapter I, Title 18 of the Code of Federal Regulations, § 2.79, Policy With Respect To Pipeline Transportation Agreements, as herein prescribed, is necessary and appropriate for the administration of the Natural Gas Act.

(3) Since the modifications to § 2.79 prescribed herein which were not included in the notice of this proceeding are of a minor nature, and are consistent with the prime purpose of the proposed rulemaking, further notice thereof is unnecessary.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly sections 7, 15 and 16 thereof (52 Stat. 824, 825, 829, 930; 56 Stat. 83, 84; 61 Stat. 459; 15 U.S.C. 717f, 717n, and 717o) orders:

(A) Part 2, Subchapter A, Chapter I, Title 18 of the Code of Federal Regulations is amended as set forth below, effective immediately:

§ 2.79 [Amended]

1. Section 2.79 is amended in paragraph (e) by deleting the "." and inserting in lieu thereof a phrase to read as follows:

.....
(e) * * *
; Provided further, That the gas may be used during an authorized six month extension of the transportation authorization.

.....
2. Section 2.79 is amended in paragraph (g) by inserting a new subdivision (viii) in subparagraph (1), by inserting new subdivisions (vii)-(xiii) in subparagraph (2), by revising subparagraph (1) in the introductory language, by revising subparagraph (2) (v) and (vi), and by revising subparagraph (3) to read as follows:

.....
(g) * * *
(1) Interstate pipelines transporting gas pursuant to this policy must file

the information set forth in subdivisions (i) through (vii) of this subparagraph. Intrastate pipelines transporting gas pursuant to this policy may file either a joint application with the interstate pipeline or an abbreviated application as provided in § 157.7, including the information set forth in subdivision (viii) of this subparagraph.

.....

(viii) Provide a general description of the facilities and specify their location or include a map thereof; provide a statement concerning their proposed rates and Schedules L, M and N of § 154.63. For purposes of this subdivision (viii), there is no requirement that omission of other filing requirements be justified. For purposes of this subdivision (viii), the following provisions are waived:

- (A) 18 CFR Part 154—Rate Schedules and Tariffs;
- (B) 18 CFR 157.13—Form of exhibits to be attached to applications;
- (C) 18 CFR 157.14—Exhibits;
- (D) 18 CFR Part 159—Fees and annual charges under the Natural Gas Act;
- (E) 18 CFR Part 201—Uniform system of accounts for natural gas companies; and
- (F) 18 CFR Part 260—Statements and reports (schedules).

.....

(2) * * *
(v) Provide a copy of the gas purchase contract with the producer underlying the proposed transportation, including the Btu content of the gas supply;

(vi) Provide a detailed description of the nature of the emergency necessitating the authorization of the proposed transportation including but not limited to the curtailment anticipated with respect to each priority of end use at the plant;

(vii) Provide a sworn statement by the consumer, supported by substantial evidence, that it has made a good faith effort to inquire into alternate fuel capability and conversion potential and further that it cannot develop such capability during the proposed use of 533 supplies;

(viii) Provide a complete description of the end use application and the facility in which the gas will be utilized, e.g., size and type of burner(s);

(ix) Provide a map showing the location of the wells and description of the acreage involved, along with the location of the nearest interstate and intrastate transportation facility;

(x) Indicate whether or not gas has previously been sold from the acreage and, if so, to whom, through what facilities and at what prices;

(xi) Provide available information as to:

(A) The ownership of adjoining acreage, and if productive, information as to whom the gas is being sold, and at what price;

(B) The current price, terms, and conditions of intrastate purchases for comparable gas produced within the immediate vicinity;

(C) Negotiations for the sale of the supply to any other purchaser (intrastate or interstate) and the suggested price;

(xii) If an intermediary participates in the transaction between the industrial customer and the producer and charges a fee, indicate the amount of the fee and terms of payment and the intermediary's affiliation, if any, with the producer and/or pipeline;

(xiii) If either the producer or the industrial customer assumes the cost of the construction of any gathering facilities in order to consummate the purchase, provide the cost, terms of payment, ownership and date of construction of the facilities.

(3) The information required by paragraph (g) (2) (i)-(xiii) of this section may be supplied by the applicant for a transportation certificate through submission of an appropriate affidavit from the non-resale industrial and commercial consumer whose gas is transported pursuant to this policy.

.....

3. Section 2.79 is amended in paragraph (h) by revising subparagraph (1), and is amended by redesignating paragraph (j) as paragraph (k) and by inserting a new paragraph (j) to read as follows:

.....

(h) * * *
(1) For each certificated transportation arrangement the delivering natural gas companies shall submit a monthly report to the Commission indicating the name of the producer, the volumes transported, the point of delivery to the distributor and/or non-resale industrial or commercial consumer, the name of the distributor and/or ultimate non-resale industrial or commercial consumer. An original and four copies of each such report shall be filed within 20 days after the end of each month included in the term of the transportation certificate. The delivering natural gas company shall submit a monthly report for any month during which gas was not transported.

.....

(j) If an industrial consumer is unable to receive gas supplies for which it has paid under the take-or-pay provision in the underlying sales contract, the transporting pipelines

may file a request for a six-month extension of the certificate authorization. The request shall include a statement of the undelivered volumes and the time necessary to complete delivery thereof. Upon receipt of a letter from the Secretary of the Commission acknowledging the filing, the request-

ed extension shall be deemed approved.

(B) The Secretary shall cause prompt publication hereof in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

APPENDIX A.—Certificated applications

	Prior to Nov. 1, 1975	Nov. 1, 1975 to Mar. 31, 1976	Apr. 1, 1976 to Oct. 31, 1976	Nov. 1, 1976 to Mar. 31, 1977	Apr. 1, 1977 to Dec. 1, 1977	Total volumes through Nov. 30, 1977
Applications	8	14	28	44	21	113

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

(FRL 831-2)

PART 142—NATIONAL INTERIM PRIMARY DRINKING WATER REGULATION IMPLEMENTATION

Assessment of Penalties for Violation; Interim, Final Rule

AGENCY: Environmental Protection Agency.

ACTION: Interim final rule.

SUMMARY: The section giving the State authority to assess penalties for violations is amended to clarify the intent of EPA that the State is to have authority to assess penalties for violation to both the State primary drinking water regulations and the State public notification regulations.

Second, the section requiring States to report to the EPA Administrator by January 1, of each year, a summary of inventory corrections, violations, enforcement actions, and status of variances and exemptions for the preceding fiscal year is amended to allow supplies serving fewer than 25,000 population to delay reporting of violations only for FY 1977 until June 1, 1978. All other reporting requirements under this section will be submitted on January 1, 1978, for FY 1977, and for subsequent fiscal years, all reporting requirements under this section will be submitted on January 1. This change is necessitated by the delay in implementation of the automated data processing system which is designed to handle the reporting data requirements.

EFFECTIVE DATE: February 8, 1978, comments on or before March 10, 1978.

ADDRESS: Drinking Water Regulations Implementation Branch, Office of Water Supply, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

James F. Manwaring, P.E., Chief, Drinking Water Regulations Implementation Branch, 401 M Street SW., Washington, D.C. 20460, 202-426-3983.

SUPPLEMENTARY INFORMATION: 40 CFR 142.15 requires each State with primacy to report by January 1 of each year the inventory corrections and the violations and enforcement actions taken during the preceding fiscal year. The States must also report on the current status of variances and exemptions.

The National Interim Primary Drinking Water Regulations (NIPDWR) went into effect June 24, 1977. Therefore, the report due on January 1, 1978, will contain information only for a 3-month period. It is unlikely that there will be many variances or exemptions granted in this period and there will be a very limited number of enforcement actions. Thus, for the most part, the January 1978 report will only have to deal with inventory and violation data. The delay in implementing an automated data handling system, the Model State Information System (MSIS), has made the reporting of this data much more difficult than previously expected. The purpose of this amendment is to minimize, as much as possible, problems involved with State reports due January 1, 1978.

Without MSIS it will not be easy to determine and report on all the violations which occurred between June 24, 1977 and September 30, 1977. The best approach to alleviate the problems caused by the delay in MSIS is to allow a delay in the reporting date for some of the community public water systems. However, it is necessary to get violation data from some public water systems in all States on January 1, 1978, in order to fulfill EPA reporting needs to Congress. The data on each violation to the NIPDWR is important because it provides our first complete assessment of water quality in community public water systems.

Since the larger public water supplies protect most of the population and are likely to have fewer violations, we would modify the regulations to require the annual summary of violations for FY 1977 to be submitted in

two parts. Violations in supplies serving more than 25,000 population would have to be submitted by January 1, 1978. Violations in supplies serving 25,000 or fewer people would be due June 1, 1978. This would allow the States an additional six months to get MSIS installed and get the FY 1977 data onto MSIS before most of the violations would be reported. There would be no deviation in the requirements for FY 1978 data which would be due on January 1, 1979. Since there will be very few variances and exemptions or enforcement actions, no change in the requirements of § 142.15 pertaining to these reports is warranted.

Dated: January 31, 1978.

DOUGLAS M. COSTLE,
Administrator.

40 CFR Part 142 is amended as follows:

1. Section 142.10(b)(6)(vi) is amended to read:

§ 142.10 Requirements for a determination of primary enforcement responsibility.

• • • • •
(b) • • •
(6) • • •
(vi) Authority to assess civil or criminal penalties for violation of the State's primary drinking water regulations and public notification requirements, including the authority to assess daily penalties or multiple penalties when a violation continues.

• • • • •
2. Section 142.15(b)(1) is amended to read:

§ 142.15 Reports by States.

• • • • •
(b) • • •
(1) Summary of violations by public water systems in the State of primary drinking water regulations, except public water systems serving fewer than 25,000 population which will have until June 1, 1978, to report the FY 1977 violations only, and of enforcement actions taken by the State;

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 481—CERTIFICATION OF CERTAIN HEALTH FACILITIES

Rural Health Clinics: Conditions for Certification

AGENCY: Health Care Financing Administration (HCFA), HEW

ACTION: Final rule.

SUMMARY: These regulations establish the conditions that rural health clinics must meet in order to be certified as suppliers of services under Medicare and Medicaid. They implement some of the provisions of the Rural Health Clinic Services Act of 1977 (Pub. L. 95-210) which is effective on March 1, 1978, for Medicare, and on July 1, 1978, for Medicaid. The intent is to increase the availability of medical care and services to residents of rural areas that have a shortage of health manpower.

EFFECTIVE DATE: February 8, 1978. Although notice of proposed rulemaking has been waived, we will welcome written comments, suggestions, or objections received by (45 days) with a view to revising these regulations. Please refer to HSC-47-RC. Agencies and organizations are requested to submit comments in duplicate.

ADDRESSES: Address comments to: Administrator, Health Care Financing Administration, P.O. Box 2382, Washington, D.C. 20013. Comments will be

available for public inspection, beginning approximately 2 weeks after publication, in room 5225 of the Department's offices at 330 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m. 202-245-0950.

FOR FURTHER INFORMATION CONTACT:

Lorraine Kytte, Health Standards and Quality Bureau, HCFA, Rm. 349, 6401 Security Boulevard, Baltimore, Md. 21235, 301-594-9748.

SUPPLEMENTARY INFORMATION: Many isolated rural communities have not been able to attract or retain physicians and residents of these areas needing medical care must rely on clinics that cannot follow the traditional model of physician delivery of medical services. These clinics are, in many instances, staffed by nurse practitioners and physician assistants who are specially trained to provide medical care traditionally furnished by physicians. Although there is physician supervision, it is often indirect rather than "over-the-shoulder."

The Rural Health Clinic Services Act of 1977 (Pub. L. 95-210, December 13, 1977) extends Medicare and Medicaid coverage for medical services, furnished by a rural health clinic that meets the terms and conditions of the Act, which would otherwise be covered if furnished by a physician or incident to a physician's services.

The regulation sets forth the requirements which a clinic must meet in order to be certified for participation in Medicare or Medicaid. The Department will soon be issuing two more regulations to implement Pub. L. 95-210. One will govern coverage and reimbursement under Medicare, and will become effective for services furnished by a certified rural health clinic beginning March 1, 1978. The other will govern coverage and reimbursement under Medicaid, for which certified rural health clinics become eligible beginning July 1, 1978.

A rural health clinic interested in becoming certified under this regulation can obtain further information and application forms from the State agency responsible generally for certifying providers and suppliers of medical services for participation in Medicare and Medicaid. Typically, this is the State Health Department.

In drafting these regulations, the Department has tried to heed the clear legislative intent that the requirements for these clinics take into account their unique circumstances and be more flexible and less complex than requirements applicable to hospitals and other large institutions. (See House Report 95-548, Part II, p. 10.) The Department intends to implement these regulations in the same spirit.

MAJOR PROVISIONS

1. Location of the clinic. In order to be certified, a clinic must be located in

an area that has been designated by the U.S. Bureau of the Census as rural and has been designated by the Secretary of HEW as having a shortage of personal health services or primary medical care manpower. For convenience, the criteria for such designations are summarized in section 481.5 of the regulation, but the governing requirements are not reproduced in their entirety. A rural area is any area not designated as an urbanized area. Anyone who wishes to determine whether an area in question falls within the Bureau of Census criteria could inquire at the nearest public library.

Determinations of shortage areas are made by the Secretary under two alternative provisions. One is section 1302(7) of the Public Health Services Act, for which the responsibility within HEW has been given to the Bureau of Community Health Services, Health Services Administration. The most recent listing of shortage areas under this section was published on October 15, 1976 in volume 41 of the FEDERAL REGISTER, page 45718.

The other provision for designating shortage areas is section 332(a)(1)(A) of the Public Health Services Act, for which responsibility lies with the Bureau of Health Manpower, Health Resources Administration. Designations under this section are set forth at volume 42, page 1586 of the FEDERAL REGISTER (January 10, 1978).

The statute sets forth two "grandfather" provisions, under which a clinic may obtain or retain certification, even if the conditions for being in a rural, shortage area are not met. First, if a facility qualifies as a rural health clinic but the area in which it is located subsequently loses its designation as rural or as a shortage area, the clinic will remain qualified. Second, a private, nonprofit clinic that was operating on July 1, 1977 in a rural area which is not designated as a shortage area, but which the Secretary determines to have an insufficient supply of physicians, can qualify for certification. These two provisions are spelled out in section 481.5 of the regulation.

2. Staffing requirements. The major innovation accomplished by P.L. 95-210 is to provide Medicare and Medicaid coverage for medical services furnished by a qualified physician assistant or nurse practitioner. Although a clinic must still have one or more physicians available to provide medical direction and carry out other specified responsibilities, the clinic's services may be furnished by a nurse practitioner or physician assistant, as those terms are defined in the regulation. Moreover, every clinic must have at least one nurse practitioner or physician assistant on the staff, irrespective of how many hours a physician, in fact, is present at the clinic. (This is a

statutory requirement and means that rural health clinics can be certified only if the State permits—that is, does not explicitly prohibit—the delivery of primary health care by a nurse practitioner or a physician assistant.) The clinic staff may also include other health professionals, such as nurse midwives and other nurse practitioners who specialize in a particular range of services.

The respective responsibilities of physicians and the physician assistants or nurse practitioners are specified in section 481.8. In brief, a physician must provide medical supervision and guidance for the physician assistants and nurse practitioners, prepare medical orders, and review periodically the services furnished by the clinic. A physician must be present at the clinic for sufficient periods of time to fulfill these responsibilities and must be available at all other times, by direct means of communication, for advice and assistance on patient referrals and medical emergencies. In order to assure the presence of a physician on a regular, but only minimally necessary basis, the regulation requires that a physician be present at the clinic at least once in every two week period, subject to extraordinary circumstances. A clinic operated by a nurse practitioner or physician assistant may satisfy these requirements through agreements with one or more physicians.

In addition to furnishing clinic services, the nurse practitioners and physician assistants participate in developing and administering the clinic's patient care policies, assure proper maintenance of patient records, and arrange for patients to receive necessary services not furnished by the clinic.

In accordance with the statutory authorization to establish training, education and experience requirements for nurse practitioners and physician assistants, this regulation sets forth alternative, minimum credentials in the definition of those terms. We are aware that there are graduates of special education programs, that are not accredited or certified by the major accrediting body, who have been providing medical services in settings comparable to rural health clinics. The regulation, therefore, includes in the definition of these terms people who have graduated from such programs and have been providing primary medical care services for at least 12 months (not necessarily consecutive) during the 18 months immediately preceding the effective date of this regulation.

3. Services provided. The purpose of the Rural Health Clinic Services Act is primarily to make available outpatient or ambulatory care of the nature typically provided in a physician's office, or outpatient clinic, or emergency room and the like. The regulation, at

section 481.9, specifies the services which must be made available by the clinic, including specified types of diagnostic examinations, laboratory tests, and emergency treatments. In addition, the clinic must have made arrangements with other providers or suppliers of services, who are participating in Medicare or Medicaid, to make sure that its patients will receive other services not provided by the clinic, including other diagnostic examinations, physician services and inpatient hospital care.

It should be noted that a rural health clinic may also provide part-time or intermittent nursing care to home-bound patients, if it is located in an area in which there is a shortage of home health agencies. The terms and conditions for providing such services are not set forth in this regulation, but will be treated in the other regulations implementing P.L. 95-210, referred to above.

4. Physical facilities. Although clinic services may be furnished in the patient's home, in a nearby hospital or nursing home, or at any other location needed by the patient, the clinic must also have a facility at which the patient can receive services. This may be one or more buildings or structures or it may be a mobile unit. If services are provided at more than one permanent unit and the locations are widely dispersed, each such unit must be separately surveyed and certified under the regulation, even if all are treated as a single unit for purposes of reimbursement under Medicare or Medicaid.

The clinic facilities must meet minimum standards for the safety of patients, including measures to assure the safety of patients in case of a non-medical emergency.

5. Certification procedures. A rural health clinic will be certified for participation in Medicare in accordance with the normal certification process set forth in Subpart S of the Medicare regulations, 42 CFR Part 405. This means that, in most states, certification will be done by the State health department, pursuant to an agreement with HEW. The normal Medicaid certification will also be used and a clinic certified under Medicare will be deemed to meet the standards for certification under Medicaid.

In this regard, it should be noted that if a State permits the provision of primary medical care by a nurse practitioner or physician assistant, the State Medicaid plan must include rural health clinic services in accordance with section 1902(a)(13) and 1905(a)(2) of the Social Security Act (42 U.S.C. 1396a(a)(13), 1396d(a)(2)).

6. Other requirements. The regulation contains several other provisions relating to the organizational structure of the clinic, the development of

written patient care policies, the maintenance and confidentiality of patient records, and an annual evaluation of the clinic. Of particular note is the requirement that a clinic be assisted in the development of its patient care policies by a group of health professionals composed of one or more physicians and one or more nurse practitioners or physician assistants. At least one member of the group must be a health professional who is not a member of the clinic staff.

WAIVER OF PROPOSED RULEMAKING

As noted above, under the terms of Pub. L. 95-210 (which was enacted on December 13, 1977) rural health clinics become eligible for reimbursement under Medicare on March 1, 1978 and under Medicaid on July 1, 1978. In view of these severe time constraints, and the desire to have rural health clinic services available to Medicare and Medicaid patients as soon as possible, the Secretary has determined that there is good cause to waive Notice of Proposed Rulemaking and opportunity for public comment prior to issuing this regulation.

Although rulemaking has been waived, public comments and recommendations on the regulation are invited and will be evaluated with a view towards possible revision.

42 CFR Chapter IV is amended by adding a new Part 481 to read as follows:

Subpart A—Rural Health Clinics: Conditions for Certification

Sec.	
481.1	Purpose and scope.
481.2	Definitions.
481.3	Certification procedures.
481.4	Compliance with Federal, State and local laws.
481.5	Location of clinic.
481.6	Physical plant and environment.
481.7	Organizational structure.
481.8	Staffing and staff responsibilities.
481.9	Provision of services.
481.10	Patient health records.
481.11	Program evaluation.

AUTHORITY: Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).

§ 481.1 Purpose and scope.

This subpart sets forth the conditions that rural health clinics must meet in order to qualify for reimbursement under Medicare (Title XVIII of the Social Security Act) and Medicaid (Title XIX of the Act).

§ 481.2 Definitions.

As used in this subpart, unless the context indicates otherwise:

(a) "Direct services" means services provided by the clinic's staff.

(b) "Nurse practitioner" means a registered professional nurse who is currently licensed to practice in the State, who meets the State's requirements governing the qualifications of

nurse practitioners, and who meets one of the following conditions:

(1) Is currently certified as a primary care Nurse Practitioner by the American Nurses' Association or by the National Board of Pediatric Nurse Practitioners and Associates; or

(2) Has satisfactorily completed a formal 1 academic year educational program that:

(i) prepares registered nurses to perform an expanded role in the delivery of primary care;

(ii) includes at least 4 months (in the aggregate) of classroom instruction and a component of supervised clinical practice; and

(iii) awards a degree, diploma, or certificate to persons who successfully complete the program; or

(3) Has successfully completed a formal educational program that does not meet the requirements of paragraph (b)(2) of this section, and has been performing an expanded role in the delivery of primary care for a total of 12 months during the 18-month period immediately preceding the effective date of this subpart.

(c) "Physician" means a doctor of medicine or osteopathy legally authorized to practice medicine or surgery in the State.

(d) "Physician assistant" means a person who meets the applicable State requirements governing the qualifications for assistants to primary care physicians, and who meets at least one of the following conditions: (1) Is currently certified by the National Commission on Certification of Physician Assistants to assist primary care physicians; or

(2) Has satisfactorily completed a program for preparing physician's assistants that:

(i) Was at least 1 academic year in length;

(ii) Consisted of supervised clinical practice and at least 4 months (in the aggregate) of classroom instruction directed toward preparing students to deliver health care; and

(iii) Was accredited by the American Medical Association's Committee on Allied Health Education and Accreditation; or

(3) Has satisfactorily completed a formal educational program that does not meet the requirements of paragraph (d)(2) of this section and has been assisting primary care physicians for a total of 12 months during the 18-month period immediately preceding the effective date of this subpart.

(e) "Rural area" means an area that is not delineated as an urbanized area by the Bureau of the Census.

(f) "Rural health clinic" or "clinic" means a clinic that is located in a rural area designated as a shortage area, is not a rehabilitation agency or a facility primarily for the care and treatment of mental diseases, and meets all other requirements of this subpart.

(g) "Shortage area" means a defined geographic area designated by the Department as having either a shortage of personal health services (under section 1302(7) of the Public Health Service Act) or a shortage of primary medical care manpower (under Section 332 of that Act).

(h) "Secretary" means the Secretary of Health, Education, and Welfare, or any official to whom he has delegated the pertinent authority.

§ 481.3 Certification procedures.

A rural health clinic will be certified for participation in Medicare in accordance with Subpart S of 42 CFR Part 405. The Secretary will notify the State Medicaid agency whenever he has certified or denied certification under Medicare for a prospective rural health clinic in that State. A clinic certified under Medicare will be deemed to meet the standards for certification under Medicaid.

§ 481.4 Compliance with Federal, State and local laws.

The rural health clinic and its staff are in compliance with applicable Federal, State and local laws and regulations.

(a) *Licensure of clinic.* The clinic is licensed pursuant to applicable State and local law.

(b) *Licensure, certification or registration of personnel.* Staff of the clinic are licensed, certified or registered in accordance with applicable State and local laws.

§ 481.5 Location of clinic.

(a) *Basic requirement.* The clinic is located in a rural area that is designated as a shortage area, and may be a permanent or a mobile unit.

(1) *Permanent unit.* The objects, equipment and supplies necessary for the provision of the services furnished directly by the clinic are housed in a permanent structure.

(2) *Mobile unit.* The objects, equipment, and supplies necessary for the provision of the services furnished directly by the clinic are housed in a mobile structure which has fixed, scheduled location(s).

Under this requirement, if clinic services are furnished at permanent units in more than one location, each unit will be independently considered for certification as a rural health clinic.

(b) *Exceptions.* (1) A facility certified under this subpart will not be disqualified if the area in which it is located subsequently fails to meet the definition of rural, shortage area.

(2) A private, nonprofit facility that meets all other conditions of this subpart except for location in a shortage area will be certified if, on July 1, 1977, it was operating in a rural area that is determined by the Secretary (on the basis of the ratio of primary

care physicians to the general population) to have an insufficient supply of physicians to meet the needs of the area served.

(3) Determinations on these exceptions will be made by the Secretary upon application by the facility.

(c) *Criteria for designation of rural areas.* (1) Rural areas are areas not delineated as urbanized areas in the last census conducted by the Census Bureau.

(2) Excluded from the rural area classification are:

(i) central cities of 50,000 inhabitants or more;

(ii) cities with at least 25,000 inhabitants which, together with contiguous areas having stipulated population density, have combined populations of 50,000 and constitute, for general economic and social purposes, single communities;

(iii) closely settled territories surrounding cities and specifically designated by the Census Bureau as urban.

(3) Included in the rural area classification are those portions of extended cities that the Census Bureau has determined to be rural.

(d) *Criteria for designation of shortage areas.* (1) The criteria for determination of shortage of personal health services (under section 1302(7) of the Public Health Services Act), are:

(i) The ratio of primary care physicians practicing within the area to the resident population;

(ii) The infant mortality rate;

(iii) The percent of the population 65 years of age or older; and

(iv) The percent of the population with a family income below the poverty level.

(See 42 CFR 110.203(g) and 41 FR 45718, October 15, 1976.)

(2) The criteria for determination of shortage of primary medical care manpower (under section 332(a)(1)(A) of the Public Health Services Act) are:

(i) The area served is a rational area for the delivery of primary medical care services;

(ii) The ratio of primary care physicians practicing within the area to the resident population; and

(iii) The primary medical care manpower in contiguous areas is overutilized, excessively distant, or inaccessible to the population in this area.

(See 42 CFR Part 5; 42 FR 1588, January 10, 1978.)

§ 481.6 Physical plant and environment.

(a) *Construction.* The clinic is constructed, arranged, and maintained to insure access to and safety of patients, and provides adequate space for the provision of direct services.

(b) *Maintenance.* The clinic has a preventive maintenance program to ensure that:

(1) All essential mechanical, electrical and patient-care equipment is

maintained in safe operating condition;

(2) Drugs and biologicals are appropriately stored; and

(3) The premises are clean and orderly.

(c) *Emergency procedures.* The clinic assures the safety of patients in case of non-medical emergencies by:

(1) Training staff in handling emergencies;

(2) Placing exit signs in appropriate locations; and

(3) Taking other appropriate measures that are consistent with the particular conditions of the area in which the clinic is located.

§ 481.7 Organizational structure.

(a) *Basic requirements.* (1) The clinic is under the medical direction of a physician, and has a health care staff that meets the requirements of § 481.8.

(2) The organization's policies and its lines of authority and responsibilities are clearly set forth in writing.

(b) *Disclosure.* The clinic discloses the names and addresses of:

(1) Its owners, in accordance with Section 1124 of the Social Security Act (42 USC 132 A-3);

(2) The person principally responsible for directing the operation of the clinic; and

(3) The person responsible for medical direction.

§ 481.8 Staffing and staff responsibilities.

(a) *Staffing.* (1) The clinic has a health care staff that includes one or more physicians and one or more physician's assistants or nurse practitioners.

(2) The physician member of the staff may be the owner of the clinic, an employee of the clinic, or under agreement with the clinic to carry out the responsibilities required under this section.

(3) The physician's assistant or nurse practitioner member of the staff may be the owner of the clinic or an employee of the clinic.

(4) The staff may also include ancillary personnel who are supervised by the professional staff.

(5) The staff is sufficient to provide the services essential to the operation of the clinic.

(b) *Physician responsibilities.* (1) The physician:

(i) Provides medical direction for the clinic's health care activities and consultation for, and medical supervision of, the health care staff.

(ii) In conjunction with the physician's assistant and/or nurse practitioner member(s), participates in developing, executing, and periodically reviewing the clinic's written policies and the services provided to Federal program patients; and

(iii) Periodically reviews the clinic's patient records, provides medical

orders, and provides medical care services to the patients of the clinic.

(2) A physician is present for sufficient periods of time, at least once in every 2 week period (except in extraordinary circumstances), to provide the medical direction, medical care services, consultation and supervision described in paragraph (b)(1) of this section, and is available through direct telecommunication for consultation, assistance with medical emergencies, or patient referral. The extraordinary circumstances are documented in the records of the clinic.

(c) *Physician assistant and nurse practitioner responsibilities.* (1) The physician assistant and the nurse practitioner members of the clinic's staff:

(i) Participate in the development, execution and periodic review of the written policies governing the services the clinic furnishes;

(ii) Participate with a physician in a periodic review of the patients' health records.

(2) The physician assistant or nurse practitioner performs the following functions, to the extent they are not being performed by a physician:

(i) Provides services in accordance with the clinic's policies;

(ii) Arranges for, or refers patients to, needed services that cannot be provided at the clinic; and

(iii) Assures that adequate patient health records are maintained and transferred as required when patients are referred.

§ 481.9 Provision of services.

(a) *Basic requirements.* The clinic is primarily engaged in providing outpatient health services to persons of all ages and meets all other conditions of this subpart.

(b) *Patient care policies.* (1) The clinic's health care services are furnished in accordance with appropriate written policies which are consistent with applicable State law.

(2) The policies are developed with the advice of a group of professional personnel that includes one or more physicians and one or more physician assistants or nurse practitioners. At least one member is not a member of the clinic staff.

(3) The policies include:

(i) A description of the services the clinic furnishes directly and those furnished through agreement or arrangement.

(ii) Guidelines for the medical management of health problems which include the conditions requiring medical consultation and/or patient referral, the maintenance of health care records, and procedures for the periodic review and evaluation of the services furnished by the clinic.

(iii) Rules for the storage, handling, and administration of drugs and biologicals.

(4) These policies are reviewed at least annually by the group of professional personnel required under paragraph (b)(2) of this section, and reviewed as necessary by the clinic.

(c) *Direct services.*—(1) *General.* The clinic staff furnishes those diagnostic and therapeutic services and supplies that are commonly furnished in a physician's office or at the entry point into the health care delivery system. These include medical history, physical examination, assessment of health status, and treatment for a variety of medical conditions.

(2) *Laboratory.* The clinic provides basic laboratory services essential to the immediate diagnosis and treatment of the patient, including:

(i) Chemical examinations of urine by stick or tablet methods or both (including urine ketones);

(ii) Microscopic examinations of urine sediment;

(iii) Hemoglobin or hematocrit;

(iv) Blood sugar (stick or tablet method acceptable);

(v) Gram stain;

(vi) Examination of stool specimens for occult blood or pinworm;

(vii) Pregnancy tests; and

(viii) Primary culturing for transmittal to a certified laboratory.

(3) *Emergency.* The clinic provides medical emergency procedures as a first response to common life-threatening injuries and acute illness, and has available the drugs and biologicals commonly used in life saving procedures, such as analgesics, anesthetics (local), antibiotics, anticonvulsants, antidotes and emetics, serums and toxoids.

(d) *Services provided through agreements or arrangements.* (1) The clinic has agreements or arrangements with one or more providers or suppliers participating under Medicare or Medicaid to furnish other services to its patients, including:

(i) Inpatient hospital care;

(ii) Physician(s) services (whether furnished in the hospital, the office, the patient's home, a skilled nursing facility, or elsewhere); and

(iii) Additional and specialized diagnostic and laboratory services that are not available at the clinic.

(2) If the agreements are not in writing, there is evidence that patients referred by the clinic are being accepted and treated.

§ 481.10 Patient health records.

(a) *Records system.* (1) The clinic maintains a clinical record system in accordance with written policies and procedures.

(2) A designated member of the professional staff is responsible for maintaining the records and for ensuring that they are completely and accurately documented, readily accessible, and systematically organized.

(3) For each patient receiving health care services, the clinic maintains a record that includes, as applicable:

(i) Identification and social data, evidence of consent forms, pertinent medical history, assessment of the health status and health care needs of the patient, and a discharge summary;

(ii) Reports of physical examinations, diagnostic and laboratory test results, and consultative findings;

(iii) All physician's orders, reports of treatments and medications and other pertinent information necessary to monitor the patient's progress;

(iv) Signatures of the physician or other health care professional.

(b) *Protection of record information.*

(1) The clinic maintains the confidentiality of record information and provides safeguards against loss, destruction or unauthorized use.

(2) Written policies and procedures govern the use and removal of records from the clinic and the conditions for release of information.

(3) The patient's written consent is required for release of information not authorized by law.

(c) *Retention of records.* The records are retained for at least 5 years from date of last entry, and longer if required by State statute.

§ 481.11 Program evaluation.

(a) The clinic carries out, or arranges for, an annual evaluation of its total program.

(b) The evaluation includes review of:

(1) The utilization of clinic services, including at least the number of patients served and the volume of services;

(2) A representative sample of both active and closed clinical records; and

(3) The clinic's health care policies.

(c) The purpose of the evaluation is to determine whether:

(1) The utilization of services was appropriate;

(2) The established policies were followed; and

(3) Any changes are needed.

(d) The clinic staff considers the findings of the evaluation and takes corrective action if necessary.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20617; RM-2359; FCC 78-51]

PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA-PUBLIC FIXED STATIONS

Canada/United States Channeling Arrangements

AGENCY: Federal Communications Commission.

ACTION: Report and order amending the rules.

SUMMARY: Part 81 of the rules is amended to implement channeling arrangements between Canada and the United States for allocating VHF public coast station frequencies on the West Coast, Great Lakes and East Coast. These amendments are made in order to incorporate the arrangements, already final, in the rules.

EFFECTIVE DATE: March 11, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Robert P. DeYoung, Safety and Special Radio Services Bureau, 202-632-7197.

SUPPLEMENTARY INFORMATION:

Adopted: January 25, 1978.

Released: February 1, 1978.

By the Commission. Commissioner Washburn absent.

In the matter of proposed Canada/United States channeling arrangements for the West Coast, Great Lakes and St. Lawrence Seaway, and the East Coast for Appendix 18 maritime mobile correspondence frequencies, Docket No. 20617, RM 2359.

REPORT AND ORDER—PROCEEDING TERMINATED

1. On October 28, 1975, we released a Notice of Inquiry in the above captioned matter. All comments received favored adoption of the proposed arrangements. We subsequently finalized the arrangements with Canada by a letter to Canada signed by the Chairman of the Commission on December 15, 1976. On August 3, 1977, we released a Notice of Proposed Rule Making the purpose of which is to incorporate these arrangements into the Commission's rules (FCC 77-525). The Notice was published in the FEDERAL REGISTER on August 10, 1977 (42 FR 40455). No comments were received in reply to the Notice. The time for filing comments has now passed.

2. Accordingly, the rules will be amended as proposed in the Notice. In

doing so, however, it is necessary to clarify the statement in paragraph 4 of the Notice that the duplication of service criteria in § 81.303 will not be applied to applications in accordance with the West Coast arrangements. It was not intended to permit electrical interference between stations. It was intended to relieve them of the duplication of service criteria when necessary to implement the West Coast arrangements.

3. The Commission has on file an application by the Whidbey Telephone Co. which is not in accordance with the United States/Canada channeling arrangement for the West Coast, as set forth below. Accordingly, this application will be dismissed without prejudice to Whidbey's right to refile in accordance with the arrangements within thirty days of the effective date of this Report and Order. Should Whidbey refile in accordance with the plan and within the provided period its application will become mutually exclusive with another pending application.

4. Accordingly, it is ordered, That the rules are amended, by adding a Subpart S, and by adding a new footnote (6) to § 81.304(a), in accordance with the attached below, effective March 11, 1978.

5. It is further ordered, That the application of Whidbey Telephone Co. (File No. 43-M-L-65) is dismissed without prejudice to its right to refile in accordance with the arrangements within thirty days of the effective date of these rule amendments.

6. Authority for this action is contained in sections 4(i), 303(b), (c), (d), (f) and (r) of the Communications Act of 1934, as amended.

7. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; (47 U.S.C. 154, 303).)

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

Part 81 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In § 81.303, a new paragraph (e) is added to read as follows:

§ 81.303 Duplication of service.

(e) The 20 percent duplication criterion of paragraph (b) of this section is not applicable to applications filed in accordance with the West Coast United States/Canada channeling arrangements in Subpart S of this Part when application of the criterion would prevent implementation of the arrangements.

2. In § 81.304 a limitation symbol "6" is added in the Limitations column for

§ 81.304 Frequencies available.			
(a)			
Carrier frequency	Conditions of use		
	Section	Limitations	
MHz Megahertz			
Kilohertz			
156.800	81.304	25	
161.800	81.304	6, 22, 24	
161.825	81.304	6, 22, 24, 63	
161.850	81.304	6, 22, 24	
161.875	81.304	6, 22, 24, 63

(b)			
(6) This frequency is available for use by public coast stations serving the coastal areas of the State of Washington, including Puget Sound and the Province of British Columbia in accordance with the provisions of Subpart S of Part 81.			
3. A new Subpart S is added to read as follows:			
Subpart S—Canada/U.S.A. Channeling Arrangement for VHF Maritime, Public Correspondence			
Sec.			
81.901 Canada-U.S.A. arrangement.			
81.902 Definitions.			
81.903 Technical characteristics.			
81.904 Canada/U.S.A. Channeling arrangement for West Coast VHF maritime mobile public correspondence.			
81.905 Canada/U.S.A. VHF channeling arrangement on the Great Lakes and the St. Lawrence Seaway.			
81.906 Canada/U.S.A. channeling arrangement for East Coast VHF maritime mobile public correspondence.			
AUTHORITY: Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.			
Subpart S—Canada/U.S.A. Channeling Arrangement for VHF Maritime, Public Correspondence			
§ 81.901 Canada/U.S.A. arrangement.			
Pursuant to arrangements between the United States and Canada, assignment of VHF frequencies to public coast stations in certain areas of Washington State, the Great Lakes, and the East Coast of the United States shall be made in accordance with the provisions of this subpart.			

§ 81.902 Definitions.

On the West Coast, the following terms are defined as follows:

(a) *Public Correspondence Sector.* A distinct geographical area to which is allotted primary, supplementary and local channels.

(b) *Primary Channel.* A channel intended to cover the greater portion of a public correspondence sector. It may provide some coverage of an adjacent sector but must not cause harmful interference beyond the adjacent sector.

(c) *Supplementary Channel.* A channel intended to improve coverage of a portion of a sector poorly covered by a primary channel or to relieve traffic congestion on a primary channel. It must not cause harmful interference beyond the adjacent sector.

(d) *Local Channel.* A low-power channel designed to provide local coverage of certain bays, inlets and ports where coverage of primary or supplementary channels is poor or where heavy traffic loading warrants it. It must not cause harmful interference to primary or supplementary channels or to local channels in other sectors.

§ 81.903 Technical characteristics.

On the West Coast, technical characteristics of coast stations shall be as follows:

(a) For primary and supplementary channels the maximum transmitter power shall be 50 watts and the maximum ERP shall be 125 watts. Antennas shall be sited no higher than necessary to provide the desired coverage within the sector.

(b) For local channels the ERP shall not exceed 10 watts. Low siting, directive antennas and natural topography shall be employed to confine coverage to the local area and, in any event, to prevent harmful interference to channels in other sectors.

(c) For station design purposes the tolerable interference level shall be considered as a received signal of -107 dBm (-137 dBW) from a vertical dipole located 30 feet above the water.

§ 81.904 Canada/U.S.A. channeling arrangement for West Coast VHF maritime mobile public correspondence.

For purposes of this subpart, and on the West Coasts of Canada and the United States, channels shall be assigned, as follows:

(a) The provisions of the Canada/U.S.A. channeling arrangement apply to waters of the State of Washington and of the Province of British Columbia within the coordination boundaries of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz.

(b) The channeling arrangement applies to the following public correspondence channels: channels 24, 84, 25, 85, 26, 86, 27, 87 and 28.

(c) Coast stations may be established by either country in accordance with

the provisions of the arrangement without prior coordination with the other country. There shall, however, prior to implementation, be an exchange of information in respect of the establishment of new stations or a change in technical parameters of existing stations.

(d) Coast stations proposed for establishment which are not in accordance with the provisions of the arrangement shall be subject to prior coordination in accordance with the provisions of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz. Such stations shall not be protected from interference or cause interference to existing or future stations which are established in accordance with the provisions of the arrangement.

(e) Existing stations shall comply with the provisions of the arrangement within 12 months after it becomes effective.

(f) The agreed channeling arrangement for the West Coast is as follows:

ment within 12 months after it be- comes effective.			(f) The agreed channeling arrange- ment for the West Coast is as follows:

RULES AND REGULATIONS

CANADIAN/USA CHANNELLING ARRANGEMENT FOR
WEST COAST VHF MARITIME MOBILE PUBLIC CORRESPONDENCE

RULES AND REGULATIONS

§ 81.905 Canada/U.S.A. VHF channel-
ing arrangement on the Great Lakes
and the St. Lawrence Seaway.

For purposes of this subpart, chan-
nels on the Great Lakes and the St.
Lawrence Seaway shall be assigned, as
follows:

(a) The provisions of the arrange-
ment apply to the waters of the Great
Lakes and the St. Lawrence Seaway
within the coordination boundaries of
"Arrangement A" of the Canada/
U.S.A. Frequency Coordination Agree-
ment above 30 MHz.

(b) The arrangement applies to the
following public correspondence chan-
nels: channels 24, 84, 25, 85, 26, 86, 27,
87, 28, and 88.

(c) Canada and the U.S.A. will use
one shared channel, the following
channeling arrangement is agreed:

- (1) Canadian channels: 24, 85, 27, 88 (Note 1).
- (2) U.S. channels: 84, 25, 86, 87, 28 (Note 2).
- (3) Shared channel: 26 (Note 3).

NOTE 1.—Also assignable to U.S. stations
within the frequency coordination zone, fol-
lowing successful coordination with Canada.

NOTE 2.—Also assignable to Canadian sta-
tions within the frequency coordination
zone, following successful coordination with
the United States.

NOTE 3.—Changes to existing assignments
and new assignments within the frequency
coordination zone of either country are sub-
ject to prior coordination with the other Ad-
ministration.

§ 81.906 Canada/U.S.A. channeling ar-
rangement for East Coast VHF mari-
time mobile public correspondence.

For purposes of this subpart, chan-
nels on the East Coast shall be as-
signed, as follows:

(a) The provisions of the arrange-
ment apply to the Canadian and
U.S.A. east coast waters including the
St. Lawrence River east of the St.
Lawrence Seaway within the coordina-
tion boundaries of "Arrangement A"
of the Canada/U.S.A. Frequency Co-
ordination Agreement above 30 MHz.

(b) The arrangement applies to the
following public correspondence chan-
nels: Channels 24, 84, 25, 85, 26, 86, 27,
87, 28, and 88.

(c) Canada and the U.S.A. will use
one shared channel; the following
channeling arrangement is agreed:

- (1) Canadian channels: 24, 85, 27, 88 (Note 1).
- (2) U.S.A. channels: 84, 25, 86, 87, 28 (Note 2).
- (3) Shared channel: 26 (Note 3).

NOTE 1.—Also assignable to U.S. stations
within the frequency coordination zone, fol-
lowing successful coordination with Canada.

NOTE 2.—Also assignable to Canadian sta-
tions within the frequency coordination
zone, following successful coordination with
the United States.

NOTE 3.—Changes to existing assignments
and new assignments within the frequency
coordination zone of either country are sub-
ject to prior coordination with the other Ad-
ministration.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[6210-01]

FEDERAL RESERVE SYSTEM

[12 CFR Part 225]

[Reg. Y; Docket No. R-0001]

BANKHOLDING COMPANIES

Nonbanking Activities; Withdrawal of Proposed Rule Making

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Withdrawal of proposed rulemaking.

SUMMARY: In April 1974 the Board of Governors proposed to add to its list of permissible activities for bank holding companies underwriting and dealing in certain, Government-issued securities. The Board has considered the proposed amendment and has determined to proceed on a case-by-case basis rather than to adopt the proposed regulation. By considering each individual application to engage in the activity, the Board will be able to scrutinize closely the public benefits of the activity with respect to each individual applicant.

EFFECTIVE DATE: January 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Julius L. Loeser, Senior Attorney, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3236.

By notice of proposed rulemaking published in the FEDERAL REGISTER on April 10, 1974 (39 FR 13,007 (1974)), the Board of Governors proposed, in connection with an application filed by United Bancorp., Roseburg, Oreg., pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), to add to the list of activities that it has determined to be closely related to banking or managing or controlling banks (§ 225.4(a) of Regulation Y) the following:

Underwriting and dealing in such obligations of the United States, general obligations of any State and of any political subdivision thereof, and other obligations that State member banks of the Federal Reserve System may from time to time be authorized to underwrite and deal in.

By Order of October 19, 1976, the Board deferred action on the proposed

activity "for 12 months unless before that time actions by the Municipal Securities Rulemaking Board—created by Congress in 1975 to regulate the municipal securities field—make reconsideration appropriate in the Board's judgment." (41 FR 47,083 (1976).) At the same time, consideration of the United Bancorp application was similarly suspended, and an application by A. F. Stepp, Inc., Kansas City, Mo., to become a bank holding company was granted with the understanding that Board approval would be necessary for Stepp to retain ownership of a subsidiary engaged in the described nonbanking activity for more than the two-year period provided in section 4(a)(2) of the Act.

In order for the Board to approve an activity as permissible for a bank holding company under section 4(c)(8) of the Bank Holding Company Act, the Board must find that the activity satisfies two distinct tests. The activity must be determined (1) to be "closely related to banking or managing or controlling banks;" and (2) to be a proper incident thereto. The second test involves a weighing of public benefits that may be expected to flow from a bank holding company engaging in the activity against the possible adverse effects.

In its October 19, 1976 Order, the Board stated that it had concluded that the activity was "closely related" to banking. That decision was based upon the record before it and upon relevant Court decisions to the effect that an activity generally engaged in by banks directly is considered "closely related" to banking.¹

With respect to whether the proposed activity would "be a proper incident thereto," the Board stated that it would not at that time attempt to weigh the public benefits that might be expected to flow from a bank holding company engaging in the activity against any possible adverse effects. The Board noted that the Municipal Securities Rulemaking Board ("MSRB") had been formed in 1975, while the Board was considering the proposed activity, to promulgate, inter alia, rules concerning sales of securities by municipal securities dealers to

¹ National Courier Association v. Board of Governors of the Federal Reserve System, 516 F. 2d 1229 (D.C. Cir. 1975); and Alabama Association of Insurance Agents v. Board of Governors of the Federal Reserve System, 533 F. 2d 224 (5th Cir. 1976).

their affiliates, and in October 1976, the Board was uncertain whether actions of the MSRB might substantially alter then-current practices and operations in the industry. Without knowing what actions the MSRB might take, the Board was unable to balance properly the public benefits and any adverse effects of bank holding company performance of municipal and government securities underwriting and dealing. Accordingly, the Board suspended consideration of the activity and of the two pending applications.

It now appears that the MSRB will limit its near-term actions to disclosure standards, and to a large extent the uncertainty with regard to MSRB actions has been removed. The Board finds that the reasons the Board expressly relied upon in 1976 to suspend consideration of the proposed regulation and of the pending applications are no longer valid. Consequently, the Board hereby terminates its suspension of its consideration of the proposed regulation to engage in the proposed activity and of the pending applications.

The Board has considered whether to permit bank holding companies to engage in the proposed activity by regulation by adding the activity to the list of permissible activities found in the Board's Regulation Y, or whether to proceed by order, that is, on a case-by-case basis. On the basis of the information before it, the Board has determined to proceed on a case-by-case basis. By considering each individual application to engage in the activity, the Board will be able to closely scrutinize the public benefits of the activity with respect to each individual applicant bank holding company. Moreover, future actions of the MSRB may impact upon the activity, and the Board believes that the lingering uncertainty weighs against adding the activity to the permissible list in Regulation Y.

For these reasons, the Board believes that it would not be prudent to add this activity to those listed in the Board's Regulation Y at this time, but rather will proceed in this area by order considering individual applications on a case-by-case basis. The Board therefore concludes that consideration of such an amendment to Regulation Y should be, and hereby is, terminated.

By order of the Board of Governors, effective.

THEODORE E. ALLISON,
Secretary of the Board.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 207, 208, 212, 214]

[EDR-343-A; Docket No. 31229; Dated: February 6, 1978]

CHARTER FLIGHT DELAYS AND SUBSTITUTE AIR TRANSPORTATION

Supplemental Notice of Proposed Rulemaking

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: This notice extends for 60 days the filing date for comments in a rulemaking proceeding about charter flight delays. This action was requested by several carriers.

DATE: Comments by April 14, 1978.

ADDRESSES: Comments should be sent to Docket 31229, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Docket comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Dyson, Office of General Counsel, Rules Division, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5444.

SUPPLEMENTARY INFORMATION: By Notice of Proposed Rulemaking EDR-343, dated December 22, 1977 (42 FR 64905, December 29, 1977), the Board proposed to change its regulations, so as to allow a maximum of six hours' delay on all charter flights by all types of carriers. Comments in response to the notice are due February 13, 1978.

In a letter dated January 30, 1978, counsel for the National Air Carrier Association (NACA) requested an extension of 60 days for filing comments in response to EDR-343. It also requested that a procedure be established for the filing of reply comments 31 days later. The request was supported in three letters dated January 31, 1978, from counsel for several charter-only foreign air carriers.¹

The NACA request stated that the NACA carriers have undertaken a detailed analysis of their historic operat-

¹ British Caledonian Airways, Ltd., Dan-Air Services Ltd., and Condor Flugdienst G.m.b.H.

PROPOSED RULES

ing data, the Board's consumer complaint files, and FAA records concerning flight delays. It stated that this analysis and the preparation of alternative proposals based on it requires additional time. It also suggested that, in light of the variety of alternatives likely to be recommended by the commenters, a period for reply comments would be appropriate.

Upon consideration of the above, the undersigned finds good cause to grant this request for a reasonable extension of time for the preparation of views on the proposed rule.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the time for filing comments is extended to April 14, 1978. However, insofar as there is a request for a period for reply comments, which also entails establishing a Service List, the undersigned does not have delegated authority to grant this relief, but he is recommending to the Board that it should issue promptly a supplemental notice announcing that this relief is granted.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743, (49 U.S.C. 1324).)

SIMON J. EILENBERG,
Associate General Counsel,
Rules Division.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[Docket No. 9060]

DRIVER TRAINING INSTITUTE, INC., ET AL.

Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a Brooklyn, N.Y., truck and tractor-trailer training school to cease misrepresenting job opportunities, potential earnings, employment demands for their graduates, and the effectiveness of their job placement activities. Further, firm is required to make timely, prescribed disclosures regarding cooling-off periods, cancellation rights, and job success of former trainees. Additionally, the order requires that firm establish a \$50,000 restitution fund to provide refunds to eligible, former students, and maintain a surveillance program designed to ensure proper compliance with the terms of the order.

DATE: Comments must be received on or before April 7, 1978.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, Sixth Street, and Pennsylvania Avenue, NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

John F. Dugan, Acting Director, New Regional Office, 2243-EB Federal Building, 26 Federal Plaza, New York, N.Y. 10007, 212-264-1200.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 3.25(f) of the Commission's Rules of Practice (16 CFR 3.25(f)), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

In the matter of Driver Training Institute, Inc., a corporation; Drivers Unlimited, Inc., a corporation; Ran-Lynn Rental and Service Corp., a corporation, and Herbert Gruen, a.k.a. Herbert Gruenstein, individually and as an officer of said corporations.

The Federal Trade Commission having issued its complaint on October 3, 1975 charging the respondents named in the caption hereof with violation of section 5 of the Federal Trade Commission Act, as amended, and it now appearing that Driver Training Institute, Inc., a corporation, Drivers Unlimited, Inc., a corporation, Ran-Lynn Rental and Service Corp., a corporation, and Herbert Gruen, a.k.a. Herbert Gruenstein, individually and as an officer of said corporations are willing to enter into an agreement containing a consent order to cease and desist, it is hereby agreed that the agreement herein, by and among Driver Training Institute, Inc., a corporation, Drivers Unlimited, Inc., a corporation, Ran-Lynn Rental and Service Corp., a corporation, by their duly authorized officer, and Herbert Gruen, a.k.a. Herbert Gruenstein, individually and as an officer of said corporations, and their attorneys, and counsel for the Federal Trade Com-

mission, is entered into in accordance with the Commission's Rules governing consent order procedure.

1. Respondents Drivers Unlimited, Inc., and Ran-Lynn Rental and Service Corp. are corporations organized, existing and doing business under and by virtue of the laws of the State of New York, with their principal office and place of business located at 50 Greenpoint Avenue, Brooklyn, N.Y. Driver Training Institute, Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of New Jersey, with its principal office and place of business located at 50 Greenpoint Avenue, Brooklyn, N.Y.

Respondent Herbert Gruen, a.k.a. Herbert Gruenstein, is an individual and an officer of the corporate respondents and also does business under the firm name of Driver Training Institute. Said individual respondent formulates, directs and controls the policies, acts and practices of the corporate respondents, including the acts and practices hereinafter set forth. His business address is the same as that of the corporate respondents.

2. Respondents have been served with a copy of the complaint issued by the Commission on October 3, 1975, charging them with violation of section 5 of the Federal Trade Commission Act, as amended, together with a form of order the Commission believes warranted in the circumstances.

3. Respondents admit all the jurisdictional facts set forth in the said copy of the complaint issued by the Commission.

4. Respondent waive: (a) Any further procedural steps; (b) The requirement that the Commission's decision contains a statement of findings of fact and conclusions of law; and (c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

5. This agreement shall not become a part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it, together with the complaint, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclosed facts or considerations which indicate that the order contained in the agreement is inappropriate, improper or inadequate.

6. This agreement is for settlement purposes only and does not constitute an admission by respondents that the law has been violated as alleged in the said copy of the complaint issued by the Commission.

7. This agreement contemplates that, if it is accepted by the Commis-

sion, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 3.25(d) of the Commission's Rules, the Commission may, without further notice to the respondents: (1) Issue its decision containing the following order to cease and desist in disposition of the proceeding; and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the decision containing the agreed-to order to respondents' business address as stated in this agreement shall constitute service. Respondents waive any right they may have to any other manner of service. The complaint may be used in construing the terms of the order and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

8. Respondents have read the complaint and order contemplated hereby. Respondents understand that the Commission may, at its discretion, require that a proposed agreement containing an order to cease and desist be accompanied by an initial report signed by respondents setting forth in precise detail the manner in which the respondents will comply with the order when and if entered pursuant to the provisions of § 3.25 of the Commission's Rules. Respondents further understand that once the order has been issued, respondents will be required to file one or more compliance reports showing that they have fully complied with the order, and that they may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

9. Compliance with Part III of this Order satisfies fully any claim for consumer redress which the Commission has under sections 5(b) and 19 of the Federal Trade Commission Act, as amended, arising out of the acts and practices alleged in the complaint. By its final acceptance of this agreement, the Commission waives its right to commence a civil action under section 19 of the Federal Trade Commission Act, as amended, with respect to the acts and practices alleged in the Commission's complaint.

ORDER

I

It is ordered, That respondents Driver Training Institute, Inc., a corporation, Drivers Unlimited, Inc., a corporation, Ran-Lynn Rental and Service Corp., a corporation, their suc-

cessors and assigns and their officers, and Herbert Gruen, a.k.a. Herbert Gruenstein, individually, and as an officer of said corporate respondents, and doing business under the firm name of Driver Training Institute, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, franchise, or other device in connection with the advertising, promoting, offering for sale, sale or distribution of courses of study, training or instruction in the field of truck driving or any other subject, trade or vocation in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, as amended, do forthwith cease and desist from:

1. Representing, orally, visually, in writing, or in any other manner, directly or by implication, that:

(a) There is a significant or substantial need or demand of any size or proportion for persons completing any of respondents' courses offered in the field of truck driving or any other field, or otherwise representing that opportunities for employment, or opportunities of any type or number are available to such persons, or that persons completing said courses will or may earn a specified amount of money, or otherwise representing by any means the prospective earnings of such persons, except as hereafter provided in Paragraph 5.

(b) The placement service offered by respondents has been successful in placing respondents' graduates in positions as truck and tractor-trailer drivers; or misrepresenting in any manner the effectiveness or success of respondents' placement service in obtaining employment for graduates of any course of training.

(c) Experience is not required or advantageous for employment as truck and tractor-trailer drivers; or misrepresenting in any manner the qualifications or requirements necessary to obtain employment as a truck or tractor-trailer driver.

2. Misrepresenting orally, visually, in writing or in any other manner, directly or by implication:

(a) The employment prospects of respondents' graduates or the ease with which respondents' graduates will attain employment.

(b) The types of jobs available to respondents' graduates, or that there will be job security or steady employment for respondents' graduates in positions for which respondents train such persons.

3. Failing to disclose, in writing, clearly and conspicuously, prior to the signing of any contract, to any prospective enrollee of any truck or tractor-trailer driver training course offered by respondents, the following information:

(a) The title "IMPORTANT INFORMATION" printed in ten (10) point

bold face type across the top of the form.

(b) Paragraphs providing the following information: (1) Many employers of truck or tractor-trailer drivers prescribe a minimum age of twenty-one (21) years of age for interstate drivers; (2) many employers of truck or tractor-trailer drivers give preferential consideration in hiring to driver-applicants with actual truck or tractor-trailer driving experience.

4. Failing to keep adequate records which may be inspected by Commission staff members upon reasonable notice which substantiate the data and information required to be disclosed by paragraph 5 of this Order and prescribed in Appendix A.

5. Failing to disclose, in writing, clearly and conspicuously, prior to the signing of any contract, to any prospective enrollee of any course of instruction in the field of truck driving or any other subject, trade or vocation offered by respondents, the following information in the format prescribed in Appendix A and for a base period designated as described in Appendix B:

(a) The number and percentage of enrollees who have failed to complete their course of instruction, such percentage to be computed separately for each course of instruction offered by respondents at each school, location or facility;

(b) The placement rate, ratio or percentage for enrollees and graduates, and also the numbers upon which such rates, ratios or percentages are based, such rate or percentage to be computed separately for each course of instruction offered by respondents at each school, location or facility;

(c) The salary range of respondents' graduates as to the same graduates used to compute the placement percentage in (b) above;

(d) A list of firms or employers which are currently hiring graduates of said courses in substantial numbers and in the positions for which such graduates have been trained, and the number of such graduates hired, as to the same graduates used to compute the placement percentage in (b) above.

Provided, however, This paragraph shall be inapplicable to any school newly established by respondents in a metropolitan area or county, whichever is larger, where they previously did not operate a school, or to any course newly introduced by respondents, until such time as the new school or course has been in operation for the base period established pursuant to Appendix B as prescribed in this paragraph. However, during such period the following statement, and no other, shall be made in lieu of the Appendix A Disclosure Form required by this paragraph:

DISCLOSURE NOTICE

This school (or course, as the case may be) has not been in operation

I hereby cancel this transaction.

(Buyer's signature)

(Date)

6. (a) Contracting for the sale of any course of instruction in the field of truckdriving or any other subject, trade or vocation in the form of a sales contract or any other agreement which does not contain in immediate proximity to the space reserved in the contract for the signature of the prospective enrollee in boldface type of a minimum size of ten (10) points, a statement in the following form:

You, the prospective enrollee, may cancel this transaction at any time prior to midnight of the seventh business day after the date of this transaction. See attached notice of cancellation form for an explanation of this right.

(b) Failing to furnish each prospective enrollee, at the time he signs the sales contract or otherwise agrees to enroll in a course of instruction in the field of truckdriving or any other subject, trade or vocation offered by respondents, a complete form in duplicate, which shall be attached to the contract or agreement, and easily detachable, and which shall contain in ten (10) point boldface type the following information and statements:

NOTICE OF CANCELLATION

(enter date of transaction)

(Date)

You may cancel this transaction, without any penalty or obligation, within seven (7) business days from the above date.

If you cancel, any payments made by you under the contract or sales, and any negotiable instrument executed by you will be returned within ten (10) business days following receipt by the seller of your cancellation notice, and any security interest arising out of this transaction will be cancelled.

If you cancel this transaction you must return, in substantially as good condition as when received, any books or other materials provided to you under this contract or sale. These materials must be mailed or delivered by you to (address of seller's place of business) within twenty (20) days of the date you cancel this transaction. If you fail to return these materials, then you will remain liable for payment of their reasonable costs. To cancel this transaction, mail or deliver a signed and dated copy of this cancellation notice or any other written notice, or send a telegram to (name or seller), at (address of seller's place of business) not later than midnight of

(Date)

(c) Failing to orally inform each prospective enrollee of his right to cancel at the time he signs a contract or agreement for the sale of any course of instruction.

(d) Misrepresenting in any manner the prospective enrollee's right to cancel.

(e) Failing or refusing to honor any valid notice of cancellation by a prospective enrollee and within ten (10) business days after the receipt of such notice, to: (i) refund all payments made under the contract or sale; (ii) return any goods or property traded in, in substantially as good condition as when received by respondents; (iii) cancel and return any negotiable instrument executed by the prospective enrollee in connection with the contract or sale.

(f) During the cancellation period described herein, respondents shall not initiate contacts with such contracting persons other than contact permitted by this paragraph, and other than contact no earlier than five (5) days following the signing of the contract by the prospective student, which contact shall be limited solely to determining whether the prospective student has obtained a learners permit.

(g) This paragraph 6 shall not apply to any course of instruction whose purpose is a vocational and which does not exceed seven (7) days in duration of less than full-time training and does not cost more than \$150.

7. Making any representations of any kind whatsoever, which are not already prescribed by other provisions of this Order, in connection with the advertising, promoting, offering for sale, sale or distribution of courses of study, training or instruction in the field of truck driver training or any other course offered to the public in any field in or affecting commerce, for which respondents have no reasonable basis prior to the making or dissemination thereof.

8. In the event the Commission promulgates a final Trade Regulation Rule on Advertising, Disclosure, Cooling-Off and Refund Requirements Concerning Proprietary Vocational and Home Study Schools, then, upon the effective date of such Rule, such Trade Regulation Rule shall completely supersede and replace the provisions of this Order set forth in Part I, Paragraphs 1(a), 4, 5 and 6, provided that if no provision of the Trade Regulation Rule relates in whole or in part to any matter covered by provisions of one of the aforesaid paragraphs of this Order, then said provi-

sions of said paragraph shall remain in full force and effect.

II

It is further ordered. That respondents: (1) Deliver, or cause to be delivered, a copy of this Order to all persons who now or in the future become franchisees of respondents for the operation of a vocational school program.

(2) Inform all franchisees that respondents are obligated to terminate those franchisees who continue the acts or practices prohibited by this Order.

(3) Institute a program of continuing surveillance to reveal whether the business operations of each of said franchisees conform to the requirements of this Order.

(4) Upon receiving actual knowledge from any source (including but not limited to respondents' program of surveillance, and representatives of the Federal Trade Commission) of facts indicating a violation of any provision of this Order by any of respondents' present or future franchisees, respondents shall within 24 hours notify such franchisee by certified mail, return receipt requested, that such violation of this Order has occurred ("Notice"), and that respondents will discontinue dealing with said franchisee upon receipt by respondents of actual knowledge of any further violations of this Order by such franchisee. Respondents shall obtain from such franchisee written acknowledgement of receipt of such Notice which acknowledgement shall indicate the date of receipt of such "Notice".

Upon receiving actual knowledge from any source (including but not limited to respondents' program of surveillance and representatives of the Federal Trade Commission) of facts indicating any violations of any provision of this Order, following a franchisee's receipt of the aforesaid "Notice", respondents shall permanently terminate such franchisee.

III

It is further ordered. That:

1. For the purposes of Part III of this Order, the following definitions shall apply:

(a) The term "Purchasers" shall mean those students who paid all or some portion of their own tuition to respondents and who did not have their tuition paid in full by any Federal, State or local government agency or department, or any private business or other organization;

(b) The term "Relevant Time Period" shall mean the period commencing October 1, 1972 and continuing through December 31, 1976.

2. Respondents shall submit to the New York Office of the Federal Trade

Commission, within five (5) days after the date this Order is served on respondents (hereinafter "date of service"), a notarized affidavit, executed by respondent Herbert Gruen, to the effect that respondents have made or have caused to be made a good faith search of documents that pertain to purchasers of respondents' truck and tractor-trailer training courses of instruction, and that respondents, to the best of their knowledge, have previously or simultaneously with said affidavit submitted to the Commission the names all such purchasers enrolled in said courses during the relevant time period.

3. Respondents or their designee shall make an inquiry in writing, on the ninetieth (90th) day after the date of service, in the language, manner and form shown in Appendices C and D, by first class mail with the envelope captioned "Address Correction Requested," accompanied by a self-addressed, postage prepaid envelope, to the home address of each former purchaser of respondents' truck or tractor-trailer courses whose name was submitted by respondents to the Commission. Counsel for respondents shall submit an affidavit of mailing, together with a postal certificate of mailing, to the New York Regional Office of the Federal Trade Commission within ninety-five (95) days after the date of service.

4. With respect to each purchaser whose mailed inquiry is returned undelivered, respondents or their designee shall have a duty to mail on the one hundred and thirtieth (130th) day after the date of service the same inquiry, by first class mail, to such purchaser's business address and to the address of such purchaser's nearest relatives as appear in personal information records, including but not limited to student or placement files, placement records and survey records maintained by respondents. Respondents shall submit to the New York Regional Office of the Federal Trade Commission, on or before the one hundred and thirty-fifth (135th) day after service, a notarized affidavit, executed by respondent Herbert Gruen, to the effect that respondents have made or have caused to be made, a good faith search of such personal information records as pertain to purchasers whose inquiries were returned undelivered, and that inquiries in writing, in the language, manner and form shown in Appendices C and D, were mailed to each such purchaser at his business address and the address of his nearest relative, as appear in his personal information records. Counsel for respondents shall submit an affidavit of mailing, together with a postal certificate of mailing, to the New York Regional Office of the Federal Trade Commission within one hundred and thirty-

five (135) days after the date of service.

5. Respondents shall use the information that they receive from the completed questionnaires solely for purposes of determining the eligibility of Purchasers who attended DTI during the Relevant Time Period for refunds.

6. "Eligible Class Member" means those purchasers who:

(a) Enrolled in respondents' truck and tractor-trailer training courses during the relevant time period; and

(b)(1) Completed respondents' truck and tractor-trailer courses; or (2) Elected not to complete respondents' truck and tractor-trailer courses because of a lack of job demand or lack of employment qualifications such as minimum age or experience; and

(c)(1) Sought employment as a truck or tractor-trailer driver; or (2) Elected not to seek employment as a truck or tractor-trailer driver because of a lack of job demand or lack of employment qualifications such as minimum age or experience; and

(d)(1) Did not attain employment as a truck or tractor-trailer driver; or (2) Worked as a truck or tractor-trailer driver for twenty percent (20%) of the time or less since terminating respondents' truck and tractor-trailer training courses.

7. Respondents shall make pro rata refund payments to each eligible class member based upon the proportion that total tuitions paid by or for all such eligible class members bear to the total amount available for refunds as provided in Part III of this Order, except that eligible class members whose tuition was paid in part by a federal, state or local government agency or department, or by a private business or other organization, shall receive a pro rata refund based only on that amount of the eligible class members' tuition not paid by a federal, state or local government agency or department, a private business or other organization. In no event shall any eligible class member receive an amount greater than the tuition paid by such eligible class member.

8. Respondents shall ultimately provide a sum of no greater than fifty thousand dollars (\$50,000) solely to provide refunds under Part III of this Order. No charges against this amount shall be made for administrative costs, which shall be absorbed by the respondents.

9. Respondents shall deposit, on or before the tenth business day after the date of service, the sum of fifty thousand dollars (\$50,000) into an escrow account at a banking institution to be agreed on between respondents and a member of the New York Office of the Federal Trade Commission. The principal amount of said bank account shall be available only

for the payment of refunds under the provisions of Part III of this Order. Withdrawals and orders against this account shall, by agreement, be effective only when countersigned by the individual respondent, together with the Commission's representative at the New York Regional Office of the Federal Trade Commission.

10. Respondent shall submit to the New York Regional Office of the Federal Trade Commission a written request for advice as to whether their determination of who is an eligible class member complies with the terms of Part III of this Order within one hundred and eighty (180) days after the date of service. Respondents shall submit simultaneously with their request all Appendix D questionnaires they have received as of the date said request for advice is filed. Respondents shall also, at this time, present any challenges to the factual accuracy of any Appendix D questionnaire, together with substantiating material, if any. The New York Regional Office of the Federal Trade Commission shall make the final determination of who is an eligible class member. The New York Regional Office of the Federal Trade Commission shall render its advice to respondents and return all Appendix D questionnaires to respondents within two hundred and five (205) days after the date of service.

11. On the two hundred and thirtieth (230th) day after the date of service, respondents or their designee shall deliver, or cause to be delivered, a refund check to each eligible class member, determined in accordance with part III of this Order. The amount of the refund check shall be derived in accordance with Part III of this Order.

12. Each refund shall be accompanied by a letter in the language, manner and form shown in Appendix E; and a notice in the language, manner and form shown in Appendix F shall be sent by first class mail, with the sender's return address on the face of the envelope, to the last known home address of all persons whose returned questionnaires showed them to be ineligible for a refund pursuant to Part III of this Order.

13. Respondents shall, on the two hundred and fifty-fifth (25th) day after the date of service, file with the New York Regional Office of the Federal Trade Commission a report in writing setting forth the manner and form in which they have complied with Part III of this Order.

14. Respondents shall maintain records and documents which demonstrate that respondents have complied with Part III of this Order for two (2) years after the date of service. Respondents shall return all completed appendix D questionnaires to the New York Regional Office of the Federal Trade

Commission at the end of the two year period.

15. It is agreed that should any duty required to be performed on a day certain under Part III of this Order fall on other than a business day, the parties hereto may perform such duties on the next following business day.

IV

It is further ordered. That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. In addition, for a period of ten years from the effective date of this Order, the individual respondent shall promptly notify the Commission of each affiliation with a new business or employment. Each such notice shall include the respondent's new business address and a statement of the nature of the business or employment in which the respondent is newly engaged as well as a description of respondent's duties and responsibilities in connection with the business or employment. The expiration of the notice provision of this Part shall not affect any other obligation arising under this Order.

V

It is further ordered. That respondents maintain at all times in the future, complete business records relative to the manner and form of their continuing compliance with the above terms and provisions of this Order.

VI

It is further ordered. That the respondents shall forthwith distribute a copy of this Order to each operating division and to all of respondents' personnel now or hereafter engaged in the offering for sale, or sale of respondents' courses of study, training or instruction in the field of truck driving or any other subject, trade or vocation, and that respondents secure from each such person a signed statement acknowledging receipt of said Order.

VII

It is further ordered. That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondents such as dissolution, assignment, or sale resulting in the emergence of a successor corporation or corporations, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of the Order.

VIII

It is further ordered. That the respondents herein shall within sixty (60) days after service upon them of

this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this Order, except as otherwise provided in Part III.

APPENDIX A

(NAME OF SCHOOL)—IMPORTANT INFORMATION FOR PROSPECTIVE STUDENTS

Below is the dropout rate, job placement rate and starting salaries for students in the (name of course) between (date) and (date). Please read this page carefully before you decide whether or not to enroll in this school.

1. Total number of students: (number)——

2. Students who failed to complete the course: (number)——(percent)——

3. Students (whether graduating or not) who obtained employment as truck or tractor-trailer drivers: (number)——(percent)——

4. Graduates who obtained employment as truck or tractor-trailer drivers: (number)——(percent)——

5. Starting salaries of students who obtained employment as truck or tractor-trailer drivers:

Less than \$120 per week: (number)——(percent)——

\$120-\$160 per week: (number)——(percent)——

\$161-\$200 per week: (number)——(percent)——

\$201-\$250 per week: (number)——(percent)——

\$251-\$300 per week: (number)——(percent)——

Over \$300 per week: (number)——(percent)——

6. Employers hiring graduates from the (name of course): Names of employers——; number of graduates hired——

NOTE.—In compiling the foregoing data, information was sought from all students (indicated by item 1 above) and responses were received from——students.

APPENDIX B

The first Base Period shall be the six (6) month period ending three (3) months prior to the effective date of this Order. Subsequent base periods shall be of six (6) months duration commencing on the next day following the termination of the prior base period. Base Periods shall be numbered consecutively beginning with the first base period (i.e. Base Period No. 1) as defined above.

The three (3) month period immediately following the close of a base period shall be used by respondents to record and compile the information required by Paragraph 5 and Appendix A. In addition, respondents may not include in the computation of students for the base period any person whose enrollment terminated during the three (3) month recordation period. Such persons will be included in the statistics for the subsequent base period.

On the first business day falling more than three (3) months after the termination of the base period, respondents shall begin dissemination of that base period's statistics as required by this Order. Respondents shall continue to distribute said statistics until the first business day falling three (3) months after the termination of the next base period, at which time dissemination of

this regard, it must be noted that this regulation basically relies on the authority of the Director, DCPA, to regulate, pursuant to Section 204 of the Federal Civil Defense Act, as amended (50 U.S.C. App. 2284), use of the civil defense insignie.

Nothing in Part 1810 authorizes or limits issuance of other emergency identity cards in other circumstances on a national basis. An agency, if it has authority to issue such a card, is in no way limited by Part 1810 other than it cannot use the civil defense insignie except as prescribed in the regulation.

Furthermore, under the regulations in 32 CFR Part 1806, a local civil defense director can authorize issuance of an identity card using the insignie but, of course, it would be valid only within his jurisdiction.

In view of the foregoing, it is proposed to delete 32 CFR Part 1810 effective immediately upon adoption of the proposal. It is also proposed at that time to issue the following Notice informing all concerned of the action.

SF 138 IDENTITY CARD

Pursuant to authority contained in sections 201, 204, and 401 of the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2281, 2284, and 2253), Executive Order 10952, July 20, 1961, 26 FR 6577, and a delegation of authority published at 29 FR 5017, the Director of Civil Defense issued a regulation now appearing as Part 1810 of Title 32, Code of Federal Regulations. The purpose of the regulation was to establish a uniform identification system for Federal, and non Federal support, civilian personnel designated to perform essential duties during a civil defense emergency period or upon attack on the United States.

The Regulation prescribed a card, SF 138, which used the civil defense insignie prescribed in Part 1806 of this chapter, and a procedure for issuing the card.

In — FR —, for reasons stated in the Supplementary Information part it was proposed that the regulation be withdrawn, and the SF 138 Identity Card no longer be used. The time for comment has now passed, and the regulations have been withdrawn.

This notice informs all concerned that the SF 138 Identity Card is no longer valid and requests anyone holding such a card to return it to the agency which issued it to him/her for destruction.

BARDYL R. TIRANA,
Director.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 35]

[FRL 831-51]

STATE AND LOCAL ASSISTANCE

State Public Water System Supervision
Program Grants

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: This amendment to the State Public Water System Supervision Program Grant Regulations is necessary due to the addition of monitoring requirements for non-community public water systems for fiscal year 1979 and subsequent years. This amendment will: (1) Specify the data and source of inventory data for fiscal year 1979; and (2) change the grant allocation formula for fiscal year 1980 and subsequent years to include non-community public water systems.

The regulations promulgated on January 20, 1976, only included a fiscal year 1976 allotment formula due to limited inventory data. Although the Regulations were not revised, a similar formula was used for fiscal year 1977 and fiscal year 1978. Non-community public water systems will be added to the allocation formula to reflect the cost of providing monitoring for these systems starting in the last quarter fiscal year 1979.

DATES: Comments on or before April 10, 1978.

ADDRESS: Send comments to: Office of Water Supply, Drinking Water Regulations Implementation Branch, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

James F. Manwaring, P.E., Chief, Drinking Water Regulations Implementation Branch, 401 M Street SW., Washington, D.C. 20460, 202-426-3983.

SUPPLEMENTARY INFORMATION: When these grants regulations were first promulgated, they included an allotment formula for fiscal year 1976 only. Although the regulations were not revised, a similar formula was used for fiscal year 1977 and fiscal year 1978. During that time, EPA has developed and improved our information on community public water systems. EPA procedures for obtaining data for the grant allocation formula has evolved from one of manual reporting of the number of community public water supplies to one in which the inventory information on each supply is stored

on a computer file. This change will provide formulae to be used for fiscal year 1979 and subsequent years.

Initial inventory data in January 1976 was not complete for community water systems and practically non-existent for non-community water systems. The monitoring requirements for community water systems started in June 1977, but the monitoring of non-community water systems is delayed until June 1979. EPA thus decided to utilize only community water systems in the original allocation formula.

The States have now submitted enough information so that EPA has a good inventory of community water systems. An inventory of non-community water systems is now underway. This makes it possible to include non-community water systems in the allocation formula for fiscal year 1980. States will have to provide surveillance for these systems starting in June 1979 so it is appropriate for the grant allocation formula to reflect the amount of work required by these systems.

Dated: January 31, 1978.

DOUGLAS M. COSTLE,
Administrator.

It is proposed to amend 40 CFR Part 35 as follows:

1. By amending § 35.605(a)(3) to read as follows:

§ 35.605 Determination of allotments.

(a) * * *

(3)(i) For fiscal year 1979, the number of public water systems in each State in proportion to the number of such systems in all States (weight factor: 60 percent). Water systems statistics will be drawn from the Inventory of Public Water Systems maintained by the Agency based on input from the States, and for which the predominant service area characteristic has been reported to be at least one of the following:

(A) Community, (B) Company town, (C) Mobile home park, or (D) Institution.

For fiscal year 1979 the number of public water systems for each State will be determined from inventory data submitted to EPA prior to January 1, 1978, in accordance with 40 CFR 142.15(a).

(ii) For fiscal year 1980 and subsequent fiscal years, the number of community water systems in each State in proportion to the number of such systems in all States (weight factor 48 percent). Community water systems are those public water systems which serve at least 15 service connections used by year round residents or regularly serve at least 25 year-round resi-

dents. Number of non-community water systems in each State in proportion to the number of such systems in all States (weight factor 12 percent). Non-community water system are those public water systems that are not community water systems. Water system statistics will be determined from inventory data submitted to EPA prior to January 1 of the previous fiscal year in accordance with 40 CFR 142.15(a).

[40 CFR Part 228]

[FRL 831-41]

OCEAN DUMPING

Proposed Designation of Site

AGENCY: Environmental Protection Agency (EPA)

ACTION: Proposed rule.

SUMMARY: EPA today proposes to establish a temporary ocean dumping site off Kwajalein Atoll, Marshall Islands, for the ocean dumping of motor vehicles, construction equipment, material handling equipment, household appliances, air conditioners, refrigeration units, miscellaneous technical and electronic equipment, and weapons system test equipment resulting from the operation of the Kwajalein Missile Range, and World War II ammunition washed ashore and discovered as unexpended rounds.

DATES: Comments must be received March 10, 1978.

ADDRESSES: Send comments to Mr. T. A. Wastler, Chief, Marine Protection Branch (WH-548), EPA, Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Mr. T. A. Wastler, 202-245-3051.

SUPPLEMENTARY INFORMATION: Section 102(c) of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended, 33 U.S.C. 1401 et seq. (hereafter "the Act") gives the Administrator of EPA the authority to designate sites where ocean dumping may be permitted. The EPA Ocean Dumping Regulations (40 CFR Chapter I, Subchapter H, § 228.4) state that ocean dumping sites will be designated by publication in this Part 228. A list of "Approved Interim and Final Ocean Dumping Sites" was published on January 11, 1977 (42 FR 2461).

Section 228.4(b) of the Ocean Dumping Regulations and Criteria states that the Administrator may designate specific locations for temporary use for disposal of small amounts of materials under a special permit without disposal site designation studies when

such materials satisfy the Criteria and the Administrator determines that the quantities to be disposed of will not result in significant impact on the environment.

The purpose of this notice is to provide the public an opportunity to comment on the designation as an EPA Approved Ocean Dumping Site of a new site 2.1 miles west of Kwajalein Atoll south pass, Marshall Islands Trust Territories of the Pacific Islands. The proposed site has a 1,000-yard radius with a center point of 08°46' north latitude and 167°36' east longitude. The depth at the proposed site is 1,655 fathoms (9,930 feet).

EPA Region IX has received an application from the United States Army, Ballistic Missile Defense Systems Command, Box 1500, Huntsville, Ala. 35807, for a special permit to transport and dump material into ocean waters pursuant to the Act. The Army proposes to dump waste materials resulting from the operation of the Kwajalein Missile Range. The waste material consists of (a) motor vehicles (vans, cars, trucks, etc.), heavy construction equipment (bulldozers, compactors, welding machines, etc.), material handling equipment (fork lifts, cranes, etc.), household appliances (washers, dryers, stoves, etc.), air conditioners, refrigeration units, miscellaneous technical and electronic equipment (oscilloscopes, voltmeters, ammeters, etc.), weapons system test equipment (antennas, equipment racks, electronic equipment); and (b) ammunition (World War II) washed ashore and discovered as unexpended rounds. None of the material contains free oil, gasoline, refrigerants, floatable matter, or toxic materials. There is currently no other available EPA ocean dumping site in the area.

The U.S. Army Engineer Division, Pacific Ocean, Corps of Engineers, prepared an Environmental Assessment in April 1976, on the ocean dumping of solid wastes at the Kwajalein Missile Range. This Assessment stated the following in conjunction with the proposed ocean dumping of waste materials:

1. The proposed method of disposal consists of towing a barge to the proposed site and pushing the material off the barge by mechanical means. The proposed site was selected over others because it had been utilized in the early 1960's or earlier for disposal of metal debris and equipment.

2. The proposed site would be initially used 90 days after receipt of an EPA ocean dumping permit, and every four months thereafter. The initial dump would total approximately 1,075 tons of metal items, and an estimated 1,000 tons per year would be dumped thereafter.

3. Kwajalein Island is located on the southern tip of Kwajalein Atoll and is

1.2 square miles in area. The material proposed to be dumped is located on this Island. Because of the small size of the island, land area is a valuable commodity. Stockpiling metal items on land prevents the use of land for other purposes.

4. Surface water drift at the vicinity of the proposed site is predominantly offshore to the west away from the island.

EPA Region IX has made a tentative determination, based upon scientific and other data, that the material proposed for dumping is in compliance with the Criteria and the dumping will not result in significant impact on the marine environment.

This new site for the disposal of waste materials as stated above is being published as proposed rulemaking. Management authority will be delegated to the Regional Administrator of Region IX, EPA.

Interested persons may participate in this rulemaking by submitting written comments on or before March 10, 1978, to Mr. T. A. Wastler, Chief, Marine Protection Branch (WH-548), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

(33 U.S.C. 1412, 1418)

Dated: January 31, 1978.

DOUGLAS M. COSTLE,
Administrator.

In consideration of the foregoing, paragraph (b) of § 228.12 is proposed to be amended by adding subparagraph (3), an ocean dumping site, as follows:

§ 228.12 Delegation of management authority for interim ocean dumping sites.

(b) * * *

(3) Kwajalein Ocean Dumping Site—Region IX. Location—Latitude and Longitude—08°47' north latitude, 167°36' east longitude.

Size—1,000 yard radius.

Depth—1,655 fathoms (9,930 feet).

Primary Use—Waste materials resulting from the operation of the Kwajalein Missile Range.

Period of use—Three years after issuance of an ocean dumping permit for use of this site.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[41 CFR Part 114-50]

UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

AGENCY: Office of the Secretary, Interior.

PROPOSED RULES

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice invites comments on a proposal to amend certain Departmental regulations pertaining to implementation and administration of Pub. L. 91-646 (Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970) activities. The proposed amendments are intended to reflect Federal Property Management Regulations Amendment A-26 (issued March 7, 1977), to add specific guidelines pertaining to displacement of persons from mobile homes, and to clarify several definitions involving program coverage and eligibility requirements.

DATE: Comments must be received by March 20, 1978.

ADDRESS: Send comments to the Chief, Division of Property Management, Office of Administrative and Management Policy (PM/AMP), Room 5310, Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

James O. Wyatt, Chief, Division of Property Management, telephone number 202-343-3185.

SUPPLEMENTAL INFORMATION: Section 213(c) of Pub. L. 91-646 (84 Stat. 1894) provides that, "The head of each Federal Agency may prescribe such other regulations and procedures consistent with the provisions of this act, as he deems necessary or appropriate to carry out this act." Regulations have therefore been developed from time to time implementing and clarifying provisions of the Act. A complete republication of 41 CFR 114-50 was published in the FEDERAL REGISTER on May 19, 1975 (40 FR 21854). Since then, several changes have been proposed. These include modification of the annual reporting requirements (§ 114-50.12), use of revised claim forms in filing for benefits (§ 114-50.107-2), clarification of regulation coverage (§ 114-50.103), revision and addition of definitions (§ 114-50.201(h) and (r)), determination of benefit eligibility (§ 114-50.701) and (§ 114-50.702), deletion of a directory of The Department of Housing and Urban Development Regional and Area offices (114-50.403(b)) and (§ 114-50.4, Appendix 1), and specific guidelines for determining eligibility of mobile home owners and tenants to benefits under the Act (§ 114-50.13).

All written submissions made pursuant to this notice will be available for public inspection at the Division of Property Management, Room 5310, Department of the Interior, during regular business hours, 7:45 a.m. to 4:15 p.m., except holidays.

The primary author of this proposal is George W. Sandberg, Room 5310,

Department of the Interior, Washington, D.C. 20240, Phone 343-3185.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular No. A-107.

Dated: January 27, 1978.

RICHARD R. HITE,
Deputy Assistant Secretary of
the Department of the Interior.

41 CFR Part 114-50 is amended as follows:

Subpart 114-50.1—General

Amend § 114-50.103 to read as follows:

§ 114-50.103 Applicability.

The provisions of the Act and the regulations in this part 114-50 apply to the acquisition (whether by purchase, donation, exchange or device) of all real property for, and the relocation of all persons displaced by, programs and projects undertaken by Federal agencies or by State agencies which receive Federal financial assistance for all or a part of the cost thereof. The Act and these regulations apply regardless of whether the real property is acquired by a Federal or State agency or whether Federal funds actually contributed to the cost of the real property acquired for a Federal assisted project.

Amend § 114-50.107-2 to read as follows:

§ 114-50.107-2 Forms used in filing application for benefits.

Bureaus and offices may utilize either Department of the Interior forms D.I. 380, a-f and accompanying schedules, or GSA Standard Form 262, a-f and accompanying schedules, to document claims for reimbursement of expenses incurred by property owners or tenants as the result of Pub. L. 91-646 activities.

Subpart 114-50.2—Definitions

Amend § 114-50.2 by revising § 114-50.201(h) and adding § 114-50.201(x) reading as follows:

§ 114-50.201 Definition of terms.

(h) *Dwelling.* The place of permanent or customary and usual abode of a person. It includes a single family building; a one-family unit in a multi-family building; a unit in a condominium, or cooperative housing project; any other residential unit, including a mobile home.

(x) *Mobile homes.* A dwelling unit customarily constructed wholly or sub-

stantially offsite and assembled or moved onsite for residential use. Mobile homes may include travel trailers, house trailers, houseboats, modular housing, recreation vehicles or buses which otherwise meet the definition of a dwelling contained in § 114-50.201(h).

Subpart 114-50.4—Relocation Assistance Advisory Services

Revise § 114-50.403(b) to read as follows:

§ 114-50.403 Coordination of planned relocation activities.

(b) A directory of the Department of Housing and Urban Development Field Offices is available upon request. Delete in its entirety Appendix I to Subpart 114-50.4, a Directory of Regional and Area Offices of the Department of Housing and Urban Development.

Subpart 114-50.7—Payments in Lieu of Moving and Related Expenses

The table of contents of Subpart 114-50.7 is revised as follows:

Sec.
114-50.700 Eligibility.
114-50.701 Displaced occupant.
114-50.700-1 Moving allowance schedules.
114-50.702 Displaced farm operation.
114-50.703 Displaced business.
114-50.703-1 Determination of loss of existing patronage to a business.
114-50.703-2 Businesses not eligible to receive "In-lieu" payments.
114-50.704 Displaced nonprofit organizations.
114-50.705 Average annual net earnings.

Amend § 114-50.701 by deleting subsections (a) and (b) in their entirety, and revising § 114-50.701 to read as follows:

§ 114-50.701 Displace occupant.

A person displaced from a dwelling or a temporary or seasonally occupied housing unit such as a cabin, cottage, or mobile home, who elects to receive the payments authorized by this paragraph, in lieu of payment for actual moving expenses, may receive a moving expense allowance, determined in accordance with a schedule established by the bureau or office, not to exceed \$300, plus a dislocation allowance of \$200. Where two or more individuals, not families, living together in single family housing are displaced from such housing they shall be treated as one displaced person for purposes of entitlements under this section.

§ 114-50.702-1 [Deleted]

Delete § 114-50.702-1 in its entirety and amend § 114-50.702 to read as follows:

§ 114-50.702 Displaced farm operation.

A person displaced from his farm operation as defined in § 114-50.201(k), may elect to receive a fixed payment of not less than \$2,500 nor more than \$10,000 in accordance with the same criteria established for a person displaced from a business (see § 114-50.703). For a person to be entitled to this payment, a bureau or office must determine that:

(a) The farm operator has discontinued his entire farm operation at the present location or has relocated the entire farm operation, or
(b) In the case of a partial taking, the operator will be considered to have been displaced from a farm operation if:

(1) The part taken met the definition of a farm operation prior to the taking; or

(2) The taking caused the operator to be displaced from the farm operation on the remaining land, or

(3) The taking caused such a substantial change in the nature of the existing farm operation as to constitute a displacement.

NOTE.—If application of the above criteria obviously creates an inequity in any given case, the head of the bureau or office may approve the use of other criteria as determined appropriate.

Revise the subpart in its entirety to read as follows:

Subpart 114-50.12 Annual Report

Sec.
114-50.1200 General.
114-50.1201 Report contents.
114-50.1202 Submission.

Subpart 114-50.12 Annual Report

§ 114-50.1200 General.

Each bureau and office having responsibilities for Federal or Federally assisted programs that come within the purview of Pub. L. 91-646 shall prepare and submit an annual report to the Assistant Secretary—Policy, Budget and Administration, on its activities related to programs established and authorized by the Act.

§ 114-50.1201 Report contents.

The report shall consist of two parts.
(a) *Statistical portion.* This part of the report shall utilize GSA form 2997, Annual Report on Relocation and Real Property Acquisition Activities. A copy of the form appears as Appendix I to this subpart.

(b) *Racial and ethnic information.* This information, required by Title VI of the Civil Rights Act of 1964, Executive Order 11512 and other applicable Federal law, shall be reported using the format appearing as Appendix II to this subpart (formerly Part III of Appendix 1 to this subpart).

§ 114-50.1202 Submission.

The annual report shall be prepared on a fiscal year basis and submitted

PROPOSED RULES

(original only) to reach the Assistant Secretary—Policy, Budget and Administration by not later than December 1 of each year.

Add subpart 114-50.13 as follows:

Subpart 114-50.13 Mobile Homes

Sec.
114-50.1300 Scope of coverage.
114-50.1301 Moving and related expenses.
114-50.1302 Payments in-lieu of moving and related expenses.
114-50.1303 Replacement housing payments for mobile home owners.
114-50.1304 Eligibility of owner—occupant for rental differential payment.
114-50.1305 Replacement housing payments to tenants and certain others.
114-50.1306 Mobile home acquisition criteria.

Subpart 114-50.13 Mobile Homes

§ 114-50.1300 Scope of coverage.

The regulations in this subpart apply to all forms of housing customarily built or erected offsite and moved in whole or part, on site for final assembly and use (see § 114-50/201(x) for mobile home definition). Regulations specifically addressing displacements from mobile homes are necessitated by the wide variety of possible ownership-rental situations. These guidelines provide a basis for uniform treatment of displaced persons. The National Park Service has developed a complementing set of guidelines (Revised 2-2-77) for computation of relocation benefits for mobile home displacements which is recommended for use in actual benefit determinations.

§ 114-50.1301 Moving and related expenses.

Owners of mobile homes, or tenant-occupants of mobile homes who qualify as displaced persons, are eligible for actual reasonable expenses in moving their mobile home or its contents to a new location. The cost of moving a mobile home may include, inter alia, the cost of detaching and reattaching fixtures, appliances, and utilities.

§ 114-50.1302 Payments in-lieu of moving and related expenses.

(a) Any person displaced from a mobile home site, or who moves his personal property from a mobile home site, may elect to accept the actual reasonable costs of moving the mobile home and/or other personal property, or an in-lieu payment not to exceed \$300.00, plus a dislocation allowance of \$200.00.

(b) Where two or more unrelated individuals live together in a mobile home, they will be treated as if they were a family for the purposes of determining eligibility for replacement housing payments.

§ 114-50.1303 Replacement housing payment for mobile home owners.

A displaced owner of a mobile home who has occupied the mobile home on the site from which he is displaced for not less than 180 days immediately prior to initiation of negotiations, and who is otherwise eligible, may qualify for a total replacement housing payment not in excess of \$15,000.00 consisting of:

(a) The amount, if any, which when added to the acquisition cost of the mobile home, is necessary to purchase a comparable replacement dwelling. This differential payment shall be computed in accordance with the following criteria:

(1) Where both the mobile home and the site are acquired, the payment shall be the amount, if any, which, when added to the acquisition cost of the acquired property is necessary to purchase a comparable conventional dwelling or a comparable mobile home and site (either replacement unit being decent, safe and sanitary), whichever is less.

(2) Where only the mobile home site is acquired, the payment shall be the amount, if any, which, when added to the acquisition cost of the acquired property equals the amount the owner is required to pay for a comparable site. If the comparable site is unimproved, the amount shall include the estimated costs necessary to develop the site into a decent, safe and sanitary location. This may include, inter alia, access roads, pad preparation, utility and sanitation hookups and foundation construction.

(3) Where an acquired mobile home is located on a leased or rented site, the payment will be the amount, if any, which when added to the acquisition cost of the acquired mobile home, equals the lesser of:

(i) The amount the owner is required to pay for a comparable replacement dwelling; or

(ii) The amount necessary to purchase a comparable mobile home, plus the difference in the amount necessary to rent a comparable mobile home site for a period of four years, and 48 times the monthly rent paid on the site acquired.

(4) The differential housing payment in paragraphs 1, 2, and 3 above shall be based upon the amount actually paid by an owner for purchase of a replacement property if this amount is less than the estimated cost of a comparable conventional dwelling, mobile home, or mobile home site.

(b) The amount, if any, which is necessary to compensate the owner for increased interest costs to be computed in accordance with § 114-50.802-2 of this regulation.

(c) The amount, if any, which is necessary to reimburse the owner for reasonable costs incurred incidental to

PROPOSED RULES

purchase of a replacement dwelling to be computed in accordance with § 114-50.802-3 of this regulation.

§ 114-50.1304 Eligibility of owner-occupant for rental differential payment.

An owner-occupant who has occupied the mobile home on the site from which he is displaced for more than 90 days immediately prior to negotiations, and who is otherwise eligible, is eligible for a replacement housing payment as a tenant, provided that he rents or purchases a decent, safe and sanitary replacement conventional dwelling or mobile home. Computation of the amount, if any, to which the owner-occupant is entitled to shall be in accordance with the following criteria:

(a) Where the owner-occupant elects to rent:

(1) and both the mobile home and the mobile home site are acquired from the owner-occupant, the differential payment shall be the difference, if any, between the amount necessary to rent a comparable mobile home and mobile home site for a period of four years, and 48 times the monthly economic rent of the mobile home and the mobile home site acquired;

(2) and only the mobile home site is acquired from the owner-occupant, the differential payment shall be the difference, if any, between the amount necessary to rent a comparable mobile home and mobile home site for a period of four years, and 48 times the monthly economic rent of the site acquired;

(3) and a mobile home is acquired on a site rented by the owner-occupant of the mobile home, the differential payment shall be the difference, if any, between the amount necessary to rent a comparable mobile home and mobile home site for a period of four years, and 48 times the monthly economic rent of the mobile home and the actual rent of the homesite acquired.

This amount may be applied to the rental of a conventional dwelling.

(b) Where the owner-occupant elects to purchase and occupy either a comparable replacement mobile home site or a comparable conventional dwelling within one year from the replacement housing payment shall consist of the amount necessary to make a downpayment, including interest and incidental expenses, not to exceed \$4000.00, except that if such amount exceeds \$2000.00, such displaced person must match any amount in excess of \$2000.00 in making the downpayment.

§ 114-50.1305 Replacement housing payments to tenants and certain others.

(a) A displaced tenant of a mobile home who has occupied a mobile home for at least 90 days immediately prior to initiation of negotiations, and who is otherwise eligible, is eligible to receive either:

(1) A differential housing payment, not to exceed \$4000.00, to enable him to rent, for a period not to exceed four years, a decent, safe, and sanitary replacement dwelling, with the differential payment being the amount, if any, between the sum necessary to rent a comparable mobile home and mobile home site for a period of four years, and 48 times the actual monthly rent paid for the mobile home and the mobile home site acquired; or

(2) If, he purchases and occupies replacement housing within one year from displacement, the amount necessary to enable him to make a downpayment, including interest and incidental expenses, on the purchase of a decent, safe, and sanitary dwelling, but not to exceed \$4000.00, except that if such amount exceeds \$2000.00, such displaced person must equally match any such amount in excess of \$2000.00 in making the downpayment.

§ 114-50.1306 Mobile home acquisition criteria.

(a) Authority to acquire mobile homes as part of the real estate pursuant to Section 302 of the Act will be exercised under the following conditions:

(1) Whenever the mobile home has been annexed to the realty in a fashion to itself be considered real property; or

(2) Whenever the mobile home cannot be moved without substantial injury to it or the realty upon which it is situated; or

(3) Whenever the mobile home fails to meet decent, safe, and sanitary dwelling standards either due to dwelling condition or family size.

(b) Determination of whether a mobile home constitutes realty or personal property frequently must be objectively determined by reviewing the intention of the party through external evidence. The following factors have been held to evidence that the mobile home has retained its characteristic as personal property: (1) Wheels and tires remain affixed to the carriage, (2) lack of permanent connection of utilities, (3) mobile home has been registered as a vehicle, (4) lack of landscaping or other permanent improvements (e.g. patios, foundations, etc.).

NOTE.—Frequently mobile homes are placed on blocks or piers in lieu of a more substantial foundation. This may permit the retention of the under carriage. If hooked up to permanent utilities, the mobile home may still be considered realty.

(c) Where the evidence does not clearly indicate whether a mobile home is real or personalty, the expressed intention of the owner should be given consideration in determining the status and disposition of the mobile home.

(d) Where a mobile home does not meet the conditions under above and removal of the mobile home is required, a minimum notice of 90 days to remove said mobile home is required.

PROPOSED RULES

Appendix 1
Subpart 114-50.12

ANNUAL REPORT ON RELOCATION AND REAL PROPERTY ACQUISITION ACTIVITIES (UNDER THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970)			
REPORT FOR FISCAL YEAR	PROGRAM	PROGRAM TITLE	IRCN
19			1227-GSA-AN
AGENCY (Department, Bureau, Office, Division)			
SECTION I - RELOCATION ASSISTANCE PAYMENTS AND EXPENSES			
	ITEM	NUMBER OF CLAIMS PAID (a)	AMOUNT PAID (b)
1	Payments for expenses of moving individuals and families	Actual expenses (Sec. 202(a))	\$
2		Fixed payment including dislocation allowance (Sec. 202(b))	
3	Payments for searching and moving expenses for displaced businesses, farms and non-profit organizations	Actual expenses (Sec. 202(a))	
4		Payment in lieu of actual expenses (Sec. 202(c))	
5	Replacement housing payments for homeowners (Sec. 203)		
6	Rental assistance payments (Tenants and certain others) (Sec. 204(1))		
7	Down payment assistance (Tenants and certain others) (Sec. 204(2))		
8	Last resort housing (Sec. 206(a))		
9	Subtotal (Sum of lines 1 thru 8)		
10	Administrative costs in carrying out relocation program (Including cost of relocation advisory services provided under Section 205 of the Act)		
11	TOTAL (Sum of lines 9 and 10, column (b) only)		
12	TOTAL AMOUNT PAID FROM FEDERAL FUNDS THIS FISCAL YEAR		
13	TOTAL AMOUNT PROJECTED FOR NEXT FISCAL YEAR		
14	TOTAL AMOUNT PROJECTED FOR NEXT FISCAL YEAR TO BE PAID FROM FEDERAL FUNDS		
SECTION II - REAL PROPERTY ACQUISITION SETTLEMENTS COMPLETED			
	ITEM	NUMBER OF PARCELS (a)	COMPENSATION PAID (b)
15	Acquired by negotiation 1/		\$
16	Acquired by condemnation 2/		
17	TOTAL (Sum of lines 15 and 16)		
18	TOTAL AMOUNT PAID FROM FEDERAL FUNDS		

1/ Negotiated tracts include all tracts acquired by any method other than condemnation for reason of price disagreement. 2/ Include only tracts condemned because of price disagreement.

REMARKS

INSTRUCTIONS

Section I - Relocation Assistance Payments and Expenses. For each of the types of assistance or payments shown in lines 1 through 8, report the total number of claims paid in column (a) and the amounts thereof in column (b). Descriptions for lines 1 through 5 and 7 through 9 are considered adequate for completion without further instructions. For line 6, report total rental assistance claims paid including rental assistance to former homeowners who elect to rent in lieu of receiving a replacement housing payment authorized by Section 203 of the Act. In the case of claimants who elect to have their rental assistance payment in installments, the total amount of the rental assistance entitlement should be reported as paid during the reporting year in which the first installment is paid. In line 10, report the total amount of Administrative costs incurred in carrying out the relocation program including the cost of relocation assistance advisory services provided under Section 205 of the Act. Descriptions in lines 11 through 14 are considered to be adequate without further instructions.

Section II - Real Property Acquisition Settlements Completed. Report the number of parcels column (a) and the compensation paid column (b) for real property acquired and paid for during the reportable year. On line 15, report the total number of parcels and compensation paid for real property acquired by any method other than condemnation for reason of price disagreement. On line 16, report in the appropriate columns only tracts condemned because of price disagreement. Line descriptions for lines 17 and 18 are adequate for completion without further instructions. It is understood that this section will only include settlements completed. It excludes the reporting of parcels acquired by condemnation where settlements have not been completed. Such parcels should be reported when settlement has been completed.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[49 CFR Part 399]

[Docket No. MC-81; Notice No. 78-2]

AMBIENT TEMPERATURE IN HEAVY DUTY TRUCK CABS

Requests for Comments

AGENCY: Federal Highway Administration.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Department of Transportation, Federal Highway Administration (FHWA), has received a number of complaints alleging excessive in-cab heat which is harmful to driver health and may be affecting driver performance. Thus, this Advance Notice is being issued to invite comments and request information relative to the extent of the problem and to inquire as to what regulations, if any, should be issued. All comments will be considered before any further rulemaking action is taken.

DATES: Comments are due by May 9, 1978.

ADDRESS: Submit comments (original and 2 copies) to: Robert A. Kaye, Director, Bureau of Motor Carrier Safety, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Principal Program Contact—Gerald J. Davis, Chief, Driver Requirements Branch, Regulations Division, Bureau of Motor Carrier Safety, Federal Highway Administration, Department of Transportation, Washington, D.C. 20590, 202-426-9767.

Principal Lawyer—Attorney Gerald M. Tierney, Motor Carrier and Highway Safety Law Division, Office of the Chief Counsel, Federal Highway Administration, Department of Transportation, Washington, D.C. 20590, 202-426-0834.

SUPPLEMENTARY INFORMATION: On March 14, 1973, the FHWA commissioned experimental research to determine the effects of heat, noise, and vibration on the driving performance, subjective feelings of alertness and fatigue, and physiological signs of stress among drivers of passenger cars and trucks.¹ Heat stress was shown to

¹A Study of Heat, Noise and Vibration in Relation to Driver Performance and Physiological Status, available from the U.S. Department of Transportation, National Technical Information Service, Springfield, Va. 22151, Accession No. PB 238 829, Paper Copy, Price \$9.00.

significantly affect both driver performance and various indices of central nervous system arousal related to driving safety. Recently, complaints from truck drivers, the International Brotherhood of Teamsters, and the Professional Drivers Council have been received on excessive in-cab heat.

The measurement of heat, as a stressor which affects man, is a sophisticated task. This is because air temperature and movement, relative humidity, and radiation are all environmental factors which interact in producing heat stress.

The American and Canadian military services have long employed the wet-bulb-globe-temperature (WBGT) index for measuring the intensity of exposures to heat. The National Institute for Occupational Safety and Health (NIOSH) recommended the use of the WBGT for all assessments of industrial exposures to heat.² The WBGT is the weighted sum of dry-bulb, wet-bulb, and globe thermometer readings. To estimate the intensity of heat exposure over time, NIOSH has further stipulated the use of a time weighted average of WBGT. This may be done by integrating a continuous recording of WBGT over time and by dividing the integral by its time base. The WBGT index is the measurement index in this study.

The FHWA research study consisted of two experiments which were concerned with heat stress. In the first experiment involving nonprofessional drivers, it was shown that a combination of high heat and humidity totaling 32.2° C. (90° F.) WBGT has significant adverse effects on driver physiology, levels of alertness and fatigue, and actual performance in driving passenger cars. There was evidence that female drivers were more susceptible than males to these effects, but both were affected to a significant degree.

In the second experiment, which involved professional truck drivers, it was shown that heat and humidity totaling 26.7° C. (80° F.) WBGT had somewhat adverse, but less dramatic, effects on driver physiology and level of arousal than the first experiment. The subjects in this experiment did experience notable stress, however, as reflected in their sweat rate, decreased urine production, depressed diastolic blood pressure, increased heart rate, and various indications of decreased psychophysiological arousal. These

²Occupational Exposure to Hot Environments, available from U.S. Department of Health, Education and Welfare; available from National Technical Information Service, Springfield, Va. 22151, Accession No. PB 210 794, Paper Copy, Price \$6.50.

subjects also rated themselves as generally less alert and more fatigued than when driving in "comfortable" conditions of 19.4° to 20.6° C. (67° to 69° F.) WBGT.

The contractor concluded that the region between 27.7° C. (80° F.) and 29.4° C. (85° F.) WBGT, commonly experienced in many parts of the United States during the summer months, is borderline with respect to adverse effects of heat on driver physiology and performance. This is in essential agreement with the current limits established by NIOSH, which recommends that countermeasures be taken to minimize physiological strain and performance impairment for personnel who, while performing sedentary tasks, are continuously exposed to temperatures above 26.1° C. (79° F.) WBGT. The contractor felt that the results of this study support the NIOSH recommendation for both professional and nonprofessional motor vehicle drivers, particularly when they are not acclimatized. Thus, they concluded that effective countermeasures should be available to drivers who will be exposed for extended periods of time to such environmental conditions.

The contractor further concluded that where exposures for periods of 8 to 10 hours are involved, an average temperature of 26.7° C. (80° F.) WBGT constitutes a conservative upper limit for professional drivers. This conclusion assumes that suitable rest breaks are taken every 2 to 3 hours as may be the custom of many professional drivers.

The principal reasons for issuing this advance notice are: first, whether there is a need to establish a new regulation dealing with ambient temperature; secondly, to provide the interested public an opportunity to comment; and thirdly, to make drivers and operators aware of a potential health and safety risk.

Interested persons are invited to comment especially in regard to the following areas:

1. Should the FHWA regulate the maximum ambient temperature in truck cabs?

2. Should the FHWA regulate both maximum and minimum ambient temperature in truck cabs?

3. Numerous complaints have been received concerning hot surfaces in the area of the engine cowl in cab-over-engine, because of these complaints should the FHWA regulate maximum temperature of exposed surfaces within the truck cab?

4. If the FHWA should measure ambient temperature, what should be the temperature limits for a given time of exposure and should these limits be different for female and male truck operators?

5. Where should the ambient temperature and exposed surface tempera-

ture measurements be made in the truck cab?

6. Describe the most effective means for the measurement of heat if different from WBGT.

7. Would it be desirable to have a new Federal motor vehicle safety standard related to heat in cabs?

Those desiring to comment on this Advance Notice of Proposed Rulemaking are asked to submit in writing three copies of their views, data, and arguments. All communications received will be considered before any proposals for rulemaking action are undertaken.

All comments submitted will be available, both before and after the closing date, for examination by interested persons in the Docket Room of the Bureau of Motor Carrier Safety, Room 3402, 400 Seventh Street SW., Washington, D.C. 20590. If it is determined to be in the public interest to proceed further after summarizing the comments and considering the available data and comments received in response to this Advance Notice, a Notice of Proposed Rulemaking will be issued.

(49 U.S.C. § 304, 49 U.S.C. § 1655, 49 CFR 1.48 and 49 CFR 301.60.)

Issued on January 27, 1978.

ROBERT A. KAYE,
Director,

Bureau of Motor Carrier Safety.

Administration

[50 CFR Part 611]

FOREIGN FISHING

Interim Policy

AGENCY: National Oceanic and Atmospheric Administration.

ACTION: National Marine Fisheries Service Proposed Interim Policy.

SUMMARY: An interim policy is proposed to govern consideration of applications for permits by foreign vessels seeking to purchase or receive fish from U.S. fishing vessels in the Fishery Conservation Zone. Comments received by February 23, 1978, will be considered before adopting and implementing an interim policy.

DATE: Comments due on or before February 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Alfred J. Bilik, Enforcement Division, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. De-

partment of Commerce, Washington, D.C. 20235, Telephone 202-634-7265.

SUPPLEMENTARY INFORMATION: The National Marine Fisheries Service is proposing this interim policy governing issuance of foreign fishing vessel permits to allow foreign vessels to purchase or receive fish from U.S. fishing vessels in the Fishery Conservation Zone. The proposed interim policy is designed to address only permit applications submitted under Preliminary Management Plans (PMP's) in effect on January 1, 1978, for the 1978 fishing season and will be replaced by a more comprehensive policy covering both PMP's and Fishery Management Plans that are implemented by the Secretary. The Fishery Conservation and Management Act of 1976, 16 U.S.C. 1801 et seq., (the Act), provides for a national program for the conservation and management of the Nation's fishery resources within the Fishery Conservation Zone (FCZ). Under the Act, procedures are established for foreign participation in fisheries under the exclusive management authority of the United States. Any foreign vessel harvesting fish or supporting fishing operations in the FCZ must have a foreign vessel permit. Activities in support of fishing include those in which a foreign vessel in the FCZ purchases, or receives transfer of, fish from a U.S. fishing vessel. The amount of fish that foreign vessels may harvest in the FCZ is limited by the allocation of part of the total allowable level of foreign fishing (TALFF) made by the Department of State to the flag nation of the vessel. However, purchases or transfers from U.S. vessels to foreign vessels do not count against the allocation to the foreign vessel's flag nation. The consequence of all this is that a potential conservation problem now exists. The new market for U.S. caught fish which would be created by such purchases or deliveries may induce greater U.S. fishing effort in a fishery which in turn may cause the optimum yield in a fishery to be exceeded. The proposed interim policy creates a mechanism to closely review foreign permit applications involving the sale of U.S. harvested fish to foreign vessels in the FCZ, thereby alleviating the possibility that the optimum yield in a fishery would be exceeded. At the same time the proposed interim policy seeks to preserve foreign market opportunities for U.S. fishermen when such sales or deliveries would not unduly affect the development of other segments of the U.S. fishing industry. This proposed interim policy is being published to solicit public comments. Comments received on or before February 23, 1978, will be considered by the Administrator before adopting an interim policy.

PROPOSED POLICY

In order to address pending or expected applications submitted under

Preliminary Management Plans effective January 1, 1978, the following interim policy is proposed to govern the Secretary's consideration of applications for permits to allow foreign vessels to purchase or receive fish from U.S. vessels within the FCZ during the 1978 fishing season.

The Secretary of Commerce shall encourage the development of all segments of the U.S. fishing industry consistent with the purposes of the Act and other applicable laws. As one means of carrying out this objective, the Secretary may approve applications for foreign fishing vessels permits to allow foreign vessels to purchase or receive fish from U.S. harvesting vessels within the Fishery Conservation Zone on a case-by-case basis. Any such permits granted shall contain appropriate conditions and restrictions.

Permits shall be approved only when the Secretary is satisfied that (1) the optimum yield for the fishery involved will not be exceeded; (2) the capability and intent of the U.S. fishing industry to harvest fish to be sold or delivered exceeds the capability and intent of the U.S. industry to process such fish; and (3) the relevant foreign vessel has capability and intent to process such fish. Actions with respect to applications for permits for 1978 shall have no precedential effect on any applications for permits for subsequent years.

In implementing this policy, the Secretary of Commerce may also take into consideration one or more of the following in evaluating a proposal to issue a permit to a foreign vessel to purchase or receive fish from a U.S. harvesting vessel within the Fishery Conservation Zone.

(1) Potential for displacement of any domestic fishing and associated industries for other stocks or species.

(2) Potential for gear conflicts between U.S. vessels involved in harvesting such fish and other stocks or species.

(3) Employment opportunities or losses for domestic labor.

(4) Impact on exvessel, wholesale, and retail prices.

(5) Impact on income of domestic fishermen, processors and industry workers.

(6) Impact on the U.S. consumer.

(7) Impact on the degree of market control by either U.S. or foreign processors.

(8) Impact on export or import restrictions imposed by foreign nations on United States products.

(9) Effect of overall U.S./foreign trade policy guidelines.

(10) Potential for expansion of U.S. fleets.

(11) Possible detrimental effects to any segment of the fishing industry.

Dated: February 3, 1978.

JACK W. GEHRINGER,
Deputy Director, National Marine
Fisheries Service.

DEPARTMENT OF AGRICULTURE

Federal Grain Inspection Service

GRAIN STANDARDS

Ohio Grain Inspection Area

Statement of considerations. Pursuant to sections 7(e)(1) and 7A(c)(1) of the U.S. Grain Standards Act, as amended, Pub. L. 94-582, effective November 20, 1976, and by Pub. L. 95-113, effective October 1, 1977, (7 U.S.C. 71 et seq.) (Act), the Federal Grain Inspection Service (FGIS) is required to provide official inspection and weighing services for all grains required to be inspected and weighed by the Act, at those export port locations where a State is not delegated to perform these official services (7 U.S.C. 79(e)(1) and 7 U.S.C. 79A(c)(1)).

Notice is hereby given that, on November 27, 1977, the FGIS assumed responsibility for providing official inspection services at the Pillsbury Co. elevator, Huron, Ohio, currently the only export elevator in the area previously serviced by the O. S. Smith Grain Inspection, Bellevue, Ohio, in accordance with section 7(e)(1) of the Act. The FGIS assumption of responsibility for providing official weighing services at this export elevator, originally scheduled for November 27, 1977, is postponed until the opening of the 1978 navigation season on the lower Great Lakes. With the exception of FGIS official weighing being provided at the area previously serviced by the Chicago Grain Inspection Bureau, Chicago, Ill., all other implementation of FGIS official weighing at lower Great Lakes ports is postponed until the opening of the 1978 navigation season.

The O. S. Smith Grain Inspection will remain operational as the official grain inspection agency providing services, on an interim basis, at the non-export elevators in its inspection area.

(Sec. 8, Pub. L. 94-582, 90 Stat. 2870 (7 U.S.C. 79); sec. 9, Pub. L. 94-582, 90 Stat. 2875 (7 U.S.C. 79a); sec. 27, Pub. L. 94-582, 90 Stat. 2889 (7 U.S.C. 74 note).)

Effective date: This notice shall become effective February 8, 1978.

Soil Conservation Service

BICENTENNIAL PARK PUBLIC WATER-BASED RECREATION R.C. & D. MEASURE, INDIANA

Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Bicentennial Park Public Water-Based Recreation R.C. & D. Measure, Indiana.

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Buell M. Ferguson, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for public water-based recreation. The planned works of improvement include site preparation and landscaping, parking spaces for 25 vehicles, one canoe ramp, critical area planting, guard rail, screen planting, and refuse station.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency.

The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Buell M. Ferguson, State Conservationist, Soil Conservation Service, Atkinson Square West, Suite 2200, 5610 Crawfordsville Road, Indianapolis, Ind. 46224, 317-269-6515. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until March 10, 1978.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program—Public Law 87-703, 16 U.S.C. 590a-f, q.)

CIVIL AERONAUTICS BOARD

[Docket 29123]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Granting Petition and Approving
Agreements

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 1st day of February, 1978.

In the matter of agreements adopted by Traffic Conference 1 of the International Air Transport Association relating to passenger fare matters. (Agreement C.A.B. 26932, R-1; Agreement C.A.B. 26945; Agreement C.A.B. 26946, R-4 through R-7; and Agreement C.A.B. 26947.)

By Order 77-12-74, December 13, 1977, the Chief of the Passenger and Cargo Rates Division, acting under delegated authority, summarized the contents of various agreements of the International Air Transport Association (IATA) dealing with longhaul fares within the Western Hemisphere, and established procedural dates for the submission of carrier justifications as well as comments and objections by interested persons. While the major part of the overall package is proposed for effect April 1, 1978, several individual agreements are proposed for expedited effect on dates from November 1, 1977 to January 15, 1978. The order noted, however, that because these expedited agreements were a part of an overall and substantial change in the fare structure, they should be evaluated in the context of the total fare package proposed for April 1, 1978 effect.

In a petition filed December 23, 1977, Braniff Airways, Inc. (Braniff) seeks Board review of that order and

early approval of certain specific resolutions.¹ In summary, Braniff's petition goes to three special fares, not the overall structure of fares in the Western Hemisphere: (1) A new advanced-booking group fare from Chile to replace at a slightly higher level affinity-group fares cancelled last April; (2) introduction of a new 29 to 60-day excursion fare between the United States and Chile/Argentina allegedly in an attempt to recoup a decline of approximately 50 percent in Braniff's traffic as a result of cancellation of affinity-group fares in these markets; and (3) a relaxation of the conditions applicable to travel on affinity-group fares from Brazil to the United States as well as setting this fare at a year-round level to avoid an increase during the last half of December, January, and February.

Braniff contends that the staff's deferral of action has effectively vetoed carefully restricted lower fares of short duration; and is unpersuasive in its claim that these particular fares involve a substantial fare-structure change. Braniff also cites the fact that the Board has been urging the carriers to experiment with new innovative low fares yet its staff has on unspecified grounds erected a roadblock to this end.

¹C.A.B. Agreements 26932, R-1; C.A.B. 26945; and C.A.B. 26946, R-5. The respective IATA Resolutions are 071rr, 071g, and 075g.

Upon consideration of Braniff's petition, we have decided to take review and, upon review, in the particular circumstances here posed, to reverse the staff's action and approve the three resolutions in question.

It goes without saying that the pattern of promotional fares is an integral part of the overall fare structure in any rate-making entity. However, we are here dealing with three specific promotional fares, involving only three countries in a large geographical area, which can hardly be taken as a significant measure of the structure as a whole. Two of the three, applicable only to inbound originating traffic, may not directly benefit the American traveler; however, to the extent they bring added tourism to the United States, they will prove beneficial. The third fare may be helpful in restoring Braniff's Chile/Argentina traffic. In these circumstances, we believe the three fares should be approved.²

This case emphasizes the importance

²We will also approve agreements for expedited effectiveness introducing new excursion, individual inclusive-tour, and group inclusive-tour fares between the United States and San Jose, C.R. The levels of the expedited fares to San Jose appear to reflect levels established in the overall package for application after April 1, 1978; however, introduction of the fares at this time results from new service in the market by Mexicana.

of prompt documentation of IATA agreements. The three resolutions in question were filed with the Board as early as October 7, 1977; however, the minutes of the meeting, which describe the fares and the rationale for introducing them were not filed until November 21, 1977, when the entire South/Central America fare package was filed.³ Any attempt at early action on expedited resolutions puts the Board in the position of picking and choosing with less than complete justification and, in this case, with the knowledge that IATA proposes an increase from 5 to 8 percent in economy-class fares next spring. We will, of course, evaluate that proposal on its merits, in light of the justifications and comments we receive. Our action here is no indication of our views on the basic agreement.

The Board, acting pursuant to sections 102, 204(a) and 412 of the Act, does not find the following resolutions, incorporated in the agreements indicated, to be adverse to the public interest or in violation of the Act, provided that approval is subject, where applicable, to conditions previously imposed by the Board:

³By letter of November 11, 1977, Braniff did provide its comments in support of the expedited agreements, but the comments were primarily explanation rather than justification. Pan American has provided no information to date on the expedited resolutions.

Agreement CAB	IATA No.	Title	Application
26932:			
R-1.....	071rr.....	TCI Advance Booking Group Fares from Chile to U.S.A. and Canada (New) (Expedited).	1
26945.....	071g.....	TCI 60 day Excursion Fares from U.S.A./Canada to Argentina/Chile (New) (Expedited).	1

[6320-01]

[Order No. 78-1-135; Docket Nos. 31071 and 31744]

DELTA AIR LINES
Order

Adopted by the Civil Aeronautics Board at its offices in Washington, D.C., on the 31st Day of January 1978.

In the matter of application of Delta Air Lines for an amendment of its certificate of public convenience and necessity for route 114. Application of Delta Air Lines for an exemption under section 416(b) of the Federal Aviation Act of 1958, as amended.

Delta Air Lines has applied for permission to carry local traffic on flights between Houston and New Orleans which also serve Venezuela. Currently, it is prohibited from doing so by a condition in its certificate of public convenience and necessity.¹

The carrier has requested that the Board amend its certificate by show-cause procedures and, in the meantime, grant it an exemption to perform the requested services until the show-cause order is made final.² The exemption request is limited to one weekly round trip flight.

This petition for local traffic rights has been made because on February 1, 1978, Delta will extend its Venezuela-New Orleans service to Houston on one flight per week. Without the requested authority the petitioner will be operating an aircraft between Houston and New Orleans, but will not have authority to carry local passengers, cargo, or mail between the two cities.

This is not the first time the Board has addressed the question of domestic fill-up rights on international flights. In Order 77-4-153, adopted April 29, 1977, we decided to grant local traffic rights to three carriers in six markets, including Houston-New Orleans. Since it was our first decision on this issue, we decided to limit our

¹This prohibition is contained in condition (4) of its certificate for route 114.

²Delta's exemption request, show-cause petition, and amended application were filed on November 23, 1977.

consideration at that time to markets where a need by the carrier had at least arguably been demonstrated by its having served the markets for a sustained period of time without fill-up authority.

Two carriers that have filed answers opposing Delta's application, National and Texas International, cite Order 77-4-153 as authority for denying the request.³ They argue that Delta is not extending the flight primarily to serve the needs of international traffic and that the application is merely a guise to obtain improved domestic authority.

We reject these arguments and have, therefore, decided to grant the requested exemption and order any interested person to show cause why Delta's certificate should not be amended as requested. This application is similar to one which we granted for Trans World Airlines in Docket 30976.⁴ Delta already has domestic authority between Houston and New Orleans. In fact, of the six nonstop carriers serving the market, Delta is the second largest participant. Delta's authority is long-haul restricted, but it still provides for and one-half daily round trips.⁵ The contentions by National and Texas International that this is merely one of a series of attempts by Delta to gain improved authority in the market are not very credible. Delta's authority will still be significantly restricted if the application is granted. If it wants to increase its frequencies between Houston and New Orleans, we doubt that it will choose to extend its flights more than 2,000 miles to Caracas, rather than less than 700 miles to Atlanta.⁶

Thus we tentatively find and conclude that the certificate of Delta Air Lines for route 114 should be amended to permit it to carry persons, property, and mail between Houston and New Orleans on flights serving a point or points in Venezuela. In addition, we will grant Delta an exemption under section 416(b) of the Act to perform the proposed transportation on one flight per week prior to a final decision on the certificate amendment application. We find that because of unusual circumstances affecting the proposed operations, enforcement of con-

³Texas International's answer was accompanied by a motion to file an unauthorized document. The motion will be granted.

⁴See Order 77-10-16, October 6, 1977.

⁵Condition (6) on its certificate for route 24 states that all Houston-New Orleans flights must also serve either Atlanta, Washington, Baltimore, Philadelphia, New York, or Newark.

⁶No additional flights will be added as a result of this decision. Thus, this does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

dition (4) of Delta's certificate for route 114 would be an undue burden on the carrier and not in the public interest.⁷

Interested persons will be given 30 days following adoption of this order to show cause why the tentative findings and conclusions set forth should not be made final. We expect such persons to support their objections with detailed economic analysis. If an evidentiary hearing is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts it would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, that: 1. All interested persons be directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and authorizing Delta Air Lines to transport persons, property, and mail in interstate air transportation between Houston and New Orleans on flights serving a point or points in Venezuela under authority of its certificate for route 114;

2. Any interested persons having objection to the issuance of an order making final the proposed findings, conclusions, and certificate amendments set forth here shall, within 30 days after the date of adoption of this order, file with the Board a statement of objections together with a summary of testimony, statistical data, and such evidence as is expected to be relied upon to support the stated objections; answers may be filed 15 days thereafter;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised by the objections before further action is taken by the Board;

4. All motions or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained;

5. In the event no objections are filed, all further procedural steps will

⁷The unusual circumstances are that Delta already has domestic traffic rights in the market and that the restrictions on its authority were never intended to preclude the type of long-haul operation proposed here. Enforcing this unnecessary restriction pending the outcome of a Section 401 proceeding would deprive the public of useful service and Delta of the ability to fill empty seats on a flight segment that it will operate in any event. It would also be an undue burden on Delta to deny it the right to carry this traffic on one flight per week which is even longer haul restricted than its other 28 weekly round trips in the market, pending the outcome of the section 401 proceeding.

be deemed to have been waived, and the case will be submitted to the Board for final action;

6. Delta Air Lines be exempted from section 401 of the Act and the terms, conditions and limitations of its certificate for route 114 to the extent necessary to permit it to transport persons, property, and mail in interstate air transportation between Houston and New Orleans on one round trip flight per week which also serves a point or points in Venezuela until 60 days after a final Board order on its application for a certificate amendment;

7. The motion of Texas International for leave to file an unauthorized document be granted; and

8. A copy of this order shall be served upon all persons listed on the certificate of service of Delta Air Line's application for exemption filed in Docket 31744.

This order shall be published in the FEDERAL REGISTER.

All Members concurred.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[Order No. 78-2-16; Docket No. 31292]

REISEBUD SCHWABEN

Order to Show Cause

Adopted by the Civil Aeronautics Board, at its office in Washington, D.C., on the 1st day of February 1978.

In the matter of application of Reiseburo Schwaben, International G.m.b.H. (Germany), d.b.a. Schwaben Charters, Inc., for an indirect foreign air carrier permit pursuant to section 402 of the Federal Aviation Act of 1958, as amended.

By application filed August 18, 1977, Reiseburo Schwaben International G.m.b.H., d.b.a. Schwaben Charters, Inc. (RSI) requests issuance of a foreign air carrier permit authorizing it to engage in the indirect air transportation of persons and their accompanying baggage from any point or points in the United States to any point or points outside the United States and return.¹

No answers to the application and motion have been filed.

BACKGROUND

RSI is not a direct air carrier and is not affiliated directly or indirectly with a direct air carrier or direct foreign air carrier. It operates no aircraft of its own and does not propose to do so. RSI requests the Board to issue it a foreign indirect air carrier permit so as to authorize it to engage in indirect air transportation through the organization of advance booking charters, inclusive tour charters, one-stop inclusive tour charters, travel group charters, and study group charters in foreign air transportation.

OWNERSHIP AND CONTROL

RSI is a corporation organized and incorporated in 1973 under the laws of

the Federal Republic of Germany. RSI has its principal place of business in Stuttgart and engages in business from Germany to points throughout the world as a travel agency and as an indirect air carrier. The capital stock of RSI is entirely owned by Mrs. Renate Landhaeusser, a German national. Mrs. Landhaeusser is also the chief managing director of RSI. Five of the six key employees of RSI are citizens of Germany.² Based on the foregoing, we tentatively conclude that RSI is substantially owned and effectively controlled by citizens of the Federal Republic of Germany.

FINANCIAL AND OPERATIONAL FITNESS

RSI's balance sheet as of December 31, 1975 shows assets in excess of current and long-term liabilities.³ In 1974 and 1975 RSI earned profits before taxes of \$252,534 and \$212,695 and after taxes of \$176,908 and \$128,458, respectively.⁴ In addition to the company's sound financial position, Parts 371, 372a, 373, 378, and 378a of the Board's Special Regulations, which require surety bonding and escrow arrangements, provide further protection for the traveling public against fiscal irresponsibility. Finally, RSI carries a multi-million dollar comprehensive third-party liability insurance policy and maintains a \$480,000 indemnity bond for all transactions relating to its IATA travel agency obligations.⁵ Thus, it is tentatively concluded that all of the fitness requirements of section 402 of the Act are met by the applicant.

PUBLIC INTEREST

On the basis of comity and reciprocity, it is tentatively concluded that it is in the public interest to grant RSI a foreign indirect air carrier permit. Germany has not regulated indirect air carriers of either U.S. or German citizenship, and U.S. citizen tour operators do operate air charters from Germany to the United States and other countries.⁶

On the basis of the foregoing, it is tentatively found and concluded that:

1. Reiseburo Schwaben International G.m.b.H. (Germany), d.b.a. Schwaben Charters, Inc., is fit, willing and able properly to perform the indirect foreign air transportation proposed in its application and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board;

2. RSI is substantially owned and effectively controlled by citizens of the Federal Republic of Germany;

¹Appendix to Motion for Order to Show Cause, as amended, Exhibit 13.

²Ibid., Exhibit 19.

³Ibid., Exhibits 17 and 21.

⁴Ibid., Exhibits 4 and 8.

⁵Op. Cit., Exhibits 24 and 27.

3. Since no issues in this application appear to be contested, a hearing on the application is not required in the public interest;

4. It is in the public interest to issue a foreign indirect air carrier permit in the form of the attached specimen to Reiseburo Schwaben International G.m.b.H. (Germany), d.b.a. Schwaben Charters, Inc., authorizing the carrier to engage indirectly in foreign air transportation of persons from any point or points in the United States to any point or points outside the United States, and return for a period of five years; and

5. The public interest requires that the exercise of the privileges granted by this permit should be subject to the terms, conditions, and limitations prescribed there, the conditions set forth in paragraphs (a) and (b) below, and such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board:

(a) With respect to the operations conducted pursuant to the authority granted here, the holder shall be subject to the provisions of Parts 371, 372a, 373, 378, and 378a of the Board's Special Regulations, as now or later amended;

(b) In using the authority granted herein (1) the name Reiseburo Schwaben International G.m.b.H. (Germany) shall appear on all of the holder's advertising, tickets, stationery, and other public documents; (2) the above name will always be used in its entirety; and (3) words designating the holder's nationality shall be displayed at least as prominently as its most prominently displayed name on any material disseminated to the public. For purposes of this order, the holder's name shall include its legal name, trademarks, tradenames or any other name that may be used in conjunction with any of the above.

All interested persons will be given 21 days following the adoption of this order to show cause why the tentative findings and conclusions set forth here should not be made final. We expect such persons to direct their objections, if any, to specific issues and to support such objections with detailed analysis. If an evidentiary hearing is requested the objector should state the issue with respect to which a hearing is requested and should state in detail why such a hearing is necessary and what relevant and material facts it would establish through such a hearing. Vague, general or unsupported objections will not be entertained.

Accordingly, *It is ordered*, That:

1. All interested persons be directed to show cause why the Board should not make final the tentative findings and conclusions here, and why an order to show cause should not be issued, subject to approval of the

President pursuant to section 801(a) of the Act, issuing an indirect foreign air carrier permit to Reiseburo Schwaben International G.m.b.H. (Germany), d.b.a. Schwaben Charters, Inc. in the attached form.

2. Any interested persons having objections to the issuance of an order making final the tentative findings and conclusions or to the issuance of the proposed indirect foreign air carrier permit, shall, within 21 days after adoption of this order, file with the Board and serve on the persons named in paragraph 5 below a statement of objections, together with a summary of testimony, statistical data, and such evidence expected to be relied upon to support the statement of objections;

3. If timely and properly supported objections are filed, full consideration will be accorded matters or issues raised before further action is taken by the Board; *Provided, however*, that the Board may proceed to enter an order in accordance with the tentative findings and conclusions here if its determinations that there are no factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions here; and

5. This order shall be served upon Reiseburo Schwaben International G.m.b.H. (Germany) d.b.a. Schwaben Charters, Inc., the Ambassador of the Federal Republic of Germany, and the Departments of State and Transportation.

This order shall be published in the FEDERAL REGISTER and transmitted to the President.

All Members concurred.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

UNITED STATES OF AMERICA, CIVIL
AERONAUTICS BOARD, WASHINGTON, D.C.

PERMIT TO FOREIGN INDIRECT CARRIER

Reiseburo Schwaben International G.m.b.H. (Germany), d.b.a. Schwaben Charters, Inc., is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules and regulations issued thereunder, to engage indirectly in foreign air transportation of persons from any point or points outside the United States, and return.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting the right to engage in indirect air transportation of persons now in effect, or that may become effective during the period this permit remains in effect, to which the United States and the Federal Republic of Germany shall be parties.

This permit shall be subject to the condition that in the event any practice develops

which the Board regards as inimical to sound economic conditions, the holder and the Board will consult with respect thereto, and will use their best efforts to agree upon modifications thereof satisfactory to the Board and the holder.

The exercise of the privileges granted hereby shall be subject to the terms, conditions, and limitations set forth in Order dated — and to such other reasonable terms, conditions and limitations required by the public interest as may from time to time be prescribed by the Board.

By accepting this permit the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

This permit shall be effective on —, and shall terminate five years thereafter. *Provided, however*, That if during said period the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention or agreement to which the United States and the Federal Republic of Germany are or shall become parties, then and in that event this permit is continued in effect during the period provided in said treaty, convention, or agreement.

In witness whereof, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board and the seal of the Board to be affixed thereto, on the

Secretary.

Issuance of this permit to the holder approved by the President of the United States on — in —.

"SUPER-SAVER" FARES INVESTIGATION

Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will commence on March 14, 1978 at 9:30 a.m. (local time), in Room 1003, Hearing Room D, North Universal Building, 1875 Connecticut Avenue, Washington, D.C. 20428, before the undersigned.

For information concerning the issues involved and other details in this proceeding interested persons are referred to the prehearing conference report served May 19, 1977 as amended by the supplemental prehearing conference report served June 24, 1977, and other documents that are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., February 1, 1978.

MARVIN H. MORSE,
Administrative Law Judge.

COMMISSION ON CIVIL RIGHTS UTAH ADVISORY COMMITTEE

Meeting; Correction

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Utah Advisory Committee, originally scheduled for February 9, 1978 (FR Doc. 78-1918) on page 3147 was inadvertently cancelled (FR Doc. 78-2484) on page 3924. Please note that this meeting will be held on February 9, 1978, at 7:00 p.m. in Salt Lake City, Utah.

Dated in Washington, D.C., February 3, 1978.

JOHN I. BINKLEY,
Advisory Committee
Management Officer.

DEPARTMENT OF COMMERCE

Bureau of the Census

SPECIAL CENSUSES

The Bureau of the Census conducts a program whereby a local or State

government can contract with the Bureau to conduct a special census of population. The content of a special census is ordinarily limited to questions on household relationship, age, race, and sex, although additional items may be included at the request and expense of the sponsor. The enumeration in a special census is conducted under the same concepts which govern the decennial census.

Summary results of special censuses are published semiannually in the Current Population Reports—Series P-28, prepared by the Bureau of the Census. For each area which has a special census population of 50,000 or more, a separate publication showing data for that area by age, race, and sex is prepared. If the area has census tracts, these data are shown by tracts.

The data shown in the following table are the results of special censuses conducted since December 1, 1976, for which tabulations were completed between January 1, 1978, and January 31, 1978.

Dated: February 3, 1978.

MANUEL D. PLOTKIN,

Director,
Bureau of the Census.

Industry and Trade Administration

EXPORT MONITORING REPORT FOR COAL AND COKE OF COAL

Week Ending December 30, 1977

Total bituminous coal exports for the week were 128,822 short tons, representing a significant decline from the 580,609 short tons exported the

preceding week. These exports consisted of metallurgical coal only; no steam coal exports were reported during the week under review. This low level of exports is a reflection of: (a) The normal winter fall-off in steam coal exports to Canada via the Great Lakes; (b) a short work week due to the Christmas holiday; and (c) a diminished availability of metallurgical coal for export because of the strike, since export contracts reported to the

Department called for shipments aggregating more than 500,000 short tons during the week. Because of the constricted supply situation, exports will continue at a level well below normal for this time of year for the remainder of the strike, with coal going into export coming from non-UMW mines which are not participating in the strike and are not closed for other reasons.

With this low level of export activity, only a small number of firms reported coal shipments during the week. A breakdown of those exports by volatility and area of destination is, therefore, withheld from this report to prevent disclosure of information deemed to be confidential pursuant to section 7(c) of the Export Administration Act of 1969, as amended. For the same reason, only the weighted average price of bituminous coal exports is shown in the accompanying tables.

Exports of coke manufactured from coal for the week were 3,922 short tons compared with 2,843 short tons for the preceding week. The average price for these coke exports was \$123.14 per short ton with a high and low of \$137.79 and \$94.60 per short ton, respectively. No trend either in the level of coke exports or export prices for coke is discernible from these data.

Domestic bituminous coal production for the week was 5,700,000 short tons, an increase from the 5,515,000 short tons reported for the preceding week. Total United States coal consumption for the week was about 11,400,000 short tons. According to data reported to the Department of Energy, weekly consumption during the strike has remained relatively stable varying between a high of 12,376,000 short tons and a low of 11,291,000 short tons.

Total bituminous coal stocks at the end of this week were estimated to be about 152,800,000 short tons, a decrease of 7,000 short tons from that reported for the preceding week. With coal consumption of about 11,300,000 short tons during the week and an inventory decrease of only 7,000,000 short tons, coal receipts by domestic consumers are calculated to have been slightly more than 4,200,000 short tons during the week. Domestic coal prices remained stable.

STANLEY J. MARCUSS,

Deputy Assistant Secretary
for Trade Regulation.

CONSUMER PRODUCT SAFETY
COMMISSION

[CP 78-9]

BOUNCE FABRIC SOFTENER

Denial of Petition

AGENCY: Consumer Product Safety Commission.

ACTION: Denial of petition.

SUMMARY: In this document the Commission denies a petition to ban Bounce Fabric Softener because cur-

5408

rently available information is insufficient to determine that Bounce presents an unreasonable risk of injury to the public.

FOR FURTHER INFORMATION CONTACT:

Mark Gulak, Office of Program Management, Consumer Product Safety Commission, Washington, D.C. 20207, phone 301-492-6754.

SUPPLEMENTARY INFORMATION: Section 10 of the Consumer Product Safety Act (15 U.S.C. 2059) provides that any interested person may petition the Consumer Product Safety Commission to commence a proceeding for issuance of a consumer product safety rule. Section 10 also provides that if the Commission denies such a petition, it shall publish its reasons for denial in the *FEDERAL REGISTER*.

In a letter dated September 24, 1976, Solon Automatic Services, Inc., a supplier of laundry equipment service in multifamily housing, petitioned (CP 78-9) the Commission to ban Bounce. Bounce, manufactured by Procter & Gamble, is a roll of 9 x 11 in. nonwoven rayon sheets containing a fabric softener and a small amount of perfume. The potential hazard the petitioner alleges is that when Bounce is misused by consumers (reuse of individual sheets and use of multiple sheets in a single dryer load), it can cause shredding of the sheet, clogging of lint screens and build-up of lint in the dryer and duct systems. Petitioner claims that this build-up can restrict air flow, cause the temperature in the dryer to increase and eventually cause dryer fires. Petitioner also states that reuse and multiple use may result in dryer malfunctioning, specifically the coating of dryness sensors and prolonged or erratic drying cycles. The petition was originally docketed under the Federal Hazardous Substances Act (FHSA) as HP 76-20 because it appeared that the petition was claiming Bounce itself to be flammable and therefore, a hazardous substance. Upon closer examination, it was observed that the hazard of clothes dryers catching fire as a result of the interaction of Bounce and the dryer forms the basis of the petition. Such hazard not being cognizable under the FHSA, the petition was treated under the Consumer Product Safety Act (CPSA) and given a new petition number.

The epidemiology staff reported three in-depth investigations involving solid fabric softeners and clothes dryer fires. (Bounce was in use in two of these.) None of the investigation reports concluded that the softeners were definitely the cause of the fire. There were no personal injuries in any of the incidents and no property damage other than to the dryers and the clothes inside.

NOTICES

Between February 1974 and February 1977, the Commission received 15 consumer complaints involving solid fabric softeners and dryer fires. Eight of the 15 complaints involved Bounce. Again, none of the complaints indicated that the fabric softener was the cause of the fire and no personal injury occurred in any of these incidents.

Epidemiology reported three other in-depth investigations that associated solid fabric softeners with dryer malfunctions (automatic shut-off dryers not shutting off when clothes are dry). None of these incidents resulted in a fire nor were any injuries reported.

The Commission received test data and reports from Procter & Gamble, the manufacturer of Bounce. Procter & Gamble made followup, onsite investigations for all consumer complaints received relating to the flammability of Bounce and could not find that Bounce was the cause of the fires. The great majority of cases were traced to excessive lint accumulation usually around the heating element. Procter & Gamble stated that Bounce actually decreases total lint generated because the lubricating action of Bounce reduces the formation of broken fibers (lint) which are separated from the fabric.

Procter & Gamble also asserted that the risk of fire due to a spark/flame within the dryer was an extremely unlikely possibility because the environment of a dryer is not conducive to igniting the items dried in the dryer by design. According to testing performed by Procter & Gamble, Bounce will not spontaneously ignite in dryers, and when exposed to oven temperatures of 400° for 2 hours (well above operating and safety shut-off temperatures) Bounce does not catch fire. Based on an analysis of this data and the results of tests conducted by Commission staff, the Commission believes that it is unlikely that Bounce presents any more of a risk of fires in clothes dryers than the clothes themselves.

After carefully considering the matters raised by the petitioner, and the information presently available to it, the Commission concludes that currently available information is insufficient for it to determine that Bounce fabric softener presents an unreasonable risk of injury to the public. Therefore, the petition is denied.

Copies of the petition and the staff's briefing package to the Commission on the petition may be seen in or obtained from the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, during working hours Monday through Friday.

Dated: February 21, 1978.

SADYE DUNN,
Acting Secretary, Consumer
Product Safety Commission.

DEPARTMENT OF DEFENSE

Office of the Secretary

ADVISORY GROUP ON ELECTRON DEVICES

Advisory Committee Meeting

The DOD Advisory Group on Electron Devices (AGED) will meet in closed session at 201 Varick Street, 9th Floor, New York, N.Y. 10014 on March 2, 1978.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of Electron Devices.

The meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The AGED will review programs on microwave devices, night vision devices, lasers, infrared systems and microelectronics. The review will include classified program details throughout.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552b(c) of Title 5 of the United States Code, specifically Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and
Directives OASD (Comptroller).

FEBRUARY 3, 1978.

ADVISORY GROUP ON ELECTRON DEVICES

Advisory Committee Meeting

Working Group D (Mainly Laser Devices) of the DOD Advisory Group on Electron Devices (AGED), will meet in closed session at the National Bureau of Standards, 325 Broadway, Boulder, Colo. on February 22-23, 1978.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The meeting will be limited to review of research and development

NOTICES

programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The laser area includes programs on developments and research related to low energy lasers for such applications as battlefield surveillance, target designation, ranging, communications, weapon guidance and data transmission. The review will include details of classified defense programs throughout.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552b(c) of Title 5 of the United States Code, specifically, Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and
Directives OASD (Comptroller).

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CS78-219, et al.]

ANTOINETTE C. ALEXANDER, ET AL.

Applications for "Small Producer" Certificates¹

FEBRUARY 2, 1978.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 28, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing

¹ This notice does not provide for consolidation for hearing of the several matters covered herein.

therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI77-58]

OUTLINE OIL CORP.

Order Granting Special Relief and Permitting Intervention

Issued: February 1, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "saving provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be effected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On April 11, 1977, Outline Oil Corporation (Outline) filed a petition for special relief in Docket No. RI77-58 pursuant to section 2.56(B)(h) of the Commission's General Policy and Interpretations. Outline initially requested a total rate of \$1.36 per Mcf at 14.65 psia for the sale of 100 percent of the natural gas produced from the Heinold No. 1 and No. 2, Lewis No. 1 and Lewis-Sager No. 1 wells in the Mission Valley Field, Victoria County, Texas, to Transcontinental Gas Pipeline Corporation (Transco). On Sep-

tember 29, 1977, Outline amended its original petition to exclude the Heinold No. 2 well and to request a price of \$1.1012 per Mcf for gas produced from the Heinold No. 1, the Lewis No. 1 and the Lewis-Sager No. 1 wells.

On December 5, 1977, Outline further amended its filing to reflect a lower requested rate of 99.01 cents per Mcf at 14.65 psia. Outline is filing on behalf of all interest owners.

Notices of the filings were published in the FEDERAL REGISTER. Philadelphia Gas Works and Transco filed petitions to intervene, but neither raised objections concerning Outline's filings or requested a hearing.

Outline is making this sale under its small producer certificate issued in Docket No. CS71-275 on August 1, 1972, and under a November 12, 1971, contract with Transco. It is currently receiving 35.0 cents per Mcf plus applicable adjustments. By a letter dated April 5, 1977, Transco has agreed to amend the contract to provide for the payment of a rate of \$1.36 cents per Mcf.

Outline avers that it will spend \$77,470 reworking the Heinold No. 1 well and the Lewis No. 1 well and installing compression facilities on all wells. The reworking of these wells is to include reperforating, cementing, packer replacement or redressing, purchasing and installing tubing, and testing. Reworking the wells and adding compression will enable the production of an estimated 542,645 Mcf of remaining reserves over the next five years.

Based on data filed by the Applicant, the Commission Staff determined that Outline's remaining net book investment of \$231,022, new investment of \$77,470, and estimated production expense over the remaining life of the project of \$169,805 were reasonable. Staff used these costs and the net working interest reserves of 542,645 Mcf, remaining after deducting an allowance for compressor fuel, in a traditional cost study wherein the modified Btu method was utilized to allocate costs between gas and liquids. The results of this study indicated that a total rate of 99.01 cents per Mcf is required to allow Outline to recoup all cost associated with this product including a 15 percent rate of return. (See Appendix A attached hereto.)

We note that although Outline filed its petition pursuant to section 2.56(B)(h) of the Commission's Gen-

eral Policy and Interpretations, it appears from the facts developed that it may more properly be considered pursuant to section 2.76. Therefore, we will treat the application as though it had been filed pursuant to section 2.76 of our General Policy and Interpretations.

After reviewing the costs to be incurred and the reserves to be recovered, we determine that Outline's petition for special relief is warranted and that it is in the public interest to grant the petition.

The Commission finds:

The petition for special relief filed by Outline should be granted. Philadelphia Gas Works and Transco should be permitted to intervene.

The Commission orders:

(A) The petition for special relief, as amended, filed by Outline Oil Corporation is hereby granted.

(B) Outline is authorized to charge and collect a total rate of 99.01 cents per Mcf at 14.65 psia for the sale of natural gas from its Heinold No. 1 well, Lewis No. 1 well, and Lewis-Sager No. 1 well to Transco effective on the date of this order or the date of completion of the reworking and recompletion of the wells and installation of compression, whichever is later, subject to the conditions set forth in paragraphs (C) and (D) below.

(C) Within 30 days of the effective date specified above, Outline shall file a statement signed by Transco that the proposed work has been completed to Transco's satisfaction.

(D) Outline shall file a Notice of Independent Producer Rate Change reflecting the above authorized rate and an executed amendment to its contract with Transco providing for payment of the rate granted above, within 30 days of the date of issuance of this order.

(E) Philadelphia Gas Works and Transco are permitted to intervene in the above-entitled proceeding, subject to the rules and regulations of the Commission: Provided, however, that their participation shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions for leave to intervene; and Provided, further, that the admission of such parties in the manner provided shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders entered in this proceeding.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

dam on the Beaver River in the Town of New Bremen, Lewis County, N.Y.

The proposed project would consist of: (1) A 4-acre reservoir formed by an existing 400-foot-long concrete gravity dam with a maximum height of 17 feet consisting of a 240-foot-long non-overflow section containing an 8-foot wide spillway and a 160-foot long overflow section; (2) an existing powerhouse to be modified to contain two 500-kW hydroelectric generating units; and (3) appurtenant facilities. A 2,400-volt transmission line would be installed across the Beaver River connecting the powerhouse to the Applicant's industrial facilities. The project would produce power for industrial use by the Applicant. Approximately 5 percent of the total power would be sold to the local electrical utility, Niagara Mohawk Power Corp., during times when the industrial facility is not operating.

Any person desiring to be heard or to make any protest with reference to said application should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before April 7, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-529]

COLUMBUS & SOUTHERN OHIO ELECTRIC CO.

Order Modifying Prior Order

FEBRUARY 2, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to

exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by Section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR—: *Provided*, That this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

PROCEDURAL HISTORY

On July 29, 1977, Columbus and Southern Ohio Electric Co. (hereinafter Columbus) tendered for filing a proposed increase in rates and charges to four (4) municipal customers.¹

By order issued August 26, 1977, the Federal Power Commission (FPC) suspended the proposed rates for the cities of Westerville and Jackson and the Village of Glouster for one day, to become effective August 30, 1977, subject to refund.² Further, the FPC suspended the proposed rates for the City of Columbus for one day to become effective January 2, 1978, subject to refund.³

On December 9, 1977, the city of Columbus filed a Motion for Expedited Reconsideration of the August 26, 1977 order of the FPC. The city re-

¹The filing would increase the Company's revenues by \$2,500,889 for the 12-month period ending June 30, 1978. Columbus requested an effective date of July 1, 1977 for the cities of Westerville, Jackson and the Village of Glouster, all in Ohio. The Company asked for an effective date of January 1, 1978 for the city of Columbus, Ohio.

²The FPC, *inter alia*, granted intervention to the city of Westerville and the city of Columbus and established price squeeze procedures in accord with Order No. 563.

³Based on the Company's representation in its transmittal letter, that the expiration date of the contract was December 31, 1977, the FPC suspended application of the proposed rates to the city of Columbus until January 2, 1978.

quests rejection of the Company's filing or alternatively, suspension of the effective date until February 9, 1978. This request is bottomed on the Mobile-Sierra doctrine.⁴ On December 27, 1977, the city of Columbus filed a motion for immediate action stating that to allow the proposed increased rates to become effective on January 2, 1978, would violate the terms of the fixed rate contract between the parties and work irreparable harm on Columbus.

The Company filed on December 29, 1977, its objections to the City's Motion for Expedited Reconsideration and in the alternative, for suspension for an additional period of time.⁵ In sum, the Company argues that the City's motion was untimely; that the effective date of the contract was January 1, 1976, and that its notice of termination effectively terminated the contract on December 31, 1977.

MOTION FOR RECONSIDERATION

The Company contends that the City of Columbus' Motion for Reconsideration should be rejected as untimely. The motion was filed 77 days after the expiration of the 30-day period for appeal of the August 26th order of the FPC.

The Company characterized the City's motion as nothing more than a tardy motion for rehearing. The Company's argument is based on section 313(a) of the Federal Power Act and § 1.34(a) of the Commission's rules of practice and procedure.⁶

Although the Act and the Commission's regulations are silent as to Motions for Reconsideration, we have construed Motions for Rehearing filed out of time as Motions or Applications for Reconsideration in some instances. "Appalachian Power Company", 52 FPC 317 (1974).⁷ This has been predicated on the theory that it is better

⁴*United Gas Pipeline Co. v. Mobile Gas Service Corp.*, 350 US 332 (1956) and *FPC v. Sierra Pacific Power*, 350 US 348 (1956).

⁵The Company's objection was filed out of time pursuant to the Commission's Regulation 1.18.

⁶Section 313(a) of the Federal Power Act provides, in pertinent part, that—Any person . . . aggrieved in an order issued by the Commission in a proceeding under this Act to which such person . . . is a party may apply for a rehearing within thirty days after the issuance of such order. . . . No proceeding to review any orders of the Commission shall be brought by any person (in the United States Court of Appeals) unless such person shall have made application to the Commission for a rehearing thereon.

Our pertinent rule, set forth at § 1.34 (18 CFR 1.34), is parallel: An application for rehearing of a proceeding may be filed within 30 days after the issuance of any final decision or order by the Commission.

regulatory practice to decide cases based on the merits rather than on procedural grounds.

However, the rule requiring a motion for rehearing to be filed within 30 days after the issuance of an order is also grounded in sound regulatory practice. Such a rule provides finality to Commission orders and preserves the orderly administrative process.

We believe that Motions for Reconsideration should be granted sparingly and only then in instances where significant substantive issues are raised.

The City's motion alleges that the Company misrepresented the expiration date of its fixed rate contract in its rate increase filing. The City further claims that to place the increased rates into effect prior to expiration date of the contract violates the Mobile-Sierra doctrine. The City of Columbus' allegation of a Mobile-Sierra violation is so fundamental to the determination of the validity of a rate filing that it may be properly raised out of time.⁸ However, by operation of law the City of Columbus' December 9, 1977, motion for reconsideration has been denied, Commission Rules and Regulations, section 1.12(e). Nevertheless, we shall on our own motion consider the Mobile-Sierra allegations raised by the City and objected to by the Company (section 309 of the Act).

MOBILE-SIERRA ISSUE

The City of Columbus argues that the present contract between it and

⁷The FPC cannot waive the 30-day filing requirement for applications or petitions for rehearing. For example, in *Power Authority of the State of New York*, 31 FPC 467 (1964), the FPC stated:

The application for rehearing must also be rejected upon the ground that it was not timely filed. Section 313(a) of the Federal Power Act . . . (provides) that an application for rehearing is to be filed within 30 days after the issuance of the original order. The Authority did not file its application until the 31st day. Since the 30-day period is the maximum period prescribed by the statute, this Commission has no power to grant any extension of time. (p. 468)

To the same effect are *Turnbull & Zoch Drilling Co.*, 36 FPC 782 (1966); *City of Detroit*, et al., 6 FPC 951 (1947); *Northern Natural Gas Co.*, 7 FPC 638 (1948); *American Louisiana Pipe Line Co.*, et al., 21 FPC 366 (1959); *Pacific Northwest Power Co.*, 26 FPC 174 (1961).

⁸The Commission has no power under the Federal Power Act to accept for filing rates that contravene existing contracts. The Court of Appeals in *Richmond Power & Light of Richmond, Ind. v. FPC*, 481 F.2d 490, 493 (D.C. 1973) clearly enunciated the Mobile-Sierra rule:

The rule . . . is refreshingly simple: the contract between the parties governs the legality of the filing. Rate filings consistent with contractual obligations are valid; rate filings inconsistent with contractual obligations are invalid. . . .

the Company is a fixed rate contract which extends for a one-year term from the date of execution—February 9, 1976—and for one-year periods thereafter unless 90 days notice is given prior to the anniversary date. The contract provision in question reads:

This contract shall be in force for, and during, a period of one (1) year from date of execution by the City, and thereafter for successive periods of one (1) year unless 90 days' written notice of termination is given by either party to the other. (Paragraph 2, Term of Contract, of Section V, Technical Provisions Electric Service, at p. 5-1).

In its objection, the Company agrees that the contract is a fixed rate contract but argues that the term extends for one-year periods from January 1, 1976. The cornerstone of the Company's argument is the assertion that the discernible intent of the parties indicates that the contract became effective on January 1, 1976 for consecutive one-year terms.

In supporting this position, the company cites an ordinance passed on January 26, 1976, by the Columbus City Council that specifically provided that the contract was subject to the approval of the FPC as to price and effective date. Further, the Company stated that the Commission entered an order on March 18, 1976, accepting the amended rate schedule and ordering that it become effective January 1, 1976. Additionally, the Company pointed to the failure of the city to object to the billing of its January purchases at the "new contract rate" as further evidence of the intent of the parties.

We view the Company's argument as an attempt to create a cloud of ambiguity to obscure an otherwise clear contract provision. The Courts have provided us guidance in dealing with arguments of this kind. In *"Appalachian Power Co. v. FPC"*, 529 F.2d 342, 348 (D.C. Cir. 1976), the Court noted that the Company had reached "outside the unambiguous contracts for an argument seeking to impart uncertainty, and then again utilize(d) the extrinsic material to resolve the so-called doubt (footnote omitted). Well settled principles preclude both the Commission and this court from endorsing that technique (footnote omitted)."

We find that the term of the contract is based on the date of execution—February 9, 1976. The City's "Mobile-Sierra" argument is well founded. We amend our August 26, 1977 order in this docket and set the effective date for the rates to become effective as February 10, 1978, subject to refund.

We now turn to the City of Columbus' claim that the Company's July 29, 1977 letter to Columbus fails to constitute effective notice of termination. First, the City argues that the letter was ambiguous when read in light of the Company's transmittal letter to the Commission.⁹ The City states that the Director of the Department of Public Service for the City sent a letter to the Company requesting a clarification as to the termination date of the contract and that the Company did not respond.¹⁰

Second, the City contends that the letter fails to comply with the terms of the contract. Here the City states that the Company patently failed to comply with the express terms of the contract for notice of termination—90 days prior to the anniversary date—the notice was more than three months premature.¹¹

In its objection, Columbus states that the Company's notice of termination was clear. Further, Columbus aptly notes that the August 10, 1977 letter from the Director shows that he understood that the Company intend-

⁹The pertinent paragraphs of the Company's July 29, 1977 letter to the City of Columbus read: A copy of the filing by Columbus and Southern Ohio Electric Co. is enclosed for your information. This is to inform you that in accordance with the terms, we are terminating the contract for wholesale service to the City of Columbus, Ohio, which became effective as of January 1, 1976 (FPC Docket No. ER76-459).

¹⁰The Letter dated August 10, 1977 read in part: I would also like to confirm the effective date of this termination as discussed in our telephone conversation on August 1. I believe you stated at that time that the intention was to terminate the contract December 31, 1977. If this is not true, please advise.

¹¹The City cites a Montana case of 1896 vintage to support its argument. *Schultz v. O'Rourke*, 45 P 634 (1896). This antiquated case stands alone. See, Annot., 164 ALR 1014, 1015 (1946).

ed to terminate the contract on December 31, 1977. We find that the Company's notice of termination comports with the requirements of the contract, albeit the company mistakenly thought that the contract anniversary date was December 31, 1977.

Finally, the City of Columbus avers that the Commission's failure to act before January 2, 1978 will work undue hardship and irreparable harm on the City.

The proposed rates were put into effect on January 2, 1978 subject to refund. Further, the billing date for the first month of service probably will not occur until sometime in February. We find that the City's claim of irreparable harm is without merit in either fact or law. *"Algonquin Gas Transmission Co. v. FPC"* 534 F.2d 952 (D.C. Cir. 1976).

The Commission finds. (1) Good cause exists to consider the "Mobile-Sierra" allegations raised in the City of Columbus' Motion for Reconsideration.

(2) Good cause exists to modify the FPC's August 26, 1977 order in this docket to prescribe an effective date for Columbus' rate filing for the City of Columbus of February 10, 1978.

(3) Good cause exists to require Columbus to refund all amounts, if any, collected in the interim period under the subject rate schedules.

The Commission orders. (A) Ordering paragraph (C) in the FPC's August 26, 1977 order in this docket is terminated.

(B) The proposed increased rates and charges filed by Columbus on July 29, 1977 and identified above as associated with the City of Columbus are hereby accepted for filing, suspended and the use thereof deferred until February 10, 1978, when they shall become effective, subject to refund.

(C) Columbus shall refund with appropriate interest within 30 days all amounts, if any, collected during the interim period under the subject rate schedules.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[Project No. 2332]

DUKE POWER CO.

Application for Approval of Exhibit R
(Recreational Use Plan)

FEBRUARY 1, 1978.

Public Notice is hereby given that application for approval of Exhibit R was filed by Duke Power Co. (correspondence to: William L. Porter, Esq., Duke Power Co., P.O. Box 2178, Charlotte, N.C. 28242 and Richard A. Brown, Esq. Wall, Harkrader and Ross, 1320 19th Street NW., Washington, D.C. 20036) on April 4, 1977, in compliance with regulations promulgated pursuant to the Federal Power Act, 16 U.S.C. §§ 791a-8251.

Applicant (Duke Power Co.) seeks approval of Exhibit R as part of, and in accordance with Article No. 30 of, its existing FERC license for the constructed Gaston Shoals Project No. 2332.

Gaston Shoals dam is located on the Broad River, a navigable water of the United States within Cherokee County in north central South Carolina, approximately 5 miles northeast of Gaffney and 4 miles northwest of Blacksburg, S.C. Gaston Shoals reservoir is 19 miles upstream from Ninety-Nine Islands reservoir. The reservoir behind Gaston Shoals dam extends approximately 4½ miles upstream. The reservoir was put into operation to generate hydroelectric sources in 1908 with an original full pond surface area of 251 acres.

The Applicant's Exhibit R states that it has no plans for any recreational development at the Gaston Shoals Project for the following reasons:

1. Accumulation of silt has reduced the usable head to approximately 3 feet at the project and has reduced the water surface acreage.

2. The reservoir is very shallow except for the river channel and many of the shallow areas have become filled with brush and other vegetation, thereby rendering the reservoir unsuitable for boating or water skiing. A possibility does exist for low profile activities such as canoeing and bank fishing which occur occasionally at the reservoir.

3. The river water, rated class B, remains muddy most of the year.

4. There are no existing facilities associated with water oriented recreation, i.e., marinas, piers, etc. at the reservoir.

5. No local or State agency contacted has stated any present or future plans for recreational development at the reservoir.

6. The people living near the Gaston Shoals Project have a choice of several alternative reservoirs on which to pursue water oriented activities. Within a 50 mile radius are Lake Wylie, Fishing Creek Lake, Great Falls, Rocky Creek, Lake Wateree, Mt. Island Lake, Lake Norman, and Lake Adger with a combined surface area of 66,900 acres.

7. Kings Mountain National Military Park, Kings Mountain State Park, Rose Hill State Park, Chester State Park, Paris Mountain State Park, Croft State Park, Landsford Canal State Park, Andrew Jackson Historical State Park, and Duke Power State Park are all within a 50 mile radius of reservoir. These parks provide camping, hiking, swimming, picnicking, and other related activities.

Any person desiring to be heard or to make protest with reference to the subject application should, on or before April 1, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426 protests or petitions to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR § 1.10 or § 1.8 (1977)). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The Application is on file with the Commission and available for public inspection.

The public should take further notice that on October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46467 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provided that proceedings pending before the FPC

on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by section 402(a)(1) or 402(a)(2) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above-mentioned authorities.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER78-188]

MONTANA POWER CO.

Filing

FEBRUARY 1, 1978.

Take notice that Montana Power Co. on January 24, 1977, tendered for filing Original Sheet No. 10 of FPC Electric Tariff M-1, which has been revised to show the addition of Southern California Edison Co. and the city of Glendale, Calif.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER78-40]

NEVADA POWER CO.

Supplemental Filing

FEBRUARY 2, 1978.

Take notice that Nevada Power Co. (Nevada) on December 23, 1977, tendered for filing a supplemental filing to the compliance filing filed by Nevada on September 1, 1977, as amended by amendment filed November 17, 1977. Said supplemental filing added new language concerning the fuel adjustment clause in Nevada FERC Rate Schedule No. 1.

Any person desiring to be heard or to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such protests should be filed on or before February 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ER78-192]

NORTHERN STATES POWER CO.

Filing

FEBRUARY 2, 1978.

Take notice that Northern States Power Co. (Northern States) on January 25, 1978, tendered for filing Supplement No. 3, dated December 12, 1977, to the Manitoba-United States Winnipeg-Grand Forks 230 KV Interconnection Coordinating Agreement, dated January 16, 1969, between The Manitoba Hydro-Electric Board, Minnesota Power Cooperative, Inc., Northern States Power Co., and Otter Tail Power Co.

Northern States indicates that Supplement No. 3 provides for a revision in the Demand Charge for Participation Power, adds Service Schedule IX, Tertiary Energy, and increases the other-than-fuel component of the Average Production Cost from 1.00 mill per kWh to 1.70 mills per kWh.

Northern States proposes an effective date of March 1, 1978.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Com-

mission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 13, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[6740-02]

[Docket No. ER78-193]

PENNSYLVANIA POWER & LIGHT CO.

Filing

FEBRUARY 2, 1978.

Take notice that on January 26, 1978, Pennsylvania Power & Light Co. (PP&L) filed, pursuant to section 35 of the Commission's rules and regulations, a new contract relating to a change in status in the resale service to the Borough of Hatfield, Montgomery County, Pa.

PP&L indicates that the purpose of this filing is to reflect a change in status in the service to Hatfield from a partial-use customer to an all-requirements customer. PP&L further indicates that Hatfield has discontinued use of its municipal generating equipment and desires to purchase all energy requirements from PP&L. PP&L had indicated its willingness to provide all of Hatfield's energy requirements and the new contract has been executed.

PP&L proposes that the new contract become effective upon acceptance by the Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such protests should be filed on or before February 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-3386 Filed 2-7-78; 8:45 am]

[6740-02]

[Docket No. CP78-171]

SOUTHERN NATURAL GAS CO. ET AL.

Application

FEBRUARY 1, 1978.

Take notice that on January 24, 1978, Southern Natural Gas Co. (Southern), P.O. Box 2563, Birmingham, Ala. 35202, Texas Gas Transmission Corp. (Texas Gas), 3800 Frederica Street, Owensboro, Ky. 42301, and United Gas Pipe Line Co. (United), P.O. Box 1478, Houston, Tex. 77001 (Applicants), filed in Docket No. CP78-171 a joint application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas for Mississippi Valley Gas Co. (Mississippi), a Mississippi corporation operating facilities for the distribution of gas wholly within the state of Mississippi for the benefit of Consumers in the state of Mississippi, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Mississippi purchases gas for resale from Applicants in different areas of the state of Mississippi, and that because of potential curtailment by such suppliers, it began seeking sources of supplemental supply and has succeeded in purchasing certain amounts of gas in the intrastate market.

It is indicated that in order to utilize these volumes of intrastate supplies, Mississippi has entered into separate agreements dated December 5, 1977, with Applicants, which agreements provide for the transportation of volumes displaced by said volumes of intrastate gas. It is stated that the proposed transportation would be effected by Mississippi's designating that a portion of its daily allocation of gas from Southern, up to the equivalent of the volume purchased from intrastate sources, be transported and delivered to Texas Gas United, and that Texas Gas or would redeliver said volumes, less fuel and company use volumes, to Mississippi's service areas served by gas obtained by Mississippi from United and Texas Gas. All gas so transported would be displaced by Mississippi's intrastate supplies, it is said.

It is stated that for the services to be performed hereunder, Mississippi has agreed to pay to Southern on each day such services are rendered an administrative charge of \$50 plus any other incidental costs resulting from the displacement service to be provided by Southern, and that Mississippi would reimburse Texas Gas for the transportation service to be rendered by it at the rate of 13.93 cents per Mcf of gas transported and delivered to Mississippi

pi or such other rates as may be determined from time to time by the Commission to be just and reasonable. It is further stated that Mississippi would reimburse United for all gas redelivered hereunder an amount equal to United's average jurisdictional transmission cost of service in effect from time to time in United's Northern Rate Zone, less any amount included in such average jurisdictional transmission cost of service which is attributable to gas consumed in the operation of United's pipeline system, which rate is currently 24.46 cents per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 23, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20428, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-3378 Filed 2-7-78; 8:45 am]

[6740-02]

[Docket No. CP78-166]

TENNESSEE GAS PIPELINE CO., A DIVISION OF
TENNECO INC.

Application

FEBRUARY 1, 1978.

Take notice that on January 20, 1978, Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Tex. 77001, filed in Docket No. CP78-166 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Connecticut Natural Gas Corp. (Connecticut Natural), one of Applicant's existing customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to transport gas for Connecticut Natural for a primary term of fifteen years ending March 31, 1993, which gas would enable Connecticut Natural to store a portion of the natural gas it purchases from Applicant with National Gas Storage Corp. (Storage Corporation) under the storage service proposed by Storage Corporation in Docket No. CP78-492. It is indicated that Connecticut Natural has entered into a preliminary agreement with Storage Corporation under which Storage Corporation would, upon certification and development of the storage facilities proposed at Docket No. CP78-492, perform a storage service for Connecticut Natural extending through March 31, 1993.

Applicant proposes to receive from Connecticut Natural daily volumes of natural gas (injection transportation volumes) nominated by Connecticut Natural from its contracted demand purchases from Applicant under Applicant's CD-6 Schedule and to transport and deliver such volumes to Storage Corporation for storage for Connecticut Natural's account, in order to enable Connecticut Natural to utilize this aforementioned storage service.

It is stated that when requested by Connecticut Natural, Applicant proposes to receive daily volumes from Storage Corporation, for Connecticut Natural's account (withdrawal input volumes), and after deduction of a small portion of such volume for Applicant's system fuel and use requirements, to transport and deliver the remaining volumes (withdrawal transportation volumes) to Connecticut Natural.

The application states that the maximum daily injection transportation volume which Connecticut Natural may request Applicant to receive for transportation and delivery to Storage Corporation is 13,867 Mcf per day, and the total of the injection

transportation volumes during the April 1-October 31 period of each year would not exceed 2,080,000 Mcf. The application further states that the maximum daily withdrawal input volume which Connecticut Natural may request Applicant to receive from Storage Corporation for transportation and delivery to Connecticut Natural is 18,182 Mcf per day, and that on any day when a withdrawal input volume is made available to Applicant, the withdrawal transportation volume would equal 0.9824 times the withdrawal input volume. The remaining 0.0176 times the withdrawal input volume would be retained by Applicant as a supplement to Applicant's system gas supply for Applicant's system fuel and use requirements, it is said. It is stated that the total of the withdrawal transportation volumes which Connecticut Natural may request Applicant to transport during the November 1-March 31 period of each year would not exceed 2,000,000 Mcf.

Applicant states that the delivery point for all volumes to be received from and delivered to Connecticut Natural by Applicant would be at Applicant's various existing sales meter station delivery points to Connecticut Natural located in Connecticut, or when required by operating conditions, at any other mutually agreed to existing point of interconnection between the two companies. Applicant further states that the delivery point for all volumes to be delivered to and received from Storage Corporation by Applicant for Connecticut Natural's account would be at a point of interconnection between the facilities of Applicant and Storage Corporation to be established at or near Applicant's main line valve 313G-102 in Potter County, Pennsylvania.

It is indicated that the compensation to be paid each month by Connecticut Natural to Applicant for the transportation service by Applicant would consist of the following charges:

A. CHARGE FOR TRANSPORTATION OF BASE GAS FOR INJECTION

For each Mcf of natural gas made available to Applicant by Connecticut Natural at the Point of Receipt, which gas Applicant delivers during the month to Storage Corporation for the account of Connecticut Natural to enable Connecticut Natural to make base gas available to Storage Corporation, Connecticut Natural would pay to Applicant 12.07 cents per Mcf.

B. CHARGE FOR TRANSPORTATION OF WITHDRAWAL TRANSPORTATION VOLUMES

For each Mcf of withdrawal transportation volume which Applicant delivers during the month to Connecticut Natural, Connecticut Natural shall pay to Applicant 17.82 cents per Mcf;

provided, however, there would be no charge to Connecticut Natural for the transportation of any base gas for injection, which Connecticut Natural may have withdrawn hereunder.

C. ADDED VOLUME CHARGE

(a) For the purpose of calculating the Added Volume Charge, the following terms applicable to each period from November 1 through the following March 31 are defined:

(i) The CD-6 Underage Volume shall be the positive remainder, if any, of the total of Connecticut Natural's Curtailment Period Quantity Entitlements (CPQEs) during such period under Applicant's contracted demand gas sales contract with Connecticut Natural minus the volume for which Connecticut Natural pays Applicant at Applicant's CD-6 Commodity Rate under said gas sales contract during such period.

(ii) The Displaced Volume shall be the lesser of the CD-6 Underage Volume or, the volume, within the total of withdrawal transportation volumes during such period, which Connecticut Natural obtained from sources other than Applicant.

(iii) The terms Curtailment Period, CD-6 Commodity Rate and Curtailment Period Quantity Entitlement are defined in Volume 1 of Applicant's FERC Gas Tariff.

(b) The Added Volume Charge for each period from November 1 through the following March 31 shall consist of a sum equal to the product of 24.76 cents per Mcf times the Displaced Volume.

(c) The Added Volume Charge applicable to each period from November 1 through the following March 31 shall appear on Applicant's invoice issued during the month of April at the end of each such period.

D. MINIMUM ANNUAL BILL

Beginning with the month of April 1981, Connecticut Natural shall pay Applicant during April of each year 17.82 cents per Mcf multiplied by the difference in volume between (a) 0.9824 times (2,000,000 Mcf minus any Storage Corporation withdrawal fuel related to 2,000,000 Mcf for the period from November 1 through the following March 31) reduced by whatever portion of such volume which Applicant did not transport and deliver for the account of Connecticut Natural during such period because of Applicant's inability to transport and deliver volumes related to injection and withdrawal input volumes requested by Connecticut Natural, and (b) the total of the daily withdrawal transportation volumes during such period from November 1 through the following March 31.

Any person desiring to be heard or to make any protest with reference to

said application should on or before February 23, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20428, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-169]

TENNESSEE GAS PIPELINE CO., DIVISION OF
TENNECO INC.

Application

FEBRUARY 1, 1978.

Take notice that on January 23, 1978, Tennessee Gas Pipeline Co., Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Tex. 77001, filed in Docket No. CP78-169 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Haverhill Gas Co. (Haverhill), one of Applicant's existing customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to transport gas for Haverhill for a

period of fifteen years ending March 31, 1993, in order to enable Haverhill to store a portion of the natural gas it purchases from Applicant with National Gas Storage Corp. (Storage Corp.) under the storage service proposed by Storage Corp. at Docket No. CP76-492. It is stated that Haverhill has entered into a preliminary agreement with Storage Corp. under which Storage Corp. would, upon certification and development of the storage facilities proposed at Docket No. CP76-492, perform a storage service for Haverhill extending through March 31, 1993.

Applicant states that in order to enable Haverhill to utilize this storage service, Applicant proposes to receive from Haverhill daily volumes of natural gas (injection transportation volumes) nominated by Haverhill from its contracted demand purchases from Applicant under Applicant's CD-4 Rate Schedule and to transport and deliver such volumes to Storage Corp. for storage for Haverhill's account.

When requested by Haverhill, Applicant proposes to receive daily volumes from Storage Corp., for Haverhill's account (withdrawal input volumes), and after deduction of a small portion of such volume for Applicant's system fuel and use requirements, to transport and deliver the remaining volumes (withdrawal transportation volumes) to Haverhill.

It is stated that the maximum daily injection transportation volume which Haverhill may request Applicant to receive for transportation and delivery to Storage Corp. is 2,427 Mcf of natural gas per day, and that the total of the injection transportation volumes during the April-October 31 period of each year would not exceed 364,000 Mcf. It is further stated that the maximum daily withdrawal input volume which Haverhill may request Applicant to receive from Storage Corp. for a transportation and delivery to Haverhill is 3,182 Mcf per day. It is indicated that on any day when a withdrawal input volume is made available to Applicant, the withdrawal transportation volume would equal 9.9734 times the withdrawal input volume, and the remaining 0.0266 times the withdrawal input volume would be retained by Applicant as a supplement to Applicant's system gas supply for Applicant's system fuel and use requirements. The total of the withdrawal transportation volumes which Haverhill may request Applicant to transport during the November 1-March 31 period of each year would not exceed 350,000 Mcf it is said.

The application states that the delivery point for all volumes to be received from and delivered to Haverhill by Applicant would be at Applicant's existing sales meter station delivery point to Haverhill located in Essex

County, Mass., or when required by operating conditions, at any other mutually agreed to existing point of interconnection between the two companies. The application further states that the delivery point for all volumes to be delivered to and received from Storage Corp. by Applicant for Haverhill's account would be at a point of interconnection between the facilities of Applicant and Storage Corp. to be established at or near Applicant's main line valve 313G-102 in Potter County, Pa.

Applicant states that it would charge Haverhill a rate of 33.86 cents per Mcf transported and delivered from National Fuel Gas's Ellsberg Storage meter station MLV 313-121, meter No. 2-0527 to Haverhill's delivery meter station MLV 270B-223, meter No. 2-0122. Additionally, for each Mcf of base storage gas that Applicant delivers to storage Haverhill would pay to Applicant a base gas injection rate of 22.80 cents per Mcf. The rates are calculated based upon Applicant's system average haul cost per 100 mile, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 23, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to

appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-170]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO INC.

Application

FEBRUARY 1, 1978.

Take notice that on January 23, 1978, Tennessee Gas Pipeline Co., a Division of Tenneco Inc., P.O. Box 2511, Houston, Tex. 77001, filed in Docket No. CP78-170 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Pennsylvania and Southern Gas Co. (Penn and Southern), one of Applicant's existing customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to render a transportation service for Penn and Southern for 15 years ending March 31, 1993, which transportation service would enable Penn and Southern to store a portion of the natural gas it purchases from Applicant with National Gas Storage Corp. (Storage Corporation) under the storage service proposed by Storage Corporation at Docket No. CP76-492. It is stated that Penn and Southern has entered into a preliminary agreement with Storage Corporation under which Storage Corporation would, upon certification and development of the storage facilities proposed at Docket No. CP76-492, perform a storage service for Penn and Southern extending through March 31, 1993.

Applicant states that in order to enable Penn and Southern to utilize this storage service, Applicant proposes to receive from Penn and Southern daily volumes of natural gas (injection transportation volumes) nominated by Penn and Southern from its contracted demand purchases from Applicant under Applicant's CD-4 Rate Schedule (Penn and Southern's conversion to which is proposed herein) and to transport and deliver such volumes to Storage Corporation for storage for Penn and Southern's account.

When requested by Penn and Southern, Applicant proposes to receive daily volumes from Storage Corporation, for Penn and Southern's account (withdrawal input volumes), and after deduction of a small portion of such volume for Applicant's system fuel and use requirements, to transport and deliver the remaining volumes

(withdrawal transportation volumes) to Penn and Southern.

The application states that the maximum daily injection transportation volume which Penn and Southern may request Applicant to receive for transportation and delivery to Storage Corporation is 1,387 Mcf of natural gas per day, and the total of the injection transportation volumes during the April 1-October 31 period of each year would not exceed 208,000 Mcf. The maximum daily withdrawal input volume which Penn and Southern may request Applicant to receive from Storage Corporation for transportation and delivery to Penn and Southern is 1,818 Mcf of natural gas per day, it is said. It is stated that on any day when a withdrawal input volume is made available to Applicant, the withdrawal transportation volume would equal 0.9945 times the withdrawal input volume, and that the remaining 0.0055 times the withdrawal input volume would be retained by Applicant as a supplement to Applicant's system gas supply for Applicant's system fuel and use requirement. It is further stated that the total of the withdrawal transportation volumes which Penn and Southern may request Applicant to transport during the November 1-March 31 period of each year would not exceed 200,000 Mcf.

The application states that the delivery point of all volumes to be received from and delivered to Penn and Southern by Applicant would be at Applicant's existing Towanda Sales meter station delivery point to Penn and Southern located in Bradford County, Pa., and that the delivery point for all volumes to be delivered to and received from Storage Corporation by Applicant for Penn and Southern's account would be at a point of interconnection between the facilities of Applicant and Storage Corporation to be established at or near Applicant's main line valve 313G-102 in Potter County, Pa.

Applicant states that in order for Penn and Southern to utilize such storage service, it would be necessary that Penn and Southern's purchases from Applicant be made under Applicant's CD-4 Rate Schedule since Applicant's G-4 Rate Schedule is not available to a purchaser who has access to underground storage.

Accordingly, Applicant requests authorization herein to render natural gas service to Penn and Southern under Applicant's CD-4 Rate schedule on a permanent basis, in lieu of its G-4 Rate Schedule. No change in Penn and Southern's maximum contract quantity would result, it is said.

It is stated that the rate that Applicant would charge Penn and Southern for the transportation service a price of 4.94 cents per Mcf transported and

delivered from National Fuel Gas' Ellsberg Storage Meter Station MLV 313-121, Meter No. 2-0527 to Penn and Southern's Towanda delivery Meter Station MLV 318-1, Meter No. 2-0216. Additionally, for each Mcf of base storage gas that Applicant delivers to storage, Penn and Southern would pay Applicant a base gas injection rate of 3.35 cents per Mcf, which rates are calculated based upon Applicant's system average haul cost per 100 mile applied to a haul distance of 86.26 miles, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 23, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. RP72-99]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Availability of the Data Verification Committee Report Pursuant to Order Dated November 17, 1977

FEBRUARY 2, 1978.

Take notice that on January 30, 1977, Transcontinental Gas Pipe Line Corp. (Transco) filed copies of a document entitled, "Data Verification Committee Report to The Federal Energy Regulatory Commission Pursuant To Order Dated November 17, 1977, Docket No. RP72-99" (DVC Report). The DVC Report responds to the Commission's requests for additional information and explanation of the following:

(1) *Load Splitting*. "... we direct the DVC to provide the Commission a complete explanation of the issue, including how it was handled in Transco's original data collection process in 1973." (p. 14).¹

(2) *Process*. "Con Ed alleges that certain Transco resale customers, in responding to this data questionnaire, did not look into either alternate fuel capacity or possibility to modify facilities so as to burn alternate fuels. ... Therefore, as a preliminary matter, we shall direct the DVC prepare a supplemental report to the Commission addressing Con Ed's challenge." (pp. 15 and 16).

(3) *Ignition Fuel*. "Con Ed and PSE&G contest the DVC's action of downgrading their electric generation ignition fuel requirements. ... We find that the DVC has not justified its treatment of these electric generation ignition fuel and start up requirements. In the original Transco base period market profile, upon which Transco has implemented its permanent curtailment plan from November 1976 to November 1977, Con Ed and PSE&G each had relatively small volumes of ignition or start-up fuel classified in priority 2. No issue had been raised below in this regard and the Commission accordingly did not make an affirmative finding on the propriety of priority 2 placement of ignition fuel requirements. Nevertheless, these requirements were in priority 2, and for the DVC to recommend that they now be downgraded, there must be complete justification. We shall therefore order the DVC to reinstitute these ignition fuel and start-up requirements in priority 2. The DVC shall then prepare and file with the Commission a detailed explanation for their priority a placement of these requirements." (p. 17).

¹All page references are to the Commission's November 17, 1977, Order Accepting In Part Recommendations of Data Verification Committee.

(4) *Correction of Errors.* "There are inadequate facts presently before the Commission upon which to decide this issue. Although the concept of upgrading requirements to account for original misclassifications in end-use data is meritorious, the need for thorough review of DVC recommendation of the specific upgrading before we can make a final decision. Therefore, we shall reserve judgement at this point and direct the DVC to delineate and explain each of the instances of upgrading. This report should be expeditiously filed with the Commission. In the interim, however, we shall not disturb these upgraded requirements." (p. 18).

(5) *Affect of the Elimination of the Firm-Interruptible Distinction.* "The DVC has not related to the Commission the results of its inquiry into the effect of the elimination of the firm-interruptible distinction. . . . We feel that the DVC should . . . relate to the Commission the result of its firm interruptible inquiry". (pp. 18 and 19).

In addition to the DVC Report, copies of the minutes of the Committee meetings on December 8, 1977, January 10, 1978, and January 25, 1978 were submitted.

Transco also filed, in the instant docket, three attachments to the DVC Report. Attachment A contains data on the upgrading of interruptible requirements due to elimination of the firm-interruptible distinction and base period quantities used for industrial purposes.

Schedule B is a compilation of state curtailment plans or company rules and regulations for administering curtailments. Schedule C is a summary by customer of base period sales upgraded in revised base period market data due to misclassification in the original data.

Copies of (a) the Report of the Data Verification Committee, (b) the minutes of the DVC meetings, and (c) the attachments described above are on file and available for public inspection in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426. Any person desiring to be heard or to comment on the filed report and its supporting material, should file written comments with the Federal Energy Regulatory Commission, Washington, D.C. 20426 on or before February 24, 1978.

KENNETH F. PLUMB,
Secretary.

[FR Doc 78-3387 Filed 2-7-78; 8:45 am]

[6740-02]

[Docket No. EL78-6]

ILLINOIS POWER CO.

Order Waiving Regulations, Treating Filing as Complaint, and Instituting Staff Investigation

FEBRUARY 1, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a) (1) and (2) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On January 20, 1978, the cities of Breese, Carlyle, Freeburg, Highland, Mascoutah, Peru, and Princeton, Ill. (Cities) filed with this Commission an emergency petition¹ for an order requiring the Illinois Power Co. (IP) to continue to provide short-term firm power to the Cities. All of the Cities, while generating a portion of their power and energy, purchase additional power and energy from IP pursuant to

¹The caption of the emergency petition refers only to section 202(c) of the Federal Power Act but the petition itself relies on section 202(c) and section 205 of the Federal Power Act.

²Those interconnection agreements were filed by IP with the Federal Power Commission and accepted for filing in the following dockets: Breese and Carlyle (ER78-372); Freeburg (ER78-143); Highland (ER78-455); Mascoutah (ER78-407); Peru (ER78-330); and Princeton, Ill. (ER78-298).

the terms of interconnection agreements between the respective Cities and IP.² The Cities state that on December 9, 1977, IP notified each of them that after January 31, 1978, it would not provide short-term firm or maintenance power to the Cities during the pendency of the current coal strike.³ The Cities maintain that without continuation of the short-term firm power service they would be unable to meet their respective anticipated loads with their largest units down.

The Cities contend that their interconnection agreements with IP accord special status⁴ to short-term firm power sales. They argue that IP may not curtail or discontinue short-term firm power sales to the Cities in a manner inconsistent with its treatment of its "native load." Cities argue that since IP does not plan to curtail firm power to its retail customers, it would violate the terms of the interconnection agreements to end short-term power service.

The Cities request that the Commission, pursuant to section 202(c) of the Federal Power Act, order IP to continue to deliver energy to the Cities at such levels necessary to maintain reliable service to their retail customers.

On January 30, 1978, IP filed a motion to reject and answer to the emergency petition of the Cities. It states that the Cities' petition should be rejected on the grounds that:

(1) The Cities' petition fails to meet the requirements of section 32.61 of the Federal Power Commission's Regulations which govern applications under section 202(c) of the Act;

(2) No emergency in fact exists;

(3) It has not violated the terms of its interconnection agreements with the Cities in that it made no commitment to provide short-term firm power service after January 31, 1978; additionally, the past conduct of the parties has not created an implied commitment;

(4) The discontinuance of short-term firm power service does not require notice under section 205(d) of the Act; and

(5) Article IX, section 1⁵ of the interconnection agreements relieves the Company of accepting reservations for short-term firm power sales during the pendency of the coal strike.

The Commission does not have the authority to act pursuant to section

³The letter from IP, which is attached as Exhibit 2 to the complaint, indicated that IP would continue to make Emergency Start-Up Energy services available pursuant to the interconnection agreements.

⁴That section states in relevant part that neither party is in default of any contractual obligation if prevented from fulfilling such obligations by uncontrollable forces, which include strikes and labor disturbances.

202(c) of the Federal Power Act. Pursuant to the Department of Energy Organization Act (42 U.S.C. 7101) and Department of Energy Delegation Order No. 0204-4, effective October 1, 1977, the Administrator of the Economic Regulatory Administration is vested with the authority to act under section 202(c) of the Federal Power Act.

Since the Cities' petition raises issues which are subject to the jurisdiction of the Administrator of the Economic Regulatory Administration (ERA), we will direct the Secretary of the Commission to promptly transmit a copy of this filing to the Administrator of ERA. In addition, we will direct Commission Staff to offer its assistance to ERA in the performance of its duties pursuant to section 202(c) of the Act.

However, we will treat the Cities' filing as a complaint pursuant to section 306 of the Act. The issue the complaint raises subject to this Commission's jurisdiction is whether the interconnection agreements between the respective Cities and IP obligate IP to supply short-term firm power to the Cities after January 31, 1978.

In light of the allegation of emergency, the Commission deems it appropriate to waive § 1.6 of its Regulations and to order an expedited Staff investigation and report concerning the matters complained of by the Cities which are subject to this Commission's jurisdiction including the issue of whether the interconnection agreements and the related course of conduct of the Cities and IP, require IP to continue to provide short-term firm power to the Cities after January 31, 1978. To aid the Staff investigation, we hereinafter designate Rhodell G. Fields an officer of the Commission pursuant to section 307(b) of the Federal Power Act.

The investigation will commence with the taking of sworn testimony of witnesses for the Cities and IP at 10 a.m. on Friday, February 3, 1978, at the John C. Kluszynski Building, room 3619, 230 South Dearborn Street, Chicago, Ill. 60604. The Cities and IP should be prepared to offer witnesses and documents on the issue of whether IP is contractually obligated to provide short-term firm power to the Cities after January 31, 1978. Mr. Fields should submit a written report to the Commission on or before Monday, February 6, 1978.

Cities have argued alternatively that even if IP has the contractual right to discontinue short-term firm power sales, it may not lawfully do so without giving notice pursuant to section 205(d) of the Act.

To effectuate the terms of section 205(d) of the Act, the Federal Power Commission promulgated § 35.15 of its Regulations which states in pertinent part:

When a rate schedule or part thereof required to be on file with the Commission is proposed to be cancelled or is to terminate by its own terms and no new rate schedule or part thereof is to be filed in its place, each party required to file the schedule shall notify the Commission of the proposed cancellation or termination on the form indicated in § 131.53 of this chapter at least thirty days but not more than ninety days prior to the date such proposed cancellation or termination is proposed to take effect. . . .

Historically, the FERC and its predecessor, the Federal Power Commission, have not required notice in instances where specific services were either initiated or terminated under the terms of filed interconnection agreements. In the instant case, IP is allegedly discontinuing specific services under filed interconnection agreements. We will defer ruling on this question until after the investigatory hearing is concluded.

The Commission finds: (1) Good cause exists for the Commission to treat the Cities' petition for relief as a complaint pursuant to Section 306 of the Act and to waive section 1.6 of its Regulations pertaining to complaint proceedings.

(2) Good cause exists to order a Staff investigation concerning the matters complained of by the Cities which are subject to this Commission's jurisdiction including the issue of whether IP is contractually obligated to provide short-term firm power to the Cities after January 31, 1978.

The Commission orders: (A) Pursuant to the Federal Power Act, an investigation shall be ordered concerning the matters complained of by the Cities which are subject to this Commission's jurisdiction including the issue of whether IP is contractually obligated to provide short-term firm power to the Cities after January 31, 1978.

(B) Rhodell G. Fields is hereby designated as an officer of the Commission pursuant to section 307(b) of the Federal Power Act.

(C) A Staff investigatory hearing shall be convened at 10 a.m. on Friday, February 3, 1978, at the John C. Kluszynski Building, Room 3619, 230 South Dearborn Street, Chicago, Ill. 60604. At that hearing, IP and the Cities shall provide testimony and documents concerning the matters complained of by the Cities which are subject to this Commission's jurisdiction including the issue of whether IP is required by the interconnection agreements to provide short-term firm power to the Cities after January 31, 1978.

(D) Mr. Fields shall submit a written report to the Commission on or before Monday, February 6, 1978.

(E) The Secretary is hereby directed to transmit a copy of the Cities' petition to the Administrator of ERA for

his review under section 202(c) of the Federal Power Act.

(F) Commission Staff is hereby directed to offer its assistance to ERA in the performance of its duties under section 202(c) of the Act.

(G) Section 1.6 of our Regulations is hereby waived in order to permit the expedited procedures prescribed in this order.

(H) The Secretary is hereby directed to make expeditious service upon Cities and IP.

(I) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

Commissioner Smith believes that the allegations raised in the Municipalities' Emergency Petition concerning IP's noncompliance with the terms of the Interconnection Agreements could be disposed of without recourse to the type of investigation instituted by this order. He nevertheless concurs in the investigation, because he believes it may improve the Commission's understanding of the power supply arrangements (e.g., interchanges, pooling, co-generation) which prevail in the market area served by IP and neighboring interconnected utilities.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-2]

[Docket No. ER78-191]

MISSISSIPPI POWER & LIGHT CO.

Filing

FEBRUARY 2, 1978.

Take notice that on January 24, 1978, Mississippi Power & Light Co. (MP&L) tendered for filing, pursuant to section 35 of the Regulations under the Federal Power Act an executed letter agreement between MP&L and the Tennessee Valley Authority (TVA). Under the agreement, MP&L indicates that it provided week-to-week emergency service to TVA during a 2-week period in December 1977 when serious forced outages on the TVA system occurred.

MP&L states that the Commission was notified by telephone prior to commencement of service under the agreement in December 1977 and requests that the formal notice requirements of section 35.11 of the Commission's regulations be waived due to the speed with which the parties were required to act to avoid load losses on the TVA system. MP&L requests an effective date of December 10, 1978, and states that the agreement may be used again if a similar emergency situation arises.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE.,

Washington, D.C. 20426, in accordance with the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 13, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-3441 Filed 2-7-78; 8:45 am]

[6740-02]

NATURAL GAS PIPELINE CO. OF AMERICA ET AL.

Certification of Question

FEBRUARY 2, 1978.

In the matter of Natural Gas Pipeline Co. of America, (Docket No. CP77-71); Columbia Gas Transmission Corp., Columbia Gulf Transmission Co. (Docket No. CP77-118); and Texas Gas Transmission Corp. (Docket No. CP77-125).

Take notice that on February 2, 1978, Presiding Administrative Law Judge George P. Lewnes certified the several questions concerning the scope of the hearing to the Commission pursuant to section 1.28 of the Commission's rules of practice and procedures. Pursuant to a Commission order issued December 30, 1977, a prehearing conference was convened on January 31, 1978. The intention of the Commission order was called into question during such conference. After discussion by the parties (Tr. 12-52) the Presiding Judge ruled that the proceeding shall be limited to an examination of the issues raised in the instant applications and the potential implications of authorizing long-term transportation (beyond 2 years) of reserves purchased in-place by industrial customers and the need therefor.

As several parties objected to this ruling and indicated a desire to file an immediate appeal, the following questions were certified for the Commission's consideration and disposition:

(1) Did the Commission in its December 30, 1977, order intend that the scope of the hearing encompass consideration of the various policy issues raised by authorizing the long-term transportation (beyond 2 years) of gas discovered, purchased, developed or otherwise acquired, in whole or in part, by an industrial consumer?

(2) If the answer to question (1) is Yes, what should be the scope of the evidence adduced? In particular, should these parties in those proceedings in which certificate authorization

are expressly subject to the outcome of this proceeding¹ be required, permitted, or encouraged to present evidence related to their respective factual situations?

Any person desiring to be heard with reference to the certified questions should file comments no later than fifteen (15) days after issuance of this notice with the Federal Energy Regulatory Commission in accordance with the requirements of the Commission's rules of practice and procedure and the regulations under the Natural Gas Act. All comments filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in the hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-3442 Filed 2-7-78; 8:45 am]

[6740-02]

[Docket No. RP78-33]

SOUTHERN NATURAL GAS CO.

Petition for Declaratory Order

FEBRUARY 2, 1978.

Take notice that on January 19, 1978, southern Natural Gas Co. (petitioner), P.O. Box 2563, Birmingham, Ala. 35202, filed in Docket No. RP78-33 a petition pursuant to § 1.7 of the Commission's rules of practice and procedure (18 CFR 1.7) requesting that the Commission grant such order and waivers of its rules and regulations as are necessary to enable petitioner to recoup certain nonjurisdictional gas purchase costs in the purchased gas adjustment clause of petitioner's FERC gas tariff, all as more fully set forth in the petition on file with the Commission and open to public inspection.

Petitioner states that it has entered into a gas purchase contract with Natural Gas Systems, Inc. (Systems) pursuant to the terms of which Systems has agreed to sell and deliver natural gas to petitioner at a point on the distribution system of the Water Works and Gas Board of the city of Jasper, Ala. (Jasper), in Walker County, Ala. Petitioner states that such contract provides for the sale by Systems to

¹E.g. Transcontinental Gas Pipeline Corp.'s exploration and drilling program in the Gulf Coast was sponsored through an affiliate and funded by Transco's distributors, by a Transco direct customer and by two indirect industrial customers (Tr. 28). See also staff reference to possibly as many as 20 other applications (Tr. 36, 42).

Southern of a daily quantity of natural gas up to such daily quantity as petitioner requires at such point in order to satisfy petitioner's obligation to deliver gas to Jasper under petitioner's service agreement with Jasper dated September 12, 1967, pursuant to petitioner's FERC gas tariff. It is stated that deliveries under the contract are anticipated to equal approximately 2,000 Mcf per day, and that the sale of gas pursuant to such contract is to continue for a term of 10 years. Petitioner states that the total price payable for gas delivered under the contract during the first five (5) years of the term thereof is \$2.25 per Mcf at 15.025 psia. It is stated that the authorization requested in the petition relates solely to such \$2.25 per Mcf price for gas delivered under such contract during said five (5) year period.

Petitioner states that the gas to be purchased under the contract will be produced from wells and gas producing fields located in Walker County, Ala., and transported by Systems in its own nonjurisdictional pipeline facilities directly to the point on Jasper's distribution system at which Southern will purchase and measure such gas and deliver same directly into the distribution system of Jasper. Petitioner submits that no portion of the gas purchased from Systems will cross a State line during its movement from wellhead to ultimate consumption, that no portion of such gas will be commingled prior to delivery to Jasper with other gas which has so crossed a State line, and that the physical arrangement of all facilities involved renders impossible the transportation of such gas to consumers outside the State of Alabama. Petitioner states that in view of these considerations, the sale of gas by Systems to petitioner under the contract will not be subject to the jurisdiction of the Commission under the Natural Gas Act.

Petitioner further states that on the basis of the considerations that:

(1) Systems will undertake extensive dehydration, gathering, and transportation operations with respect to the gas prior to its delivery to petitioner,

(2) The purchase price in question is comparable to other prices specified in recent contracts for comparable sales to intrastate purchasers of gas procured from sources located in the northwest Alabama area, and will not escalate during the five (5) year period with respect to which authorization is requested in the petition, and

(3) the purchase will increase the supply of gas available to petitioner and thereby benefit not only Jasper, but also all of petitioner's systemwide customers,

the proposed purchase under the contract is reasonable and prudent, and that petitioner will be acting as a rea-

sonable and prudent pipeline in incurring the purchase costs with respect to which authorization is sought in the petition.

Petitioner accordingly requests that the Commission issue such orders and grant such waivers of its rules and regulations as would determine that the purchase of gas by the petitioner from Systems pursuant to the contract during the first five (5) years of the term thereof is reasonable and prudent, and authorize petitioner to track the \$2.25 per Mcf price of the gas so purchased in petitioner's purchased gas adjustment clause.

Any person desiring to be heard or to make protest with reference to said petition should on or before February 15, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 852-3; OPP-50355]

CIBA-GEIGY CORP. AND PENNALT CORP.

Issuance of Experimental Use Permits

The Environmental Protection Agency (EPA) has issued experimental use permits to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 100-EUP-43. Ciba-Geigy Corp., Greensboro, N.C. 27409. This experimental use permit allows the use of 6,270 pounds of the herbicide metolachlor on soybeans to evaluate control of various weeds. A total of 3,302 acres is involved; the program is authorized only in the States of Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, Wisconsin, and West Virginia. The experimental use permit is effective from January 6, 1978 to January 6, 1979. Temporary tolerances for residues of the active ingredi-

ent in or on soybeans, soybean forage and hay, and in meat, milk, poultry, and eggs have been established.

No. 4581-EUP-23. Pennwalt Corp., King of Prussia, Pa. 19406. This experimental use permit allows the use of 904 pounds of the insecticide ethyl parathion on citrus, cotton, small grains, and sorghum to evaluate control of various insect pests. A total of 1,586 acres is involved; the program is authorized only in the States of Alabama, Arizona, Arkansas, California, Colorado, Florida, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Mississippi, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Washington. The experimental use permit is effective from January 6, 1978 to January 6, 1979. Permanent tolerances for residues of the active ingredient in or on citrus fruits, cottonseed, sorghum, barley, oats, rice, and wheat have been established (40 CFR 180.121).

Interested parties wishing to review the experimental use permits are referred to Room E-315 Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M Street SW, Washington, D.C. 20460. It is suggested that such interested persons call 202-755-4851 before visiting the EPA Headquarters Office so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

(Sec. 5, Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; (7 U.S.C. 136(a) et seq.))

Dated: February 1, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

[FRL 852-5; PF-87]

PESTICIDE PROGRAMS

Filing of Food Additive Petition

Inter-Regional Research Project No. 4 (IR-4) on behalf of the IR-4 Technical Committee and the Agricultural Experimental Stations of Idaho, Indiana, Montana, Oregon, Washington, Wisconsin, and the U.S. Department of Agriculture has submitted a petition (FAP 8H5175) to the Environmental Protection Agency (EPA) which proposed that 21 CFR 561.55 be amended by establishing a regulation permitting the use of the herbicide bentazon (3-Isopropyl-1H-2,1,3-benzothiadiazin-4(3H)-one 2,2-dioxide) and its 6- and 8-hydroxy metabolites on spent mint hay with a tolerance limitation of 4.0 parts per million. Notice of this submission is given pursuant to the provisions of Section 409(b)(5) of the Federal Food, Drug and Cosmetic Act.

Interested persons are invited to submit written comments on this peti-

tion to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, room 401, East Tower, 401 M St. SW., Washington, D.C. 20460.

Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. Inquiries concerning this petition may be directed to Special Registration Branch, Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone at 202-755-2516. Written comments should bear a notation indicating the petition number "FAP 8H5175." Comments may be made at any time while a petition is pending before the Agency. All written comments will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: February 1, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

ENVIRONMENTAL IMPACT STATEMENTS AND OTHER ACTIONS IMPACTING THE ENVIRONMENT

Agency Comments

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969, and section 309 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of July 1, 1977 and July 31, 1977.

Appendix I below contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in Appendix II below, and the EPA source for copies of the comments as set forth in Appendix VI below.

Appendix II below contains the definitions of the classifications of EPA's comments on the draft environmental impact statements as set forth in Appendix I below.

Appendix III below contains a listing of final environmental impact statements reviewed and commented upon in writing during this review period.

The listing includes the Federal agency responsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix VI.

Appendix IV below contains a listing of final environmental impact statements reviewed but not commented upon by EPA during this review period. The listing includes the Federal agency responsible for the statement, the number and title of the statement, and the source of the EPA review as set forth in Appendix VI below.

Appendix V below contains a listing of proposed Federal agency regulations, legislation proposed by Federal agencies, and any other proposed actions reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the Federal agency responsible for the proposed action, the

title of the action, a summary of the nature of EPA's comments, and the source for copies of the comments as set forth in Appendix VI, below. Appendix VI below contains a listing of the names and addresses of the sources of EPA reviews and comments listed in Appendices I, III, IV, and V, below.

Copies of the EPA Manual setting forth the policies and procedures for EPA's review of agency actions may be obtained by writing the Public Information Reference Unit, Environmental Protection Agency, Room 2922, Waterside Mall SW., Washington, D.C. 20460, telephone 202-755-2808. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal department or agency.

Dated: January 27, 1978.

PETER L. COOK,
Acting Director,
Federal Activities.

Category 1—adequate
The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonably available to the project or action.

Category 2—insufficient information
EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

Category 3—inadequate
EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

APPENDIX III.—Final environmental impact statements for which comments were issued between July 1, and July 31, 1977

Identifying No.	Title	General nature of comments	Source for copies of comments
FS-COE-A36133-VA.....	Buena Vista flood protection project, Buena Vista, Va.	EPA's concerns were adequately addressed in the supplement to the final EIS.	D
F-COE-D07002-WV.....	Powerplant, Appalachian Power Co., project 1301, New Haven, Ohio River, Mason County, W. Va.	EPA's review indicated that many concerns expressed during the draft EIS review period were not addressed in the final EIS. Specifically, EPA encouraged the corps to assess the cumulative effects of the powerplants airborne pollutants, particularly sulphur dioxides and total suspended particulates, in a region where a significant deterioration of air quality already exists. Furthermore, EPA questioned the validity of the air quality modeling studies and suggested specific errors be corrected. Therefore, EPA considers the final EIS to be unresponsive and cannot make a determination of environmental impacts based on the final EIS.	D
F-COE-E32019-FL.....	Punta Gorda Isles, Inc., sec. 15 permit, Punta Gorda, Charlotte County, Fla.	EPA's concerns were adequately addressed in the final EIS.	E
F-COE-E35029-MS.....	Rosedale Harbor, navigation improvements, Sunflower County, Miss.	do.....	E
F-COE-E35040-NC.....	Regulatory permit on North Carolina Phosphate Corp., North Carolina.	do.....	E
F-COE-K36014-CA.....	Santa Ana River main stem, Orange, Riverside, and San Bernardino Counties, Calif.	Generally, EPA's concerns were adequately addressed in the final EIS. However, the EIS does not quantitatively assess the effects of the proposal on the flora or fauna in the area.	J
DEPARTMENT OF INTERIOR			
F-BLM-A03087-00.....	Crude oil transportation system, Valdez, Alaska, to Midland, Tex., Sohio Transportation Co.	Generally, EPA's concerns were adequately addressed in the final EIS. However, based on the information provided in the final EIS, EPA is yet unable to adequately evaluate the impacts of withdrawal and disposal of hydrostatic test water used in the pipeline.	A
F-BLM-A60108-AZ.....	Planet township, land exchange, Mohave County, Ariz.	EPA's concerns were adequately addressed in the final EIS.	J
F-DOI-A36188-CA.....	Water system, de Luz Heights municipal water district, Calif.	do.....	J
F-IBR-J39002-00.....	Colorado River water quality improvement program, Colorado, Wyoming, Utah, Arizona, Nevada, New Mexico, and California.	EPA expressed serious environmental reservations regarding portions of the Colorado River water quality improvement program (the Las Vegas wash unit), and noted that there is a potential that water quality criteria may not be achieved. EPA noted that the successful implementation of the Colorado River water quality improvement program will not by itself be sufficient to achieve approved water quality criteria, and that this will require that other Federal actions, as well as State programs, will be required to meet the necessary salinity criteria. Regarding the Las Vegas wash unit, EPA noted that, because of the project's adverse effects on Las Vegas wash, and possible reductions in ground water salinity concentrations in the future, it cannot be assumed that the minimal salinity reductions which would result from the project are warranted. EPA recommended that additional studies and monitoring be conducted to determine minimum flows required for the wash, ground water qualities and flows, and the effects of flow changes in the wash on Lake Mead.	I
F-IBR-K07003-NV.....	Southern Nevada water project, 2d stage, Clark County, Nev.	EPA continues to have environmental reservations on the project as proposed. Specifically regarding the secondary impacts and the absence of mitigation measures in the final EIS.	J
F-IGS-J01008-MT.....	Proposed plan of mining and reclamation, east Decker and north extension mines, Big Horn County, Mont.	EPA's comments expressed concern that the proposed postmining topography portrayed for the north Decker site and for portions of the east Decker site, as well as selected features of the proposed surface water systems, are not responsive to requirements of existing laws and statutes and, therefore, should be stipulated against in the approvals of any mining and reclamation plans.	I
F-IGS-J01009-MT.....	Proposed 20-yr plan of mining and reclamation, Westmoreland resources, tract III, Crow Indian ceded area, Mont.	EPA continues to have environmental reservations on the proposed project. Furthermore, EPA believes the mining plan should not be approved until a suitable water management plan is developed and further hydrologic studies are undertaken.	I
DEPARTMENT OF TRANSPORTATION			
F-FAA-F51007-MI.....	Proposed development runway 9R-27L, Oakland Pontiac Airport, Oakland County, Mich.	EPA's concerns were adequately addressed in the final EIS.	F
F-FAA-K51005-GU.....	Guam International Airport, Agaña, Guam	do.....	J
F-FHW-A42009-MD.....	National Freeway, U.S. 48, Cumberland to Hancock, Allegany, and Washington Counties, Md.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA suggested further study to mitigate noise impacts and minimize stream relocations in the proposal.	D
F-FHW-A42423-AZ.....	I-40, Ash Fork, Flagstaff Highway, Ariz.	EPA's concerns were adequately addressed in the final EIS.	J
F-FHW-C40007-NY.....	Genesee Expressway, throughway to outer loop, arterial expansion, Monroe County, N.Y.	do.....	C
F-FHW-D40028-MD.....	MD-51, east of Cumberland to north branch, Allegany County, Md.	EPA's concerns were adequately addressed in the final EIS. However, EPA believes further consideration should be given to abating noise impacts.	D
F-FHW-F40043-MI.....	U.S. 131, Mille Rd. to north of Ashton, Lake Mecosta, and Osceola Counties, Mich.	EPA's concerns were adequately addressed in the final EIS.	F
F-FHW-F40078-IN.....	West 10th St., I-465 to West St., Marion County, Ind.	do.....	P
F-FHW-H40026-IA.....	I-380, Cedar Rapids, Linn County, Iowa.	do.....	H
F-FHW-K40024-CA.....	Fresno Metropolitan Freeway project, CA-41 and CA-180, Fresno, Calif.	EPA feels the final EIS does not adequately respond to concerns raised during previous reviews of the EIS. Furthermore, EPA believes the final EIS fails to provide the representative disclosure of environmental impacts warranted by NEPA.	J

APPENDIX III.—Final environmental impact statements for which comments were issued between July 1, and July 31, 1977—Continued

Identifying No.	Title	General nature of comments	Source for copies of comments
FEDERAL ENERGY ADMINISTRATION			
FS-FEA-A07086-00.....	Coal conversion program, energy supply and environmental Coordination Act (as amended).	Generally, EPA's concerns were adequately addressed in the supplement to the final EIS. However, the final EIS does not thoroughly acknowledge the potential for ambient SO ₂ violations occurring in the context of the coal conversion program.	A
GENERAL SERVICES ADMINISTRATION			
F-GSA-J60001-CO.....	Cumulative effect of the GSA leasing program, West Denver metropolitan area, Colo.	EPA recommended that GSA planning efforts be more comprehensive, more inclusive of the Denver metro area and more sensitive to environmental impacts that may result from GSA leasing or cumulative construction policies.	I
DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT			
F-HUD-B89005-MA.....	2d waterfront urban renewal project, Gloucester, Essex County, Mass.	After viewing the final EIS for this project EPA still has environmental reservations due to the following factors: (a) The EIS does not adequately address the impacts of dredge spoils disposal nor does HUD commit itself to necessary measures to mitigate water pollution during dredging; (b) the noise pollution impacts analysis is deficient; and (c) the potential for adverse impacts of additional wastewater flows on this municipal sewage treatment plant is underestimated.	B
F-HUD-C85007-PR.....	Estancias de Rio Hondo Development, Bayamon, P.R.	EPA considers the final EIS to be unresponsive to the questions raised in the draft EIS review. Specifically, EPA believes the alternative actions to the proposed project have been seriously limited due to 2 environmental clearances issued by HUD to permit construction of the 1st and 2d stages of the project.	C
F-HUD-D85011-PA.....	Wedgewood Estates, subdivision, Chester County, Pa.	EPA's concerns were adequately addressed in the final EIS.	D
F-HUD-F85015-IN.....	Merrillville Terrace multifamily project, Lake County, Ind. (HUD-R05-EIS-77-02-D).	do.....	F
F-HUD-F85018-IL.....	Proposed Indian Oaks subdivision, Will County, Ill. (HUD-R05-EIS-77-04-F).	do.....	F

R-CGD-A52113-00	46 CFR pt. 148, carriage of solid hazardous materials in bulk, proposed changes, table of permitted cargoes (CGD-76-198) (42 FR 17889)	EPA recommended that an additional qualification be included requiring the shipboard person in charge of oil transfer operations to have successfully completed a formal training course providing general knowledge of mitigation and cleanup techniques.	A
R-DOT-A29001-00	49 CFR pt. 171, radioactive materials imported into the United States, quantity limitations (docket No. HM-150, notice 77-4) (42 FR 27002)	Although EPA felt that the overall impact of this action was small, EPA expressed concern with the U.S. adoption and use of IAEA recommendations in the present incremental manner. EPA suggested that when more extensive changes in the regulations are being considered, DOT should derive them in accordance with the policy that all radiation exposure of the public be maintained "as far below the (Federal radiation protection) guides as practicable (25 FR 4402). EPA also suggested that before future changes are made, DOT should reexamine and possibly update the bases used to calculate the packaging requirements and quantity limits, including the calculation of environmental dose commitments to populations for both normal and accident situations.	A

ENVIRONMENTAL IMPACT STATEMENTS AND OTHER ACTIONS AFFECTING THE ENVIRONMENT

Agency Comments

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969, and section 309 of the Clean Air Act, as amended, the Environmental Protec-

tion Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of August 1, 1977, and August 31, 1977.

Appendix I contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in Appendix II, and the EPA source for copies of the comments as set forth in Appendix VI.

Appendix II contains the definitions of the classifications of EPA's comments on the draft environmental impact statements as set forth in Appendix I.

Appendix III contains a listing of final environmental impact statements reviewed and commented upon in writing during this review period. The listing includes the Federal agency re-

nature of EPA's comments, and the source for copies of the comments as set forth in Appendix VI.

Appendix VI contains a listing of the names and addresses of the sources of EPA reviews and comments listed in Appendices I, III, IV, and V.

Copies of the EPA Manual setting forth the policies and procedures for EPA's review of agency actions may be obtained by writing the Public Information Reference Unit, Environmental Protection Agency, Room 2922, Waterside Mall S.W., Washington, D.C. 20460, telephone 202-755-2808. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal department or agency.

Dated: January 27, 1978.
PETER L. COOK,
Acting Director,
Federal Activities.

sponsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix VI.

Appendix IV contains a listing of final environmental impact statements reviewed but not commented upon by EPA during this review period. The listing includes the Federal agency responsible for the statement, the number and title of the statement, and the source of the EPA review as set forth in Appendix VI.

Appendix V contains a listing of proposed Federal agency regulations, legislation proposed by Federal agencies, and any other proposed actions reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the Federal agency responsible for the proposed action, the title of the action, a summary of the

APPENDIX II			
<i>Definitions of Codes for the General Nature of EPA Comments</i>			
ENVIRONMENTAL IMPACT OF THE ACTION			
<i>Category 1—Adequate</i>			
The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonably available to the project or action.			
<i>Category 2—Insufficient information</i>			
EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.			
<i>Category 3—Inadequate</i>			
EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.			
<i>Category 4—Unsatissfactory</i>			
EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives

NOTICES

APPENDIX III.—Final environmental impact statements for which comments were issued between Aug. 1, and Aug. 31, 1977

Identifying No.	Title	General nature of comments	Source for copies of comments
CORPS OF ENGINEERS			
F-COE-F32038-MI	Recreational boat harbor, detour, Chipewa County, Mich.	EPA's concerns were adequately addressed in the final EIS.	F
F-COE-K61014-CA	North Point Park and Marina, San Francisco County, Calif.	do.	J
DEPARTMENT OF AGRICULTURE			
F-AFS-J65054-MT	Mount Heben management alternatives, Gallitan National Forest, Mont.	EPA's review of this final EIS indicated the EIS was unresponsive to a majority of the concerns raised by EPA on the draft EIS. Specifically the lack of analysis on the subject areas raised in EPA's comments and the lack of consideration for secondary impacts or the adequacy of the mitigative measures for these impacts prevent EPA from adequately evaluating potential impacts of the proposed project.	I
F-AFS-J65055-UT	Land use plan, Markagunt Plateau planning unit, Dixie National Forest, Utah.	Generally, EPA's concerns were adequately addressed in the final EIS. EPA suggested the Forest Service implement the provisions of the recent Executive Order 11989 and limit the use of off-road vehicles in areas or on trails that are deemed suitable.	I
F-AFS-K61012-CA	Little Kern planning unit, Sequoia National Forest, Tulare County, Calif.	EPA's concerns were adequately addressed in the final EIS.	J
F-REA-D08002-PA	Susquehanna steam electric station, 500 kV transmission system, Pennsylvania.	EPA has no objections to the project as proposed.	D
F-REA-D08003-PA	Susquehanna steam electric station units 1 and 2, and 230 kV transmission facilities, Pennsylvania.	EPA has no objections to the project as proposed. However any modifications to the transmission line routing should be documented in a final supplement to the EIS.	D
F-SCS-K36017-AZ	Harquahala valley watershed, Maricopa and Yuma Counties, Ariz.	EPA's concerns were adequately addressed in the final EIS.	J
DEPARTMENT OF COMMERCE			
F-EDA-K60004-CA	South Vallejo Industrial Park, Vallejo waterfront development project, Solano County, Calif.	EPA's concerns were adequately addressed in the final EIS.	J
DEPARTMENT OF INTERIOR			
F-BLM-J01001-CO	Proposed development of oil shale resources by the Colony development operation, Colorado.	Generally, EPA's concerns were adequately addressed in the final EIS. However there are 2 major unresolved environmental problems: (1) The inability of the proposed facility to meet class II prevention of significant deterioration (PSD) air quality regulations, and (2) the unlikely revegetation success on TOSCO spent shale. EPA has requested future meetings with BLM to resolve these issues.	I
F-BLM-K08003-OO	Sierra Pacific Power Co., 230-245kV transmission line, Oregan, Nev., to Hunt, Idaho.	EPA's concerns were adequately addressed in the final EIS.	J
F-SFW-K64000-CA	Aquisition, San Francisco Bay National Wildlife Refuge, Alameda County, Calif.	do.	J
DEPARTMENT OF TRANSPORTATION			
F-FAA-A52095-OO	Certification of Gates Learjet models 24 and 25, airplanes for operation at a maximum pressure altitude of 51,000 ft.	EPA's concerns were adequately addressed in the final EIS.	A
F-FAA-C51005-NY	Chemung County Airport, Elmira, N.Y.	EPA's comments have been adequately addressed on the final EIS.	C
F-FAA-D51006-PA	Erie International Airport, runaway extension, Erie County, Pa.	EPA's concerns were adequately addressed on the final EIS.	D
F-FAA-D51007-MD	Ocean City Airport, Ocean City, Md.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA suggested the FAA avoid wetlands where it is possible.	D
RF-DOT-A52094-OO	Proposed rulemaking concerning motor vehicle occupant crash protection.	EPA's concerns were adequately addressed in the final EIS.	A
F-FHW-A41723-MD	Relocated MD-193 to MD-55f, Prince Georges County, Md.	EPA continues to have environmental reservations on the project as proposed. Specifically, EPA is concerned with the filling and partial drainage of the wetlands on Folly Swamp and requested to be contacted prior to the department's application for a sec. 404 permit (if required). EPA suggested that these sensitive areas be avoided or crossed in a manner which would not degrade their wildlife and water quality value.	D
F-FHW-B40009-MA	I-391, Chicopee to Holyoke, Hampden County, Mass.	EPA's review of the final EIS indicated the Agency was unresponsive to EPA's comments on the draft EIS. Specifically, the project has not demonstrated to be consistent with the State implementation plan for achieving ambient air quality standards.	B
F-FHW-C40015-NY	City of Little Falls, southeast arterial highway, Montgomery and Herkimer Counties, N.Y.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA requested that information concerning ground water impacts be made available.	C
F-FHW-D40029-VA	I-64, VA-167 to Hampton Roads, Bridge Tunnel, Va.	EPA's concerns were adequately addressed in the final EIS.	D
F-FHW-D40047-PA	Everett bypass, LR 1064, sec. A00, Bedford County, Pa.	do.	D
F-FHW-D40050-MD	Relocated MD-32, Patuxent freeway, MD-108 to Baltimore/Washington Parkway, Anne Arundel and Howard Counties, Md.	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA noted potential wetlands and water quality problems that might call for minor design changes prior to construction.	D
F-FHW-D40051-VA	I-464, Chesapeake and Norfolk, Va.	EPA continues to have environmental reservations on the project as proposed. Specifically, EPA believes the several stream crossings as proposed will have impacts on water quality and wetlands.	D

NOTICES

APPENDIX III.—Final environmental impact statements for which comments were issued between Aug. 1, and Aug. 31, 1977—Continued

Identifying No.	Title	General nature of comments	Source for copies of comments
DEPARTMENT OF TRANSPORTATION—Continued			
F-FHW-F40035-OH	Detroit-Rocky River Bridge replacement, Lakewood Rocky River, Cuyahoga County, Ohio.	EPA's concerns were adequately addressed in the final EIS.	F
F-FHW-G40037-LA	LA-541, U.S. 61 to I-10, St. James Parish, La.	EPA continues to have environmental reservations concerning the possible adverse impacts to the wetlands within the proposed project area. The project may induce secondary development which could cause further deterioration and encroachment of valuable wetland habitat.	G
F-FHW-J40010-UT	I-70 through the Sevier Valley, Utah	EPA's concerns were adequately addressed in the final EIS.	I
ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION			
F-ERD-A00116-NY	Brookhaven National Laboratory, Upton, Suffolk County, N.Y. (ERDA-1540).	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA made several suggestions on the radiological aspects of the proposal.	A
DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT			
FS-HUD-A85099-CO	West side housing neighborhood development program, Denver County, Colo.	EPA's concerns were adequately addressed in the final EIS.	I
F-HUD-C24001-PR	Construction of sanitary sewer system, Rolo community, Humacao, P.R.	do	C
F-HUD-E85019-FL	Pinebrook Estates, unit 1-203B, Pinellas County, Fla. (HUD-R04-EIS-76-17-D).	Generally EPA's concerns were adequately addressed in the final EIS. However, EPA requested additional information be provided regarding the effects the total project development will have on water quality, ambient air quality, and noise levels.	E
F-HUD-E85020-FL	Seven Springs, subdivision, Pasco County, Fla. (HUD-R04-EIS-76-15-D).	EPA's concerns were adequately addressed in the final EIS.	E
F-HUD-E85021-FL	Vista Verde, subdivision, Dade County, Fla. (HUD-R04-EIS-76-18-F).	Generally, EPA's concerns were adequately addressed in the final EIS. However, EPA feels in more complete analysis on water quality and noise abatement should be conducted.	E
F-HUD-K85003-CA	Aliso Hills development, Orange County, Calif.	EPA continues to have environmental reservations on the proposed project relating to air quality impacts.	J
F-HUD-K89021-CA	Bunker Hill elderly housing project, Long Beach, Los Angeles County, Calif.	EPA's concerns were adequately addressed in the final EIS.	J
NATIONAL AERONAUTICS AND SPACE ADMINISTRATION			
F-NAS-D09004-VA	Refuse-fired steam generating facility, Langley Research Center, Hampton, Va.	do	D
F-NAS-K12003-CA	Modification of 40 by 80 ft subsonic wind tunnel, Ames Research Center, Calif.	do	J
U.S. POSTAL SERVICE			
F-UPS-F81004-IL	Proposed relocation south Cicus Ave. Postal facility, Chicago, Cook County, Ill.	EPA's concerns have been adequately addressed in the final EIS.	F
NUCLEAR REGULATORY COMMISSION			
F-NRC-C08006-PR	North coast nuclear plant, unit 1, Isolate site, P.R.	EPA has environmental reservations concerning the suitability of the Isolate site for a nuclear powerplant. Inadequate data was presented in the EIS, specifically in the areas of plant design, representative meteorology, fisheries, and seismicity. The meteorological data provided does not appear to be representative of the site as EPA's analyses of 2 Dose pathways, using the meteorological data, indicate the Dose pathways exceed existing standards. The entrainment and impingement impacts upon fisheries may be acceptable, however, the lack of information on the system design and location prevents a firm conclusion. The geologic safety of the site area has not been addressed even though Puerto Rico is seismically active in general. Therefore, EPA has environmental reservations concerning this project.	C

[6820-24]

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.;
Temporary Reg. A-12]

CENTRALIZED HOUSEHOLD GOODS TRAFFIC MANAGEMENT

1. *Purpose.* This temporary regulation prescribes the General Services Administration (GSA) centralized household goods traffic management program.

2. *Effective date.* This regulation is effective February 8, 1978.

3. *Expiration date.* This regulation expires November 30, 1978, unless sooner revised or superseded.

4. *Background.* a. Section 201(a) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C.

481(a)), as amended, states "The Administrator shall, in respect of executive agencies, and to the extent that he determines that so doing is advantageous to the Government in terms of economy, efficiency, or service, and with due regard to the program activities of the agencies concerned . . . prescribe policies and methods of procurement and supply of personal property and nonpersonal services, including . . . transportation and traffic management . . ."

b. To obtain the greatest economy, efficiency, and service in the movement of household goods and personal effects for employees of civilian agencies of the Federal Government, GSA has instituted a centralized household goods traffic management program. Under this program, GSA will provide agencies with carrier selections and routings for domestic moves based on cost comparisons. In addition, all carrier rate tenders covering the movement of household goods shall be filed with GSA to ensure a uniform domestic rate structure, establish a single set of standards, and reduce administrative costs for individual agencies.

5. *Household goods tender of service.* To achieve the objectives listed in subparagraph 4b, GSA has developed a master household goods tender of service (TOS) agreement. This agreement sets forth service and performance standards that participating carriers and forwarders (carriers) agree to provide. Carriers which participate under the TOS agreement shall submit rate tenders (section 22, Interstate Commerce Act, 49 U.S.C. 22) to GSA. GSA will accept or reject such tenders on behalf of all Federal agencies, except the Department of Defense and the U.S. Coast Guard. These rate tenders were effective on December 1, 1977.

6. *Actual expense method and the commuted rate schedule.* a. Paragraph 2-8.3c(4)(a) of the GSA publication, Federal Travel Regulations (FPMR 101-7) states " . . . the commuted rate system shall be used for individual transfers without consideration being given the actual expense method, except that the actual expense method may be used if the actual costs to be incurred by the Government for packing and other accessorial services are predetermined (at least as to price per 100 pounds) and if that method is expected to result in a real savings to the Government of \$100 or more."

b. Under the centralized household goods traffic management program, agencies are required to obtain household goods cost comparisons from the appropriate GSA regional Transportation Services Division. (See attachment A.) The GSA regional office will make the cost comparison between the two methods and will furnish agencies

with the information described in subparagraph 7b. Agencies will make the final determination as to the method of shipment to be used based on the results of the GSA cost comparison.

7. *Procedures—*a. *Cost comparison.* Agencies will furnish all pertinent details concerning the proposed move; i.e., name of employee to be moved, origin, destination, anticipated or actual moving date, estimated weight, and, if applicable, storage in transit (for 30 or 60 days), or other special requirements, to the appropriate GSA regional Transportation Services Division. Agencies may use GSA Form 2485, Cost Comparison for Shipping Household Goods (Commuted Rate System vs. Actual Expense Method), for this purpose. Shipment details should be provided to the GSA regional Transportation Services Division as far in advance of the moving date as possible. Each cost comparison will be assigned a GSA transportation control number which is to be shown on the Government bill of lading (GBL) in the "Route Order/Release No." block. In case of an emergency or an imminent moving date, these details may be transmitted to GSA by phone. All cost comparison and carrier selection information given telephonically will be confirmed in writing by GSA.

b. *Carrier selection or routings.* Results of the cost comparison will be furnished to the requesting agency together with the names of at least three qualified carriers capable of handling the particular shipment. If the rates of these carriers vary, the carrier offering the lowest rate shall be used. When two or more carriers offer the lowest rate, the carrier having been allocated the least tonnage distribution will be selected by GSA and the name and point of contact of the carrier provided to the requesting agency together with the names of two alternate carriers. Alternate carriers should only be used if the primary carrier cannot accept the shipment. The appropriate GSA regional Transportation Services Division is to be promptly notified of any change in the carrier routing. A carrier tonnage distribution record will be maintained at each GSA regional Transportation Services Division to facilitate equitable distribution of tonnage among carriers.

c. *Quality control.* An integral part of this program is the feedback from the relocated Government employee who has been moved by the selected carrier. Along with each completed cost comparison, GSA will furnish the employee with a GSA Form 3080, Household Goods Carrier Performance Report. The GBL number and the transportation control number assigned by GSA should be added to the form by the GBL issuing office. After

the move has been completed, the GSA Form 3080 is to be returned by the employee to the GSA regional Transportation Services Division that

provided the rate and routing information. Evaluation of the data on this form will enable GSA to monitor the performance of each carrier. Other information pertaining to any carrier's inadequate service or performance should be provided to GSA by agency shipping offices with sufficient details to identify the specific shipment.

8. *Additional details.* Information concerning this program may be obtained from the appropriate GSA regional Transportation Services Division.

9. *Availability of forms.* a. GSA Form 2485, Cost Comparison for Shipping Household Goods (Commuted Rate System vs. Actual Expense Method) (printed on NCR paper in pads of 100 sheets) may be obtained initially by sending a letter requesting the forms to the General Services Administration (3FND), Union and Franklin Streets Annex, Building 11, Alexandria, VA 22314. After obtaining an initial supply, agency regional or field offices should submit subsequent requirements for the form to their Washington headquarters office, which shall forward consolidated annual requirements to the General Services Administration (BRO), Washington, DC 20405.

b. Copies of the GSA Form 3080, Household Goods Carrier Performance Report, will normally be furnished with the cost comparison. However, additional copies of the form may be obtained from the appropriate GSA regional Transportation Services Division.

10. *Cancellations.* GSA Bulletins FPMR A-24 and supplements 1 and 2; A-32 and supplements 1, 2, and 3; and A-45 are canceled.

11. *Agency comments.* Any comments concerning this regulation should be submitted to the General Services Administration (FAF), Washington, D.C. 20406, no later than March 31, 1978, for possible incorporation into a permanent regulation.

Dated: January 26, 1978.

JAY SOLOMON,
Administrator
of General Services.

[Federal Property Management Regs.;
Temporary Reg. G-1]

CHANGES IN REQUIREMENTS FOR REPORTING MOTOR VEHICLE DATA

1. *Purpose.* This regulation prescribes changes in the instructions for preparing Standard Form 82, Agency Report of Motor Vehicle Data, and

Standard Form 82-D, Agency Report of Sedan Data.

2. *Effective date.* This regulation is effective February 8, 1978.

3. *Expiration date.* This regulation expires September 30, 1978, unless revised or superseded sooner.

4. *Applicability.* This regulation applies to all executive agencies holding or using commercially rented motor vehicles.

5. *Background.* Standard Forms 82 and 82-D are prescribed by FPMR 101-38.100-1 and are used by executive agencies to report motor vehicle management data to GAS. The data is used by GSA to evaluate and analyze operations and management of the Federal motor vehicle fleet. Instructions for preparing the Standard Forms 82 and 82-D are located on the back of each form and include provisions for reporting data on term and trip rentals of motor vehicles from commercial sources. The data from these reports relating to trip rentals are not essential to GSA for evaluating and analyzing the Federal motor vehicle fleet. Because of the difficulty to agencies in collecting and tabulating commercial trip rental costs, this requirement is being deleted from the forms. Subsequent revisions of these forms will reflect this change.

6. *Agency action.* Effective with the development of data by agencies for submission of the report for fiscal year 1977, agencies shall make the following pen-and-ink changes:

a. Standard Form 82. On the back of the form in section I, part B, line 10, change the parenthetical phrase from "term and trip rentals" to "assigned and dispatch," and in line 11, delete from the parenthetical phrase the words "and trip."

b. Standard Form 82-D. On the back of the form in section I, part B, lines 10 and 12, change the parenthetical phrases from "term and trip rentals" to "assigned and dispatch," and in lines 11 and 13, delete from the parenthetical phrases the words "and trip."

JAY SOLOMON,
Administrator of General Services.
[FR Doc. 78-3412 Filed 2-7-78; 8:45 am]

[6820-24]

[Federal Property Management Regs.;
Temporary Reg. G-35]

COMPLETING STANDARD FORM 91-A, INVESTIGATION REPORT OF MOTOR VEHICLE ACCIDENT

1. *Purpose.* This regulation prescribes changes for completing Standard Form 91-A, Investigation Report of Motor Vehicle Accident.

2. *Effective date.* This regulation is effective February 8, 1978.

3. *Expiration date.* This regulation expires December 31, 1978, unless revised or superseded sooner.

4. *Applicability.* The provisions of this regulation apply to all executive agencies holding motor vehicles located within the United States, its territories, or possessions.

5. *Background.* a. FPMR 101-39.804-2 prescribes the use of Standard Form 91-A for investigating a motor vehicle accident. The Standard Form 91-A was revised in November 1976 and agencies were instructed to destroy all stocks of the June 1953 edition of the form.

b. It has recently been determined by GSA in coordination with the Department of Justice that certain questions on the form should not be answered since they may pose legal difficulties in future defenses of claims against the Government and in processing claims on behalf of the Government. Those questions will be deleted from the form when it is revised.

6. *General.* The questions to be deleted are located in Block 26, Reviewing Official's Statement, of the November 1976 edition of the Standard Form 91-A, and are as follows:

a. Was driver acting within scope of his employment?

b. What caused the accident?

c. How could it have been prevented?

d. What action has been taken?

7. *Agency action.* Until such time as the Standard Form 91-A is revised, the appropriate agency officials should not answer the questions on the form identified in par. 6, above.

Dated: January 31, 1978.

JAY SOLOMON,
Administrator of
General Services.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

CAREER EDUCATION PROGRAM

Extension of Closing Date for Receipt of Applications

Notice is given that the January 18, 1978, deadline for filing grant applications under the Career Education Program published in the FEDERAL REGISTER on October 12, 1977, is extended to February 17, 1978.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

(a) *Applications sent by mail.*—An application sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention: 13.554, Washington, D.C. 20202. Applications must be received by the Application Control Center on or before the closing date.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than February 13, 1978, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or,

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of these mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

(b) *Hand-delivered applications.*—An application to be hand-delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

(c) *Program information.*—Applications are being accepted from State and local educational agencies, institutions of higher education, and other public and private agencies, organizations, associations, institutions, and individuals for grants and assistance contracts to support projects to demonstrate the most effective methods and techniques in career education and to develop exemplary career education models (including models in which handicapped children receive appropriate career education either by participation in regular or modified programs with nonhandicapped children or, where necessary, in specially designed programs for handicapped children whose handicaps are of such severity that they cannot benefit from regular or modified programs).

In formulating applications, potential applicants should be aware of the amount of funds available for career education grants and assistance contracts for Fiscal Year 1978. It is anticipated that grants and assistance contracts will be awarded in each of the categories specified in 45 CFR 160d.5, with the total amount of the awards in each category being approximately as follows: (a) Incremental improvements in K-12 career education programs—\$1,000,000, (b) demonstrations in such settings as the senior high school—\$250,000, the community college—\$150,000, adult and community education agencies—\$150,000, and institutions of higher education—

\$150,000, (c) demonstrations for such special segments of the population as handicapped—\$750,000, gifted and talented—\$400,000, minority youth—\$600,000, low income youth—\$600,000, and to reduce sex stereotyping in career choices—\$500,000, (d) demonstrations of the training and retraining of persons for conducting career education programs—\$1,000,000, and (e) communication of career education philosophy, methods, program activities, and evaluation results to career education practitioners and to the general public—\$1,200,000. It is expected that a total of about 75 awards will be made in the above categories, and that the average amount per award will be approximately \$90,000.

All of these will be new awards; no funds are reserved for continuation awards. Projects are normally one year in duration.

In addition to the grants and assistance contracts awarded pursuant to this notice, it is anticipated that approximately \$3,385,000 worth of procurement contracts in career education will be awarded during Fiscal Year 1978. Requests for proposals for these procurement contracts will be published in the Commerce Business Daily at a later date.

(d) *State comment.*—All applicants must furnish an information copy of their application to the State educational agency of the State within which the applicant is located. This information copy must be submitted to the State Coordinator of Career Education, as designated by the Chief State School Officer, concurrently with the submission of the application to the U.S. Office of Education. The application submitted to the U.S. Office of Education must contain a statement that this has been accomplished. State educational agencies wishing to submit advice and comment on any application originating within their State may do so by forwarding that advice and comment to the Office of Career Education, at the address in paragraph (f) below.

(e) *For further information and forms contact.*—Dr. Sidney C. High, Jr., Office of Career Education, U.S. Office of Education, 400 Maryland Avenue SW. (Room 3100, ROB No. 3), Washington, D.C. 20202; 202-245-2331.

(f) *Applicable regulations.*—The regulations applicable to the Career Education Program are the Office of Education General Provisions Regulations (45 CFR Parts 100, 100a, and appendices), the regulation for the Special Projects Act (45 CFR Part 160, especially Part III in the Appendix) published in the FEDERAL REGISTER on July 15, 1976, and the regulation for the Career Education Program (45 CFR Part 160d), published in the FEDERAL REGISTER on May 13, 1976.

(20 U.S.C. 1851-1853 and 1865; 45 CFR Part 160 and Part 160d.)

(Catalog of Federal Domestic Assistance Number 13.554, Career Education Program.)

Dated: February 3, 1978.

ERNEST L. BOYER,
U.S. Commissioner of Education.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Wyoming 62560]

WYOMING

Application

JANUARY 30, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Cities Service Gas Co. of Oklahoma City, Okla., has filed an application for a right-of-way to construct a 4½ inch pipeline for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 22 N., R. 95 W.,

Sec. 18, NE¼NE¼.

The pipeline will transport natural gas from a point in Section 18 in a northerly direction to a point connecting with a gathering line in Section 7, T. 22 N., R. 95 W., Sweetwater County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyo. 82301.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and
Minerals Operations.
[FR Doc. 78-3419 Filed 2-7-78; 8:45 am]

[4310-84]

[Wyoming 61559 (Amendment)]

WYOMING

Application

JANUARY 27, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Stauffer Chemical Co. of Wyoming filed an amendment to its pending application, W-61559, for a right-of-way to construct 4 inch lateral pipe-

lines for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 22 N., R. 103 W.,

Sec. 4.

T. 23 N., R. 103 W.,

Secs. 22, 26, and 34.

The purpose of this amendment is to construct an additional 4 inch lateral pipeline from the KD Luff Alternate Location 2-23C Amoco Champlin well located in the SE¼ of Section 23, T. 23 N., R. 103 W., to connect with Stauffer Chemical's proposed lateral pipeline located in the SE¼ of Section 22, T. 23 N., R. 103 W., Sweetwater County, Wyo. Stauffer Chemical Co. of Wyoming has also amended its application by relinquishing a 4 inch lateral pipeline included in its pending application which extends from the KB Luff well located in the NW¼ of Section 35, T. 23 N., R. 103 W., and which was to connect with Stauffer Chemical's proposed lateral pipeline in the NE¼ of Section 34, T. 23 N., R. 103 W., Sweetwater County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, Wyo. 82901.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and
Minerals Operations.
[FR Doc. 78-3420 Filed 2-7-78; 8:45 am]

[4310-84]

[Wyoming 62547]

WYOMING

Application

JANUARY 30, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Colorado Interstate Gas Co. of Colorado Springs, Colo. has filed an application for a right-of-way to construct a 6½ inch pipeline for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 38 N., R. 90 W.,

Sec. 8, SE¼NE¼ and NE¼SE¼.

The pipeline will transport natural gas from a well in Section 8 to a point in Section 3 T. 38 N., R. 90 W., Fremont County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third Street, P.O. Box 670, Rawlins, Wyo. 82301.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and
Minerals Operations.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

IMPORTATION OF CONTROLLED SUBSTANCES

Application

Pursuant to section 1008 of the Controlled Substances Import and Export Act (21 U.S.C. 958(h)), the Attorney General shall, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in Schedule I or II, and prior to issuing a regulation under Section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore in accordance with section 1311.42 of Title 21, Code of Federal Regulations (CFR), notice is hereby given that on December 30, 1977, Knauf & Tesch Co., Chilton, Wis. 53014, made application to the Drug Enforcement Administration to be registered as an importer of marihuana, a basic class controlled substance in Schedule I, for the importation of seed only, to be rendered nonviable for use in feed.

As to the basic class of controlled substance listed above for which application for registration has been made, any other applicant therefor, and any existing bulk manufacturer registered therefor, may file written comments on or objections to the issuance of such registration and may, at the same time, file a written request for a hearing on such application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47. Such comments, objections and requests for a hearing may be filed no later than March 9, 1978.

Comments and objections may be addressed to the DEA Federal Register Representative, Office of Chief Counsel, Drug Enforcement Administration, Room 1203, 1405 Eye Street NW., Washington, D.C. 20537.

This procedure is to be conducted simultaneously with and independent of the procedures described in 21 CFR 1311.42 (b), (c), (d), (e), and (f). As noted in a previous notice at 40 FR 43745-46 (September 23, 1975), all applicants for registration to import a basic class of any controlled substance in Schedule I or II are and will continue to be required to demonstrate to the Administrator of the Drug Enforcement Administration that the requirements for such registration pursuant to 21 U.S.C. 958(a), 21 U.S.C. 823(a), and 21 CFR 1311.42 (a), (b), (c), (d), (e), and (f) are satisfied.

Dated: February 2, 1978.

PETER B. BENSINGER,
Administrator, Drug
Enforcement Administration.

[4410-01]

Law Enforcement Assistance Administration

CRIMINAL INTELLIGENCE SYSTEMS

Operation Policies

Notice is hereby given that the Law Enforcement Assistance Administration is establishing funding and operating principles for LEAA Discretionary Funded Criminal Intelligence Systems. Consideration will be given to views and comments pertaining to the proposed policy set out in this notice. Comments should be submitted in writing no later than March 1, 1978, to Thomas J. Madden, General Counsel, Law Enforcement Assistance Administration, 633 Indiana Avenue NW., Washington, D.C. 20531. LEAA will be guided by the principles of this policy pending receipt of comments.

LEAA recognizes that certain criminal activities including but not limited to, loan sharking, narcotics, trafficking in stolen property, gambling, extortion, smuggling, bribery, and corruption of public officials often involve some degree of regular coordination and permanent organization involving a large number of participants over a broad geographical area. The exposure of such ongoing networks of criminal activity can be aided by the pooling of information about such activities. In recognition of the fact, however, that the collection and exchange of intelligence data necessary to support control of serious criminal activity may represent potential threats to the privacy of individuals to whom such data relates, the following LEAA policies shall be applicable to all projects in which LEAA discretionary funds are to be used for the collection and exchange of intelligence data. As used in these policies, 'Intelligence Systems' means the arrangements, equipment, facilities, and procedures used to store and exchange criminal

intelligence data, however, the term does not include modus operandi files; 'Interjurisdictional Intelligence Systems' means those systems for the continuing exchange of criminal intelligence data between local, county, or larger political subdivisions, including the exchange of data between State or local agencies and units of the Federal Government.

I. OPERATING PRINCIPLES FOR LEAA—DISCRETIONARY FUNDED INTELLIGENCE SYSTEMS

A. Criminal intelligence information concerning an individual shall be collected and maintained only if it is suspected that the individual is involved in criminal activity and it can be assumed that the information is relevant to that activity.

B. No records shall be maintained describing an individual's exercise of rights guaranteed by the First Amendment unless the information in question is pertinent to and within the scope of the particular criminal activity being investigated.

C. No information which has been obtained in violation of any applicable Federal or State law shall be included in any criminal intelligence system.

D. Intelligence information shall be disseminated only where there is a need to know/right to know the data in the performance of a law enforcement activity.

E. (1) Except as noted in (2) below, intelligence information shall be disseminated only to other law enforcement authorities who shall agree to follow procedures regarding data entry, maintenance, security, and dissemination which are consistent with these standards.

(2) Paragraph (1) above shall not limit the dissemination of an assessment of criminal intelligence information to a government official or to any other individual, when necessary, to avoid imminent danger to life or property.

F. Agencies maintaining criminal intelligence data shall adopt administrative, technical, and physical safeguards (including audit trails) to insure against unauthorized access and against intentional or unintentional damage. Information shall be labeled to indicate levels of sensitivity, levels of confidence, and the identity of control agencies and officials.

G. Periodic review shall be made, no less than every two years, to assure that all information which is retained has relevancy and importance. Any information retained through a two-year interval shall reflect name of reviewer, date of review, and explanation of decision to retain. Any information which is unverified, misleading, obsolete, or otherwise unreliable must be destroyed.

H. If automated equipment for use in connection with a criminal intelli-

gence system is to be obtained with funds under the grant, then:

Direct remote terminal access to data shall not be made available to system users;

No modifications to system design shall be undertaken without prior LEAA approval.

I. LEAA shall be notified prior to initiation of formal information exchange procedures with any Federal, State, Regional, or other information systems not indicated in the grant documents as initially approved at time of award.

J. Assurances shall be made that there will be no purchase or use in the course of the project of any electronic, mechanical, or other device for surveillance purposes that is in violation of the provisions of Title III of Pub. L. 90-351, as amended, and any applicable State statute related to wiretapping and surveillance.

K. Sanctions shall be adopted to control unauthorized access, utilization, or disclosure of information contained in the system.

II. FUNDING GUIDELINES

LEAA shall apply the following funding guidelines to all discretionary grant applications for the funding of interjurisdictional intelligence systems. Systems shall only be funded where a grantee agrees to adhere to the principles set forth above and the project meets the following criteria:

A. The proposed collection and exchange of data has been coordinated with and will support ongoing or proposed investigatory or prosecutorial activities relating to specific areas of criminal activity.

B. The area of criminal activity in connection with which intelligence data is to be utilized represents a significant and recognized threat to the population and: (1) is either undertaken for the purpose of seeking illegal power or profits or poses a threat to the life and property of citizens; (2) involves a significant degree of permanent criminal organization; and (3) is not limited to one geographical area.

C. Control and supervision over information collection and dissemination will be permanently retained by an office unit, or joint operation of a governmental entity.

D. The collection and dissemination of intelligence data will be utilized primarily for State and local law enforcement efforts—exceptions being made only for cases involving joint State-Federal efforts relating to concurrent jurisdiction offenses.

III. MONITORING AND AUDIT OF GRANTS INVOLVING COLLECTION AND EXCHANGE OF CRIMINAL INTELLIGENCE INFORMATION

A. Grants involving the collection and exchange of intelligence informa-

tion will receive specialized monitoring in accordance with a plan designed to ensure compliance with operating principles as set forth in Section I of this document. Such plan shall be approved prior to award of funds.

B. All grants involving collection and exchange of criminal intelligence information shall be awarded subject to a Special Condition requiring compliance with standards set forth in Section I of this document. A certification of compliance with these standards signed by a responsible official shall be included as part of the grant application.

C. An annual notice will be published by LEAA which will indicate the existence and objective of all systems for the continuing interjurisdictional exchange of intelligence data which are funded with LEAA discretionary funds.

JAMES M. H. GREGG,
Assistant Administrator, Office
of Planning and Management.

[4410-01]

DEPARTMENT OF JUSTICE

[6715-01]

FEDERAL ELECTION COMMISSION

MEMORANDUM OF UNDERSTANDING

The following is intended to serve as a guide for the DEPARTMENT OF JUSTICE (hereinafter referred to as the "Department") and the Federal Election Commission (hereinafter referred to as the "Commission") in the discharge of their respective statutory responsibilities under the Federal Election Campaign Act and Chapters 95 and 96 of the Internal Revenue Code:

(1) The Department recognizes the Federal Election Commission's exclusive jurisdiction in civil matters brought to the Commission's attention involving violations of the Federal Election Campaign Act and Chapters 95 and 96 of the Internal Revenue Code. It is agreed that Congress intended to centralize civil enforcement of the Federal Election Campaign Act in the Federal Election Commission by conferring on the Commission a broad range of powers and dispositional alternatives for handling nonwilful or unaggravated violations of these provisions.

(2) The Commission and the Department mutually recognize that all violations of the Federal Election Campaign Act and the antifraud provisions of Chapters 95 and 96 of the Internal Revenue Code, even those committed knowingly and wilfully, may not be proper subjects for prosecution as

crimes under 2 U.S.C. 441j, 26 U.S.C. 9012 or 26 U.S.C. 9042. For the most beneficial and effective enforcement of the Federal Election Campaign Act and the antifraud provisions of Chapters 95 and 96 of the Internal Revenue Code, those knowing and wilful violations which are significant and substantial and which may be described as aggravated in the intent in which they were committed, or in the monetary amount involved should be referred by the Commission to the Department for criminal prosecution review. With this framework, numerous factors will frequently affect the determination of referrals, including the repetitive nature of the acts, the existence of a practice or pattern, prior notice, and the extent of the conduct in terms of geographic area, persons, and monetary amounts among many other proper considerations.

(3) Where the Commission discovers or learns of a probable significant and substantial violation, it will endeavor to expeditiously investigate and find whether clear and compelling evidence exists to determine probable cause to believe the violation was knowing and wilful. If the determination of probable cause is made, the Commission shall refer the case to the Department promptly.

(4) Where information comes to the attention of the Department indicating a probable violation of Title 2, the Department will apprise the Commission of such information at the earliest opportunity.

Where the Department determines that evidence of a probable violation of Title 2 amounts to a significant and substantial knowing and wilful violation, the Department will continue its investigation to prosecution when appropriate and necessary to its prosecutorial duties and functions, and will endeavor to make available to the Commission evidence developed during the course of its investigation subject to restricting law. Where the alleged violation warrants the impaneling of a grand jury, information obtained during the course of the grand jury proceedings will not be disclosed to the Commission, pursuant to rule 6 of the Federal rules of criminal procedure.

Where the Department determines that evidence of a probable violation of title 2 does not amount to a significant and substantial knowing and wilful violation (as described in paragraph 2 hereof), the Department will refer the matter to the Commission as promptly as possible for its consideration of the wide range of appropriate remedies available to the Commission.

(5) This memorandum of understanding controls only the relationship between the Commission and the Department. It is not intended to confer

any procedural or substantive rights on any person in any matter before the Department, the Commission or any court or agency of Government.

Dated: December 5, 1977.

For the United States Department of Justice.

BENJAMIN R. CIVILETTI,
Assistant Attorney General,
Criminal Division.

Dated: December 8, 1977.

For the Federal Election Commission.

WILLIAM C. OLDAKER,
General Counsel.

[6820-31]

MARINE MAMMAL COMMISSION

MARINE MAMMAL COMMISSION AND COMMITTEE OF SCIENTIFIC ADVISORS ON MARINE MAMMALS

Meetings

Pursuant to the notice published in the FEDERAL REGISTER on December 13, 1977, further notice is hereby given that the Marine Mammal Commission and the Committee of Scientific Advisors on Marine Mammals will meet on February 23, 24, and 25, 1978, at the Ramada Inn North, 4225 North Freeway, Houston, Tex. 77022.

The Commission and Committee will meet together in public session from 11 a.m. to 5 p.m. on February 23, and from 9 a.m. to 5 p.m. on February 24, to discuss and consider the status of activities and problems affecting marine mammals, including matters relating to:

- (1) Federally funded marine mammal research activities and long-range plans;
- (2) The bowhead whale research plans, research funding, and management regime;
- (3) Preparations for the June 1978 meeting of the International Whaling Commission;
- (4) Tuna-porpoise research and protection;
- (5) Research related to optimum sustainable populations;
- (6) Research on California sea otters;
- (7) Hawaiian monk seal research and protection;
- (8) West Indian manatee research and protection;
- (9) Research on North Pacific fur seals;
- (10) Cooperative efforts with Mexico;
- (11) Conservation of the living resources of the Southern Ocean;
- (12) Workshop on Alaskan marine mammals;
- (13) Live capture of bottlenose dolphins in Florida;

(14) Workshop on marine mammal strandings;

(15) Standards and guidelines for marine mammal maintenance;

(16) Marine mammal/fisheries interactions; and

(17) Such other matters as may appropriately come before the meeting.

These sessions will be open to the public, and seating will be available to accommodate those who are interested.

The remainder of the meeting will consist of executive sessions of the Commission and Committee. These sessions will be devoted to the exchange of opinions and deliberations concerning internal personnel rules and practices, budget, interagency liaison, proposed agency policies and actions, and the evaluation of proposals to conduct research related to marine mammal protection and conservation. Participants will be candidly discussing and appraising the professional qualifications and competence of the proposers, their potential contribution to the research program, and information given to the Commission and Committee in confidence.

Executive sessions will be held on February 23 from 9 a.m. to 10:40 a.m. and on February 25 from 9 a.m. to 5 p.m. These sessions are concerned with matters listed in 5 U.S.C. Sec. 552b(c) (2), (3), (4), (6), and (9)(B), and therefore will not be open to the public.

JOHN R. TWISS, JR.,
Executive Director,
Marine Mammal Commission.

FEBRUARY 1, 1978.

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

NATIONAL COUNCIL ON THE HUMANITIES ADVISORY COMMITTEE

Meeting

JANUARY 31, 1978.

Pursuant to the Provisions of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given that a meeting of the National Council on the Humanities will be conducted at Washington, D.C., on February 23-24, 1978.

The purpose of the meeting is to advise the Chairman of the National Endowment for the Humanities with respect to policies, programs, and procedures for carrying out his functions, and to review applications for financial support and gifts offered to the Endowment and to make recommendations thereon to the Chairman.

The meeting will be held in the Shoreham Building, 806 15th Street,

NW., 1st Floor Conference Room, Washington, D.C. The session of the proposed meeting on February 23, 1978, and the afternoon session on February 24, 1978, will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of privacy. Pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the committee.

The morning session on February 24, 1978, will convene at 8:30 a.m. and will be open to the public. The agenda for the morning session will be as follows:

MINUTES OF THE PREVIOUS MEETING: REPORTS

- Chairman's Introductory Remarks
- Introduction of New Staff.
- Summary of Recent Business.
- Chairman's Grants.
- Application Report.
- Gifts and Matching Report.
- Evaluation.
- Federal Reorganization.
- Congressional Budget Submission.
- Jefferson Lecture Arrangements.

The remainder of the proposed meeting will be closed to the public.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Stephen J. McCleary, 806 15th Street, NW., Washington, D.C. 20506, or call area code 202-724-0367.

STEPHEN J. MCCLEARY,
Advisory Committee
Management Officer.

[7590-01]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, WORKING GROUP ON THE REACTOR SAFETY RESEARCH PROGRAM FOR IMPROVED SAFETY SYSTEM CONCEPTS

Meeting

The ACRS Working Group on the Reactor Safety Research Program for Improved Safety System Concepts will hold an open meeting on February 23, 1978 in Room 1130, 1717 H Street, NW., Washington, D.C. 20555.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977, page 56972, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Sub-

committee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows: Thursday, February 23, 1978, 8:30 a.m. until the conclusion of business.

The Working Group will review and discuss an NRC draft report on Long Term Research Plans for New or Improved Reactor Safety System Concepts. The Research Plan is being prepared for Congress by the NRC in response to requirements contained in Pub. L. 95-209.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Dr. Andrew L. Bates, telephone 202-634-1919 between 8:15 a.m. and 5 p.m., EST.

Dated: February 1, 1978.

SAMUEL J. CHILK,
Acting Advisory Committee
Management Officer.

[7590-01]

[Docket No. PRM-150-11]

CHEM-NUCLEAR SYSTEMS, INC.

Filing of Petition for Rulemaking

Notice is hereby given that John L. West, Esquire, by letter dated December 9, 1977, has filed with the Nuclear Regulatory Commission a petition for rulemaking on behalf of Chem-Nuclear Systems, Inc., to amend the Commission's regulation "Exemptions and Continued Regulatory Authority in Agreement States Under section 274," 10 CFR Part 150.

Paragraph (a) of § 150.20 states that:

(a) Subject to the provisions of paragraph (b) of this section any person who holds a specific license from an Agreement State where the licensee maintains an office for directing the licensed activity and at which radiation safety records are normally maintained, is hereby granted a general license to conduct the same activity in non-Agreement States: *Provided*, That the specific license does not limit the activity authorized by the license to specified installations or locations.

Paragraph (b)(3) of § 150.20 provides, that any person who engages in activities in non-Agreement States under the general license:

(3) Shall not possess or use radioactive material, or engage in the activities authorized in paragraph (a) of this section for more than 180 days in any calendar year; . . .

The petitioner requests that the Commission amend § 150.20 by deleting paragraph (b)(3).

The petitioner states that the limitation in paragraph (b)(3) creates additional paperwork and expense for Chem-Nuclear Systems, Inc., and may in the future limit the performance of its services to public utilities. The petitioner contends also that:

One would imagine that if such licensed activities are appropriate and in the public interest for 180 days of the year, they would remain so for the balance of the year as well. As a matter of public policy, all of the reasons why such activities are considered proper for a substantial portion of the year tend to argue against the limit of 180 days on such activities.

A copy of the petition for rulemaking is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington D.C. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

All persons who desire to submit written comments or suggestions concerning the petition for rulemaking should send their comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch by April 10, 1978.

Dated at Washington, D.C. this 2nd day of February 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.
[FR Doc. 78-3260 Filed 2-7-78; 8:45 am]

[7590-01]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; SUBCOMMITTEE ON WASTE MANAGEMENT

Meeting

The ACRS Subcommittee on Waste Management will hold an open meeting on February 23, 1978, in Room 1046, 1717 H St. NW., Washington, D.C. 20555, to review NUREG-0240, "The Nuclear Regulatory Commission Low-Level Radioactive Waste Management Program," and other waste management matters.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977, page 56972, oral or written statements may be presented by members of the public, recordings will be permitted only during those

portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows: Thursday, February 23, 1978, 8:30 a.m. until the conclusion of business.

The Subcommittee may meet in Executive Session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to formulate a report and recommendations to the full Committee.

At the conclusion of the Executive Session, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC Staff, various industry representatives, and their consultants, pertinent to this review. The Subcommittee may then caucus to determine whether the matters identified in the initial session have been adequately covered and whether the project is ready for review by the full Committee.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Mr. Ragnwald Muller, telephone 202-634-1413, between 8:15 a.m. and 5:00 p.m., est.

Dated: February 1, 1978.

SAMUEL J. CHILK,
Secretary of the Commission.
[FR Doc. 78-3238 Filed 2-7-78; 8:45 am]

[7590-01]

[Docket No. 50-272]

SALEM NUCLEAR GENERATING STATION, UNIT NO. 1; PUBLIC SERVICE ELECTRIC AND GAS CO.

Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-70, issued to Public Service Electric and Gas Co., Philadelphia Electric Co., Delmarva Power and Light Co. and Atlantic City Electric Co. (the licensees), which would revise the operating license for Salem Nuclear Generating Station, Unit No. 1 (the facility) located in Salem County, New Jersey.

The amendment would revise the provisions in the Technical Specifications to permit increase in fuel storage capacity from 264 to 1170 fuel assemblies in the spent fuel pool of the Salem Nuclear Generating Station, Unit No. 1. The amendment would also revise design features and associated operating limits for the storage pool, as necessary, to accommodate the increased storage capacity, in accordance with the licensee's application for amendment, dated November 18, 1977 (as supplemented by letter dated December 13, 1977).

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations.

By March 10, 1978, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Troy B. Conner, Jr., Esquire, Suite 1050, 17 Pennsylvania Avenue NW., Washington, D.C. 20006, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely pe-

titions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated November 18, 1977 (as supplemented by letter dated December 13, 1977), which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Salem Free Public Library, 112 West Broadway, Salem, New Jersey.

Dated at Bethesda, Maryland this 31st day of January 1978.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors
Branch No. 3, Division of Operating Reactors.

[FR Doc. 78-3237 Filed 2-7-78; 8:45 am]

[7590-01]

[Docket Nos. 50-295 and 50-304]

COMMONWEALTH EDISON CO.

Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 32 and 29 to Facility Operating License Nos. DPR-39 and DPR-48 issued to Commonwealth Edison Co. (the licensee) which revised technical specifications for operation of the Zion Station, Unit Nos. 1 and 2, located in Zion, Ill. The amendments are effective as of the date of issuance.

These amendments (1) established limiting conditions for operation and surveillance requirements for the turbine building fire sump liquid release pathway and (2) clarify the technical specification requirements with regard to containment tendon surveillance.

The applications for these amendments comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amend-

ments will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the applications for amendments dated August 3 and September 26, 1977, (2) Amendment Nos. 32 and 29 to License Nos. DPR-39 and DPR-48, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the Zion-Benton Public Library District, 2600 Emmans Avenue, Zion, Ill. 60099. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 27th day of January 1978.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactors
Branch No. 1, Division of Operating Reactors.

[FR Doc. 78-3424 Filed 2-7-78; 8:45 am]

[7590-01]

[Docket No. 50-255]

CONSUMERS POWER CO.

Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 34 to Provisional Operating License No. DPR-20, issued to Consumers Power Co. (the licensee), which revised Technical Specifications for operation of the Palisades Plant (the facility) located in Covert Township, Van Buren County, Mich. The amendment is effective as of its date of issuance.

This amendment allows both doors of the containment personnel air lock to be open during refueling operations and allows the removal of either one of two reactor vessel accelerated surveillance capsules during the second and fifth refueling outages.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment

was not required since the amendment did not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated January 6, 1978, (2) Amendment No. 34 to License No. DPR-20, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Mich. 49006. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 27th day of January 1978.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactors
Branch No. 1, Division of Operating Reactors.

[Docket No. 50-321]

LOW PRESSURE COOLANT INJECTION SYSTEM

Issuance of Amendment to Facility; Correction

On January 13, 1978, a "Notice of Issuance of Amendment to Facility Operating License" was published on page 43 FR 2023 with an incorrect effective date. The last sentence in the first paragraph read, "The amendment is effective as of its date of issuance" and it should have read "The amendment is effective upon completion and implementation of the LPCI system modification".

The notice related to the low pressure coolant injection system of the Georgia Power Co.'s Edwin I. Hatch Nuclear Plant, Unit No. 1.

Dated at Bethesda, Md., this 31st day of January 1978.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors
Branch No. 3, Division of Operating Reactors.

VIRGINIA ELECTRIC AND POWER CO.

Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 36 and 35 to Facility Operating Licenses Nos. DPR-32 and DPR-37, issued to Virginia Electric & Power Co. (the licensee), which revised technical specifications for operation of the Surry Power Station, Units Nos. 1 and 2 (the facilities) located in Surry County, Va. The amendments are effective as of the date of issuance.

The amendments: (1) revise the reporting requirements to allow the use of monthly operating report formats; (2) delete the requirement for an annual operating report while retaining the requirement that occupational exposure data be reported on an annual basis; and (3) change the frequency from semiannual to annual for submittal of a nonradiological environmental monitoring report.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated December 20, 1977, (2) Amendments Nos. 36 and 35 to Licenses Nos. DPR-32 and DPR-37, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Swem Library, College of William and Mary, Williamsburg, Va. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 27th day of January 1978.

For the Nuclear Regulatory Commission.

[7590-01]

REGULATORY GUIDE

Proposed Additional Staff Position

Regulatory Guide 1.63, Revision 1, "Electric Penetration Assemblies in Containment Structures for Light-Water-Cooled Nuclear Power Plants," was initially issued by the U.S. Nuclear Regulatory Commission for a 60-day comment period on May 26, 1977. Subsequent to this comment period, an additional NRC staff position that involves voltage impulse testing of electric penetration assemblies during qualification was proposed. Copies of the proposed position have been issued to recipients of Division 1 Regulatory Guides. A copy may be obtained by written request from the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control.

Comments on regulatory guides are encouraged at any time. However, comments on this proposed addition to the revision of Regulatory Guide 1.63 will be particularly useful if received by April 7, 1978 in order that Regulatory Guide 1.63 can be issued as Revision 2 without undue delay.

Comments on this proposed addition to the revision of Regulatory Guide 1.63 should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

(5 U.S.C. 552(a).)

Dated at Rockville, Md., this 1st day of February 1978.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director,
Office of Standards Development.

[Docket 70-143]

NUCLEAR FUEL SERVICES, INC., FUEL FABRICATION FACILITIES, ERWIN, TENN.

Negative Declaration Regarding Renewal of License No. SNM-124

The U.S. Nuclear Regulatory Commission (the Commission) has issued a renewal of Special Nuclear Material License No. SNM-124 for the continued operation of the Nuclear Fuel Ser-

vices, Inc., Fuel Fabrication Facilities at Erwin, Tenn.

The Commission's Division of Fuel Cycle and Material Safety has prepared an environmental impact appraisal for the renewal of license No. SNM-124. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for this particular license renewal is not warranted because there will be no significant environmental impact attributable to the action. The environmental impact appraisal is available for public inspection and copying at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C.

Dated at Silver Spring, Md., this 27th day of January, 1978.

For the Nuclear Regulatory Commission.

[7590-01]

[Docket Nos. 50-275 and 50-323]

PACIFIC GAS AND ELECTRIC CO., DIABLO CANYON NUCLEAR POWER PLANT, UNITS 1 AND 2

Order Extending Construction Completion Dates

Pacific Gas and Electric Co. is the holder of construction permit Nos. CPPR-39 and CPPR-69 issued by the Atomic Energy Commission on April 23, 1968 and December 9, 1970, respectively, for construction of the Diablo Canyon Nuclear Power Plant, Units 1 and 2, presently under construction at the company's site in San Luis Obispo County, Calif.

On November 11, 1976, Pacific Gas and Electric Co. filed a request for an extension of the completion date for Unit 1. On May 10, 1977, Pacific Gas and Electric Co. filed an additional request for further extension of the completion date for Unit 1 as well as for an extension of the completion date for Unit 2. On December 16, 1977, Pacific Gas and Electric Co. filed a third request for further extension of the completion dates for Units 1 and 2.

On May 11, 1976 and September 10, 1976, the Commission's staff published supplements 4 and 5 to the Safety Evaluation Report for the Diablo Canyon Nuclear Power Plant docu-

Effective January 20, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

menting the need for a reevaluation of the plant's seismic capabilities, the criteria to be used in the reevaluation and the staff's request that Pacific Gas and Electric Co. perform such a reevaluation. Additional time is required to permit Pacific Gas and Electric Co. to evaluate the plant's seismic capabilities, for the Commission to review and evaluate the Company's work, and to conclude the licensing process.

This action involves no significant hazards consideration; good cause has been shown for the delays; an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with the extension; and the requested extension is for a reasonable period, the bases for which are set forth in a staff evaluation dated February 1, 1978.

For further details with respect to this action, see (1) the applicant's requests for extension of the construction permit completion dates dated November 11, 1976, May 10, 1977, and December 16, 1977, and (2) the staff's related evaluation, all of which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., 20555 and at the Local Public Document Room located in San Luis Obispo County Free Library, P.O. Box X, San Luis Obispo, Calif. 93406.

It is hereby ordered that the latest completion date for CPPR-39 is extended from January 1, 1977, to September 30, 1978, for Unit 1 and the latest completion date for CPPR-69 is extended from July 31, 1977, to December 31, 1978, for Unit 2. Date of Issuance February 1, 1978.

For the Nuclear Regulatory Commission.

D. B. VASSALLO,
Assistant Director for Light
Water Reactors, Division of
Project Management.

[7590-01]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Revised Notice of Meeting

The meeting notice for the meeting to be held on February 9-11, 1978 (published on January 25, 1978—FEDERAL REGISTER Vol. 43, No. 17) is revised as detailed below. This revision reflects changes resulting from the cancellation of ACRS review of the Maine Yankee Atomic Power Station power level increase and the La Crosse boiling water reactor fuel performance.

THURSDAY, FEBRUARY 9, 1978

8:30 a.m.-9:30 a.m.: *Executive session (open)*—The Committee will hear and discuss the report of the ACRS Chairman regarding miscellaneous matters relating to ACRS activities. The Committee will hear and discuss the report of the ACRS Subcommittee and consultants who may be present regarding the request for an Operating License for Arkansas Nuclear One, Unit 2. Portions of this session will be closed if necessary to discuss proprietary information applicable to this facility and provisions for physical protection of this plant.

9:30 a.m.-12:30 p.m. and 1:30 p.m.-2:30 p.m.: *Arkansas Nuclear One, Unit 2 (open)*—The Committee will hear and discuss presentations by representatives of the NRC staff and the applicant related to the request for operation of this unit. Portions of this session will be closed if necessary to discuss proprietary information applicable to this facility and provisions for physical protection of this plant.

2:30 p.m.-3 p.m.: *Executive session (open)*—The Committee will hear and discuss the report of its Subcommittee and consultants who may be present on the design of containers for the air shipment of plutonium.

3 p.m.-5 p.m.: *Containers for air shipment of plutonium (open)*—The Committee will hear presentations by and hold discussions with representatives of the NRC staff and the Sandia Laboratory regarding the design and qualification testing of containers to be used for the air shipment of plutonium.

5 p.m.-5:30 p.m.: *Executive session (open)*—The Committee will hear and discuss the report of the ACRS Subcommittee and consultants who may be present on the La Crosse boiling water reactor. Portions of this session will be closed if required to discuss proprietary information related to this plant.

5:30 p.m.-6:30 p.m.: *Executive session (open)*—The Committee will hear and discuss reports of subcommittees, working groups, and members on a number of generic matters related to reactor safety including proposed regulatory guides, program plans for resolution of generic matters, and calculation of control room doses following postulated accidents.

FRIDAY, FEBRUARY 10, 1978

8:30 a.m.-10 a.m.: *Meeting with NRC staff (open)*—The Committee will hear presentations from and hold discussions with members of the Nuclear Regulatory Commission staff regarding recent licensing actions and operating experience including seismic reevaluation of the Vallecitos boiling water reactor, combination of seismic and other loadings in the design of nuclear plants, requirements for key-card security systems for nuclear facilities.

The future schedule for ACRS activities will also be discussed including consideration of a request for information regarding the seismic design of the North Anna Power Station and the seismic design bases for the Perkins Nuclear Station.

10 a.m.-10:30 a.m.: *Executive session (open)*—The Committee will hear and discuss the report of the ACRS Subcommittee and consultants who may be present related to the request for an operating license for the Edwin I. Hatch Nuclear Plant, Unit 2. Portions of this session will be closed if required to discuss Proprietary Information related to this plant and provisions for physical protection of this facility.

10:30 a.m.-1 p.m.: *Edwin I. Hatch Nuclear Plant, Unit 2 (open)*—The Committee will hear presentations by and hold discussions with representatives of the NRC staff and the applicant related to the request for an operating license for this plant. Portions of this session will be closed if required to discuss proprietary information related to this plant and provisions for physical protection of this facility.

2 p.m.-4:30 p.m.: *Executive session (open/closed)*—The Committee will prepare its report to the Nuclear Regulatory Commission on the Edwin I. Hatch, Unit 2; Arkansas Nuclear One, Unit 2 and containers for air shipment of plutonium. Portions of this session will be closed as necessary to discuss matters involved in adjudicatory proceedings.

4:30 p.m.-5 p.m.: *Executive session (open)*—The Committee will hear and discuss the report of its Subcommittee and consultants who may be present on plans and procedures for the decommissioning of nuclear facilities.

5 p.m.-7:30 p.m.: *Meeting on Decommissioning of Nuclear Facilities (open)*—The Committee will hear presentations by and hold discussions with representatives of the NRC staff, the Department of Energy, and the nuclear industry regarding procedures and practices related to the decommissioning of nuclear facilities. Portions of this session will be closed if required to discuss proprietary information related to this matter.

SATURDAY, FEBRUARY 11, 1978

8:30 a.m.-4 p.m.: *Executive session (open/closed)*—The Committee will prepare its reports to the Nuclear Regulatory Commission on the Edwin I. Hatch Nuclear Plant, Unit 2; and the Arkansas Nuclear One, Unit 2.

The Committee will complete the preparation of comments and positions discussed during this meeting including comments regarding the design of containers for air shipment of plutonium and procedures for decommissioning of nuclear facilities.

Portions of this session will be closed as necessary to discuss matters involved in adjudicatory proceedings.

I have determined in accordance with Subsection 10(d) of Pub. L. 92-463 that it is necessary to close portions of the meeting as noted above to protect proprietary information (5 U.S.C. 552b(c)(4)), and to preserve the confidentiality of information related to safeguarding of special nuclear material and the physical protection of nuclear facilities (5 U.S.C. 552b(c)(1) and (4)). The portions of the meeting during which ACRS comments on matters involved in adjudication are prepared will be held in closed session pursuant to exemption (10) of 5 U.S.C. 552b(c). Separation of factual information from information considered exempt from disclosure during closed portions of the meeting is not considered practical.

Procedures for the conduct of and participation in this meeting were outlined in the FEDERAL REGISTER on October 31, 1977, page 56972. In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the committee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

Background information concerning items to be considered during this meeting can be found in documents on file and available for public inspection in the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the following public document rooms:

ARKANSAS NUCLEAR ONE, UNIT 2, Arkansas Polytechnic College, Russellville, Ark. 72801

E. I. HATCH NUCLEAR PLANT, UNIT 2, Applying County Public Library, Parker Street, Baxley, Ga. 31513

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefore can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley, telephone 202-634-1371, between 8:15 a.m. and 5 p.m., e.s.t.

Dated: February 6, 1978.

JOHN C. HOYLE,
Advisory Committee
Management Officer.

[7590-01]

[Docket No. 50-317]

BALTIMORE GAS & ELECTRIC CO.

Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-53, issued to Baltimore Gas & Electric Co. (the licensee) for operation of the Calvert Cliffs Nuclear Power Plant Unit No. 1 (the facility) located in Calvert County, Md.

The amendment would authorize operation of Calvert Cliffs Unit No. 1 upon resolution of the Control Element Assembly (CEA) guide tube wear problem.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By March 10, 1978, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docket and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to James A. Biddison, Jr., General Counsel, P.O. Box 1475, Baltimore, Md. 21203, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to

matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the Combustion Engineering submittal regarding CEA guide tube wear dated January 17 and 24, 1978, and Baltimore Gas & Electric Co., submittal regarding CEA guide tube wear required by February 7, 1978, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Calvert County Library, Prince Frederick, Md. 20678.

Dated at Bethesda, Md., this 6th day of February 1978.

For the Nuclear Regulatory Commission.

MARSHALL GROTEHUIS,
Acting Chief, Operating Reactors Branch No. 2, Division of
Operating Reactors.

NATIONAL TRANSPORTATION POLICY STUDY COMMISSION

TRANSPORTATION POLICY

Hearings

Views on national transportation policy will be aired at a public hearing scheduled by the National Transportation Policy Study Commission for Monday, February 27, 1978, in New York City.

The hearings, part of a nationwide series planned by the Commission, are intended to help determine the needs of our Nation's communities, the transportation industry, shippers, the traveling public and the American taxpayer.

The Commission, composed of 19 members, including 6 Senators, 6 Representatives, and 7 public representatives, was created by Congress to examine, evaluate, and analyze our Nation's transportation needs, and resources through the year 2000. The Commission's final report and policy recommendations are due on December 31, 1978.

The hearing will be held in Room 305, Federal Office Building, 26 Feder-

al Plaza, New York, N.Y. 10007, commencing at 9:30 a.m.

Those interested in testifying personally or in submitting written statements should contact, no later than 6 p.m., February 17, 1978: Ms. Leslie Berkowitz, NTPSC, 1750 K Street NW., Suite 800, Washington, D.C. 20006. Telephone number 202-254-7453.

Dated: February 3, 1978.

EDWARD R. HAMBERGER,
General Counsel.

[1505-01]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-14358; File No. SR-Amex-77-39]

AMERICAN STOCK EXCHANGE, INC.

Proposed Rule Change

Correction

In FR Doc. 78-2719, appearing at page 4295 in the issue for Wednesday, February 1, 1978, in the heading, the last docket number "30", should read "39".

[3190-01]

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

TRADE POLICY STAFF COMMITTEE

Solicitation of Public Views

Pursuant to section 201 of the Trade Act of 1974, on February 3 the President received a report from the U.S. International Trade Commission (ITC) on the case of Citizens Band (CB) radio transceivers (Investigation No. TA-201-29). The Commission submitted a report containing an affirmative determination that Citizens Band transceivers, provided for in item 685.25 of the Tariff Schedules of the United States (TSUS), are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article.

The Commission split by a three to three vote on the question of remedy as follows: (1) three Commissioners determine that adjustment assistance under chapters 2, 3, and 4 of Title II of the Trade Act can effectively remedy the serious injury found to exist, and recommend the provision of such assistance, and (2) three Commissioners find and recommend that to prevent

the serious injury threatened it is necessary to impose rates of duty, in addition to the present rates of duty, with respect to Citizens Band (CB) radio transceivers (except hand-held), provided for in item 685.25 of the TSUS, as follows—

1st yr.....	30 pct. ad val.
2d yr.....	25 pct. ad val.
3d yr.....	20 pct. ad val.
4th yr.....	15 pct. ad val.
5th yr.....	10 pct. ad val.

Within 60 days of receiving a report from the Commission containing an affirmative determination, the President must determine what method and amount of import relief he will provide or determine that the provision of relief is not in the national economic interest, and whether he will direct expeditious consideration of adjustment assistance petitions.

In determining whether to provide import relief and what method and amount of import relief he will provide, the President must take into account, in addition to other considerations he may deem relevant, the following factors:

(1) The probable effectiveness of the import relief as a means to promote adjustment, the efforts being made or to be implemented by the industry concerned to adjust to import competition, and other considerations relevant to the position of the industry in the nation's economy;

(2) The effect of import relief on consumers and on competition in the domestic markets for such articles;

(3) The effect of import relief on the international economic interest of the United States;

(4) The impact on U.S. industries and firms as a consequence of any possible modification of duties or other import restrictions which may result from international obligations with respect to compensation;

(5) The geographic concentration of imported products marketed in the United States;

(6) The extent to which the U.S. market is a focal point for exports of such article by reason of restraints on exports of such article to, or on imports of such article into, third country markets; and

(7) The economic and social costs which would be incurred by taxpayers, communities and workers if import relief were or were not provided.

The Office of the Special Representative for Trade Negotiations chairs the interagency Trade Policy Committee structure that makes recommendations to the President as to what action, if any, he should take on reports submitted by the ITC under section 201(d). In order to assist the Trade Policy Staff Committee in developing recommendations to the President as to what action to take under sections 202 and 203 of the

Trade Act of 1974, the Committee welcomes briefs from interested parties on the above listed subjects. (Additional information on this case is available in USITC report 201-29.)

Briefs should be submitted in twenty (20) copies to Chairman, Trade Policy Staff Committee, Room 729, Office of the Special Representative for Trade Negotiations, 1800 G Street NW., Washington, D.C. 20506.

To be considered by the Trade Policy Staff Committee, submissions should be received in the Office of the Special Representative for Trade Negotiations no later than the close of business Thursday, February 23, 1978.

WILLIAM B. KELLY, Jr.,
Chairman, Trade Policy
Staff Committee.

DEPARTMENT OF STATE

Agency for International Development

BOARD FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Meeting

Pursuant to Executive Order 11769 and the provisions of section 10(a), (2), Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given of the sixteenth meeting of the Board for International Food and Agricultural Development on February 27, 1978.

The purpose of the meeting is to review the proposals for strengthening U.S. universities' capabilities to participate in Title XII activities; to consider the conceptual model and agenda of country studies for baseline studies in agricultural research, education and extension activities; to act on the proposed criteria for university eligibility to participate in Title XII; to review the annual report to Congress on Title XII activities; and to hear reports on strengthening of AID's professional manpower, AID's organizational structure for research, middle income country options, and on the activities of the Joint Research Committee and the Joint Committee on Agricultural Development.

The meeting will begin at 9 a.m., adjourn at 4:30 p.m., and will be held in Conference Room B of the Pan American Health Organization Building, 23rd Street and Virginia Avenue NW., Washington, D.C. The meeting is open to the public. Any interested person may attend, may file written statements with the Board before or after the meeting, or may present oral statements in accordance with procedures established by the Board, and to the extent the time available for the meeting permits.

Dr. Erven J. Long, Associate Assistant Administrator, a Development

Support Bureau, AID, is designated as AID Advisory Committee Representative at the meeting. It is suggested that those desiring further information write to him in care of the Agency for International Development, State Department, Washington, D.C. 20523, or telephone him at 703-235-2243.

Date: February 1, 1978.

ERVEN J. LONG,
AID Advisory Committee Representative,
Board for International Food and Agricultural Development.

[4910-06]

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA General Docket H-77-3]

ABD TYPE OF POWER BRAKE EQUIPMENT; TEST AUTHORITY

Public Conference

The Federal Railroad Administration (FRA) has been considering a request submitted by the Association of American Railroads (AAR) for test authority to conduct a limited study and evaluation of the safe service life reliability of the ABD type of power brake equipment. The request for test authority is identified as FRA General Docket H-77-3 and it involves a temporary waiver of compliance with the testing and repair requirements of 49 CFR 232.17(a)(1) and (b).

The FRA issued a public notice describing this test program on August 23, 1977 (FR 42422). That notice indicated that approximately 2,300 freight cars, belonging to several different railroads, would be involved in the proposed test program. In response to that public notice, FRA has received considerable comment on the advisability of conducting such a test program and some comment on the terms and conditions which should be applicable if FRA determines that it is appropriate to institute such a test program.

The Administrator of the FRA has delegated to the Railroad Safety Board (Board) the responsibility to consider waivers of compliance with standards and regulations issued by the FRA (FRA Order No. 100.14c). Pursuant to its delegated authority, the Board has reviewed the available information to determine the proper course of action to be taken in this proceeding.

The Board believes that the type of test authority requested by AAR is a proper method for acquiring data which is relevant to the safe service life of power brake equipment. The acquisition of such data will permit FRA

to assess more fully the current regulatory provisions which are designed to ensure the safe operation of such equipment. In addition, the data available to the Board indicates that a waiver of compliance, to permit this test, is warranted. To date, the Board has learned of no reason why the initiation of this test program would impinge on the safety of railroad operations, if appropriate terms and conditions for the test program are strictly adhered to.

The Railroad Safety Board has formulated a number of terms and conditions which it contemplates imposing as provisions of an order permitting the initiation of this test program. The Board desires to obtain the comments and views of all interested parties on the suitability of the terms and conditions which it contemplates should be imposed in this proceeding.

In furtherance of the effort to refine the appropriateness of the contemplated terms and conditions the Board will hold a public conference. Accordingly, a public conference is hereby set for 10 a.m. on February 15, 1978 in Room 4234, Nassif Building, 400 Seventh Street SW., Washington, D.C.

The public conference will be an informal one conducted by a representative designated by the Board. The Board's representative will make an opening statement outlining the scope of the conference and the details of the Board's tentative terms and conditions. The conference will not be an adversary proceeding and any necessary procedures for the conduct of the conference will be announced at the conference.

This notice is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431; and § 1.49(n) of the regulations of the Office of the Secretary of Transportation 49 CFR 1.49(n).

Issued in Washington, D.C., on February 2, 1978.

ROBERT H. WRIGHT,
Acting Chairman,
Railroad Safety Board.

AMERICAN MANUFACTURERS' PETITION

Receipt of American Manufacturers' Petition Requesting Determination of Correct Appraised Value of Expanded Metal From the United Kingdom

AGENCY: United States Customs Service, Department of the Treasury.

ACTION: Notice of receipt of petition filed by American manufacturers.

SUMMARY: This notice is to advise the public that the Customs Service has received a petition filed by 12 American manufacturers requesting a determination of the correctness of the initial appraised value of certain expanded metal from the United Kingdom. Interested persons are invited to comment on this petition.

DATES: Comments must be received on or before March 10, 1978.

FOR FURTHER INFORMATION CONTACT:

Thomas Lobred, Classification and Value Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229 202-566-2938.

ADDRESS: Comments may be addressed to the Commissioner of Customs, Attention: Special Project and Programs Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229.

SUPPLEMENTARY INFORMATION: On June 2, 1977, a petition was received in proper form, pursuant to section 516(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1516(a)), from 12 American manufacturers of expanded metal asserting their belief that certain expanded metal imports from the United Kingdom were being appraised incorrectly. The petition requested the Customs Service to determine the correctness of the initial appraised value of the metal according to section 402 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a).

In accordance with the provisions of section 175.21(a) of the Customs Regulations (19 CFR 175.21(a)), notice is hereby given that domestic manufacturers have filed a petition requesting that the Customs Service determine the correctness of the initial appraised value of expanded metal from the United Kingdom. Before a decision is made with regard to this petition, consideration will be given to any relevant data, views or arguments submitted in writing. Submissions should be addressed to the Commissioner of Customs, 1301 Constitution Avenue NW., Washington, D.C. 20229, in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Written submissions will be available for public inspection in accordance with section 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Classification and Value Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

Dated: February 2, 1978.

ROBERT E. CHASEN,
Commissioner of Customs.

Office of the Secretary

[Treasury Department Order No. 190-4]

GENERAL COUNSEL

Delegation of Authority

Pursuant to the authority vested in me as Secretary of the Treasury, I hereby delegate to the General Counsel the authority to approve all regulations pertaining to the internal revenue laws, including the authority to ratify and approve, where necessary, any such regulations previously issued.

This delegation does not revoke any similar authority heretofore delegated to any other official of the Treasury Department.

Dated: January 30, 1978.

W. MICHAEL BLUMENTHAL,
Secretary of the Treasury.

IRREGULAR ROUTE MOTOR COMMON
CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

FEBRUARY 1, 1978.

The following letter notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's gateway elimination rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 20, 1978. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter notices by number.

No. MC 60014 (Sub-No. E126) (correction), filed June 4, 1974, published in the FEDERAL REGISTER issue of September 22, 1975, and corrected, as published, this issue. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William R. Rorison (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which by reason of their size or weight, require the use of special

equipment, (1) between those points in West Virginia south and west of a line beginning at the Pennsylvania-West Virginia State line and extending along West Virginia Highway 69, to junction U.S. Highway 250, thence along U.S. Highway 250 to junction U.S. Highway 33, thence along U.S. Highway 33 to the West Virginia-Virginia State line, on the one hand, and, on the other, those points in Connecticut, on and east of a line beginning at the Massachusetts-Connecticut State line and extending along Interstate Highway 91, to junction Connecticut Highway 2, thence along Connecticut Highway 2 to junction Connecticut Highway 85, thence along Connecticut Highway 85 to the Connecticut-Rhode Island State line (New York and points in Massachusetts within 35 miles of Boston)*; (2) between points in West Virginia, on the one hand, and, on the other, those points in Ohio on and east of a line beginning at the Indiana-Ohio State line, and extending along Ohio Highway 122, to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Interstate Highway 71, thence along Interstate Highway 71 to junction Ohio Highway 56, thence along Ohio Highway 56 to junction Ohio Highway 316, thence along Ohio Highway 316 to junction Ohio Highway 752, thence along Ohio Highway 752 to junction Ohio Highway 674, thence along Ohio Highway 674 to junction Ohio Highway 188, thence along Ohio Highway 188 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Ohio-West Virginia State line, points in that part of Ohio on and east of a line extending from Mansfield to Pomeroy, Ohio, along Ohio Highway 13 to junction thereof with U.S. Highway 33, thence along U.S. Highway 33 to Pomeroy, Ohio, and on and south of U.S. Highway 30 extending from Mansfield to the Ohio-West Virginia State line (except points in Licking County, Ohio)*; and (3) between points in West Virginia, on the one hand, and, on the other, points in New Hampshire, Rhode Island, and Massachusetts within 35 miles of Boston, Mass. (New York and points in Massachusetts within 35 miles of Boston)*. The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

NOTE.—The purpose of this republication is to correct the territorial description.

No. MC 60014 (Sub-No. E133) (correction), filed June 4, 1974, published in the FEDERAL REGISTER issue of September 22, 1975, and republished, as corrected, this issue. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William R. Rorison (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, trans-

NOTICES

porting: *Commodities*, requiring special equipment, restricted so that, or provided that, the loading or unloading, which necessitate the special equipment, is performed by the consignor or consignee or both, between the District of Columbia, on the one hand, and, on the other, points in Connecticut, Maine, New Hampshire, those in Massachusetts on and east of U.S. Highway 5, those in Rhode Island on and east of a line beginning at the Connecticut-Rhode Island State line and extending along Rhode Island Highway 138 to junction Rhode Island Highway 108, thence along Rhode Island Highway 108 to the Rhode Island Sound, and those in Vermont on and east of a line beginning at the New York-Vermont State line and extending along Vermont Highway 149 to junction Vermont Highway 30, thence along Vermont Highway 30 to junction Vermont Highway 100, thence along Vermont Highway 100 to junction Vermont Highway 112, thence along Vermont Highway 112 to the Vermont-Massachusetts State line (points in New York within 10 miles of Greenwich, Conn.; Greenwich, Conn.; and points in Massachusetts within 35 miles of Boston)*; and *commodities*, the transportation of which, by reason of their size or weight, require the use of special equipment, between the District of Columbia, on the one hand, and, on the other, points in Ohio (West Virginia and points in that part of Ohio on and east of a line extending from Mansfield to Pomeroy, Ohio, along Ohio Highway 13 to junction thereof with U.S. Highway 33, thence along U.S. Highway 33 to Pomeroy, Ohio, and on and south of U.S. Highway 30 extending from Mansfield to the Ohio-West Virginia State line, except points in Licking County)*. The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

NOTE.—The purpose of this republication is to correct the territorial description.

No. MC 60014 (Sub-No. E144) (correction), filed June 4, 1974, published in the FEDERAL REGISTER issue of September 22, 1975, and republished, as corrected, this issue. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William R. Rorison (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, by reason of their size or weight, require the use of special equipment, between points in Ohio, on the one hand, and, on the other, those points in West Virginia on and east of a line beginning at the Ohio-West Virginia State line and extending along West Virginia Highway 2, to junction U.S. Highway 33, thence along U.S. Highway 33 to junction West Virginia

Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 4, thence along West Virginia Highway 4 to junction Interstate Highway 79, thence along Interstate Highway 79 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction West Virginia Highway 41, thence along West Virginia Highway 41 to junction West Virginia Highway 20, thence along West Virginia Highway 20 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateway of points in that part of Ohio on and east of a line extending from Mansfield to Pomeroy, Ohio, along Ohio Highway 13 to junction thereof with U.S. Highway 33, thence along U.S. Highway 33 to Pomeroy, Ohio, and on and south of U.S. Highway 30 extending from Mansfield to the Ohio-West Virginia State line (except points in Licking County, Ohio).

NOTE.—The purpose of this republication is to correct the territorial description.

No. MC 64932 (Sub-No. E121) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, as corrected, this issue. Applicant: ROGERS CARTAGE CO., 10735 South Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: W. F. Farrell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals and paint, and paint materials, synthetic resin, resin compound surface coating, estergum paint oil, varnish, glycerine, and liquid glue*, in bulk, in tank vehicles, from those points in Pennsylvania on, north and east of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to junction Pennsylvania Highway 51, thence along Pennsylvania Highway 51 to junction Pennsylvania Highway 136, to junction Pennsylvania Highway 31, to junction U.S. Highway 219, to the Pennsylvania-West Virginia State line, to those points in Indiana on and west of a line beginning at the Indiana-Michigan State line and extending along Indiana Highway 23 to junction Indiana Highway 331, to junction U.S. Highway 30 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Ferndale, Michigan.

NOTE.—The purpose of this republication is to clarify commodity description.

No. MC 64932 (Sub-No. E124) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, as corrected, this issue. Applicant: ROGERS CARTAGE CO., 10735 South Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: W.

F. Farrell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals and paint*, in bulk, in tank vehicles, between those points in Michigan on and east of a line beginning at Lake Michigan, and extending along U.S. Highway 27, to junction U.S. Highway 10 to junction Michigan Highway 47, to junction U.S. Highway 23, to junction Michigan Highway 59, to junction Interstate Highway 96, to junction U.S. Highway 23 to junction Michigan Highway 50, to Lake Erie, on the one hand, and, on the other, points in Missouri, and those points in Indiana on and south of a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 30 to Junction Interstate Highway 69, to junction Interstate Highway 465, to junction U.S. Highway 40 to the Indiana-Illinois State line. The purpose of this filing is to eliminate the gateway of Ferndale, Mich.

NOTE.—The purpose of this republication is to correct the territorial description.

No. MC 64932 (Sub-No. E128) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, as corrected, this issue. Applicant: ROGERS CARTAGE CO., 10735 South Cicero Avenue, Oak Lawn, Ill. Applicant's representative: W. F. Farrell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from those points in Michigan on and east of a line beginning at Lake Michigan and extending along U. S. Highway 27 to junction U. S. Highway 127, to the Michigan-Ohio State Line, to points in Arkansas. The purpose of this filing is to eliminate the gateway of Ferndale, Mich., and Marshall, Ill.

NOTE.—The purpose of this republication is to add the destination State of Arkansas. Previously omitted.

No. MC 64932 (Sub-No. E130) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, as corrected, this issue. Applicant: ROGERS CARTAGE CO., 10735 South Cicero Avenue, Oak Lawn, Ill. Applicant's representative: W. F. Farrell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals and paint*, in bulk, in tank vehicles, between those points in Michigan on, south and east of a line beginning at the Saginaw Bay and extending along U.S. Highway 10 to junction Michigan Highway 47, to junction U.S. Highway 23, to junction Michigan Highway 59, to junction Interstate Highway 96, to junction U.S. Highway 23, to the Michigan-Ohio

State line, on the one hand, and, on the other, those points in Minnesota on and south of U.S. Highway 12, and those in Wisconsin on and south of a line beginning at the Minnesota-Wisconsin State line and extending along U.S. Highway 12 to junction Wisconsin Highway 29 to Lake Michigan. The purpose of this filing is to eliminate the gateway of Ferndale, Mich.

NOTE.—The purpose of this republication is to correct the territorial description.

No. MC 64932 (Sub-No. E131) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, as corrected, this issue. Applicant: ROGERS CARTAGE CO., 10735 South Cicero, Oak Lawn, Ill. 60453. Applicant's representative: W. F. Farrell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except chemicals derived or produced from petroleum), in bulk, in tank vehicles, from those points in Ohio on, east, and north of a line beginning at Lake Erie and extending along Ohio Highway 83 to junction U.S. Highway 224, to the Ohio-Pennsylvania State line, to points in Kansas, Nebraska, Oklahoma, and Texas. The purpose of this filing is to eliminate the gateway of Ferndale, Mich., and Chicago Heights, Ill.

NOTE.—The purpose of this republication is to correct the territorial description adding the destination States, previously omitted.

No. MC 64932 (Sub-No. E132) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, this issue, as corrected. Applicant: ROGERS CARTAGE CO., 10735 South Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: W. F. Farrell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from those points in Ohio on, east, and north of a line beginning at Lake Erie and extending along Ohio Highway 83 to junction Interstate Highway 224 to the Ohio-Pennsylvania State line, to points in California. The purpose of this filing is to eliminate the gateway of Ferndale, Mich., and the plantsites of Baird Chemical Industries, Inc., located at or near Mapleton, Ill.

NOTE.—The purpose of this republication is to add the destination State of California, previously omitted.

No. MC 64932 (Sub-No. E133) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, as corrected, this issue. Applicant: ROGERS CARTAGE CO., 10735

South Cicero Ave., Oak Lawn, Ill. 60453. Applicant's representative: W. F. Farrell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals and paint*, in bulk, in tank vehicles, between those points in Ohio on, east and north of a line beginning at the Michigan State line and extending along Interstate Highway 75 to junction U.S. Alternate Highway 20, to junction U.S. Highway 20, to junction U.S. Highway 250, to junction U.S. Highway 224 to the Ohio-Pennsylvania State line, on the one hand, and, on the other, points in Minnesota and Wisconsin. The purpose of this filing is to eliminate the gateway of Ferndale, Mich.

NOTE.—The purpose of this republication is to correct the territorial description.

No. MC 64932 (Sub-No. E134) (correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of September 9, 1975, and republished, as corrected, this issue. Applicant: ROGERS CARTAGE CO., 10735 South Cicero Ave., Oak Lawn, Ill. 60453. Applicant's representative: W. F. Farrell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals and paint*, in bulk, in tank vehicles, between those points in Ohio on, east and north of a line beginning at the Lake Erie and extending along Ohio Highway 83 to junction Interstate Highway 224 to the Ohio-Pennsylvania State line, on the one hand, and, on the other, those points in Indiana in the Chicago, Ill. Commercial Zone, those in Illinois on and north of a line beginning at the Indiana-Illinois State line, and extending along U.S. Highway 30 to junction Interstate Highway 80 to the Illinois-Iowa State line and those in Michigan on and north of Interstate Highway 94. The purpose of this filing is to eliminate the gateway of Ferndale, Mich.

NOTE.—The purpose of this republication is to correct the territorial description.

No. MC 83539 (Sub-No. E509), filed June 6, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas Tex. 75222. Applicant's representative: H. N. Cunningham, III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled articles* each weighing 15,000 pounds or more (except in driveway service), and related machinery, parts, materials, and supplies; between points in Colorado and Kentucky, restricted to the transportation of commodities which are transported on trailers. The purpose of this filing is to eliminate the gateways of Wichita, Kans., Oklahoma, and Kentucky.

No. MC 83539 (Sub-No. E510), filed June 6, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas Tex. 75222. Applicant's representative: H. N. Cunningham, III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies between points in Colorado and points in Michigan in and east of Algen, Delta, and Menominee Counties, Mich.

NOTE.—The purpose of this filing is to eliminate the gateway of South Dakota.

No. MC 83539 (Sub-No. E511), filed June 6, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled articles* each weighing 15,000 pounds or more (except in driveway service), and related machinery, tools, parts, and supplies, between points in Colorado and Ohio. The purpose of this filing is to eliminate the gateway of South Dakota.

No. MC 83539 (Sub-No. E576), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham, III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery*, between points in Connecticut, on the one hand, and, on the other, points in South Carolina. Restriction: The authority granted immediately above is subject to the condition that the carrier shall not transport aircraft and missiles, and parts thereof. The purpose of this filing is to eliminate the gateways of Philadelphia, Pa., and points in Virginia and North Carolina.

No. MC 83539 (Sub-No. E578), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham, III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery*, between (a) points in Delaware in and north of Kent County, on the one hand, and, on the other, points in North Carolina in and west of Surry, Yadkin, Davie, Rowan, Hanly, and Anson Counties, and (b) points in Delaware in New Castle County, on the one hand, and on the other, points in North Carolina in, west and south of Rockingham, Guilford, Randolph, Chatham, Harnett, Sampson, Bladen, Columbus, Brunswick, and New Hanover Coun-

ties. The purpose of this filing is to eliminate the gateways of Philadelphia, Pa., and Virginia.

No. MC 83539 (Sub-No. E579), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham, III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery*, between points in Delaware in and north of Kent County, on the one hand, and, on the other, points in South Carolina. Restriction: The authority granted immediately above shall be restricted against the transportation of aircraft and missiles and parts thereof. The purpose of this filing is to eliminate the gateways of Philadelphia, Pa., Virginia, and North Carolina.

No. MC 83539 (Sub-No. E581), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham, III (same as above). Authority sought to operate as a *common carrier*, motor vehicle, over irregular routes, transporting: *Heavy machinery*, between points in Illinois, on the one hand, and, on the other, points in Vermont. Restriction: No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. The purpose of this filing is to eliminate the gateways of Indiana, Philadelphia, Pa., and Worcester, Mass.

No. MC 83539 (Sub-No. E582), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham, III (same as above). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Heavy machinery*, between points in Indiana, on the one hand, and, on the other, points in New Hampshire. The purpose of this filing is to eliminate the gateways of Pennsylvania, New York, and Worcester, Mass.

No. MC-106603 (Sub-No. E70), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400 Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building contractors' equipment, materials and supplies*, restricted to brick and tile which are building blocks and clay products, from the plant site of Metropolitan Brick, Inc., near West Darlington, Pa., and from Bessemer, Beaver Falls, and Eastvale, Pa., to points in Iowa on and east of U.S. Highway 63. The purpose of this filing is to eliminate points in Indiana,

except the plantsite of the Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind. and Vandalia, Ill. (2) *Such brick and tile as are building materials* (except commodities in bulk), from the plantsite of Metropolitan Brick, Inc., near West Darlington, Pa., and from Bessemer, Beaver Falls, and Eastvale, Pa., to points in Kentucky on and west of Interstate Highway 65 (except Louisville, Ky.) and points in Tennessee on and west of Interstate Highway 65. The purpose of this filing is to eliminate the plantsite of the National Gypsum Co., near Shoals, Martin County, Ind. (3) *Such brick and tile as are roofing, building, and insulating materials*, from the plantsite of Metropolitan Brick, Inc., near West Darlington, Pa., and from Bessemer, Beaver Falls, and Eastvale, Pa., to points in Missouri within the St. Louis, Mo.-East St. Louis, Ill., commercial zone, as defined by the Commission. The purpose of this filing is to eliminate the gateways of points in Indiana, except the plantsite of the Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind. and Vandalia, Ill. (4) *Building materials*, restricted to brick and tile, from the plantsite of Metropolitan Brick, Inc., near West Darlington, Pa., and from Bessemer, Beaver Falls, and Eastvale, Pa., to points in the Upper Peninsula of Michigan on and west of a line beginning at the Michigan-Wisconsin State line and extending north along Michigan Highway 35 to junction U.S. Highway 41, thence on U.S. Highway 41 to Marquette. The purpose of this filing is to eliminate the gateways of points in Indiana, except the plantsite of the Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind. and Wilmington, Ill. (5) *Such brick and tile as are building contractors' equipment, materials, and supplies*, from the plantsite of Metropolitan Brick, Inc., near West Darlington, Pa., and from Bessemer, Beaver Falls, and Eastvale, Pa., to points in Illinois. The purpose of this filing is to eliminate the gateways of points in Indiana, except the plantsite of the Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind.

No. MC 106603 (Sub-No. E97) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER issue of December 8, 1977, and republished, as corrected, this issue. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Colrain Street SW., Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such building contractors' equipment, materials, and supplies* as are used in the manufacture, installation, or application of roofing and building materials (except

commodities in bulk), from points in Delaware, Maryland, New Jersey, points in New York, the District of Columbia, points in West Virginia on and east of a line beginning at the West Virginia-Ohio State line extending along West Virginia Highway 14 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction U.S. Highway 21, thence along U.S. Highway 21 to the West Virginia-Virginia State line, and points in Virginia on and east of U.S. Highway 21, to the points in Indiana on and north of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 24 to junction Indiana Highway 124, thence along Indiana Highway 124 to the Indiana-Ohio State line (except the plantsite of the Bethlehem Steele Corp., located at Burns Harbor, Porter County, Ind.). The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

NOTE.—The purpose of this correction is to state the correct origin territory.

No. MC 106603 (Sub-No. E98) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER issue of December 8, 1977, and republished, as corrected, this issue. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such building contractors' equipment, materials, and supplies* as are used in the manufacture, installation, or application of roofing and building materials (except commodities in bulk), from points in Delaware, Maryland, New Jersey, the District of Columbia, points in West Virginia on, north and east of a line beginning at the West Virginia-Pennsylvania State line extending along U.S. Highway 19 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction U.S. Highway 50 thence along West Virginia Highway 72 to junction West Virginia Highway 32, thence along U.S. Highway 33, thence along U.S. Highway 33 to the West Virginia-Virginia State line, and points in Virginia on, north and east of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 33 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-North Carolina State line, to points in Indiana on, south and west and north of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 24 to junction Indiana Highway 124, thence along Indiana

Highway 124 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction Interstate Highway 70 along Interstate Highway 70 to the Indiana-Illinois State line. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

NOTE.—The purpose of this filing is to state the correct origin territory.

No. MC 106603 (Sub-No. E99) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER issue of December 8, 1977, and republished, as corrected, this issue. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such building contractors' equipment, materials, and supplies* as are used in the manufacture, installation, or application of roofing and building materials (except commodities in bulk), from points in Delaware, Maryland, New Jersey, points in New York, the District of Columbia, points in West Virginia on, north and east of a line beginning at the West Virginia-Pennsylvania State line extending along U.S. Highway 19, to junction West Virginia Highway 7, thence along West Virginia Highway 7 to junction West Virginia Highway 72, thence along West Virginia Highway 72 to junction U.S. Highway 50, thence along U.S. Highway 50 to the West Virginia-Virginia State line, and points in Virginia on, north and east of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 50 to junction U.S. Highway 17, thence along U.S. Highway 17 to the Virginia-North Carolina State line, to points in Indiana, on, south and west of a line beginning at the Indiana-Illinois State line extending along Interstate Highway 70 to junction Indiana Highway 3, thence along Indiana Highway 3 to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

NOTE.—The purpose of this correction is to state the correct origin territory.

No. MC 106603 (Sub-No. E100) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER issue of December 8, 1977, and republished, as corrected, this issue. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. ment, materials, and supplies as are used in the manufacture, installation, or application of roofing and building materials (except commodities in bulk), from points in Delaware, Maryland, New Jersey, points in New York, points in Pennsylvania north and east of a line beginning at the Pennsylvania-West Virginia State line extending along U.S. Highway 22 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-Maryland State line, the District of Columbia, points in West Virginia on, north and east of a line beginning at the West Virginia-Maryland State line extending along U.S. Highway 50 to the West Virginia-Virginia State line, and points in Virginia on, north and east of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 50 to junction U.S. Highway 17, thence along U.S. Highway 17 to the Virginia-North Carolina State line, to points in Indiana on, south and east of a line beginning at the Indiana-Ohio State line extending along Indiana Highway 124 to junction Indiana Highway 3, thence along Indiana Highway 3 to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

NOTE.—The purpose of this correction is to state the correct origin territory.

No. MC 106603 (Sub-No. E106), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such urethane products as are included in roofing and building materials*, from the plantsite of the Phillip Carey Co., Division of Panacorp Corp., at Elizabethtown, Ky., to points in Delaware, Maryland, and New Jersey, and Virginia on and north of U.S. Highway 50, and Washington, D.C. The purpose of this filing is to eliminate the gateway of the plant site of Certain-teed Products Corporation at Avery, Ohio.

No. MC 106603 (Sub-No. E107), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such plastic and vinyl building materials backerboard, and materials and supplies used in the installation thereof* which are used in roofing and building materials and materials used in the installation and application of

such commodities (except iron and steel, portland cement and commodities in bulk), from the plantsite of Bird & Son, Inc. at Bardstown, Ky., to points in Delaware, Maryland, New Jersey, and Virginia on and north of U.S. Highway 50, and Washington, D.C. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp., at Avery, Ohio.

No. MC 106603 (Sub-No. E108), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles* which are included in building contractor's equipment, materials, and supplies, from the plantsite of the Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind., to points in Alabama and Mississippi. The purpose of this filing is to eliminate the gateway of points in Illinois and the plant and warehouse sites of Continental Steel Corp. at or near Kokomo, Ind.

No. MC 106603 (Sub-No. E109), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such iron and steel and iron and steel articles* that are included in building contractor's materials (except commodities in bulk), from the plantsite of the Bethlehem Steel Corp., located at Burns Harbor, Porter County, Ind., to points in Tennessee. The purpose of this filing is to eliminate the gateways of points in Illinois, the plantsite of the National Gypsum Co., near Shoals (Martin County), Ind.

No. MC 106603 (Sub-No. E110), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials, equipment, and supplies* used in the manufacture, installation, or application of roofing and roofing materials (except commodities in bulk), restricted to those roofing and roofing materials that are building contractor's equipment, materials, and supplies, from points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, Washington, D.C., and West Virginia, to points in the lower peninsula of Michigan on, north and west of a line commencing

at Lake Michigan at or near Frankfort and extending southeasterly along Michigan Highway 115 to junction Michigan Highway 55, thence easterly on Michigan Highway 55 to junction Interstate Highway 75, thence northerly on Interstate Highway 75 to the Mackinac Bridge. The purpose of this filing is to eliminate the gateways of the plantsite of Certain-teed Products Corp. at Avery, Ohio, and South Bend, Ind.

No. MC 106603 (Sub-No. E112), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials used in the installation and application of roofing and building materials* (except iron and steel, portland cement, and commodities in bulk), from points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, Washington, D.C., and West Virginia, to points in Michigan. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

No. MC 106603 (Sub-No. E113), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials used in the installation and application of roofing and building materials* (except iron and steel, portland cement, and commodities in bulk), from points in Kentucky on and east of a line commencing at the Kentucky-Ohio State line and extending south on Interstate Highway 75 to the Kentucky-Tennessee State line, to points in Michigan on and east and north of a line commencing at the Michigan-Ohio State line and extending north on U.S. Highway 23 to junction U.S. Highway 10, thence northwesterly on U.S. Highway 10 to junction Michigan Highway 115, thence northwesterly on Michigan Highway 115 to Lake Michigan at or near Frankfort, and those points in the upper peninsula on and east of a line commencing at or near Marquette and extending south on U.S. Highway 41 to Escanaba. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

No. MC 106603 (Sub-No. E114), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials used in the installation and application of roofing and building materials* (except iron and steel, portland cement, and commodities in bulk), from points in Michigan on and east and north of a line commencing at the Michigan-Ohio State line and extending north on U.S. Highway 23 to junction U.S. Highway 10, thence

vitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials used in the installation and application of roofing and building materials* (except iron and steel, portland cement, and commodities in bulk), from points in Kentucky on and west of a line commencing at the Kentucky-Ohio State line and extending south on Interstate Highway 75 to the Kentucky-Tennessee State line, and on and east of a line commencing at the Kentucky-Indiana State line and extending south on Interstate Highway 65 to the Kentucky-Tennessee State line, to points in Michigan on and east of a line commencing at the Michigan-Ohio State line and extending north on U.S. Highway 23 to junction Interstate Highway 75, thence northwesterly on Interstate Highway 75 to the Straits of Mackinac, and those points in the upper peninsula on and east of a line commencing at or near Grand Marais and extending south on Michigan Highway 77 to junction U.S. Highway 2, thence southwesterly on U.S. Highway 2 to Manistique. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

No. MC 106603 (Sub-No. E115), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials used in the installation and application of building and roofing material* (except iron and steel, portland cement, and commodities in bulk), from points in Michigan, to points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, Washington, D.C., and West Virginia. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

No. MC 106603 (Sub-No. E116), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials used in the installation and application of roofing and building materials* (except iron and steel, portland cement, and commodities in bulk), from points in Michigan on and east and north of a line commencing at the Michigan-Ohio State line and extending north on U.S. Highway 23 to junction U.S. Highway 10, thence

northwesterly on U.S. Highway 10 to junction Michigan Highway 115, thence northwesterly on Michigan Highway 115 to Lake Michigan at or near Frankfort, and those points in the upper peninsula on and east of a line commencing at Marquette and extending south on U.S. Highway 41 to Escanaba, to points in Kentucky on and east of a line commencing at the Kentucky-Ohio State line and extending south on Interstate Highway 75 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

No. MC 106603 (Sub-No. E117), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Materials used in the installation and application of roofing and building materials* (except iron and steel, portland cement, and commodities in bulk), from points in Michigan on and east of a line commencing at the Michigan-Ohio State line and extending north on U.S. Highway 23 to junction Interstate Highway 75, thence northwesterly on Interstate Highway 75 to the Straits of Mackinac; and those points in the upper peninsula on and east of a line commencing at Grand Marais and extending south on Michigan Highway 77 to U.S. Highway 2, thence southwesterly on U.S. Highway 2 to Manistique, to points in Kentucky on and west of a line commencing at the Kentucky-Ohio State line and extending south on Interstate Highway 75 to the Kentucky-Tennessee State line; and on and east of a line commencing at the Kentucky-Indiana State line and extending south on Interstate Highway 65 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of the plantsite of Certain-teed Products Corp. at Avery, Ohio.

No. MC 106603 (Sub-No. E118), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such building materials* (except commodities in bulk) and gypsum products which are used in the manufacture, installation, or application of roofing and building materials, from points in New York; points in Pennsylvania on and north of a line commencing at the Pennsylvania-Ohio State line and extending east on Interstate Highway 80

to junction U.S. Highway 15, thence south on U.S. Highway 15 to junction Pennsylvania Highway 61, thence southeasterly on Pennsylvania Highway 61 to junction Interstate Highway 78, thence easterly on Interstate Highway 78 to the Pennsylvania-New Jersey State line; points in New Jersey on and north of a line commencing at the New Jersey-Pennsylvania State line and extending east along U.S. Highway 22 to junction Interstate Highway 287, thence easterly on Interstate Highway 287 to the Atlantic Ocean at or near Perth Amboy, to points in Kentucky on and west of a line commencing at the Kentucky-Indiana State line and extending southerly on Interstate Highway 65 to junction Kentucky Highway 61, thence southeasterly on Kentucky Highway 61 to junction U.S. Highway 31E, thence southerly on U.S. Highway 31E to the Kentucky-Tennessee State line (except Louisville, Ky.); and points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line and extending southerly on U.S. Highway 231 to the Tennessee-Alabama State line. The purpose of this filing is to eliminate the gateways of the plantsite of Certain-teed Products Corp. at Avery, Ohio, and the plantsite of the National Gypsum Co., near Shoals (Martin County), Ind.

No. MC 107064 (Sub-No. E484), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Virginia to points in California. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Castro County, Tex.

No. MC 107064 (Sub-No. E485), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum and potash), from points in Maryland to points in California. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Castro County, Tex.

No. MC 107064 (Sub-No. E486), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Maryland to points in Arizona. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Castro County, Tex.

No. MC 107064 (Sub-No. E487), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Indiana to points in New Mexico. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Castro County, Tex.

No. MC 108064 (Sub-No. E488), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in South Carolina to points in Utah. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Castro County, Tex.

No. MC 107064 (Sub-No. E489), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Vermont to points in Arizona. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., and points in that part

of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.,

No. MC 107064 (Sub-No. E490), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Vermont to points in California. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E491), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in New Hampshire to points in California. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E492), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Georgia to points in New Mexico. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E493), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients*

(except petroleum products and potash), from points in Indiana to points in Arizona. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E494), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Georgia to points in Oregon. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E495), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Delaware to points in Arizona. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E496), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Delaware to points in California. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E497), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as

above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Connecticut to points in New Mexico. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E498), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Rhode Island to points in California. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co., in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E499), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Rhode Island to points in Arizona. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co., in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E500), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Ohio to points in New Mexico. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co., in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E524), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in New York to points in Arizona. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E525), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in New York to points in New Mexico. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E526), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Massachusetts to points in New Mexico. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E527), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Massachusetts

to points in California. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E528), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Mississippi to points in Arizona. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E529), filed January 19, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in New Hampshire to points in New Mexico. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 114019 (Sub-No. E470), filed December 20, 1976. Applicant: MID-WEST EMERY FREIGHT SYSTEM, INC., 7000 South Palaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (2a) *Glassware, and such materials, supplies, and equipment* as are used in the manufacture of glassware, between Zanesville, Ohio, on the one hand, and, on the other, Chicago, Ill., and points in Illinois within 40 miles thereof. The purpose of this application is to eliminate the Gary, Ind., and Waukegon, Ill., gateways.

No. MC 114019 (Sub-No. E472), filed December 20, 1976. Applicant: MID-WEST EMERY FREIGHT SYSTEM, INC., 7000 South Palaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a

common carrier, by motor vehicle, over irregular routes, transporting: *Such merchandise*, as is dealt in by wholesale food business houses, and in connection therewith, equipment, materials, and supplies used in the conduct of such business, (a) between points in Illinois within 40 miles of Chicago on the one hand, and on the other, points in Wisconsin and Iowa, (b) from points in Michigan, to points in Illinois, within 40 miles of Chicago, Ill., (c) from points in Illinois within 40 miles of Chicago, to St. Joseph, Benton Harbor, Niles, Buchanan, Sturgis, and Three Rivers, Mich. The purpose of this application is to eliminate the Chicago, Ill., gateway.

No. MC 114019 (Sub-No. E473), filed December 20, 1976. Applicant: MID-WEST EMERY FREIGHT SYSTEM, INC., 7000 South Palaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise*, as is dealt in by wholesale, retail, and food business houses, (a) from Chicago, Ill., to Akron, Cleveland, Columbus, Dayton, Toledo, and Youngstown, Ohio, and Louisville, Ky., (b) from Louisville, Ky., Akron, Cleveland, Columbus, Dayton, Toledo, and Youngstown, Ohio, points in Ohio within 25 miles of each of such Ohio cities, Fort Wayne, Indianapolis, Muncie, South Bend, and Terre Haute, Ind., and points in Indiana within 25 miles of such Indiana Cities, Detroit, Flint, and Grand Rapids, Mich., and points in Michigan within 25 miles of such Michigan Cities, to Chicago, Ill. The purpose of this application is to eliminate the Burlington, Ill., gateway.

No. MC 114019 (Sub-No. E24) (Correction), filed May 16, 1974, published in the FEDERAL REGISTER issue of May 5, 1976, and partially republished, as corrected, this issue. Applicant: TRUCK TRANSPORT INC., 230 St. Clair Avenue, East St. Louis, Ill. 62201. Applicant's representative: E. Stephen Heisley, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (37) *Dry fertilizer and urea*, from Nebraska City, Nebr., to points in Illinois, Indiana, Michigan, and Ohio. The purpose of this filing is to eliminate the gateway of Fort Madison, Iowa.

NOTE.—The purpose of this republication is to correct the commodity description. (56(a)) *Dry fertilizer and dry fertilizer materials*, from the plantsite and warehouse facilities of W. R. Grace and Co. at or near Atlas, Mo., to points in Michigan and Ohio. The purpose of this filing is to eliminate the gateway of Henry, Ill.

NOTE.—The purpose of this republication is to include the correct No. 56a and descrip-

tion above, previously omitted. The remainder of this letter-notice remain as previously published.

No. MC 117574 (Sub-E68), filed June 24, 1975. Applicant: DIALY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and agricultural machinery, tractors with or without attachments, cranes, industrial and processing machinery, and attachments, accessories and parts* of all of the above described commodities, except commodities requiring special equipment between points in the New York Counties of Niagara and Erie on the one hand, and, on the other, points in Arizona, California, Connecticut, Delaware, Florida, Georgia, Idaho, Louisiana, Maine, Massachusetts, Montana, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, Oregon, Rhode Island, South Carolina, Texas, Utah, Washington, Wyoming, and points in Alabama on and east of a line commencing at Alabama/Mississippi line along State Highway 24, thence in an easterly direction along State Highway 24 to its junction with U.S. 43, thence in a northerly direction along U.S. 43 to its junction with State Highway 20, thence along State Highway 20 in an easterly direction to its junction U.S. 231, thence along U.S. 231 in a northerly direction to Alabama/Tennessee State line, points in Arkansas on and south of a line commencing at Oklahoma/Arkansas line along State Highway 8, thence in an easterly direction along State Highway 8 to its junction with State Highway 27, thence in a northerly direction along State Highway 27 to its junction with U.S. 270, thence along U.S. 270 in an easterly direction to its junction with U.S. 65, thence along U.S. 65 in a southeasterly direction to the Arkansas/Mississippi State line, points in Colorado on and west and south of a line commencing at Colorado/Nebraska line along State Highway 113, thence in a southerly direction along State Highway 113 to its junction with State Highway 61, thence in a southerly direction along State Highway 61 to its junction with U.S. 34, thence in an easterly direction along U.S. 34 to Colorado/Nebraska State line, points in Kansas on and west and south of a line commencing at Kansas/Nebraska line along State 27, thence in a southerly direction along State 27 to its junction with U.S. 24, thence along U.S. 24 to its junction with Interstate 70, thence along Interstate 70 to its junction with U.S. 183, thence along U.S. 183 to its junction with State Highway 96, thence in an easterly direction along State Highway 96 to its junction with U.S. 56, thence in an

easterly direction along U.S. 56 to its junction with U.S. 81, thence in a southeasterly direction along U.S. 81 to its junction with U.S. 54, thence along U.S. 54 to its junction with U.S. 77, thence along U.S. 77 to Kansas/Oklahoma State line, points in Kentucky commencing at Kentucky/Tennessee line, along State Highway 74 to Kentucky/Virginia State line, points in Maryland commencing at Maryland/West Virginia line on and east of a line along Interstate 81, thence in a northeasterly direction along Interstate 81 to Maryland/Pennsylvania State line, points in Mississippi on and south of a line commencing at Arkansas/Mississippi line along U.S. 82, thence in an easterly direction along U.S. 82 to its junction with State Highway 15, thence in a northerly direction along State Highway 15 to its junction with State Highway 6, thence in an easterly direction along State Highway 6 to its junction with U.S. 78, thence in an easterly direction along U.S. 78 to its junction with State Highway 23, thence in a northerly direction along State Highway 23 to Mississippi/Alabama State line, points in Nebraska on and west and south of a line commencing at Nebraska/South Dakota line along unnamed road, thence in a southerly direction along unnamed road to its junction with State Highway 29 near Harrison, thence in a southerly direction along State Highway 29 to its junction with U.S. 30, thence in an easterly direction along U.S. 30 to its junction with unnamed road near Sidney, thence in a southerly direction to Nebraska/Colorado State line, points in New York on and east of a line commencing at Pennsylvania/New York border along Interstate 81, thence in a northerly direction along Interstate 81 to its junction with State Highway 7, thence in a northeasterly direction along State Highway 7, thence to the New York/Vermont State line, points in North Dakota on and west of a line commencing at North Dakota/Canadian border along State Highway 256, thence in a southerly direction along State Highway 256 to its junction with U.S. 83, thence in a southerly direction along U.S. 83 to its junction with State Highway 23, thence in a westerly direction along State Highway 23 to its junction with State Highway 22, thence in a southerly direction along State Highway 22, to its junction with U.S. 12, thence in a southerly direction along U.S. 12 to North Dakota/South Dakota State line, point in Oklahoma on and west and south of a line commencing at Oklahoma/Kansas line along U.S. 177, thence in a southerly direction along U.S. 177 to its junction with Interstate 40, thence in an easterly direction along Interstate 40 to its junction with U.S. 75, thence in a southerly direction along U.S. 75 to its

junction with State Highway 1, thence in an easterly direction along State Highway 1 to its junction with State Highway 63 near Big Cedar, thence in a southeasterly direction along State Highway 63 to Oklahoma/Arkansas State line, points in Pennsylvania on and east of a line commencing at Pennsylvania/Maryland line along Interstate 81, thence in a northeasterly direction along Interstate 81 to Pennsylvania/New York State line, points in south Dakota on and west of a line commencing at South Dakota/North Dakota line along U.S. 12 to State Highway 73, thence in a southerly direction along State Highway 73 to its junction with U.S. 212, thence in a westerly direction along U.S. 212 to its junction with State 34 to Interstate 90, thence in a southeasterly direction along Interstate 90 to its junction with State Highway 79, thence in a southerly direction along State Highway 79 to its junction with State Highway 71, thence in a southerly direction along State Highway 71 to South Dakota/Nebraska State line, points in Tennessee on and east of a line commencing at Tennessee/Alabama line along U.S. 231, thence in a northerly direction along U.S. 231 to its junction with State Highway 50, thence in a northeasterly direction along State Highway 50 to its junction with State Highway 55, thence in a northeasterly direction along State Highway 55 to its junction with U.S. 70, thence in a northeasterly direction along U.S. 70 to its junction with U.S. 127, thence in a northerly direction along U.S. 127 to its junction with State Highway 62, thence in an easterly direction along State Highway 62 to its junction with U.S. 27, thence in a northerly direction along U.S. 27 to its junction with State Highway 63, thence in an easterly direction along State Highway 63 to its junction with Interstate 75, thence in a northeasterly direction along Interstate 75 to its junction with U.S. 25 west to its junction with State Highway 90, thence in a northeasterly direction to Tennessee/Kentucky State line, points in Vermont on and south and east of a line commencing at New York/Vermont line along State Highway 9 to its junction with U.S. 7, thence in a northerly direction along U.S. 7 to its junction with U.S. 4, thence in an easterly direction along U.S. 4 to its junction with U.S. 5, thence in a northerly direction along U.S. 5 to its termination at Vermont/Canadian Border, points in Virginia on and east and south of a line commencing at Virginia/Kentucky line along U.S. 53, thence in an easterly direction along U.S. 53 to its junction with Interstate 81, thence in a northeasterly direction along Interstate 81 to West Virginia/Virginia State line, points in West Virginia on and east of a line commencing at Virginia/West Virginia

line along Interstate 81 thence in a northeasterly direction along Interstate 81 to West Virginia/Maryland State line. Restrictions: (1) The authority granted herein to the extent that it duplicates any authority heretofore granted to or now held by carrier shall not be construed as conferring more than one operating right. (2) The authority granted immediately above is restricted against the transportation of shipments between Racine, Wis., Burlington and Bettendorf, Iowa, Rockford, and Rock Island, Ill. The purpose of this filing is to eliminate the gateways of Carlisle, Shadygrove, or Waynesboro, Pa.

No. MC 117574 (Sub-No. E69), filed June 24, 1975. Applicant: DAILY EXPRESS, INC., P.O. Box 39, Carlisle, Pa. 17013. Applicant's representative: E. S. Moore, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Agricultural implements and agricultural machinery, tractors with or without attachments, cranes, industrial and processing machinery, and attachments, accessories and parts of all of the above described commodities, (except commodities requiring special equipment)* (1) between points in the Onondago and Oswego Counties, N.Y. on the one hand, and on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Kansas, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, D.C., Wyoming, and points in Delaware on and north of a line commencing at the Pennsylvania/Delaware State line along U.S. Highway 13, thence in a southerly direction along U.S. Highway 13 to the Delaware/Maryland State line; points in Illinois south of a line commencing at the Illinois/Iowa State line along U.S. Highway 136 in an easterly direction to its junction with Illinois Highway 96, thence along Illinois Highway 96 in a southerly direction to its junction with U.S. Highway 24, thence along U.S. Highway 24 in a northeasterly direction to its junction with Illinois Highway 125, thence along Illinois Highway 125 in a southeasterly direction to its junction with U.S. Highway 36, thence along U.S. Highway 36, in an easterly direction to its junction with Illinois Highway 1, thence along Illinois Highway 1 in a southerly direction to its junction with U.S. Highway 50, thence along U.S. Highway 50 in an easterly direction to the Illinois/Indiana State line; points in Indiana on and south of a line commencing at the Illinois/Indiana State line along U.S. Highway 50 in an easterly direction to its junction with In-

terstate Highway 65, thence along Interstate Highway 65 in a southerly direction to the Indiana/Kentucky State line; points in Iowa on and west of a line commencing at the Minnesota/Iowa State line along U.S. Highway 69 in a southwesterly direction to its junction with Iowa Highway 9, thence along Iowa Highway 9 in a westerly direction to its junction with U.S. Highway 169, thence along U.S. Highway 169 in a southerly direction to its junction with Interstate Highway 80, thence along Interstate Highway 80 in an easterly direction to its junction with U.S. Highway 65, thence along U.S. Highway 65 in a southerly direction, to its junction with Iowa Highway 2, thence along Iowa Highway 2 in an easterly direction to its junction with U.S. Highway 218, thence along U.S. Highway 218 in a southeasterly direction to the Iowa/Illinois State line; points in Kentucky on and south of a line commencing at the Kentucky/Indiana State line along Interstate Highway 65 in a southerly direction to its junction with Interstate Highway 64, thence along Interstate Highway 64 in an easterly direction to junction with U.S. Highway 23, thence along U.S. Highway 23 in a northerly direction to the Kentucky/Ohio State line; points in Michigan on and west of a line commencing at the Wisconsin/Michigan State line along U.S. Highway 2, thence in an easterly direction to its junction with State Highway 28, thence in a northeasterly direction to its junction with U.S. Highway 45, thence along U.S. Highway 45 in a northerly direction to its junction with Michigan Highway 26, thence along Michigan Highway 26 in a northerly direction to its junction with U.S. Highway 41, thence along U.S. Highway 41 in a northeasterly direction to its termination at Lake Superior; points in Minnesota on and northwest of a line commencing at the Minnesota/Wisconsin State line along Interstate Highway 94 in a westerly direction to its junction with U.S. Highway 65, thence along U.S. Highway 65 in a southerly direction to its junction with U.S. Highway 69, thence along U.S. Highway 69 in a southwesterly direction to the Minnesota/Iowa State line; points in Ohio on and south of a line commencing at the Ohio/Kentucky State line along U.S. Highway 23 in a northerly direction to its junction with Ohio Highway 124, thence along Ohio Highway 124 in a northeasterly direction to its junction with Ohio Highway 346, thence along Ohio Highway 346 in a northeasterly direction to its junction with U.S. Alternate Highway 50, thence along U.S. Highway 50 to the Ohio/West Virginia State line; points in West Virginia on and south of a line commencing at the West Virginia/Ohio State line along West Virginia Highway 2 in a north-

easterly direction to its junction with West Virginia Highway 7, thence along West Virginia Highway 7 in a northeasterly direction to its junction with West Virginia Highway 69, thence West Virginia Highway 69 in a northerly direction to the West Virginia/Pennsylvania State line; points in Wisconsin on and north of a line commencing at the Wisconsin/Michigan State line along Wisconsin Highway 77 in a southwesterly direction to its junction with U.S. Highway 63, thence along U.S. Highway 63 in a southwesterly direction to its junction with Interstate Highway 94, thence along Interstate Highway 94 in a westerly direction to the Wisconsin/Michigan State line.

(2) Between points in the New York Counties of Warren and Washington, on the one hand, and, on the other, all points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, Washington, D.C., West Virginia, Wisconsin, Wyoming, and points in Indiana south and west of a line commencing at Gary, Ind., thence along Interstate Highway 65 in a southeasterly direction to its junction with U.S. Highway 24, thence along U.S. Highway 24 in an easterly direction to its junction with Indiana Highway 21, thence along Indiana Highway 21 in a southeasterly direction to its junction with Indiana Highway 18, thence along Indiana Highway 18 to its junction with Indiana Highway 67, thence along Indiana Highway 67 to the Indiana/Ohio State line; points in Maryland east of a line commencing at the Pennsylvania/Maryland State line along Interstate 83 in a southerly direction thence along Interstate 83 to its junction with Interstate 695 thence in a southerly direction to its junction with Interstate 95 thence in a southerly direction along Interstate 95 to the Maryland/Virginia State line; points in Michigan north of a line commencing at Tawas City along Michigan Highway 55 in a westerly direction to its junction with Michigan Highway 33, thence along Michigan Highway 33 in a northerly direction to its junction with Michigan Highway 72, thence along Michigan Highway 72 in a westerly direction to Lake Michigan; points in Ohio south of a line commencing at the Ohio/Indiana State line along Ohio Highway 29 in an easterly direction to its junction with U.S. Highway 33, thence along U.S. Highway 33 in an easterly direction to its junction with U.S. Highway 36, thence along U.S. Highway 36 in an easterly direction to its junction with U.S. Highway 62, thence

along U.S. Highway 62, in a northeasterly direction to its junction with Ohio Highway 39, thence along Ohio Highway 39 in an easterly direction to the Ohio/Pennsylvania State line; points in Pennsylvania south and west of a line commencing at the Ohio/Pennsylvania State line along State Highway 68 thence in an easterly direction along State Highway 68 to its junction with State Highway 65, thence in a northwesterly direction along State Highway 65 to its junction with Interstate 76, thence in an easterly direction along Interstate 76 to its junction with Interstate 83, thence in a southerly direction to the Pennsylvania/Maryland State line; points in Virginia east of a line commencing at the Virginia/Maryland State line along Interstate 95, thence in a southerly direction along Interstate 95 to its junction with Interstate 64, thence in a southeasterly direction along Interstate 64 to its termination at the Atlantic Ocean.

(3) Between points in Maryland County of Washington, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, Wisconsin, Wyoming, and points in Delaware south of a line commencing at the Maryland/Delaware State line along State Highway 44 in an easterly direction to its junction with State Highway 8, thence in an easterly direction along State Highway 8 to its junction with U.S. Highway 13, thence in a northerly direction along U.S. Highway 13 to its junction with U.S. Highway 301, thence in a northerly direction along U.S. Highway 301 to its junction with U.S. Highway 202, thence in a northerly direction along U.S. Highway 202 to the Delaware/Pennsylvania State line; points in Maryland south of a line commencing at the Virginia/Maryland State line along U.S. Highway 50 in an easterly direction to its junction with U.S. Highway 301, thence in an easterly direction along U.S. Highway 301 to its junction with State Highway 300, thence along State Highway 300 to the Maryland/Delaware State line; points in Pennsylvania north, west, and east of a line commencing at the Delaware/Pennsylvania State line along State Highway 100, thence in a northerly direction to its junction with Pennsylvania Turnpike extension to its junction with U.S. Highway 11, thence along U.S. Highway 11 in a southwesterly di-

rection to its junction with U.S. Highway 22, thence along U.S. Highway 22 in a westerly direction to its junction with Interstate 79, thence along Interstate 79 to the Pennsylvania/West Virginia State line; points in Virginia south of a line commencing at the West Virginia/Virginia State line along U.S. Highway 33 in a southeasterly direction to its junction with U.S. Highway 29, thence along U.S. Highway 29 in a northeasterly direction to its junction with U.S. Highway 17 in a northerly direction to its junction with Interstate 66 thence in an easterly direction along Interstate 66 to its junction with Interstate 495, thence along Interstate 495 in an easterly direction to the Virginia/Maryland State line; points in West Virginia south and west of a line commencing at the Pennsylvania/West Virginia State line along U.S. Highway 19 in a southerly direction to its junction with U.S. Highway 119, thence in a southerly direction along U.S. Highway 119 to its junction with U.S. Highway 250, thence along U.S. Highway 250 to its junction with U.S. Highway 33, thence along U.S. Highway 33 in a southeasterly direction to the West Virginia/Virginia State line.

(4) Between points in the Maryland Counties of Garrett, and Allegheny, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Washington, Wisconsin, Wyoming, and other points in the following described States; points in Illinois, on and west of a line commencing at Lake Michigan/Illinois State line along State Highway 50 in a southerly direction to its junction with State Highway 17, thence in an easterly direction to the Illinois/Indiana State line; points in Indiana on and west of a line commencing at the Illinois/Indiana State line along State Highway 2 in an easterly direction to its junction with U.S. Highway 41, thence in a southerly direction to the Indiana/Kentucky State line; points in Kentucky on and south and west of a line commencing at the Indiana/Kentucky State line along U.S. Highway 41 in a southerly direction to its junction with State Highway 15, thence in an easterly direction to the Kentucky/Virginia State line; points in Michigan on and west of a line commencing at the Canadian Border/Michigan State line along Interstate Highway 75, thence in a westerly direction along State Highway 55 to its junction with U.S. Highway 131, thence in a southerly di-

rection along U.S. Highway 131 to its junction with Interstate Highway 94, thence along Interstate Highway 94 in a westerly direction to Lake Michigan; points in Virginia on and south of a line commencing at the Kentucky/Virginia State line along U.S. Highway 23 in a southerly direction to its junction with U.S. Highway 50, thence in an easterly direction to the Atlantic Ocean.

Restrictions: (1) Restricted against the transportation of shipments between Racine, Wis., Burlington and Bettendorf, Iowa, Rockford and Rock Island, Ill. (2) The authority granted herein to the extent that it duplicates any authority heretofore granted to or now held by carrier shall not be construed as conferring more than one operating right.

The purpose of this filing is to eliminate the gateways of Carlisle, Shadygrove, or Waynesboro, Pennsylvania.

No. MC 118831 (Sub-No. E52), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from points in North Carolina on, east, and south of a line beginning at the North Carolina-South Carolina State line on Alternate U.S. Highway 221, north to junction North Carolina Highway 120 to U.S. Highway 74, to junction North Carolina Highway 150, to junction North Carolina Highway 152, to junction U.S. Highway 52, to junction North Carolina Highway 27, to junction U.S. Highway 220, to junction North Carolina Highway 211, to junction U.S. Highway 401, to junction North Carolina Highway 24, to junction U.S. Highway 117, to junction North Carolina Highway 210, to junction U.S. Highway 17, to junction North Carolina Highway 132, to junction U.S. Highway 74, to Wrightsville Beach, N.C., to points in Ohio. The purpose of this filing is to eliminate the gateway of points in South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E53), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from Rocky Mount, N.C., to points in Missouri (except points in the St. Louis,

Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, points in Ohio on and west of a line beginning on U.S. Highway south 52 at Aberdeen, Ohio, to junction U.S. Highway 62 to Columbus, Ohio, to junction U.S. Highway 23, to junction Ohio Highway 53, to junction U.S. Highway 224 at Tifton, Ohio, to junction Kentucky Highway 18, to junction Ohio Highway 199, to Toledo, Ohio, points in Kentucky on and west of a line beginning at Jenkins, Ky., on Kentucky Highway 197, to junction North Carolina Highway 80, to Belcher, Ky., to Kentucky Highway 460 to junction Kentucky Highway 80, at Howard, Ky., to junction U.S. Highway 23-460 to Louisa, Ky., and to points in Tennessee on and west of a line beginning at the North Carolina State line, on U.S. Highway 19W to junction U.S. Highway 19W-23, to junction U.S. Highway 23, at Johnson City, Tenn., to Bristol, Tenn. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E54), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemical* (except petrochemicals, anhydrous ammonia fertilizer, and fertilizer materials), in bulk, in tank vehicles, from Plymouth, N.C., to points in Missouri (except points in the St. Louis, Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, points in Ohio on and west of a line beginning at U.S. Highway 52 at Aberdeen, Ohio, to junction U.S. Highway 62, to Columbus, Ohio, to junction U.S. Highway 23, to junction Ohio Highway 53, to junction U.S. Highway 224 at Tifton, Ohio, to junction Kentucky Highway 18, to junction Ohio Highway 199 to Toledo, Ohio, points in Kentucky on and west of a line beginning at Jenkins, Ky., to Kentucky Highway 197, to junction North Carolina Highway 80 to Belcher, Ky., to Kentucky Highway 460, a junction Kentucky Highway 80 at Howard, Ky., to junction U.S. Highway 23, to Louisa, Ky., and to points in Tennessee on and west of a line beginning at the North Carolina State line, on U.S. Highway 19W, to junction U.S. Highway 19W-23, to junction U.S. Highway 23 to Johnson City, Tenn., to junction U.S. Highway 11E-19, to Bristol, Tenn. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E55), filed April 2, 1976. Applicant: CENTRAL

TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from Raleigh, N.C., to points in Missouri (except points in the St. Louis, Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, points in Ohio on and west of a line beginning at the Ohio-Kentucky State line at Aberdeen, Ohio, on Ohio Highway 41 to junction Ohio Highway 138 at Greensfield, Ohio, to junction U.S. Highway 22, to Zanesville, Ohio, to junction U.S. Highway 40, west to junction Ohio Highway 13, north to Mansfield, Ohio, U.S. Highway 42 to junction U.S. Highway 30, to junction Interstate 71, to junction Interstate 76 to Akron, Ohio, Ohio Highway 59 to Ravenna, Ohio, Ohio Highway 5 to Warren, Ohio, Ohio Highway 11 to Ashtabula, Ohio, points in Kentucky on and west of a line beginning at the Kentucky-Virginia State line, on U.S. Highway 23 at Jenkins, Ky., to junction Kentucky Highway 317, to junction Kentucky Highway 7, to junction Kentucky Highway 80, to Allen, Ky., U.S. Highway 23-460 to Louisa, Ky., and to points in Tennessee on and west of a line beginning at the Tennessee-North Carolina State line and North Carolina Highway 194 at Elk Park, Tenn., to U.S. Highway 198 to Bristol, Tenn. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E56), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from New Bern, N.C., to points in Missouri (except points in the St. Louis, Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, Kentucky, Tennessee, and points in Ohio on and west of a line beginning at Parkersburg, W. Va., on Ohio Highway 7, to junction Interstate Highway 77 at Marietta, Ohio, north to New Philadelphia, Ohio, to junction Ohio Highway 21, to Missillon, Ohio, to junction of U.S. Highway 30, to Ohio Highway 94, north to junction Ohio Highway 585 at Easton, Ohio, southwest to junction Ohio Highway 57, north to Elyria, Ohio.

The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E57), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from Goldsboro, N.C., to points in Missouri (except points in the St. Louis, Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, Tennessee, points in Kentucky on and west of a line beginning at the Kentucky-Virginia State line at Jenkins, Ky., on U.S. Highway 23 to junction U.S. Highway 119, to junction Kentucky Highway 317, to junction Kentucky Highway 7, north to junction Kentucky Highway 50, to junction Kentucky Highway 23, at Staffordville, Ky., to the Louisiana and Kentucky and West Virginia State lines, and to points in Ohio on and west of a line beginning at the Ohio-West Virginia State line at Parkersburg, W. Va., on Ohio Highway 7 to junction Interstate Highway 77 at Marietta, Ohio, north to junction Ohio 21 at or near New Philadelphia, Ohio, to junction of U.S. Highway 30 and Ohio Highway 94 at Massillon, Ohio, to junction Ohio Highway 585 at Easton, Ohio, southwest to junction Ohio Highway 57, north to Elyria, Ohio. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub E58), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), from Sanford, N.C., to points in Missouri (except points in the St. Louis, Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, Tennessee, points in Kentucky in and west of a line beginning at the Kentucky-Virginia State line at Jenkins, Ky., on U.S. Highway 73 to junction U.S. Highway 119, to junction Kentucky Highway 317, to junction Kentucky Highway 7, to junction Kentucky Highway 50, to junction Kentucky Highway 23 at Staffordville, Ky., to Louisa, Ky., and the Kentucky-West Virginia State line and to points

in Ohio on and west of a line beginning on the Ohio-Kentucky State line on U.S. Highway 62 at Marysville, Ohio, to junction Ohio Highway 41, to junction U.S. Highway 50, to junction Ohio Highway 28, to junction U.S. Highway 23 at Chillicothe, Ohio, to junction, Ohio Highway 159, to junction U.S. Highway 22, to junction Interstate Highway 70 at Zanesville, Ohio, to junction Interstate Highway 77 at Cambridge, Ohio, to junction U.S. Highway 62 at Caton, Ohio, to junction Ohio Highway 44, to junction Highway 5 at Ravenna, Ohio, to junction Ohio Highway 11 at Warren, Ohio, to Ashtabula, Ohio. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub E59), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from Kinston, N.C., to points in Missouri (except points in the St. Louis, Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, Tennessee, points in Kentucky on and west of a line beginning at Belcher, Ky., on Kentucky Highway 80, to junction U.S. Highway 460, to Pikeville, Ky., to junction U.S. Highway 460-23 at Allen, Ky., to junction U.S. Highway 23, to Louisa, Ky., and to points in Ohio on and west of a line beginning at Parkersburg, W. Va., on Ohio Highway 7, to junction Interstate Highway 77 at Marietta, Ohio, to junction Ohio Highway 21, to junction U.S. Highway 30, to junction Ohio Highway 94, to junction Ohio Highway 585 at Easton, Ohio, to junction Ohio Highway 57, to Elyria, Ohio. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E60), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from Moncure, N.C., to points in Missouri (except points in the St. Louis, Mo., commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Indiana, points in Tennessee on and

west of a line beginning on North Carolina Highway 194 at Elk Park, Tenn., to junction U.S. Highway 198, to Bristol, Tenn., points in Kentucky on and west of a line beginning at the Virginia State Line at U.S. Highway 23 at Jenkins, Ky., to junction Kentucky Highway 317, to junction Kentucky Highway 7, to junction Kentucky Highway 80, to junction U.S. Highway 23-460, to Louisa, Ky., and to points in Ohio on and west of a line beginning at the Ohio-Kentucky State line at Aberdeen, Ohio, on Ohio Highway 41 to junction Ohio Highway 138 at Greenfield, Ohio, to junction U.S. Highway 22, to junction U.S. Highway 40 at Zanesville, Ohio, to junction Ohio Highway 13, to junction U.S. Highway 42, to junction U.S. Highway 30, to junction U.S. Highway 71 at Leroy, Ohio, to junction U.S. 76 at Akron, Ohio, to junction Ohio Highway 59 at Ravenna, Ohio, to junction Ohio Highway 5 at Warren, Ohio, to junction Ohio Highway 11, to Ashtabula. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 118831 (Sub-No. E61), filed April 2, 1976. Applicant: CENTRAL TRANSPORT, INC., High Point, N.C. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except petrochemicals, anhydrous ammonia, fertilizer, and fertilizer materials), in bulk, in tank vehicles, from Conway, N.C., to points in Missouri (except points in the St. Louis commercial zone), Illinois (except points in the East St. Louis, Ill., commercial zone), Wisconsin, Michigan, Tennessee, points in Kentucky on and west of a line beginning at Jenkins, Ky., on U.S. Highway 119 to junction Kentucky Highway 317, to junction Kentucky Highway 7, to junction Kentucky Highway 80 at Lackey, Ky., to junction Kentucky Highway 80, to U.S. Highway 23-460 at Prestonburg, north on U.S. Highway 23 to Louisa, Ky., and points in Ohio on and west of a line beginning at the Kentucky-Ohio State line at Aberdeen, Ohio, on U.S. Highway 52 to junction Ohio Highway 41, to junction Ohio Highway 247 at West Union, Ohio, to junction Ohio Highway 72 at Hillsboro, Ohio, to junction U.S. Highway 68 at Springfield, Ohio, to Bellefontaine, Ohio, to Findlay, Ohio, to Toledo, Ohio. The purpose of this filing is to eliminate the gateway of South Carolina and Charlotte, N.C.

No. MC 124174 (Sub-No. E43), filed June 4, 1974. Applicant: MOMSEN TRUCKING CO., P.O. Box 37490, Omaha, Nebr. 68137. Applicant's representative: Karl E. Momen (same as

above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hides and tannery products* (except liquids, and commodities in bulk, in tank vehicles): (1) Between points in Maine, on and east of Ft. Kent on the International Boundary line between United States and Canada and extending southward along Maine Highway 11 to junction Maine Highway 6 and 16, to junction Maine Highway 150, to junction U.S. Highway 2, to junction Maine Highway 8, thence southward along Maine Highway 8 to junction Maine Highway 11, thence southward along Maine Highway 11 to junction Maine Highway 27, thence along Maine Highway 27 to Augusta, Maine, thence along Maine Highway 9 and 126, thence along Maine Highway 126 to junction U.S. Highway 202, thence along U.S. Highway 202 to a point 8 miles southeast of Sanford to unnumbered County Road, thence along unnumbered County Road to Berwick to its junction with Maine Highway 9, thence along Maine Highway 9 to the Maine-New Hampshire State line; (2) those points in New Hampshire on and east of a line beginning at the Maine-New Hampshire State line, and extending along New Hampshire Highway 9 from Somersworth, N.H., on unnumbered blacktop road to junction 3 miles southwest of Somersworth to junction New Hampshire Highway 16, to junction New Hampshire Highway 9, thence along New Hampshire Highway 9 to junction U.S. Highway 202, to junction U.S. Highway 4 to junction New Hampshire Highway 28, thence along New Hampshire Highway 28 to junction U.S. Highway 3, thence along U.S. Highway 3 and New Hampshire Highway 28 to junction New Hampshire Highway 114A, thence along New Hampshire Highway 114A to junction New Hampshire Highway 101, thence along New Hampshire Highway 101 to junction New Hampshire Highway 124 two miles, thence south via an unnumbered county highway to Webb, N.H., and the junction with New Hampshire Highway 12, thence westerly two miles to an unnumbered highway, thence southwesterly through East Swanzey to junction New Hampshire Highway 32 to junction New Hampshire Highway 10 at Westport, N.H., thence along unnumbered highway to New Hampshire Highway 10 to the Massachusetts-New Hampshire State line; (3) those points in Massachusetts on and east of a line beginning at the New Hampshire-Massachusetts State line and extending along Massachusetts Highway 10, thence along Massachusetts Highway 10 to junction Massachusetts Highway 63 to junction Massachusetts Highway 116, thence along Massachusetts Highway 141, fol-

lowing it until its junction with Massachusetts Highway 57, thence westerly along Massachusetts Highway 57 to the junction with Massachusetts Highway 8, thence along Massachusetts Highway 8 to the Massachusetts-Connecticut State line; (4) those points in New York on and south and west of a line beginning at the Connecticut-New York State line, and extending on and south of Interstate Highway 84 to junction Interstate Highway 684, thence southerly on to Katonah, N.Y., thence southwesterly on New York Highway 117 to junction U.S. Highway 9, thence south along U.S. Highway 9 to junction Interstate Highway 95, thence along Interstate Highway 95 to the New York-New Jersey State line; (5) those points in New Jersey on and south and west of a line beginning at the New York-New Jersey State line, and extending south along Interstate Highway 95, thence along Interstate Highway 95 to junction New Jersey Highway 3, thence along New Jersey Highway 3 to junction New Jersey Highway 17, thence along New Jersey Highway 17 to junction New Jersey Highway 27, to Garden State Expressway, thence along the Garden State Expressway to junction New Jersey Turnpike, thence along the New Jersey Turnpike to the Delaware-New Jersey State line; (6) those points in Maryland on and south and west of a line beginning at the Delaware-Maryland line and extending along U.S. Highway 40 to junction Interstate Highway 83, thence along Interstate Highway 83 to junction Interstate Highway 695, thence along Interstate Highway 695 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Interstate Highway 495, thence along Interstate Highway 495 to the Maryland-Virginia State line; (7) those points in Virginia on and south of a line beginning at the Maryland-Virginia State line and extending along Interstate Highway 495 to junction U.S. Highway 211, thence along U.S. Highway 211 to junction U.S. Highway 340, thence

along U.S. Highway 340 to junction Virginia Highway 256, thence along Virginia Highway 256 to Weyers Cave, to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Interstate Highway 81, thence along Interstate Highway 81 to the Tennessee-Virginia State line, on the one hand, and, on the other, (1) those points in Missouri on and south of a line beginning at Neely's Landing, at or near the Missouri-Illinois State line, and extending along Missouri Road "J" to junction Missouri Highway 34, thence along Missouri Highway 34 to junction U.S. Highway 60, thence along U.S. Highway 60 to Springfield, Mo., to junction U.S. Highway 160, thence westerly along U.S. Highway 160 to the Kansas-Missouri State line; (2) those points in Kansas on and west of a line beginning at the Missouri-Kansas State line, and extending along U.S. Highway 160 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Kansas Highway 57, thence along Kansas Highway 57 to junction U.S. Highway 59, thence westerly along U.S. Highway 59 to junction Kansas Highway 47, thence westerly along Kansas Highway 47 to junction U.S. Highway 169, thence along northerly U.S. Highway 169 to junction Kansas Highway 39, thence westerly along Kansas Highway 39 to junction Kansas Highway 96, thence westerly along Kansas Highway 96 to junction Kansas Highway 99, thence northerly along Kansas Highway 99 to junction U.S. Highway 54, thence westerly along U.S. Highway 54 to Rosalia, Kans., thence northerly on unnumbered highway to Cassoday, and westerly to junction U.S. Highway 81 at Newton, Kans., thence northwesterly along U.S. Highway 81 to junction U.S. Highway 56, thence westerly along U.S. Highway 56 to junction Kansas Highway 14, thence northerly along Kansas Highway 14 to junction Kansas Highway 4, thence westerly along Kansas Highway 4 to junction U.S. Highway 281, thence west and north along U.S. Highway 281 to junction U.S. Highway 40 and Interstate Highway 70, thence along Interstate

Highway 70 to the Kansas-Colorado State line. The purpose of this filing is to eliminate the gateway of Buford, Ga.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 3, 1978.

These applications for long-and-short-haul relief have been filed with the ICC.

Protests are due at the ICC on or before February 23, 1978.

FSA No. 43498, Southwestern Freight Bureau, Agent's No. B-725, rates on clay, from Belle Fourche and Deadwood, S. Dak., and stations in Wyoming, to York Canyon, N. Mex., in sup. 5 to its tariff 329-E, ICC 5297, to become effective March 15, 1978. Grounds for relief—rate relationship.

FSA No. 43499, Southwestern Freight Bureau, Agent's No. B-726, annual volume rates on chemicals, between East St. Louis, Ill., and St. Louis, Mo., on the one hand, and, on the other, stations in Louisiana and Texas, in sup. 28 to its tariff 12-K, ICC 5272, to become effective March 5, 1978. Grounds for relief—market competition.

FSA No. 43500, Trans-Pacific Freight Conference of Japan/Korea, Agent's No. 104, for Korea Shipping Corp., Ltd., on intermodal rates on general commodities, from ports in Japan and Korea, to rail carrier terminal at Miami, Fla., by way of U.S. Pacific Coast ports, in its tariff No. 1, ICC No. 1, to become effective March 3, 1978. Grounds for relief—water competition.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

¹Host International Motel, 18700 Kennedy Blvd. Houston, Tex. 77205.

²Sir Francis Drake Hotel, 450 Powell St., San Francisco, Calif. 94102.

³VA Central Office, 810 Vermont Ave. NW., Washington, D.C. 20420.

⁴Holiday Inn, Thomas Circle, Massachusetts at Thomas Circle NW., Washington, D.C. 20005.

⁵Denver Hilton, 1550 Court Pl., Denver, Colo. 80202.

⁶Rodeway Inn, 5615 North Cumberland Ave., Chicago, Ill. 60631.

These meetings will be for the purpose of evaluating the scientific merit of research conducted in each specialty by Veterans Administration investigators working in Veterans Administration hospitals and clinics.

The meetings will be open to the public up to the seating capacity of the rooms at the start of each meeting to discuss the general status of the program. In accordance with the provision set forth in section 552b(c)(6), title 5, United States Code, all of the Merit Review Board meetings will be closed to the public after approximately one-half hour from the start, for the review, discussion and evaluation

of initial, and renewal research projects.

The closed portion of the meetings involve: discussion, examination, reference to, and oral review of site visits, staff and consultant critiques of research protocols, and similar documents which are exempt from disclosure under the interagency memorandum exemption, section 552(b)(5), and section 552b(c)(6), of title 5, United States Code. The portion of the meeting which necessitates examination of these documents will be closed to prevent inadvertent disclosure of these exempt records.

Because of the limited seating capacity of the rooms, those who plan to

attend should contact Jane S. Schultz, Ph. D., Chief, Program Development and Review Division, Medical Research Service, Veterans Administration, Washington, D.C., 202-389-5065 at least five days prior to each meeting. Minutes of the meeting and rosters of the members of the Boards may be obtained from this source.

Dated: February 1, 1978.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

[6714-01]

FEDERAL DEPOSIT INSURANCE CORPORATION.

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation met in closed session at 4:00 p.m. on February 2, 1978, by telephone conference call, to consider the initiation of cease-and-desist proceedings, under section 8(b) of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)), against an insured State nonmember bank.

In calling the meeting, the Board of Directors determined, on motion of Chairman George A. LeMaistre, seconded by Director John G. Heimann (Comptroller of the Currency), that Corporation business required its consideration of the matter on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the meeting was exempt from the open meeting requirements of the "Government in the Sunshine Act" by subsections (c)(6), (c)(8), and (c)(9)(A)(ii) thereof (5 U.S.C. 552b, (c)(6), (c)(8), and (c)(9)(A)(ii)).

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agenda.
2. Minutes.
3. Ratifications.
4. Petitions and complaints (if necessary):
a. Sandals (Docket No. 487);
b. Telescopic site mounts (Docket No. 489);
c. Pressure pads (Docket No. 490); and
d. Leather wearing apparel (Docket No. 492).
5. Carbon steel bars and strips from the United Kingdom (Inv. AA1921-Inq-8 and 9)—briefing and vote.
6. Research Project 1-9 (Government-owned industries)—see action jacket ID-78-006.
7. Briefing by staff members on their recent overseas travels.
8. Any items left over from previous agenda.

CONTACT PERSON FOR MORE INFORMATION:

Kenneth R. Mason, Secretary, 202-523-0161.

DEPARTMENT OF DEFENSE

Department of
the Navy

PRIVACY ACT OF 1974

Systems of Records; Additions,
Deletions, and Amendments

[3810-71]

DEPARTMENT OF DEFENSE

Department of the Navy

PRIVACY ACT OF 1974

New System of Records

Agency: Department of the Navy, DoD
Action: Notification of New System of Records.

Summary: The Department of the Navy has created a new system of records identified as: N00011 09B, entitled, "Reports of Disposition of Personal Money Allowances and Position Allowances." This new system of records is being published for public comment. The purpose of the system is to enable the Chief of Naval Operations and his designees to review the disposition of personal money allowances and position allowances paid under 37 U.S.C. § 414 (a) and (b) in order to provide assurance, as required, that the allowances have been expended by the recipient for purposes related to the duties or responsibilities of their official positions.

Dates: This system shall become effective as proposed without further notice in 30 calendar days from the date of this publication (March 10, 1978) unless comments are received on or before March 10, 1978, which would result in a contrary decision.

Address: Send comments to: The Assistant Vice Chief of Naval Operations, Director of Naval Administration, Office of the Chief of Naval Operations, Department of the Navy, Washington, D.C. 20350.

For further information contact: Commander H. R. Warwick, JAGC, U.S. Navy, Assistant for Legal and Legislative Matters (OP-09BL), Office of the Assistant Vice Chief of Naval Operations, Director of Naval Administration (OP-09B), Washington, D.C. 20350, telephone number: 202-695-3480.

Supplementary information: During the fiscal year 1977 budget review the personal money allowances and position allowances paid under 37 U.S.C. § 414 (a) and (b), the President decided to support the continued authorization for allowances with a mechanism for reporting and reviewing the disposition of the allowances. To comply with the President's decision, the Chief of Naval Operations was directed to institute such a reporting and reviewing process. This new system of records will contain the periodic letter reports of the recipients of the allowances, and it is estimated that the system will have the reports of 45 individuals in it at any given time. The Department of the Navy's systems of records notices as prescribed by the Privacy Act of 1974, 5 U.S.C. 552a(c)(4) have been published in the FEDERAL REGISTER as follows:

FR Doc. 77-28255 (42 FR 51229) September 28, 1977.
FR Doc. 77-36226 (42 FR 64333) December 22, 1977.

The Navy proposes to add a new system of records to its inventory. The Navy submitted this proposed new record system on December 21, 1977 pursuant to the provisions of the Office of Management and Budget (OMB) Circular No. A-108, Transmittal Memorandum No. 1, and No. 3, dated September 30, 1975 and May 17, 1976 respectively, which provide supplemental guidance to Federal agencies regarding the preparations and submissions of reports of their intention to establish or alter systems of personal records as required by 5 U.S.C. 552a(o). This OMB guidance was set forth in the FEDERAL REGISTER (40 FR 45877) on October 3, 1975.

MAURICE W. ROCHE,
Director, Correspondence and Directives,
Washington Headquarters Services, Department of Defense.

JANUARY 24, 1978.

N00011 09B

System name: Reports of Disposition of Personal Money Allowances and Position Allowances.

System location: Assistant Vice Chief of Naval Operations/Director of Naval Administration, Office of the Chief of Naval Operations, Department of the Navy, Washington, D.C. 20350.

NOTICES

Categories of individuals covered by the system: Officers entitled to receive personal money allowances or position allowances pursuant to 37 U.S.C. 414(a) or (b).

Categories of records in the system: Periodic letter reports of disposition of personal money allowances and position allowances submitted by recipients of the allowances, and other related correspondence.

Authority for maintenance of the system: 37 U.S.C. 414 and 44 U.S.C. 3101.

Routine uses of records maintained by the system, including categories of users and the purposes of such uses: Periodic letter reports will be filed with the Assistant Vice Chief of Naval Operations/Director of Naval Administration and will be reviewed by that official and such other personnel as may be designated by the Chief of Naval Operations to assure that the allowances in question have been expended for purposes related to the official duties or responsibilities of the recipients' official positions. The results of the review will be reported to the Comptroller of the Navy (NCD) and may be further reported to other cognizant officials of the Departments of the Navy and Defense. The reports will be subject to possible audit as directed by competent naval or Department of Defense authorities.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Reports and other related correspondence will be stored in file folders separately from other correspondence filed.

Retrievability: The correspondence is retrieved by name or billet of the recipient of the allowance.

Safeguards: The files pertaining to this system are maintained in a locked cabinet in a room which is locked when unattended by authorized personnel, located in a building in which visitor controls are enforced by guards. The files are accessible only to authorized personnel designated by the Chief of Naval Operations, on a need-to-know basis.

Retention and disposal: The correspondence is maintained in the system for a period of two years.

System manager and address: Assistant Vice Chief of Naval Operations/Director of Naval Administration, Office of the Chief of Naval Operations, Department of the Navy, Washington, D.C. 20350.

Notification procedure: Informational requests should be directed to the system manager. Requests should contain the full name of the individual. The requester may visit the office of the Assistant Vice Chief of Naval Operations/Director of Naval Administration (OP-09B), room 4E623, the Pentagon, Arlington, Virginia. A valid Armed Forces I.D. card will be considered adequate proof of identity.

Record access procedures: The agency's rules for access to correspondence may be obtained from the system manager.

Contesting record procedures: The agency's rules by which the individual concerned may contest contents and appeal initial determinations may be obtained from the system manager.

Record source categories: Periodic letter reports submitted by recipients of personal money allowances or position allowances, and related correspondence with those individuals or other Department of Defense officials concerning the allowances.

Exemption: None.

[3810-71]

PRIVACY ACT OF 1974; U.S. MARINE CORPS

Systems of Records: Deletions and Amendments

Agency: U.S. Marine Corps (USMC), DON.

Action: Notification of deletions and amendments to Systems of Records.

Summary: The Marine Corps proposes to delete two and amend fifteen existing systems of records subject to the Privacy Act of 1974. The specific changes to each system being amended is set forth below followed by publication of all the systems in their entirety, as amended.

Dates: These systems shall be deleted and amended, as proposed without further notice in 30 calendar days from the date of this

NOTICES

publication (March 10, 1978) unless comments are received on or before March 10, 1978, which would result in a contrary determination and requiring republication for further comments.

Address: Send comments to the system manager identified in the particular system notice concerned.

For further information contact: Ms. Gwen Rhodes, HQ USMC (MC-MPI-40), Arlington Annex, Washington, D.C. 20380, telephone 202-694-4117.

Supplementary information: The USMC Systems of Records notices as prescribed by the Privacy Act of 1974 5 U.S.C. 552a(o) (Pub. L. 93-579) have been published in the FEDERAL REGISTER (FR Doc 77-28255) on September 28, 1977, at 42 FR 51177 and (FR 77-31445) on October 31, 1977 at 42 FR 56978. The USMC now proposes to delete two existing systems of records identified as MIL00020 and MMN00003 as set forth below for the reasons specified therein. The proposed changes for the amended systems are not within the purview of the provisions of the Office of Management and Budget (OMB) Circular A-108, Transmittal Memorandum No. 1, dated September 30, 1975 and Transmittal Memorandum No. 3, dated May 17, 1976 which provide supplemental guidance to Federal agencies regarding the preparation and submission of reports as required by the Privacy Act. This OMB guidance was set forth in the FEDERAL REGISTER (40 FR 45877) on October 3, 1975.

MAURICE W. ROCHE,
Director, Correspondence and Directives,
Washington Headquarters Services, Department of Defense.

JANUARY 24, 1978.

DELETIONS

MIL00020

System name: First Marine Division Personnel Assigned to Operation New Arrivals (42 FR 51196 September 28, 1977).

Reason: Not a system.

MMN00003

System name: Manpower Management System (MMS) (42 FR 51209 September 28, 1977).

Reason: Records are included in system MFD00003—Joint Uniform Pay System/Manpower Management System (Jumps/MMS) set forth under the amended systems below.

AMENDMENTS

The following proposed changes are to systems of records published in the September 28, 1977 issue of the FEDERAL REGISTER.

MFD00003

System name: Joint Uniform Military Pay System/Manpower Management System (Jumps/MMS) (42 FR 51181).

Changes:

System location: Under "Decentralized Segments", add to the end of the entry: "...; first Marine Brigade, FPO San Francisco, CA 96615."

Category of records in the system: Delete the following phrases from lines 24, 25, 36: "Study Group Flag; Last Over-Sea Tour; Deployment Status", and substitute after the phrase "Sea or Foreign Duty" in line 25 the new data elements: "Program Element Number, Responsibility Center Number, Marital Status, Ethnic Group, Intermediate Monitored Command Code—Estimated Date of Arrival, Current Active Duty Begin Date, Estimated Date of Departure, Special Grade and Date of Rank, Old Reason for Transfer Code, New Reason for Transfer Code, Present Tour Control Factor, Prospective Officers Source Code, Reenlistment Bonus Zone Type, Selective Reenlistment Bonus Zone, Separation Document Type, Composite Score, Armed Services Vocational Aptitude Battery, Deployment Monitored Command Code, Data Dependents Location Begin, Visual Audit Field, Date Joined Present Unit, TAD Excess Flag, TAD DPI, Officers School Graduation, Active Duty Officer Base Date, Active Duty Aviation Service Base Date, Accession Code, Future Tour Control Factor, Intended Transfer, Date, Permanent Change of Station Code, Reason for Transfer Flag, Advanced Monitored Command Code,

Advanced Monitored Command Code—Estimated Date of Arrival, Intermediate Monitored Command Code—Estimated Date of Arrival." After the phrase "Power of Attorney" at the end of the listings of data elements, add the following entry: "The MMS master files consist of a complete magnetic record for each Marine serving on active duty for a period in excess of 30 days. The Remote Entry Data Display Terminal (REDDT) is a subsystem of MMS. It has the capability to directly access an extract of the master file. The procedure used to establish the initial computer record and add the individual to the Marine Corps strength is the accession process. The accession of recruits is accomplished through the Recruit Accession Management Subsystem (RAMS). The Commissioning Accession Management Subsystem (CAMS) is designed to access all officer records into JUMPS/MMS. Accession/reaccession of all nonrecruit enlisted records is accomplished through the Headquarters Accession Management Subsystem (HAMS) at Headquarters, U.S. Marine Corps. The Accession Transcription Form (ATF) is an OCR form which contains information extracted from the enlistment contract and transfer/assignment to active duty orders. The ATF is completed and processed to establish the computer record. The Manpower Management Information System (MMIS) consists of models and processes within MMS. These models and processes support manpower planners and programmers to optimize assignments to unaccompanied overseas tours, predict enlisted population by grade and military (occupational) speciality (MOS) and to test various policies related to unrestricted officer promotion planning."

Authority for maintenance of the system: Delete entire entry and substitute: "Title 10 and 37, U.S. Code Section 5031 and 5201."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Delete the last paragraph regarding the American Red Cross and the Navy Relief Society, and substitute: "By officials and employees of the American Red Cross and the Navy Relief Society in the performance of their duties. Access will be limited to those portions of the member's record required to effectively assist the member."

After the above entry, add three new entries as follows: "Federal, state and local government agencies—By officials and employees of federal, state and local government through official request for information with respect to law enforcement, investigatory procedures, criminal prosecution, civil court action and regulatory order. To provide information to another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States which has been authorized by law to conduct law enforcement activities pursuant to a request that the agency initiate criminal or civil action against an individual on behalf of the U.S. Marine Corps, the Department of the Navy, or the Department of Defense. To provide information to individuals pursuant to a request for assistance in a criminal or civil action against a member of the U.S. Marine Corps, by the U.S. Marine Corps, the Department of the Navy, or the Department of Defense.

Policy and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Delete the entire entry and substitute: "Data is recorded on magnetic records and discs, punch cards, computer printouts, microform, file folders, and other documents."

Retrievability: Add the following entry after the first sentence: "Computerized and conventional indices are required to retrieve individual records from the system."

Safeguards: At the end of entry add: "Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared, and trained."

Retention and disposal: At the end of entry add: "End calendar and fiscal year "snapshots" of the MMS data base are maintained indefinitely in magnetic form at Headquarters, U.S. Marine Corps."

Notification procedure: Delete the first sentence and substitute: "Requests from individuals for information concerning pay related matters should be addressed to the Commandant of the Marine Corps (Code FD). Requests from individuals for information concerning personnel matters should be addressed to the Commandant of the Marine Corps (Code MP)."

MFD00005

System name: Retired Pay/Personnel System (RPPS) (42 FR 51183).

Changes:

Routine uses of records maintained in the system, including categories of users and purposes of such uses: Delete the last paragraph regarding the American Red Cross and the Navy Relief Society, and substitute: "By officials and employees of the American Red Cross and the Navy Relief Society in the performance of their duties. Access will be limited to those portions of the member's record required to effectively assist the member."

MFD00008

System name: Civilian Labor Projection, Operations and Maintenance, MC Budget Report (Job Procedure 5576) (42 FR 51187).

Changes:

System location: Delete entire entry and substitute: "Commanding General, Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704."

System manager(s) and address: Delete entire entry and substitute: "Commanding General, Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704."

Notification procedure: Delete entire entry and substitute: "Commanding General, Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704."

Record access procedure: Delete entire entry and substitute: "Commanding General, Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704."

MIL00016

System name: Depot Maintenance Management Subsystem (DMMS) (42 FR 51194).

Changes:

System location: Delete entire entry and substitute: "Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704; Marine Corps Logistics Support Base, Pacific, Barstow, California 92311."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Delete the words "Supply Centers" and substitute: "Logistics Support Bases".

System manager(s) and address: Delete entire entry and substitute: "Commandant of the Marine Corps (Code LMM), Headquarters, U.S. Marine Corps, Washington, D.C. 20380; Director, DMA, Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704; Director, DMA, Marine Corps Logistics Support Base, Pacific, Barstow, California 92311."

Notification procedure: Delete entire entry and substitute: "Information may be obtained from Commandant of the Marine Corps (Code LMM), Headquarters, U.S. Marine Corps, Washington, D.C. 20380; CG, Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704; CG, Marine Corps Logistics Support Base, Pacific, Barstow, California 92311."

Records access procedure: Delete first paragraph and substitute: "Request from individuals should be addressed to the Commanding General, Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704 or Commanding General, Marine Corps Logistics Support Base, Pacific, Barstow, California 92311."

MIL00017

System name: Transportation Data Financial Management System (TDFMS) (42 FR 51194).

Changes:

System location: Delete entire entry and substitute: "Commanding General (Code A470), Marine Corps Logistics Support Base, Atlantic, Albany, Georgia 31704."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Delete the words "Marine Corps Supply Center" and substitute: "Marine Corps Logistics Support Base".

Notification procedure: Delete the words "Marine Corps Supply Center" and substitute: "Marine Corps Logistic Support Base, Atlantic".

MJA00003

System name: Magistrate Court Case Files (42 FR 51199).

Changes:

System location: Delete entire entry and substitute: "All Marine Corps activities."

Categories of individuals covered by the system: Delete the words "at Camp Lejeune, North Carolina 28542."

System manager(s) and address: Delete entire entry and substitute: "Commanding Officer of activity concerned. (See Directory of Department of Navy Mailing Address.)"

MJA00004

System name: In Hands of Civil Authorities Case File (42 FR 51194).

Changes:

System location: Delete entire entry and substitute: "All Marine Corps activities."

System manager(s) and address: Delete entire entry and substitute: "Commanding Officer of activity concerned. (See Directory of Department of Navy Mailing Addresses.)"

MJA00005

System name: Financial Assistance/Indebtedness Files (42 FR 51200).

Changes:

System location: Delete entire entry and substitute: "All Marine Corps activities."

System manager(s) and addressing: Delete entire entry and substitute: "Commanding officer of activity concerned. (See Directory of Department of Navy Mailing Addresses.)"

MJA00008

System name: Letters of Indebtedness/Credit Inquiry (42 FR 51201).

Changes:

System location: Delete entire entry and substitute: "All Marine Corps activities."

System manager(s) and address: Delete entire entry and substitute: "Commanding officer of activity concerned. (See Directory of Department of Navy Mailing Addresses.)"

MJA00012

System name: Individual Accounts of Mail Order Clothing (Bill File) (42 FR 51202).

Changes:

System location: Delete the words "Supply Center" and substitute: "Logistics Support Base, Atlantic".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Delete the words "Supply Center" and substitute: "Logistics Support Base, Atlantic".

System manager(s) and address: Delete the words "Supply Center" and substitute: "Logistics Support Base, Atlantic".

Notification procedures: Delete the words "Supply Center" and substitute: "Logistics Support Base, Atlantic".

Record access procedures: Delete the words "Supply Center" and substitute: "Logistics Support Base, Atlantic".

Record source categories: Delete the words "Supply Center" and substitute: "Logistics Support Base, Atlantic".

MMN00002

System name: Listing of Retired Marine Corps Personnel (42 FR 51209).

Changes:

Categories of records in the system: Delete entire entry and substitute: "The system is a microfiche listing derived from automated sources, depicting the retiree's name, social security number, grade, mailing address and retirement component code."

Policies and practice for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Delete the word "publication" and insert "microfiche listing". Delete the word "locker" and insert "locked".

Retention: Delete the entry "Destroyed upon being superseded by updated annual publication" and substitute: "Destroyed upon being superseded by updated monthly listing."

MMN00005

System name: Marine Corps Education Program Applicant/Participant Information File (42 FR 51211).

Changes:

System location: Delete phrase "(Code MTES)" and insert "(Code OTTI)".

Notification procedure: Delete phrase "(Code MTES)" and insert "(Code OTTI)".

Record access procedures: Delete phrase "(Code MTES)" and insert "(Code OTTI)".

MMN00006

System name: Marine Corps Military Personnel Records (QQR/SRB) (42 FR 51211).

Changes:

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Delete the entire entry regarding the American Red Cross and the Navy Relief Society, and substitute: "By officials and employees of the American Red Cross and the Navy Relief Society in the performance of their duties. Access will be limited to those portions of the member's record required to effectively assist the member."

MMN00007

System name: Marine Corps Motion Picture/Instructional Television (ITV) Archives (42 FR 51213).

Changes:

Notification: Delete phrase "(Code MTAV)" and insert "(Code HD)".

Record access procedures: Delete phrase "(Code MTAV)" and insert "(Code HD)". Delete phrase "Head, Audio-Visual Branch Training and Education Division (Code MTAV)", and insert, "Director of History and Museum Division (Code HD)".

MMN00008

System name: Marine Corps Still Photographic Archives (42 FR 51213).

Changes:

System location: Delete phrase "Audio Visual Branch, Training and Education Division, Manpower Department (Code MTAV)" and insert "Director of History and Museums Division (Code HD)".

Notification procedure: Delete phrase "(Code MTAV)" and insert "(Code HD)".

System name: Joint Military Pay System/Manpower Management System (Jumps/MMS)

Security classification: None

System location: Primary System—Marine Corps Automated Services Center, 1500 East Bannister Road, Kansas City, Missouri 64131; Marine Corps Finance Center, 1500 East Bannister Road, Kansas City, Missouri 64197. Decentralized segments—There are eight satellite/command data processing installations (SDPI/CDPI) which maintain files with similar records at the following locations: SDPI 02, Marine Corps Base, Camp Lejeune, NC 28542; SDPI 03, Marine Corps Base, Camp Pendleton, CA 92055; SDPI 06, FMF Pacific, FPO San Francisco, CA 96610; SDPI 09, Headquarters US Marine Corps, Washington, DC 20380; SDPI 11, Marine Corps Recruit Depot, Parris Island, SC 29905; SDPI 15, Marine Corps Recruit Depot, San Diego, CA 92140; CDPI 17, Marine Corps Base, Quantico, VA 22134; SDPI 27 Marine Corps Base, Camp SD Butler, FPO Seattle, WA 98773; First Marine Brigade, FPO San Francisco, CA 96615.

Categories of individuals covered by the system: All Marine Corps Personnel.

Categories of records in the system:

The JUMPS/MMS automated system of records contains the following fields (data elements and data sets) and sub-fields: Social Security Number and the last, first, and middle initial (key); Name, Member Service Number, Contract Legal Agreement, Duty Limita-

tion, Race/Sex/Ethnic Group, Present Unit Identification, Temporary Reporting Unit Code, Former Unit Identification, Intermediate Unit Identification, Future Unit Identification, Command Data Processing Installation Code, Individual Location, Message Routing Indicator, Pay Entry Base Data, Armed Forces Active Duty Base Date, Active Naval Service Base Date, Current Active Duty Began Date, Date of Enlistment/Acceptance, Date of Original Entry Armed Forces, Date of Birth, Estimated Date of Departure, Estimated Date of Arrival, Date Current Tour Began, Date Detached Last Command, Rotation Tour Date, Date Arrived U S Dependents Not Restricted, Date Arrived U S Enlistment, Careerist Flag, Contract Extension Data, Expiration of Obligated Service, Security Investigation, Permanent Grade, Incentive Pay, Proficiency Pay, Special Pay, Hostile Fire Pay, Basic Allowance for Subsistence, Basic Allowance for Quarters, Duty Status, Last Processing Cycle Information, Project Duty Status, Preference for Duty, Grade for Which Selected, Citizenship, Combat Service, Former Prisoner of War, Civilian Education, Accession Code (Program Enlisted Under), Military Occupational Specialties, Reserved for Future Use, Religion, Tour Control Factor, Sea or Foreign Duty, Program Element Number, Responsibility Center Number, Marital Status, Ethnic Group, Intermediate Monitored Command Code - The MMS master files consist of a complete magnetic record for each Marine serving on active duty for a period in excess of 30 days. The Remote Entry Data Display Terminal (RI-DDT) is a subsystem of MMS. It has the capability to directly access an extract of the master file. The procedure used to establish the initial computer record and add the individual to the Marine Corps strength is the accession process. The accession of recruits is accomplished through the Recruit Accession Management Subsystem (RAMS). The Commissioning Accession Management Subsystem (CAMS) is designed to access all officer records into JUMPS/MMS. Accession/reaccession of all nonrecruit enlisted records is accomplished through the Headquarters Accession Management Subsystem (HAMS) at Headquarters, U. S. Marine Corps. The Accession Transcription Form (ATF) is an OCR form which contains information extracted from the enlistment contract and transfer/assignment to active duty orders. The ATF is completed and processed to establish the computer record. The Manpower Management Information System (MMIS) consists of models and processes within MMS. These models and processes support manpower planners and programmers to optimize assignments to unaccompanied overseas tours, predict enlisted population by grade and military occupational specialty (MOS) and to test various policies related to unrestricted officer promotion planning.

Some manual files containing substantiating documents and other data relative to each member's JUMPS/MMS record are maintained. These file folders may contain any part of the JUMPS/MMS record and any one or more of the following documents: Military Pay Record, Military Payroll Money List, Military Pay Voucher, Certificate for Performance of Hazardous Duty, Application for Arrears in Pay, Cash Collection Voucher, Authorization/Designation for Emergency Pay and Allowances, Wage and Tax Statement, Employees Withholding Exemption Certificate (IRS W-4), Employees Withholding Exemption Certificate (IRS W-4E), Notice of Levy, General Accounting Office Notice of Exemption, Dependency Certificate (Wife or Child Under 21 Years), Dependency Certificate (Mother or Father), Dependency Certificate (Unmarried Child Over 21 Years), Dependency Application, Clothing Checkage, Statement to Substantiate Payment of Family Separation Allowance, Government Property Checkage, Personal Financial Records, Unit Diary, Dependent Travel Record, Allotment/Bond Authorization, Certificate for Cost of Living and/or Housing Allowance, Certificate for Temporary Lodging Allowance, Removal of Mark of Desertion, Field Rations Certificate, Liquidation of Indebtedness, Initial Uniform Allowance for Officers, Additional Uniform Allowance for Officers, Excess Weight-Household Goods Shipment, Hospital Rations Checkage, Excess Expense Involving Movement of House Trailer, Transportation Checkage, Meal Ticket Checkage, Advance Pay, Advance Pay and Allowances, Discharge Gratuity, Combat Arms Bonus, Health Care Coverage, Government Quarters Termination and Assignment, Inadequate Quarters Termination and Assignment, Lump-Sum Leave, Rations Commuted to Private Mess, Reenlistment Bonus, Variable Reenlistment Bonus, Selective Reenlistment Bonus, Sick Misconduct, Prorated Rations, Supplemental Rations, Basic Allowance for Quarters (Own Right).

Authority for maintenance of system:

Title 10 and 37, U. S. Code Section 5031 and 5201

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Headquarters, U. S. Marine Corps and Marine Corps commands, activities and organizations - By officials and employees of the Marine Corps in matters relating to their assigned duties.

Department of Defense and its components - By officials and employees of the Department in the performance of their official duties.

The Attorney General of the U. S. - By officials and employees of the Office of the Attorney General in connection with litigation, law enforcement or other matters under the direct jurisdiction of the Department of Justice or as carried out as the legal representative of the Executive Branch agencies.

Courts - By officials of duly established local, state and federal courts as a result of court order pertaining to matters properly within the purview of said court.

Congress of the U. S. - By the Senate or the House of Representatives of the U. S. or any committee or subcommittee thereof, any joint committee of Congress or subcommittee of joint committee on matters within their jurisdiction requiring disclosure of the files.

The Comptroller General of the U. S. - By the Comptroller General or any of his authorized representatives in the course of the performance of duties of the General Accounting Office relating to the Marine Corps.

By officials and employees of the American Red Cross and the Navy Relief Society in the performance of their duties. Access will be limited to those portions of the member's record required to effectively assist the member.

Federal, state and local government agencies - By officials and employees of federal, state and local government through official request for information with respect to law enforcement, investigatory procedures, criminal prosecution, civil court action and regulatory order.

To provide information to another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States which has been authorized by law to conduct law enforcement activities pursuant to a request that the agency institute criminal or civil action against an individual on behalf of the U. S. Marine Corps, the Department of the Navy, or the Department of Defense.

To provide information to individuals pursuant to a request for assistance in a criminal or civil action against a member of the U. S. Marine Corps, by the U. S. Marine Corps, the Department of the Navy, or the Department of Defense.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Data is recorded on magnetic records and discs, punch cards, computer printouts, microform, file folders, and other documents.

Retrievability:

The data contained in magnetic records can be displayed on cathode-ray tubes, it can be computer printed on paper, and it can be converted to microform for information retrieval, the data in the supporting file folders and other manual records is retrieved manually. Computerized and conventional indices are required to retrieve individual records from the system. Normally, all types of records are retrieved by Social Security Number and name.

Safeguards:

Building management employs security guards; building is locked nights and holidays. Authorized personnel may enter and leave the building during nonworking hours but must sign in and out. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

Retention and Disposal:

Magnetic records are maintained on all Marine Corps personnel while they are in service, and for a period of 4 months after they are separated from the service. Paper and film records are maintained for a period of 10 years after the final transaction. End calendar and fiscal year 'snapshots' of the MMS data base are maintained indefinitely in magnetic form at Headquarters, U. S. Marine Corps.

System manager(s) and address:

Commandant of the Marine Corps, Headquarters U. S. Marine Corps, Washington, D. C. 20380

Notification procedure:

Requests from individuals for information concerning pay related matters should be addressed to the Commandant of the Marine Corps (Code FD). Requests from individuals for information concerning personnel matters should be addressed to the Commandant of the Marine Corps (Code MP).

Requesting individual must supply full name and Social Security Number.

The requester may visit the Marine Corps Finance Center, 1500 East Bannister Road, Kansas City, Missouri 64197 to obtain information on whether the system contains records pertaining to him or her.

In order to personally visit the above address and obtain information, individuals must present a military identification card, a driver's license, or other suitable proof of identity.

Record access procedures:

Information on JUMPS may be obtained from the member's local disbursing officer. Information on MMS may be obtained from the member's immediate commanding officer. Requests for information from persons no longer in service should be signed by the person requesting the information. Dates of service, Social Security Number, and full name of requester should be printed or typed on the request. It should be sent to the Marine Corps Finance Center, 1500 East Bannister Road, Kansas City, Missouri 64197.

Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

Record source categories:

Recruiting offices, disbursing offices, administrative offices, and the individual Marine are the principle sources of the information contained in the JUMPS/MMS record for that person.

Systems exempted from certain provisions of the Act:

None

MFD00005

System name:

Retired Pay/Personnel System (RPPS)

System location:

Marine Corps Automated Services Center, 1500 East Bannister Road, Kansas City, Missouri 64131; and Marine Corps Finance Center, 1500 East Bannister Road, Kansas City, Missouri 64197.

Categories of individuals:

Pay account folders for retired Marine Corps members, Fleet Marine Corps Reservists (FMCR), and survivors of deceased retired and FMCR members, who are entitled to retired pay, retainer pay, and survivor annuities.

Categories of records in the system:

The RPPS automated system of records contains the following fields (data elements and data sets): Retired/Retainer Date; Retainer Date; Pay Change; Information Status; Social Security Number (SSN) and Last, First, and Middle Initial (Key); Deletion Date; SSN; Retired Category Code; Member's Name; Pay Entry Base Date; Service for Pay; Active Service; Other Military Service Number (MSN); Prior MSN/SSN/Key; Rank Code; Recompensation Code; Disability Percent; Heroism Pay; Pay Table Code; Recompensation Age; Retirement Laws; Functional Account Number; Ranks; Birthdates; Pay Delete/ Suspension Code; Retired Serviceman's Family Protection Plan; Reserve Retirement Credit Points; Allotment Data; Withholding Tax Data; Wage and Tax Summaries; Gross Pay; Taxable Pay; Withholding Tax; Dependency Indemnity Compensation; Pension Act of 1944 (Veterans Administration (VA) Waiver); Pension Act of 1964 (Dual Compensation G1); Retired Serviceman's Family Protection Plan; Survivor Benefit Plan; Social Security; Scheduled Collections; Net Pay; Special Handling Code (Check Delivery); Accumulated Summaries; Home Mailing Address; Check Mailing Address; Pay Distribution; Last Change Posted; Date Member Eligible to Retire; Date Arrived Continental United States Without Dependents; Primary Military Occupational Specialty; Districts; Highest Rank Held Satisfactorily; Service Prior to 1 July 1949; Service After 1 July 1949; Active Duty After Transfer to Fleet/Retired Rolls; Date Next Physical Year and Month; VA Disease Codes; Department of Defense Disease Codes; Nearest Hospital (See Table 9); Personnel Accounting Separation - Designator; Earnings Statement Flag; Disability Pay; Change of Address Flag; Last Time Processed by Update-Extractor; SSN Validation; Remarks Area; One-Time Credit/Checkage; Scheduled Collection.

Used for extraction or compilation of statistical data and reports for management studies and statistical analyses for use internally or externally as required by Department of Defense or by government agencies.

Authority for maintenance of system:

Title 5, U. S. Code 301

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Computation of retired pay, retainer pay, and survivor annuity accounts, perform audit of accounts, reply to correspondence, etc.

Creation of printed reports, records, checks, microforms, magnetic files, etc., based on information available in the system. This output is used by various departments of the Marine Corps for pay, personnel, audit, and other purposes. Some of this information is made available to authorized local, state, and Federal agencies.

Displaying all or part of any selected record on a cathode-ray tube for research, audit, update, and similar purposes.

Used for extraction or compilation of statistical data and reports for management studies and statistical analyses for use internally or externally as required by Department of Defense or by government agencies.

By officials and employees of the American Red Cross and the Navy Relief Society in the performance of their duties. Access will be limited to those portions of the member's record required to effectively assist the member.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Data is recorded on magnetic records, punch cards, computer printouts, microform, file folders, and other documents.

Retrievability:

The data contained in magnetic records can be displayed on cathode-ray tubes, it can be computer printed on paper, and it can be converted to microform for information retrieval, the data in the supporting file folders and other manual records is retrieved manually. Normally all types of records are retrieved by SSN and name.

Safeguards:

Building management employees security guards; building is locked nights and holidays. Authorized personnel may enter and leave the building during nonworking hours, but must sign in and out.

Retention and Disposal:

Magnetic records are maintained on all persons who are eligible for retired pay, retainer pay, and survivor annuities while they are alive and for a period of 6 months after that person dies or ceases to be eligible. Paper and film records are maintained for a period of 10 years after the final transaction.

System manager(s) and address:

Commandant of the Marine Corps (Code FD), Headquarters, U. S. Marine Corps, Washington, D. C. 20380.

Notification procedure:

Requests from individuals for information should be referred to the SYSMANAGER.

Requesting individual must supply full name and SSN.

The requester may visit the Marine Corps Finance Center, 1500 East Bannister Road, Kansas City, Missouri 64197, to obtain information on whether the system contains records pertaining to him or her.

In order to personally visit the above address and obtain information, individuals must present a military identification card, a driver's license, or other suitable proof of identity.

Record access procedures:

Requests for information relative to the RPPS automated system should be signed by the person requesting the information. Dates of service, SSN, and full name of requester should be printed or typed on the request. It should be sent to the SYSMANAGER.

Contesting record procedures:

The agency's rules for access to records for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

Record source categories:

Documents and correspondence received from Headquarters, U. S. Marine Corps, the Veterans Administration, the member, changes in laws, etc., are the principle sources of information contained in the RPPS automated system.

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

Record source categories:

Staff agencies and subdivisions of Headquarters, U S Marine Corps
Veterans Administration
Systems exempted from certain provisions of the Act:
None

MMN00005

System name:

Marine Corps Education Program Applicant/Participant Information File

System location:

Primary system - Headquarters, U S Marine Corps (Code OTTI), Washington, D C 20380.

Secondary system - Local activity or command to which individual is assigned (See list of activities in Navy Standard Distribution List OPNAV PO9B3-107).

Categories of individuals:

Marine Corps personnel who have submitted written applications for participation in full-time, tuition assistance, off-duty, PREP, or other voluntary education programs.

Categories of records in the system:

File contains copies of individual's applications for participation in an education program; copies of correspondence between the Marine Corps, the individual and academic institutions involved; copies of academic transcripts; miscellaneous academic records and correspondence; test results; previous enrollments and disenrollments; and educational qualification data addressing the individual concerned.

Authority for maintenance of system:

Title 5, U S Code 301

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Headquarters, U S Marine Corps and Marine Corps commands, activities and organizations - By officials and employees of the Marine Corps in matters relating to their assigned duties in connection with educational and vocational counseling, recommendation, evaluation, selection and assignment. Also in the management and control of various educational and vocational programs attended by Marine Corps personnel.

Department of Defense and its Components - By officials and employees of the Department in the performance of their official duties.

Courts - By officials of duly established local, state and federal courts as a result of court order pertaining to matters properly within the purview of said court.

Congress of the U S - By the Senate or the House of Representatives of the U S or any Committee or subcommittee thereof, any joint committee of Congress or subcommittee of joint committee on matters within their jurisdiction requiring disclosure of the files.

The Comptroller General of the U S - By the Comptroller General or any of his authorized representatives in the course of the performance of duties of the General Accounting Office relating to the Marine Corps.

Educational Institutions - By officials and employees of those educational institutions to which the individual applies or which the Marine Corps contracts with, to provide full-time, off-duty or other educational programs.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper files as represented by card files, listings, log books, computer printouts, rosters and file folders stored in filing cabinets.

Retrievability:

Filed alphabetically by last name; by educational institution, educational program or unit of assignment. Cross referenced by SSN.

Safeguards:

Records are maintained in limited access working areas and are made available to persons other than the individual addressed only

on a strict 'need-to-know' basis. After duty hours storage areas are locked.

Retention and Disposal:

Records are maintained a maximum of three years and then destroyed. In instances where individual completes a program in less than three years, with no incurred service obligation, records are destroyed on program completion or transfer of individual from command maintaining record.

System manager(s) and address:

Commandant of the Marine Corps, Headquarters, U S Marine Corps, Washington, D C 20380

Notification procedure:

Information may be obtained from:
Commandant of the Marine Corps
Headquarters, U S Marine Corps (Code OTTI)
Washington, D C 20380
Telephone: Area Code 202/694-2109

Record access procedures:

Requests from individuals should be addressed to the commander of the activity to which they are assigned for duty. Activity addresses are contained in the Navy Standard Distribution List (OPNAV PO9B3-107).

Requests from individuals who have made written application for the Special Education Program (SEP), Advanced Degree Program (ADP), Funded Legal Education Program (FLEP), College Degree Program (CDP), Marine Enlisted Commissioning Education Program (MECEP), Navy Enlisted Scientific Education Program (NESEP), Staff NCO Degree Completion Program (SNCODCP), or Marine Associate Degree Completion Program (MADCOP) should be addressed to the Commandant of the Marine Corps, Headquarters, U S Marine Corps (Code OTTI), Washington, D C 20380.

Written requests for information should contain name of the individual, current address and telephone number, and the academic program originally requested or in which participated.

For personal visits, the individual should provide personal identification.

Contesting record procedures:

Rules for access to records and for contesting contents by the individual concerned may be obtained from the SYSMANAGER.

Record source categories:

Application and related documents including correspondence from the individual requesting an education program; correspondence originating in the Educational Services Branch or other Headquarters Marine Corps Staff Agencies; academic transcripts from educational institutions; and educational selection board results.

Systems exempted from certain provisions of the Act:

None

MMN00006

System name:

Marine Corps Military Personnel Records (OQR/SRB)

System location:

PRIMARY SYSTEM - The Commandant of the Marine Corps, Headquarters, U S Marine Corps, Washington, D C 20380

Decentralized Segments - Custody of the commanding officer of the organization to which the Marine officer or enlisted individual is assigned for duty or administration of official records (OQR/SRB).

Decentralized Segments - National Personnel Records Center, 9700 Page Blvd., St. Louis, Missouri 63132

Categories of individuals:

Headquarters, U S Marine Corps official military personnel records on Marine officers consist of a copy of the appointment acceptance and record and all supporting documents furnished by the officer and generated by Marine Corps procurement procedures necessary to evaluate the individual for a commission in the Marine Corps or Marine Corps Reserve. The system comprises non-automated records reflecting information pertaining to a Marine officer's identification, personal history, marital and dependency status, education, aptitude testing, training, previous employment, records of civil offenses and arrests, appraisals of performance and potential, awards, duty assignments, military orders, security clearances, promotion warrants, official photographs, official correspondence, physical examinations, psychiatric evaluations, record

of courts-martial, martial and other disciplinary matters, and other data needed in managing the officer personnel of the Marine Corps and Marine Corps Reserve.

Headquarters, U S Marine Corps official military personnel records on enlisted Marines consist of a duplicate enlistment contract or induction record and all supporting documents furnished by the enlisted Marine or generated by the Marine Corps recruiting procedures necessary to evaluate and approve the Marine for enlistment in the Marine Corps or Marine Corps Reserve. The system comprises non-automated records reflecting information pertaining to an enlisted Marine's identification, personal history, marital and dependency status, education, aptitude testing, training, previous employment, records of civil offenses and arrests, appraisals of performance and potential, awards, duty assignments, military orders, security clearances, promotion warrants, official photographs, official correspondence, physical examinations, psychiatric evaluations, record of courts-martial and other disciplinary matters, and other data needed in managing the enlisted personnel of the Marine Corps and Marine Corps Reserve.

Officer Qualification Record (OQR) is a field record of a Marine Officer which accompanies the officer throughout the various assignments of service with the Marine Corps or Marine Corps Reserve. Maintenance and custody of the OQR rests with the commanding officer of the organization to which the Marine officer is assigned for duty or administration of records. This record consists of the original appointment acceptance and record and non-automated records reflecting information pertaining to the officer's identification, marital and dependency status, education, aptitude testing, training, awards, chronological duty assignments, military orders and memoranda, security clearance, promotions, official photographs, official correspondence, prior separation documents (DD Form 214), leave and earnings statements, periodic print-outs of automated record contents, records of courts-martial and other disciplinary matters and any local orders or memoranda necessary for utilization of the Marine officer's background and experience in accomplishing the mission of the command.

Enlisted Service Record Book (SRB) is a field record of an enlisted Marine which accompanies the enlisted Marine throughout the various assignments of service with the Marine Corps or Marine Corps Reserve, maintenance and custody of the SRB rests with the commanding officer of the organization to which the enlisted Marine is assigned for duty or administration of records. This record consists of the original enlistment contract or record of induction and non-automated records furnished by the enlisted Marine or the recruiting procedures in effecting the enlistment or induction of the Marine. This record reflects information pertaining to the Marine's identification, marital and dependency status, education, aptitude testing, training, awards, chronological duty assignments, duty and conduct evaluations, security clearance, promotions, official photographs, official correspondence, prior separation documents (DD Form 214), Leave and Earnings statements, periodic print-outs of automated record content, courts-martial and other disciplinary matters, any other local military orders or memoranda necessary for the utilization of the Marine's background and experience in accomplishing the mission of the command.

Categories of records in the system:

Headquarters, U S Marine Corps, Official Military Personnel Records on Marine officers and enlisted are retained and maintained at Headquarters, U S Marine Corps, Washington, D C 20380 from acceptance/enlistment/induction to complete severance from the Marine Corps and the Marine Corps Reserve by retirement or discharge.

OQR/SRB's are retained and maintained by the commanding officer of the Marine Corps or Marine Corps Reserve field command to which the Marine is assigned.

Authority for maintenance of system:

Title 5, U S Code 301

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Officials and employees of the Marine Corps and Marine Corps Reserve in the performance of their official duties relating to management of personnel resources; screening and Selection for promotion, training and educational programs; administration of appeals, grievances, discipline, litigations and investigations adjudication of claims, benefits and entitlements; administration and management of retirement and veterans affairs programs; and, the providing of requested information from the records to the

[FmHA Instruction 1948-A]

[7 CFR Part 1948]

AREA DEVELOPMENT ASSISTANCE PLANNING GRANTS

Section 306(a)(11) Area Development Assistance Planning Grants for Comprehensive Planning for Rural Development

AGENCY: Farmers Home Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Farmers Home Administration (FmHA) proposes regulations concerning Area Development Assistance Grants for comprehensive planning for rural development. The intended effect of this action is to provide regulations for the making of grants to eligible organizations for comprehensive planning for rural development. This action is required in order to comply with Pub. L. 92-419.

DATES: Comments must be received on or before March 10, 1978.

ADDRESS: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

Mr. Paul R. Kugler, 202-447-2573.

SUPPLEMENTARY INFORMATION: The Farmers Home Administration proposes to establish a new Subpart A and Part 1948, in Subchapter K of Chapter XVIII, Title 7, Code of Federal Regulations. This part will set forth proposed policies and procedures to implement Sec. 306(a)(11) of the Consolidated Farm and Rural Development Act concerning Area Development Assistance Planning Grants for comprehensive planning for rural development.

As added, Subpart A of Part 1948 reads as follows:

Subpart A—Area Development Assistance Planning Grants

Sec.

- 1948.1 General.
- 1948.2 [Reserved].
- 1948.3 Objectives.
- 1948.4 [Reserved].
- 1948.5 Definitions.
- 1948.6 [Reserved].
- 1948.7 Source of funds.
- 1948.8-9 [Reserved].
- 1948.10 Financial support.
- 1948.11-12 [Reserved].

Sec.

- 1948.13 Applicant eligibility.
- 1948.14 [Reserved].
- 1948.15 Comprehensive Planning Projects for Rural Development.
- 1948.16-17 [Reserved].
- 1948.18 Grant purposes.
- 1948.19 [Reserved].
- 1948.20 Ineligible activities.
- 1948.21-22 [Reserved].
- 1948.23 Environmental Impact requirements.
- 1948.24 Historic Preservation requirements.
- 1948.25-26 [Reserved].
- 1948.27 Equal Opportunity requirements.
- 1948.28 [Reserved].
- 1948.29 Application procedure.
- 1948.30-31 [Reserved].
- 1948.32 Grant selection.
- 1948.33-34 [Reserved].
- 1948.35 Grant approval and announcement.
- 1948.36-39 [Reserved].
- 1948.40 Grant closing and fund disbursement.
- 1948.41-42 [Reserved].
- 1948.43 Grant monitoring.
- 1948.44 [Reserved].
- 1948.45 Reporting requirements.
- 1948.46 [Reserved].
- 1948.47 Grant Agreement.
- 1948.48-50 [Reserved].

Exhibit A—Grant Agreement Comprehensive Planning for Rural Development.

AUTHORITY: 7 U.S.C. 1989; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.

Subpart A—Area Development Assistance Planning Grants

§ 1948.1 General.

This Subpart sets forth the policies and procedures for making grants under Section 306(a)(11) of the Consolidated Farm and Rural Development Act, Area Development Assistance Planning Grants for comprehensive planning for rural development. The Farmers Home Administration (FmHA) will fully consider all A-95 clearinghouse review comments and recommendations in selecting applications for funding. The appropriate vehicle for State Rural Development Committee comments shall be the A-95 review process. Federally recognized Indian Tribes are exempted from the provisions of the Office of Management and Budget (OMB) Circular A-95.

§ 1948.2 [Reserved]

§ 1948.3 Objectives.

The objective of the Area Development Assistance Planning Grant Program is to contribute to the development of comprehensive planning for rural development, especially as such planning affects the unemployed, the underemployed, those with low family income, and minorities, by providing grants which will:

- (a) Make possible the development of comprehensive planning processes for rural areas;

(b) Enable rural areas which already have plans to revise them and/or fill critical gaps when this is needed to ensure an integrated, usable package;

(c) Support the development of an aspect or aspects of a comprehensive planning process provided this will make it possible to put the plan into action. The actions should be consistent with other community plans.

§ 1948.4 [Reserved]

§ 1948.5 Definitions.

Terms used in this Subpart have the following meanings:

(a) "Clearinghouse" includes:

- (1) "State Clearinghouse"—agency of the State Government designated by the Governor or by State law to carry out the requirements of OMB Circular A-95.

(2) "Areawide clearinghouse"—an areawide agency designated by OMB or by the Governor or by State law to carry out the requirements of OMB Circular A-95.

(b) "Comprehensive planning" means a continuing process which develops guides for action which include goals, objectives, priorities, policies, or procedures relating to the provision of community facilities and/or other governmental services, and the effective development and utilization of human and natural resources. Rural comprehensive planning includes but is not limited to: (1) The provision of leadership, coordination, citizen involvement, data collection, and technical analysis; (2) the determination of planning project effectiveness through continuing evaluation; (3) the establishment of mechanisms for implementation; and (4) the provision of opportunities for citizens and governmental units to affect the overall rural development policy-making process.

(c) "Grantee" means an entity with whom FmHA has entered into a grant agreement under this program.

(d) "Rural" and "rural area" shall not include any area in any city or town which has a population in excess of ten thousand inhabitants.

(e) "Rural development policy-making process" means a process of problem and issue identification, evaluation and selection of policy and strategy options, monitoring and assessing effectiveness of strategies, and program implementation which systematically involves relevant Federal, State, and local government agencies, public and consumer interest groups, and the private sector.

(f) "Rural development strategy" means a coordinated set of Federal, State, and local actions targeted to the specific needs of diverse rural areas.

(g) "State" means any of the fifty States, Puerto Rico, or the Virgin Islands.

(h) "Substate district" means a county or group of contiguous coun-

ties or other multijurisdictional areas having common or related social, economic, or physical characteristics indicating a community of developmental interests and which have been formally designated or recognized by the State as an appropriate area for planning.

(i) "Units of general local government" means any county, parish, city, town, township, village, or other general purpose political subdivisions of a State, authorized to engage in comprehensive planning by law or State designation.

§ 1948.6 [Reserved]

§ 1948.7 Source of funds.

All grants awarded will be made from appropriated funds specifically allotted for this program.

§ 1948.8-§ 1948.9 [Reserved]

§ 1948.10 Financial support.

(a) Grants will not exceed 75 percent of the total funds required for the planning project. The Grantee's share must equal at least 25 percent of the total project costs, half of this share being cash and the other half being services or cash or a combination of both.

(b) Indirect costs associated with the project must not exceed 25 percent of the direct costs. Indirect costs shall include those incurred for a common or joint purpose benefiting more than one of the Grantee's programs and which are not susceptible to assignment as direct costs without an effort disproportionate to the results achieved.

(c) Grantees may request subsequent grants for comprehensive planning purposes subject to the criteria contained in these regulations.

§ 1948.11-§ 1948.12 [Reserved]

§ 1948.13 Applicant eligibility.

(a) Organizations eligible for grants include units of general local government, substate district organizations, areawide comprehensive planning agencies, regional and local planning commissions, State governments, Indian tribes or Nations on Federal or State reservations and Federally or State recognized Indian Tribes of Nations, and public, quasi-public, or private nonprofit organizations as may have authorization to prepare comprehensive plans for rural development or specific aspects of rural development. An applicant must have authority to receive and spend Federal and other funds and to contract for planning purposes. Applicants will furnish FmHA with evidence of legal existence and authority to prepare comprehensive plans for rural development or specific aspects of rural development.

(b) Except for Federally recognized Indian Tribes, an applicant for multijurisdictional area planning, if the applicant is other than the areawide comprehensive planning agency designated pursuant to OMB Circular A-95, shall submit an agreement between the applicant and such areawide between the applicant and such areawide agency covering the means by which their planning project activities will be coordinated. Such agreement will cover but need not be limited to the following:

(1) Identification of relationships between the planning project activities and the areawide comprehensive planning agency which will require coordination;

(2) The organizational and procedural arrangements for coordinating activities such as common board membership, procedures for joint reviews of projected activities and policies, and information exchange;

(3) Cooperative arrangements for sharing planning resources including funds, personnel, facilities, and services; and

(4) Agreements regarding social, economic, demographic, and environmental base data, statistics, and projections constituting the basis on which planning in the area will proceed.

When the applicant has been unable to develop such an agreement, a statement will be submitted to FmHA indicating what efforts have been made to secure an agreement and issues which have prevented obtaining it. In such case FmHA, in consultation with the State clearinghouse, will undertake to resolve these issues within 30 days of receipt of the application and before approving the application.

§ 1948.14 [Reserved]

§ 1948.15 Comprehensive Planning Projects for Rural Development.

(a) The rural area to be covered in a planning project may be any area where the people have common or closely related problems or interests. The area covered may not include any area in any city or town which has a population of more than ten thousand people.

(b) Planning projects financed with FmHA grants should consider present population distribution, projected population growth or decline, economic conditions and trends of the rural area concerned, and other area functions which are deemed essential for orderly growth of the rural area involved. The planning projects may include, but need not be limited to, the addressing of rural needs in the areas of housing, energy, community facilities, health, transportation, education, recreation, resource conservation, and the development of land for residential, agricultural, commercial, and industrial uses.

(c) Each planning project should analyze planning alternatives for the rural area. Consideration should be given to the recommendations and services available from local, State, Federal, and private agencies and private individuals.

(1) If the rural area to be covered is in an area covered by a State or regional plan, the plan already developed for the larger area must be carefully considered to avoid conflict or duplication.

(2) Each planning project should be coordinated with other comprehensive or special purpose plans including overall economic development plans and local industrial development plans.

(3) To the fullest extent possible, planning projects should be coordinated with related planning and development activities presently carried out by the areawide A-95 clearinghouse agency.

§ 1948.16-§ 1948.17 [Reserved]

§ 1948.18 Grant purposes.

Grant funds may be used for the preparation of comprehensive plans and for comprehensive planning purposes, as set forth in the grant agreement, including but not limited to:

(a) Payment of salaries of professional, technical, and clerical staff to carry out rural comprehensive planning and evaluation;

(b) Payment of necessary reasonable office expenses such as office rental, office utilities, and office equipment rental;

(c) Purchase of office supplies;

(d) Payment of necessary reasonable administrative costs such as workmen's compensation, liability insurance, employer's share of social security, and travel;

(e) Payment of costs to undertake tests or surveys necessary for the planning activity.

§ 1948.19 [Reserved]

§ 1948.20 Ineligible activities.

Grant funds may not be used for:

(a) Acquisition, construction, repair, or rehabilitation of development items, or permanent construction items which may be used in final operation;

(b) Replacement or substitution of any financial support previously provided or assured from any other source.

(c) Duplication of current services.

(d) Political activities.

§ 1948.21-§ 1948.22 [Reserved]

§ 1948.23 Environmental Impact requirements.

The policies and regulations contained in Part 1901, Subpart G of this

PROPOSED RULES

Chapter apply to grants made under this Part.

§ 1948.21 Historic Preservation requirements.

The policies and regulations contained in Part 1901, Subpart F of this Chapter apply to grants made under this Part.

§ 1948.25-§ 1948.26 [Reserved]

§ 1948.27 Equal Opportunity requirements.

The policies and regulations contained in part 1901, Subpart E of this Chapter apply to grants made under this Part.

§ 1948.28 [Reserved]

§ 1948.29 Application procedure.

(a) Except for Federally recognized Indian Tribes, all applicants should notify the appropriate designated clearinghouse(s) of the intent to submit an application consistent with OMB Circular A-95.

(b) Applicants will file Form AD-621, "Preapplication for Federal Assistance," which is available in all FmHA offices, with the appropriate FmHA County Office. The County Office will forward the preapplications with written comments within five working days to the State Office. The State Office will forward the preapplications with written comments within five working days to the Administrator, Farmers Home Administration, Washington, D.C. 20250.

(c) Nonprofit and substate district applicants should submit written concurrence from the county governments affected that the project is beneficial and does not duplicate county activities.

(d) All preapplications shall be accompanied by:

- (1) Evidence of applicant's legal existence;
- (2) Evidence of applicant's authority to prepare comprehensive plans for rural development or specific aspects of rural development; and
- (3) A statement declaring whether multijurisdictional planning is contemplated.

(e) Upon receipt of a preapplication, FmHA National Office will:

- (1) Determine whether the area to be included in the plan is a rural area;
- (2) Determine whether the applicant organization has the authority to prepare comprehensive plans for rural development or specific aspects of rural development; and
- (3) Respond to the applicant within 45 days of the date of receipt of the preapplication on Form AD-622, "Notice of Preapplication Review Action," indicating the action taken on the preapplication.

(f) Upon notification on Form AD-622 that the applicant is eligible to

compete with other applicants for funding, an application on Form AD-623, "Application for Federal Assistance (Nonconstruction Programs)," may be submitted to FmHA consistent with paragraphs (a) through (e) of this section.

(g) Upon receipt of an application on Form AD-623 by FmHA National Office, a docket shall be prepared which will include the following:

- (1) Preapplication on Form AD-621;
- (2) Notice of Preapplication Review Action on Form AD-622;
- (3) A-95 Clearinghouse comments;
- (4) Application on Form AD-623;
- (5) Evidence of the applicant's legal existence and authority to prepare comprehensive plans for rural development or specific aspects of rural development;
- (6) Grant agreement;
- (7) Form FmHA 440-1, "Request for Obligation of Funds;"
- (8) Form FmHA 440-57, "Acknowledgement of Obligated Funds/Check Request;"
- (9) Form FmHA 442-14, "Association Project Fund Analysis;"
- (10) Form FmHA 400-4, "Nondiscrimination Agreement;"
- (11) Form FmHA 400-1, "Equal Opportunity Agreement;"
- (12) Multijurisdictional Agreement, if required;
- (13) Form FmHA 449-10, "Applicant's Environmental Impact Evaluation;"
- (14) Form FmHA 440-46, "Environmental Impact Assessment."

§ 1948.30-§ 1948.31 [Reserved]

§ 1948.32 Grant selection.

The following specific criteria will be considered in the competitive selection of grant recipients:

- (a) Current rural development planning needs and priorities of the rural area covered by the application;
- (b) How well the applicant proposes to meet objectives of the program and the rural development planning needs and priorities of the rural area concerned;
- (c) The extent to which the project will assist the unemployed, the underemployed, those with low family incomes, and minorities;
- (d) The extent of citizen participation and involvement in the development of the application and project;
- (e) Applicant's demonstrated capability and past performance in administering its programs;
- (f) The nature of comments and recommendations from the A-95 clearinghouse;
- (g) The extent of planned coordination with other Federal, State, substate, and local planning activities affected by the project;
- (h) How well the proposed project will promote an effective rural development strategy.

§ 1948.33-§ 1948.34 [Reserved]

§ 1948.35 Grant approval and announcement.

(a) FmHA National Office will review the docket to determine whether the proposed grant complies with these regulations and that funds are available.

(b) If a grant is not approved after the docket is developed, FmHA National Office will notify the applicant in writing of the reasons for rejection.

(c) If a grant is recommended, Form FmHA 440-1, "Request for Obligation of Funds," and the proposed grant agreement will be prepared and forwarded to the Administrator. If the Administrator approves the grant he will: (1) Send completed Form FmHA 071-1, "Project Information Card," to the Director of Information, Farmers Home Administration. The Director of Information will make announcements as provided in FmHA Instruction 2015 Subpart C which is available in all FmHA offices.

(2) Five working days after sending form FmHA 071-1 to the Director of Information, the Administrator will: (i) Send executed Form FmHA 440-1 to the Finance Office and the applicant; and

(ii) Send four copies of the grant agreement to the applicant requesting that the applicant sign the agreements and return them to the Administrator, Farmers Home Administration, Washington, D.C. 20250.

(d) If it is determined that a project will not be funded or if major changes in the scope of the project are made after release of the approval announcement, the Administrator will notify the Director of Information by telephone giving the reasons for such action. The Director of Information will inform all parties who were notified by the project announcement if the project will not be funded or of major changes in the project, using a procedure similar to the announcement process. Form FmHA 440-10, "Cancellation of Loan or Grant Check and/or Obligation," will not be submitted to the Finance Office until five working days after notifying the Director of Information.

§ 1948.36-§ 1948.39 [Reserved]

§ 1948.40 Grant closing and fund disbursement.

Closing is the process by which FmHA determines that applicable administrative actions have been completed and the grant agreement is signed. The grant agreement (Exhibit A) will be executed by the Administrator at the time the initial request for grant funds is made. An executed original of the grant agreement shall be sent to the grantee and two copies sent to the appropriate FmHA State Director.

§ 1948.41-§ 1948.42 [Reserved]

§ 1948.43 Grant monitoring.

Each grant will be monitored by FmHA to ensure that the Grantee is complying with the terms of the grant and that the planning project activity is completed as approved. Ordinarily this will involve a review of quarterly and final reports by FmHA.

§ 1948.44 [Reserved]

§ 1948.45 Reporting requirements.

Standard Form 270, "Request for Advance or Reimbursement," and a project performance activity report will be required of all Grantees on a quarterly basis. Standard Form 269, "Financial Status Report," and a final project performance report will also be required. These final reports may serve as the last quarterly reports. Grantees shall constantly monitor performance to insure that time schedules are being met, projected work by time periods is being accomplished, and other performance objectives are being achieved. All Grantees should submit an original of each report to FmHA National Office and two copies to the appropriate FmHA State Office. The project performance reports shall include but need not be limited to the following:

(a) A comparison of actual accomplishments to the objectives established for the period;

(b) Reasons why established objectives were not met;

(c) Problems, delays, or adverse conditions which will materially affect attainment of planning project objectives, prevent the meeting of time schedules of objectives, or preclude the attainment of project work elements during established time periods; this disclosure shall be accompanied by a statement of the action taken or contemplated and any Federal assistance needed to resolve the situation;

(d) Objectives established for the next reporting period.

§ 1948.46 [Reserved]

§ 1948.47 Grant agreement.

Exhibit A of this subpart is a grant agreement which sets forth the procedures for making and servicing Area Development Assistance Planning Grants.

§ 1948.48-§ 1948.50 [Reserved]

EXHIBIT A

GRANT AGREEMENT

Comprehensive Planning for Rural Development

This Agreement is between _____ (name) _____ (address), (Grantee) and the United States of America acting through the Farmers Home Administration (Grantor or FmHA). Grantee has deter-

PROPOSED RULES

mined to undertake certain comprehensive planning at an estimated cost of \$_____ and has duly authorized such planning. Grantee shall finance \$_____ of the costs through cash and in-kind contributions. Of that amount, \$_____ shall be in cash. The Grantor agrees to grant to Grantee a sum not to exceed \$_____ subject to the terms and conditions established by the Grantor; provided, however, that the proportionate share of any grant funds actually advanced and not needed for grant purposes shall be returned immediately to the Grantor. The Grantor may terminate the grant in whole, or in part, at any time before the date of completion, whenever it is determined that the Grantee has failed to comply with the conditions of the grant. In consideration of said grant by Grantor to Grantee, to be made pursuant to Section 306(a)(11) of the Consolidated Farm and Rural Development Act (7 USC 1926(a)(11)) for the purpose only of defraying a part of the planning costs as permitted by applicable Farmers Home Administration regulations:

Part A

Grantor and Grantee agree: 1. This agreement shall be effective when executed by both parties.

2. The work program set out below shall be completed within _____ days from the date of this agreement.

3. (a) The ratio of Federal and non-Federal contributions to the total budget is _____ percent and _____ percent, respectively. The same ratio will be used to establish the Federal and non-Federal share of allowable project cost, as determined by the Grantor, in accordance with provisions of FmHA regulations, the total of which costs will not exceed the grant total amounts shown in the approved grant budget. In no event will the grants exceed \$_____ or 75 percent of the total eligible costs of the Grantee whichever is the lesser. Use of grant funds for travel which is determined as being necessary to the program for which the grant is established may be subject to the travel policies of the Grantee institution if they are uniformly applied regardless of the source of funds in determining the amounts and types of reimbursable travel expenses of Grantee staff and consultants. Where the Grantee institution does not have such specific policies uniformly applied, the U.S. Standard Government Travel Regulations shall apply in determining the amount charged to the grant. Grantee may purchase furniture and office equipment only if specifically approved in the work program. Approval will be given only when Grantee demonstrates that purchase is necessary and would result in less cost to the Government in providing Federal-share funds or to the Grantee in providing its contributions. Commercial purchase under these circumstances will be approved only after consideration of Federal Supply sources.

(b) Expenses and Purchases Excluded: (i) In no event shall the Grantee expend or request reimbursement from Federal-share funds for obligations entered into or for costs incurred or accrued prior to the effective date of this grant.

(ii) Funds budgeted under this grant may not be used for entertainment expenses.

(iii) Funds budgeted under this grant may not be used to pay for capital assets, the purchase of real estate or vehicles, improvement and renovation of space, and repair and maintenance of privately-owned vehicles.

(c) Grant funds shall not be used to replace any financial support previously provided or assured from any other source. The Grantee agrees that the general level of expenditure by the Grantee for the benefit of program area and/or program covered by this agreement shall be maintained and not reduced as a result of the Federal share funds received under this grant.

4. (a) Grant funds will be disbursed as follows: (i) 30 percent of grant funds will be disbursed upon receipt from Grantee of the executed grant agreement.

(ii) A sum which, taken together with the sum provided in (i) above, will not exceed 70 percent of grant funds, will be based on projected needs for the ensuing quarter and will be disbursed after receipt of the first quarter performance report and Standard Form 270, "Request for Advance and Reimbursement."

(iii) A sum which, taken together with the sums provided in (i) and (ii) above, will not exceed 100 percent of grant funds will be based on projected needs for the ensuing quarter and will be disbursed after receipt of the second quarter performance report and Standard Form 270.

(iv) A sum which, taken together with the sums previously provided, will not exceed 100 percent of grant funds and will be based on the projected needs for the ensuing quarter will be disbursed after receipt of the third quarter performance report and Standard Form 270. It is estimated that grant payments will be made on or near the beginning of each of the periods listed below, and in the corresponding amounts:

Period and Amount

(b) All officers of Grantee organization authorized to receive and/or disburse Federal funds shall be covered by fidelity bond in the amount of \$_____ each. FmHA will delay all payments until it receives satisfactory evidence of such bonding from the Grantee.

(c) Contributions by the Grantee, whether in cash or in-kind, are expected to be paid out at the same general rate as Grantor funds. In any event, one-half of the Grantee's share of projected costs shall be available, incurred, or expended by the time one-half of the Grantor's share has been disbursed. Exceptions to this mid-point, pro rata requirement must be approved in writing by the Grantor.

(d) Where the Grantee shall have claimed credit for contributions-in-kind to the total cost of allowable expenses, the evaluation of such contributions-in-kind shall be subject to reevaluation by the Grantor at any time, and any deficiency so determined by the Grantor shall be compensated by supplemental contributions by the Grantee as a condition for further disbursements by the Grantor.

(e) Grant funds will be placed in a bank account(s) which shall be insured by Federal Deposit Insurance Corporation (FDIC). If for any reason grant funds are invested, income earned on such investments shall be identified as interest income on grant fund and forwarded to the Finance Office, FmHA, St. Louis, Missouri, unless the grantee is a State. "State" includes instrumen-

PROPOSED RULES

talities of a State but not political subdivision of a State. A State grantee is not accountable for interest earned on grant funds. Investments may be in obligations of the United States or accounts insured by the FDIC, which investments may be readily liquidated.

5. The Grantee will submit Performance and Financial reports as indicated below:

(a) Quarterly, an original and 2 copies of Standard Form 270, "Request for Advance or Reimbursement," and a Project Performance report according to the Schedule below:

Period and Due Date

(b) Final, an original and 2 copies of Standard Form 269, "Financial Status Report," and a Project Performance report according to the schedule below:

Period and Due Date

Note.—Final reports may serve as the last quarterly reports.

(c) The original copy of reports and forms is to be submitted to the Administrator, Farmers Home Administration, Washington, D.C. 20250. The two copies of reports should be submitted to the appropriate FmHA State Office.

6. The budget covered by this agreement is:

(a) Federal Contribution: \$——. Grantee Contribution—Cash: \$——, In-kind: \$——. Total \$——.

(b)

Budget categories	Federal funds	Non-Federal share	Total
		Cash in kind	
Direct costs:			
1. Personnel.....	\$.....	\$.....	\$.....
2. Fringe benefits.....	\$.....	\$.....	\$.....
3. Travel	\$.....	\$.....	\$.....
4. Equipment.....	\$.....	\$.....	\$.....
5. Supplies.....	\$.....	\$.....	\$.....
6. Contractual	\$.....	\$.....	\$.....
7. Other	\$.....	\$.....	\$.....
Total direct costs.....	\$.....	\$.....	\$.....
8. Indirect costs	\$.....	\$.....	\$.....
Total.....	\$.....	\$.....	\$.....

(c) Authorized maximums for annual staff salaries chargeable to this grant are set out below. Any deviation must have prior written approval by the Administrator, Farmers Home Administration.

Position	Maximum annual salary	Percentage chargeable to the grant (if under 100 pct and maximum salary)
.....	\$.....
.....	\$.....
.....	\$.....

(d) Funds may be transferred within budget categories except for authorized maximums listed in (c) above. Any expenditure above the amount approved for travel must have prior written approval from FmHA.

7. (a) The work program is described in the attached exhibit 1. The Grantee accepts responsibility for establishing a development process which will expand the capacity of citizens to improve local conditions and alleviate problems associated with unemployment, underemployment, those with low family incomes, and minorities in the Grantee area. The Grantee shall:

(i) Endeavor to coordinate and provide liaison with State development organizations, where they exist.

(ii) Provide continuing information to FmHA on the status of Grantee programs, projects, related activities, and problems.

(iii) Contribute to a national rural development policy-making process.

(iv) Contribute to development of a national rural development strategy.

(b) The Grantee shall inform the Grantor as soon as the following types of conditions become known:

(i) Problems, delays, or adverse conditions which materially affect the ability to attain program objectives, prevent the meeting of time schedules or goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any Grantor assistance needed to resolve the situation.

(ii) Favorable developments or events which enable meeting time schedules and goals sooner than anticipated or producing more work units than originally projected.

PART B

Grantee agrees: 1. To comply with property management standards established by Attachment N of OMB Circular A-102 for expendable and nonexpendable personal property. "Personal property" means property of any kind except real property. It may be tangible—having physical existence—or intangible—having no physical existence—such as patents, inventions, and copyrights. "Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of \$300 or more per unit. A Grantee may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined above. "Expendable personal property" refers to all tangible personal property other than nonexpendable property. When nonexpendable tangible property is acquired by a Grantee with project funds, title shall not be taken by the Federal Government but shall vest in the Grantee subject to the following conditions:

(a) Right to transfer title. For items of nonexpendable personal property having a unit acquisition cost of \$1,000 or more, FmHA may reserve the right to transfer the title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such reservation shall be subject to the following standards:

(1) The property shall be appropriately identified in the grant or otherwise made known to the Grantee in writing.

(2) FmHA shall issue disposition instructions within 120 calendar days after the end of the Federal support of the project for which it was acquired. If FmHA fails to issue disposition instructions within the 120 calendar day period, the Grantee shall apply the standards of paragraph (4) below.

(3) When FmHA exercises its right to take title, the personal property shall be subject to the provisions for federally owned nonexpendable property discussed in paragraph (4), below.

(4) When title is transferred either to the Federal Government or to a third party and the Grantee is instructed to ship the property elsewhere, the Grantee shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the Grantee participation in the cost of the original grant project or program to the current fair market value of the property, plus any reasonable shipping or interim storage costs incurred.

(b) Use of other tangible nonexpendable property for which the Grantee has title.

(1) The Grantee shall use the property in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original project or program, the grantee shall use the property in connection with its other federally sponsored activities, in the following order of priority:

(a) Activities sponsored by FmHA.

(b) Activities sponsored by other Federal agencies.

(2) Shared use. During the time that nonexpendable personal property is held for use on the project or program for which it was acquired, the Grantee shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the property was not originally acquired. First preference for such other use shall be given to other projects or programs sponsored by FmHA; second preference shall be given to projects or programs sponsored by other Federal agencies. If the property is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by FmHA. User charges should be considered if appropriate.

(c) Disposition of other nonexpendable property. When the Grantee no longer needs the property as provided in 1(a)(4) above, the property may be used for other activities in accordance with the following standards:

(1) Nonexpendable property with a unit acquisition cost of less than \$1,000. The Grantee may use the property for other activities without reimbursement to the Federal Government or sell the property and retain the proceeds.

(2) Nonexpendable personal property with a unit acquisition cost of \$1,000 or more. The Grantee may retain the property for other uses provided that compensation is made to FmHA or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the property. If the Grantee has no need for the property and the property has further use value, the Grantee shall request disposition

instructions from the original Grantor agency.

FmHA shall determine whether the property can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the property shall be reported, in accordance with the guidelines of the Federal Property Management Regulations (FPMR), to the General Services Administration by FmHA to determine whether a requirement for the property exists in other Federal agencies. FmHA shall issue instructions to the Grantee no later than 120 days after the Grantee request and the following procedures shall govern:

(a) If so instructed or if disposition instructions are not issued within 120 calendar days after the Grantee's request, the Grantee shall sell the property and reimburse FmHA an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the Grantee shall be permitted to deduct and retain from the Federal share \$100 or ten percent of the proceeds, whichever is greater, for the Grantee's selling and handling expenses.

(b) If the Grantee is instructed to dispose of the property other than as described in 1(a)(4) above, the Grantee shall be reimbursed by FmHA for such costs incurred in its disposition.

(c) Property management standards for nonexpendable property. The Grantee's property management standards for nonexpendable personal property shall include the following procedural requirements:

(1) Property records shall be maintained accurately and shall include:

(a) A description of the property.

(b) Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.

(c) Source of the property including grant or other agreement number.

(d) Whether title vests in the Grantee or the Federal Government.

(e) Acquisition date (or date received, if the property was furnished by the Federal Government) and cost.

(f) Percentage (at the end of the budget year) of Federal participation in the cost of the project or program for which the property was acquired. (Not applicable to property furnished by the Federal Government.)

(g) Location, use and condition of the property and the date the information was reported.

(h) Unit acquisition cost.

(i) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a Grantee compensates the Federal agency for its share.

(2) Property owned by the Federal Government must be marked to indicate Federal ownership.

(3) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The Grantee shall, in connection with the inventory, verify the existence, current utilization, and continued need for the property.

(4) A control system shall be in effect to insure adequate safeguards to prevent loss,

PROPOSED RULES

damage, or theft of the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented; if the property was owned by the Federal Government, the Grantee shall promptly notify FmHA.

(5) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(6) Where the Grantee is authorized or required to sell the property, proper sales procedures shall be established which would provide for competition to the extent practicable and result in the highest possible return.

(7) Expendable personal property shall vest in the Grantee upon acquisition. If there is a residual inventory of such property exceeding \$1,000 in total aggregate fair market value, upon termination or completion of the grant and if the property is not needed for any other federally sponsored project or program, the Grantee shall retain the property for use on nonfederally-sponsored activities, or sell it, but must in either case, compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as nonexpendable personal property.

2. To provide Financial Management Systems which will include:

(a) Accurate, current, and complete disclosure of the financial results of each grant. Financial Reporting will be on an accrual basis.

(b) Records which identify adequately the source and application of funds for grant-supported activities. Those records shall contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

(c) Effective control over and accountability for all funds, property and other assets. Grantees shall adequately safeguard all such assets and shall assure that they are used solely for authorized purposes.

(d) Accounting records supported by source documentation.

3. To retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least three years after grant closing except that the records shall be retained beyond the three-year period if audit findings have not been resolved. Microfilm copies may be substituted in lieu of original records. The Grantor and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the Grantee which are pertinent to the specific grant program for the purpose of making audit, examination, excerpts, and transcripts.

4. To provide information as requested by the Grantor to determine the need for and complete any necessary Environmental Impact Statements.

5. To provide information as requested by the Grantor concerning the Grantee's actions in soliciting citizen participation in the application process, including published notice of public hearings, actual public hearings held, and content of written comments received.

6. To provide an audit report prepared in sufficient detail to allow the Grantor to determine that funds have been used in compliance with the proposal, any applicable laws and regulations, and this agreement.

7. To account for and to return to Grantor interest earned on grant funds pending

their disbursement for program purposes unless the Grantee is a State. See Part A 4.(e) above.

8. Not to encumber, transfer, or dispose of the property or any part thereof, furnished by the Grantor or acquired wholly or in part with Grantor funds without the written consent of the Grantor except as provided in Part B 1.

9. To provide Grantor with such periodic reports as it may require of its operations by designated representative of the Grantor.

10. To execute Form FHA 400-1, "Equal Opportunity Agreement," to execute FHA 400-4, "Nondiscrimination Agreement," and to execute any other agreements required by Grantor to implement the civil rights requirements.

11. To include in all contracts in excess of \$100,000 a provision for compliance with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970. Violations shall be reported to the Grantor and the Regional Office of the Environmental Protection Agency.

12. That, upon any default under its representations or agreements set forth in this instrument, Grantee, at the option and demand of Grantor, will, to the extent legally permissible, repay to Grantor forthwith the original principal amount of the grant stated hereinabove, with interest at the rate of five percentum per annum from the date of the default. The provisions of this Grant Agreement may be enforced by Grantor, at its option and without regard to prior waivers by it of previous defaults of Grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State courts, as may be deemed necessary by Grantor to assure compliance with the provisions of this Grant Agreement and the laws and regulation under which this grant is made.

13. That no member of Congress shall be admitted to any share or part of this grant, or any benefit that may arise therefrom; but this provision shall not be construed to bar as a contractor under the Grant a publicly held corporation whose ownership might include a member of Congress.

14. That all non-confidential information resulting from its activities shall be made available to the general public on an equal basis.

15. That the purpose and scope of work for which this grant is made shall not duplicate programs for which monies have been received, are committed, or are applied for from other sources, public and private.

16. That the Grantee shall relinquish any and all copyrights and/or copyright rights and/or privileges to the materials developed under this grant, such material being the sole property of the Federal Government. In the event any developed under this grant is published in whole or in part, the material shall contain notice and be identified by language to the following effect: "The material is the result of tax-supported research and as such is not copyrightable. It may be freely reprinted with the customary crediting of the source."

17. That the Grantee shall submit to FmHA for review and approval all contracts with consultants to be paid by grant funds under this agreement. The contract, including the schedule of fees and charges and provisions for payment, must be reviewed and approved by FmHA before it is executed by the recipient organization.

18. To the following termination provisions:

PROPOSED RULES

PART C

(a) Termination for cause: The Grantor agency may terminate any grant in whole, or in part, at any time before the date of completion, whenever it is determined that the Grantee has failed to comply with the conditions of the grant. The Grantor agency shall promptly notify the Grantee in writing of the determination and the reasons for the termination, together with the effective date.

(b) Termination for convenience. The Grantor agency or Grantee may terminate grants in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial terminations, the portion to be terminated. The Grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Grantor agency shall allow full credit to the Grantee for the Federal share of the noncancelable obligations, properly incurred by the Grantee prior to terminations.

Grantor agrees: 1. That it will assist Grantee, within available appropriations, with such technical assistance as Grantor deems appropriate in planning the project and coordinating the plan with local official comprehensive plans and with any State or area plans for the area in which the project is located.

2. That at its sole discretion, Grantor may at any time give any consent, deferment, subordination, release, satisfaction, or termination of any or all of Grantee's grant obligations, with or without valuable consideration, upon such terms and conditions as Grantor may determine to be (a) advisable to further the purposes of the grant or to protect Grantor's financial interest therein, and (b) consistent with both the statutory purposes of the grant and the limitations of the statutory authority under which it is made.

This agreement is subject to current Grantor regulations and any future regulations not inconsistent with the express terms hereof.

Grantee on _____, 19—, has caused this agreement to be executed by its duly

authorized _____ and attested and its corporate seal affixed by its duly authorized _____.

"THE FEDERAL REGISTER—WHAT IT IS AND HOW TO USE IT"

Reservations for March are being accepted for the free Friday workshops on how to use the FEDERAL REGISTER. The sessions are held at 1100 L Street NW., Washington, D.C. in room 9409 from 9 to 11:30 a.m.

Each session includes a brief history of the FEDERAL REGISTER, the difference between legislation and regulations, the relationship of the FEDERAL REGISTER to the Code of Federal Regulations, the elements of a typical FEDERAL REGISTER document, and an introduction to the finding aids.

FOR RESERVATIONS call: Martin V. Franks, Workshop Coordinator, 202-523-3517.

SUNSHINE ACT MEETINGS 5645

RED CROSS MONTH

Presidential proclamation 5459

DRINKING WATER

EPA proposes controls of organic chemical contaminants; comments by 5-31-78 (Part II of this issue) 5755

CITIZENS BAND RADIO TRANSCEIVERS

ITC determines that increased imports are a substantial cause of threat to domestic industry 5592

NOISE POLLUTION

DOT/FAA announces public hearing regarding noise and sonic boom requirements for civil supersonic airplanes and extends comment period 5522

RURAL HOUSING LOANS AND GRANTS

USDA/FmHA amends regulations regarding communities eligible for assistance; effective 2-9-78; comments by 3-3-78 5503

VETERANS BENEFITS

VA proposes implementation of the GI Bill Improvement Act of 1977; comments by 3-9-78 5549

FARMER PROGRAM LOANS

USDA/FmHA revises repayment requirements; effective 2-9-78 5504

PEANUTS

USDA/CCC sets forth, establishes, and allows farmers to obtain price support on peanuts affected by aspergillus flavus mold; effective 2-9-78 (3 documents) 5501, 5502

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 43, NO. 28—THURSDAY, FEBRUARY 9, 1978

Title 3—The President

PROCLAMATION 4551

Red Cross Month, 1978

By the President of the United States of America

A Proclamation

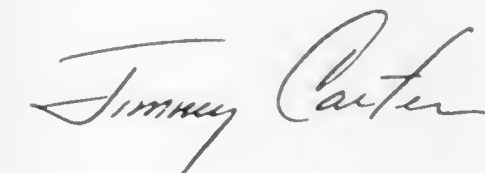

The American Red Cross is serving the needs of the American people now, as it has served them for nearly a century. Although its programs and services have grown in scope as well as in size over the years, the relief of human suffering remains its fundamental purpose. Throughout its proud history, its spirit of volunteerism has been the source of its strength.

It is the Red Cross volunteer—our neighbor—who helps ease the suffering of disaster victims; who teaches us first aid, water safety, and proper care of the ill and injured; who instills in our young people those qualities of leadership that will mean so much to this Nation in later years; who donates the blood that gives renewed life to the sick; and who comes to the assistance of the men and women of our armed forces, and to veterans and their families.

March has traditionally been observed as Red Cross Month. It is a time for concerned people to address their thoughts to those qualities of compassion, understanding and selflessness which identify the Red Cross spirit of volunteerism.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America and Honorary Chairman of the American National Red Cross, do hereby designate March 1978, as Red Cross Month. I urge all Americans to give generous support to the work of their local Red Cross chapter.

IN WITNESS WHEREOF, I have hereunto set my hand this seventh day of February, in the year of our Lord nineteen hundred seventy-eight, and of the Independence of the United States of America the two hundred and second.

[FR Doc. 78-3810 Filed 2-7-78; 2:45 pm]

EDITORIAL NOTE: The President's memorandum of Feb. 7, 1978, to the heads of executive departments and agencies, on Red Cross Month, 1978, is printed in the Weekly Compilation of Presidential Documents (vol. 14, no. 6).

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-21]

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

[Amdt. 2]

PART 20—EXPORT SALES REPORTING REQUIREMENTS

Daily Releases

AGENCY: Office of the General Sales Manager.

ACTION: Final rule.

SUMMARY: This rule amends the Export Sales Reporting regulations to provide that information regarding contracts for the export sales of agricultural commodities, required to be reported by exporters to the Department daily, pursuant to section 812 of the Agriculture Act of 1970, as amended (7 U.S.C. 612c-3), will be compiled and made available to the public daily. The requirement that this information be made available to the public daily was added to section 812 by section 1005 of the Food and Agriculture Act of 1977, Pub. L. 95-113, 91 Stat. 151.

EFFECTIVE DATE: February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard J. Finkbeiner, Director, Export Sales Division, Commercial Export Programs, Office of the General Sales Manager, U.S. Department of Agriculture, Washington, D.C. 20250, telephone 202-447-5651.

SUPPLEMENTARY INFORMATION: The export sales reporting regulations provide for exporters to report export sales transactions weekly or, when requested by the Office of the General Sales Manager, daily. Publication of information therefrom has been limited to weekly compilations following the week of reporting. This amendment provides that when daily reporting of export sales activity is required, information compiled from such individual reports shall be made public daily.

EFFECTIVE DATE

Since this amendment does not involve a change in exporters reporting requirements, it is found upon good cause that the notice and public rule-making procedures and effective date provisions of 5 U.S.C. 533 are unnecessary and contrary to the public interest.

Accordingly, Part 20 of Subtitle A of Title 7 of the Code of Federal Regulations is amended as follows:

1. By inserting in § 20.1 in the quoted language of section 812, immediately after the third sentence, the following new sentence:

§ 20.1 General.

• • • When the Secretary requires that such information be reported by exporters on a daily basis, the information compiled from individual reports shall be made available to the public daily. • • •

2. By revising § 20.7 to read as follows:

§ 20.7 Confidentiality of reports.

A reporting exporter's individual reports shall remain confidential and subject to examination only by designees of the General Sales Manager. Information from reports filed by exporters on a weekly basis will be compiled and published in compilation form each week following the week of reporting. Information from daily reports filed by exporters will be compiled and made available to the public daily.

(Sec. 812, 87 Stat. 238, as amended (7 U.S.C. 612c-3).)

Dated: February 3, 1978.

GEORGE S. SHANKLIN,
Acting General
Sales Manager.

(FR Doc. 78-3670 Filed 2-8-78; 8:45 am)

[3410-02]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Orange, Grapefruit, Tangerine, and Tangelo Reg. 1, Amdt. 9]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES AND TANGELOS GROWN IN FLORIDA

Amendment of Tangerine Grade and Size Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Amendment to final rule.

SUMMARY: This amendment is applicable to domestic and export shipments of Honey Tangerines and to domestic shipments of Dancy Tangerines. It lowers to Florida No. 1 Golden the minimum grade requirement on all shipments of fresh Florida Honey Tangerines, during the period February 6 to September 24, 1978. It also lowers the minimum diameter requirement on domestic shipments of fresh Dancy Tangerines to 2 1/16 inches (size 246), during the same period. Grade and size requirements for other varieties of tangerines continue unchanged. Currently, the minimum grade for domestic and export shipments of Honey Tangerines is Florida No. 1, and the minimum size for domestic shipments of Dancy Tangerines is 2 1/16 inches (size 210). Specification of minimum grade and size requirements for Florida tangerines is necessary because of current and prospective supply and demand for the fruit and to maintain orderly marketing conditions in the interest of producers and consumers.

DATES: This amendment is effective during the period February 6 to September 24, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: Findings. (1) Pursuant to the marketing agreement and Order No. 905, both as amended, (7 CFR Part 905; 42 FR 59367; 61853), regulating the handling of oranges, grapefruit, tangerines and tangelos grown in Florida, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the committee established under the marketing agreement and order, and upon other information, it is found that the regulation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The amendment reflects the Department's appraisal of the current and prospective supply and market demand conditions for Florida Honey and Dancy Tangerines. It is designed to assure an ample supply of acceptable quality and size tangerines to consumers consistent with the quality and size composition of the crop. Shipments of Honey Tangerines are in-

creasing seasonally, while remaining supplies of Dancy are expected to decline during the next few weeks.

(3) It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this amendment is based and the effective date necessary to effectuate the declared policy of the act; and this amendment relieves restrictions on the handling of tangerines.

Accordingly, it is found that the provisions of § 905.301 (42 FR 57947, 59367, 59955, 60918, 61590, 63635, 63881; 43 FR 2820) should be and hereby are amended by revising in tables I and II the minimum grade applicable to Honey Tangerines and by revising in table I the minimum size applicable to Dancy Tangerines, effective February 6, 1978, as follows:

§ 905.301 Orange, grapefruit, tangerine, and tangelo regulation 1.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division,
Agricultural Marketing Service.

[FR Doc. 78-3671 Filed 2-8-78; 8:45 am]

[Navel Orange Reg. 429, Amdt. No. 1; Navel Orange Reg. 430]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period February 10-16, 1978, and increases the quantity of such oranges that may be so shipped during the period February 3-9, 1978. Such action is needed to provide for orderly marketing of fresh navel oranges for the periods specified due to the marketing situation confronting the orange industry.

DATES: The regulation becomes effective February 10, 1978, and the amendment is effective for the period February 3-9, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: Findings.—Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee established under this marketing order, and upon other information, it is found that the limitation of handling of navel oranges, as hereafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

The committee met on February 7, 1978, to consider supply and market conditions and other factors affecting the need for regulation, and recommended quantities of navel oranges deemed advisable to be handled during the specified weeks. The committee re-

ports the demand for navel oranges continues good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and the amendment relieves restrictions on the handling of navel oranges. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

1. Paragraph (a)(1), (2), and (3) in § 907.729 Navel Orange Regulation 429 (43 FR 4417), is hereby amended to read:

§ 907.729 Navel Orange Regulation 429.

(a) * * *

- (1) District 1: 1,095,000 cartons;
- (2) District 2: 405,000 cartons;
- (3) District 3: unlimited movement.

2.

§ 907.730 Navel Orange Regulation 430.

Order. (a) The quantities of navel oranges grown in Arizona and California which may be handled during the period February 10, 1978, through February 16, 1978, are established as follows:

- (1) District 1: 949,000 cartons;
- (2) District 2: 351,000 cartons;
- (3) District 3: unlimited movement.

(b) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" mean the same as defined in the marketing order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: February 8, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-3874 Filed 2-8-78; 11:36 am]

[3410-02]

[Amdt. 2]

PART 971—LETTUCE GROWN IN LOWER RIO GRANDE VALLEY IN SOUTH TEXAS

Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment relieves on February 5 and 12, 1978, the

Sunday packaging prohibition. Recent rains in the South Texas production area have interfered with the area's lettuce harvests. This will promote orderly marketing by allowing the South Texas industry additional operating time to satisfy its lettuce orders.

EFFECTIVE DATE: February 5, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250, telephone 202-447-6393.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 144 and Marketing Order No. 971 regulate the handling of lettuce grown in the Lower Rio Grande Valley in South Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The amendment is based upon recommendations made February 2, 1978, by the South Texas Lettuce Committee, which was established under the order and is responsible for its local administration. It is hereby found that the amendment which follows will tend to effectuate the declared policy of the act.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, or to engage in public rulemaking procedures, and that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) this amendment must become effective immediately if producers are to derive maximum benefits from it, (2) compliance with this amendment will not require any special preparation on the part of handlers, and (3) this amendment relieves restrictions on the handling of lettuce grown in the production area.

REGULATION, AS AMENDED

In § 971.318 (42 FR 59373; 43 FR 2386) the introductory paragraph is hereby amended by adding the following to it:

§ 971.318 Handling regulation.

* * *, except that the prohibition against the packing of lettuce on Sundays shall not apply on February 5 and 12, 1978.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Effective date: Dated February 3, 1978, to become effective February 5, 1978.

CHARLES R. BRADER,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-3669 Filed 2-8-78; 8:45 am]

[3410-02]

PART 980—VEGETABLES: IMPORT REGULATIONS

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation will require imports of onions to be inspected and meet minimum grade, size, quality, and maturity requirements. The regulation should promote orderly marketing of such onions by keeping less desirable qualities and sizes from being imported.

EFFECTIVE DATE: March 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone 202-447-6393.

SUPPLEMENTARY INFORMATION: Notice of rulemaking regarding proposed requirements on the importation of onions into the United States to be made effective under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), was published in the December 21 FEDERAL REGISTER (42 FR 63894). The notice afforded interested persons an opportunity to file written data, views, or arguments in regard thereto not later than January 3, 1978. This date was subsequently extended to January 13, 1978 (43 FR 1098) to afford interested persons additional time to file written data, views, or comments. None was filed.

Section 8e of the act provides that whenever a Federal marketing order is in effect for onions, the importation of onions shall be prohibited unless they comply with the grade, size, quality, and maturity provisions of such order. The provisions hereinafter set forth comply with those which are effective under Marketing Order No. 958 for onions grown in designated counties of Idaho and Malheur County, Oreg., and under Marketing Order No. 959 for onions grown in designated counties in South Texas.

The regulations is as follows:

§ 980.117 Import regulations; onions.

(a) Findings and determinations with respect to onions.

(1) Under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), it is hereby found that:

(i) Grade, size, quality, and maturity regulations have been issued regularly under Marketing Orders No. 958 and 959, both as amended;

(ii) During the past several years, grade, size, quality, and maturity regulations have been in effect pursuant to these orders during the period August through April;

(iii) The marketing of onions can be reasonably distinguished by the seasonal categories, i.e., late summer and early spring. The bulk of the late summer crop is harvested and placed in storage in late summer and early fall and marketed over a period of several months extending into the following spring. But the onions harvested from the early spring crop are generally marketed as soon as the onions are harvested. The marketing seasons for these crops overlap;

(iv) Concurrent grade, size, quality, and maturity regulations under the two marketing orders are expected in future seasons, as in the past.

(2) Therefore it is hereby determined that:

Imports of onions during the August through approximately mid-March period are in most direct competition with the marketing of onions produced in designated counties in Idaho and in Malheur County, Oreg., covered by Order No. 958, as amended (7 CFR Part 958), and during the approximately mid-March through May period the marketing of imported onions is in most direct competition with onions produced in designated counties in South Texas covered by Order No. 959, as amended (7 CFR Part 959).

(b) Grade, size, quality, and maturity requirements.—On and after the effective date hereof no person may import onions as defined herein unless they are inspected and meet the following requirements:

(1) During the August through approximately mid-March period of each marketing year, whenever onions grown in designated counties in Idaho and Malheur County, Oreg., are regulated under Marketing Order No. 958, imported onions shall comply with the grade, size, quality, and maturity requirements imposed under that order.

(2) During the approximately mid-March through May period of each marketing year, whenever onions grown in designated counties in South Texas are regulated under Marketing Order No. 959, imported onions shall comply with the grade, size, quality

and maturity requirements imposed under that order.

(c) Minimum quantity exemption. Any importation which in the aggregate does not exceed 110 pounds (50 kilograms) may be imported without regard to the provisions of this section.

(d) Plant quarantine. Provisions of this section shall not supercede the restrictions or prohibitions on onions under the Plant Quarantine Act of 1912.

(e) Designation of governmental inspection service. The Federal or the Federal-State Inspection Service, Food Safety and Quality Service, U.S. Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality, and maturity of onions that are imported into the United States under the provisions of Section 8e of the act.

(f) Inspection and official inspection certificates.

(1) An official inspection certificate certifying the onions meet the U.S. import requirements for onions under section 8e (7 U.S.C. 608e-1), issued by a designated governmental inspection service and applicable to a specified lot is required on all imports of onions.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7 CFR Part 2851). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the onions will be imported.

Ports	Office	Advance notice (days)
All Texas points.	Officer-in-charge, 1301 West Expressway, Alamo, Tex. 78518. Phone 512-787-4091 or 512-787-8681.	1
All Arizona points.	Officer-in-charge, P.O. Box 1614, Nogales, Ariz. 85621. Phone 602-287-4783.	1
All California points.	Officer-in-charge, 784 South Central Ave., room 268, Los Angeles, Calif. 90021. Phone 213-688-2469.	3
All Hawaii points.	Officer-in-charge, P.O. Box 22159, Pawa Substation, Honolulu, Hawaii 96822. Phone 808-941-3071.	1

Ports	Office	Advance notice (days)
All Puerto Rico points.	Officer-in-charge, P.O. Box 9112, Santurce, P.R. 00906. Phone 809-783-2230 or 809-783-4118.	2
New York City, N.Y.	Officer-in-charge, room 28A, Hunts Point Market, Bronx, N.Y. 10474. Phone 212-991-7868 or 212-991-7868.	1
New Orleans, La.	Officer-in-charge, 5027 U.S. Postal Service Bldg., 701 Loyola Ave., New Orleans, La. 70113. Phone 504-589-6741 or 504-589-6742.	1
Miami, Fla.	Officer-in-charge, 1350 Northwest 12th Ave., room 530, Miami, Fla. 33136. Phone 305-324-6118 or 305-324-6117.	1
All other Florida points.	Officer-in-charge, P.O. Box 1232, Winter Haven, Fla. 33880. Phone 813-294-3511, extension 33.	1
All other points.	Chief, Fresh Products Branch, Fruit and Vegetable Quality Division, Food Safety and Quality Service, Washington, D.C. 20250. Phone 202-447-5870.	3

(4) Inspection certificates shall cover only the quantity of onions that is being imported at a particular port of entry by a particular importer.

(5) Each inspection certificate issued with respect to any onions to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection; (ii) the name of the shipper, or applicant; (iii) the commodity inspected; (iv) the quantity of the commodity covered by the certificate; (v) the principal identifying marks on the containers; (vi) the railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and (vii) the following statement, if the facts warrant: Meets import requirements of 7 U.S.C. 608e-1.

(g) Reconditioning prior to importation. Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of onions for the purpose of making it eligible for importation.

(h) Definitions. For the purpose of this section, "Onions" means all varieties of *Allium cepa* marketed dry, except dehydrated, canned, or frozen onions, pickling onions in brine, onion sets, green onions or braided red onions. The term "U.S. No. 2" shall have the same meaning as set forth in the U.S. Standards for Grades of Bermuda-Granex-Grano Type Onions (7 CFR 2851.3195-2851.3209), U.S. Standards for Grades of Creole Onions (7 CFR 2851.3955-2851.3970), or in the U.S. Standards for Grades of Onions Other Than Bermuda-Granex-Grano and Creole Types (7 CFR 2851.2830-2851.2854), whichever is applicable to the particular variety, and variations thereof specified in this section. The term "moderately cured" means the

onions are mature and are more nearly well cured than fairly well cured. "Importation" means release from custody of the U.S. Bureau of Customs.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: February 3, 1978, to become effective March 20, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[1977 Peanut Farm Stored Loan and Purchase Program Regs., Amdt. 1]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

1977 Peanut Farm Stored Loan and Purchase Program, Price Support Rate on Peanuts Containing Mold

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

Summary: The purpose of this rule is to establish the price support rate on peanuts containing *Aspergillus flavus* mold. This rule will permit farmers to obtain price support on such peanuts. This rule is needed in order to alleviate hardship to producers whose peanuts are affected by *Aspergillus flavus* mold.

EFFECTIVE DATE: February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Dalton Ustynik, ASCS, 202-447-6611, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: The price support rate of \$250 per ton is being established in order to save farmers producing peanuts containing *Aspergillus flavus* mold from disastrous losses on their 1977 crop peanuts. The mold problem is particularly acute in certain parts of the country. The threat of economic loss is forcing many farmers to have their peanuts inspected several times in order to pass inspection. The result is that, in some cases, peanuts containing mold are finding their way into edible peanut market channels due to sampling errors. Offering price support loans on peanuts containing mold at the announced loan rate will obviate this result, as the peanuts will be channeled into a separate category for

use as oil and byproducts. The price support rate of \$250 per ton is roughly equivalent to the normal value for these peanuts in those areas where the crushing and export market was active and maintains the normal price relationship between these peanuts and other peanuts.

It is essential that these provisions be made effective as soon as possible since farmers have harvested and are now obtaining loans on 1977 crop peanuts. Accordingly, it is hereby found and determined that compliance with notice of proposed rulemaking procedure would be impracticable and contrary to the public interest. Therefore, this amendment is being issued without compliance with such procedure.

7 CFR, Part 1421, Final Rule is amended as follows:

1. Paragraph (a) of § 1421.294 is amended in order to reflect loan and purchase rate for peanuts containing *Aspergillus flavus* mold to read as follows:

§ 1421.294 Loan and purchase rates.

(a) Loan rate. Subject to the discounts specified in paragraph (b) of this section, the loan rates for farmers' stock peanuts placed under farm stored loan shall be the following rates by types per ton:

Type:	Dollars per ton
Virginia.....	430
Runner.....	433
Southeast Spanish.....	417
Southwest Spanish.....	417
Valencia (suitable for cleaning and roasting in southwest).....	429
(2) Peanuts containing <i>Aspergillus flavus</i> mold.....	250

2. Section 1421.295 is amended in order to delete the provision that peanuts must be free of *Aspergillus flavus* mold, to read as follows:

§ 1421.295 Eligible peanuts.

Farmers' stock peanuts must meet the requirements of § 1421.282 of the continuing supplement.

(Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714b and c); secs. 101, 401, 403, and 405, 63 Stat. 1051, as amended (7 U.S.C. 1141, 1421, 1423, 1425).)

Signed at Washington, D.C., on February 2, 1978.

STEWART N. SMITH,
Acting Executive Vice President,
Commodity Credit Corporation.

[3410-05]

PART 1446—PEANUTS

1977 Crop Peanut Warehouse Storage Loans, Peanuts Containing Mold

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to delete the requirement that in order to be eligible for price support, peanuts must be free of *Aspergillus flavus* mold. This rule will permit farmers to obtain price support on such peanuts. This rule is needed in order to alleviate hardships to producers whose peanuts are affected by *Aspergillus flavus* mold.

EFFECTIVE DATE: February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Dalton Ustynik, ASCS, 202-447-6611, P.O. Box 2415, Washington, D.C., 20013.

SUPPLEMENTARY INFORMATION: A price support loan program for peanuts is being established in order to save farmers producing such peanuts, containing *Aspergillus flavus* mold, from disastrous losses on their 1977-crop peanuts. The mold problem is particularly acute in certain parts of the country. The threat of economic loss is forcing many farmers to have their peanuts inspected several times in order to pass inspection. The result is that, in some cases, peanuts containing mold are finding their way into edible peanut market channels due to sampling errors. Offering price support loans on peanuts containing mold at the announced loan rate will obviate this result as the peanuts will be channeled into a separate category for use as oil and by products.

It is essential that these provisions be made effective as soon as possible since farmers have harvested and are now obtaining loans on 1977 crop peanuts. Accordingly, it is hereby found and determined that compliance with the procedure for notice and public participation would be impracticable and contrary to the public interest. Therefore, this amendment is being issued without compliance with such procedure.

FINAL RULE

7 CFR, 1446.7 is amended by deleting subparagraph (7) of § 1446.7.

(Secs. 4 and 5, 62 Stat. 1070, as amended, (15 U.S.C. 714 b and c); secs. 101, 401, 63 Stat. 1051, as amended, (7 U.S.C. 1441, 1421).)

Signed at Washington, D.C., on February 2, 1978.

STEWART N. SMITH,
Acting Executive Vice President,
Commodity Credit Corporation.

[3410-05]

PART 1446—PEANUTS

1977 Crop Peanut Warehouse Storage Loan Supplement, Price Support Rate on Peanuts Containing Mold

AGENCY: Commodity Credit Corporation.

ACTION: Final rule.

SUMMARY: The purpose of this rule is to set forth the price support value of peanuts containing *Aspergillus flavus* mold. This rule is needed in order to make price support available on 1977 crop peanuts containing mold. This rule is necessary in order to alleviate hardship to producers whose peanuts are affected by *Aspergillus flavus* mold.

EFFECTIVE DATE: February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Dalton Ustynik, ASCS, 202-447-6611.

SUPPLEMENTARY INFORMATION: The price support rate of \$250 per ton is being established in order to save farmers producing peanuts containing *Aspergillus flavus* mold from disastrous losses on their 1977 crop peanuts. The mold problem is particularly acute in certain parts of the country. The threat of economic loss is forcing many farmers to have their peanuts inspected several times in order to pass inspection. The result is that, in some cases, peanuts containing mold are finding their way into edible peanut market channels due to sampling errors. Offering price support loans on peanuts containing mold at the announced loan rate will obviate this result, as the peanuts will be channeled into a separate category for use as oil and by products. The price support rate of \$250 per ton is roughly equivalent to the normal value for these peanuts in those areas where the crushing and export market was active and maintains the normal price relationship between these peanuts and other peanuts.

It is essential that these provisions be made effective as soon as possible since farmers have harvested and are now obtaining loans on 1977 crop peanuts. Accordingly, it is hereby found and determined that compliance with the procedure for notice and public participation is impracticable and contrary to the public interest. Therefore, this amendment is being issued without compliance with such procedure. Final rule, 7 CFR, Part 1446 is amended as follows:

1. Section 1446.11 is amended in order to show the support level for peanuts containing *Aspergillus flavus* mold to read as follows:

RULES AND REGULATIONS

§ 1446.11 Average support values by type.

The support values by type per average grade ton of 1977 crop peanuts are:

(a) Peanuts not containing *Aspergillus flavus* mold:

Type	Dollars per ton
Virginia	\$429.62
Runner	433.09
Spanish	417.05
Valencia, in the Southwest area suitable for cleaning and roasting	429.62

(b) Peanuts containing *Aspergillus flavus* mold, \$250.

2. Paragraph (j) of § 1446.12 is amended in order to provide that deductions for storage, handling, and inspection shall not be made for peanuts containing *Aspergillus flavus* mold, and paragraph (k) of § 1446.12 is added in order to provide a method of calculating the support value on peanuts containing *Aspergillus flavus* mold to read as follows:

§ 1446.12 Calculation of support values.

(j) *Deduction for storage, handling, and inspection.* Except for peanuts containing *Aspergillus flavus* mold, a deduction of \$20 per net ton will be made from the price support value to cover cost of storage, handling, and inspection.

(k) *Price support value of peanuts containing Aspergillus flavus mold.* Notwithstanding all other provisions of this subpart, the price support value for peanuts containing *Aspergillus flavus* mold shall be 17 cents per pound of kernels (total kernel content).

3. Section 1446.13 is amended in order to delete provisions that peanuts containing *Aspergillus flavus* mold are ineligible for price support to read as follows:

§ 1446.13 Peanuts containing *Aspergillus flavus* mold.

(a) *Background.* Peanuts, as they are marketed, are inspected by the Federal-State Inspection Service for visible *Aspergillus flavus* mold, a mold known to produce toxins. It is essential that stocks of peanuts which are sold for commercial purposes remain free from contamination by peanuts containing *Aspergillus flavus* mold. The adverse effect on the market for peanuts which would result from seizure or other Governmental action with respect to contaminated peanuts is readily apparent. The associations designated in § 1446.8 and parties to the Peanut Marketing Agreement are subject to strict limitations upon their marketing of peanuts which contain such mold. Therefore, as a condition to his eligibility for price support on peanuts of any crop, the producer

shall dispose of any lot of peanuts of such crop found by the Federal-State Inspection Service to have visible *Aspergillus flavus* mold (herein referred to as "any affected lot") in the manner prescribed in paragraph (b) of this section.

(b) *Disposition of affected peanuts.* Each producer obtaining price support shall either: (1) At the point of first inspection, sell any such affected lot to a signer of the Peanut Marketing Agreement or turn it over to the Association for marketing on his behalf, or (2) reclean any affected lot, or have it recleaned, for the purpose of removing loose shelled kernels and foreign material. If the producer elects to reclean the affected lot, or to have it recleaned, he will be given a copy of the Inspection Certificate and Sales Memorandum, Form MQ-94, which will show that visible mold was found. The producer shall return such copy, along with the affected lot it represents, to an inspector for a second inspection by the close of business on the next workday following the initial inspection. If visible mold is, upon second inspection, again found in the lot, the producer shall, at the point of second inspection, either sell the affected lot to a signer of the Peanut Marketing Agreement or turn it over to the Association for loan.

(c) *Liquidated damages.* In view of the circumstances set forth in paragraph (a) of this section, CCC may incur substantial damages to its program to support the price of peanuts if peanuts containing *Aspergillus flavus* mold are disposed of other than in accordance with the provisions of paragraph (b) of this section by a producer obtaining price support on peanuts of the same crop. The amount of such damages is difficult, if not impossible, to ascertain exactly. Therefore, the producer shall, with respect to any lot of peanuts which is placed under price support by a producer after he has disposed of any affected lot other than in the manner prescribed in paragraph (b) of this section, pay to CCC as liquidated damages and not as a penalty, seven cents (\$0.07) per net weight pound of such peanuts. The provisions of § 1446.4(h) relating to the producer's liability (aside from liability under criminal and civil frauds statutes) shall not be applicable to such peanuts.

(Secs. 4, 5, 62 Stat. 1070, as amended (15 U.S.C. 714 (b) and (c)); secs. 101, 401, 403, and 405, 63 Stat. 1051, as amended, (7 U.S.C., 1441, 1421, 1423, 1425).)

Signed at Washington, D.C., on February 2, 1978.

STEWART N. SMITH,
Acting Executive Vice President,
Commodity Credit Corporation.

RULES AND REGULATIONS

[3410-07]

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

Subchapter B—Loans and Grants primarily for Real Estate Purposes

[FmHA Instruction 444.1]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart A—Section 502 Rural Housing Loan Policies, Procedures and Authorizations

COMMUNITIES ELIGIBLE FOR ASSISTANCE

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulations regarding communities eligible for assistance. This action is being taken because an official census shows that the communities of Mount Vernon, Wash.; Guayama, P.R.; Claremont, N.H.; and Flat River, Elvins, Desloge, Rivermines, Leddington, Esther, Mo., are rural areas of 10,000-20,000 population. The intended effect of this action is to designate these communities as eligible for FmHA Rural Housing assistance.

EFFECTIVE DATE: February 9, 1978. Comments submitted on or before March 13, 1978, will be considered for future revisions.

ADDRESSES: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

Mr. Wesley Harris, Director, Single Family Housing Loan Division, phone 202-447-4295.

SUPPLEMENTARY INFORMATION: Exhibit G to Subpart A, Part 1822, Title 7, of the Code of Federal Regulations is amended. An official census has been taken which shows the community of Guayama, P.R., to have a population of 18,527, and determination has been made that Mount Vernon, Wash., has a population of 10,021; Claremont, N.H., has a population of 14,221 and the Flat River, Elvins, Desloge, Rivermines, Leddington, Esther, Mo., area has a total population of approximately 10,769. They are, therefore, eligible areas for Farmers Home Administration assistance determined by the Secretary of Agriculture. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for com-

ment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This amendment, however, is not published for proposed rulemaking since publishing for comment would delay these areas from becoming eligible for the financing they need and would thus be contrary to the public interest. The Farmers Home Administration nevertheless invites comments and requests that written comments be submitted to the office listed in the "Addresses" section of this document.

Accordingly, the additions to the list of towns in exhibit G are as follows:

Exhibit G [Amended]

Additions: The following places are added to Exhibit G, paragraph II as eligible areas:

Missouri: After "Carthage" add "Flat River, Elvins, Desloge, Rivermines, Leddington, Esther."

New Hampshire: After "Berlin" add "Claremont."

Puerto Rico: After "Fajardo" add "Guayama."

Washington: After "Moses Lake" add "Mount Vernon."

(42 U.S.C. 1480; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 30, 1978.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.
(FR Doc. 78-3734 Filed 2-8-78; 8:45 am)

[3410-07]

SUBCHAPTER I—LOANS AND GRANT PROGRAMS (INDIVIDUAL)

[FmHA Instruction 1904-C]

PART 1904—LOAN AND GRANT PROGRAMS (INDIVIDUAL)

Subpart C—Farmer Program Loans

DELETION OF REQUIREMENT CONCERNING REFINANCING

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulations to delete a requirement concerning refinancing. The intended effect of this action is to allow other Agency regulations regarding graduation to cover this requirement. This action is taken in an Agency effort to delete repetitive regulations.

EFFECTIVE DATE: February 9, 1978. FOR FURTHER INFORMATION CONTACT:

Reid E. Robison, Acting Director, Production Loan Division, 202-447-2288.

SUPPLEMENTARY INFORMATION: Section 1904.124(a)(1) of Subpart C, Part 1904, Chapter XVIII, Title 7, Code of Federal Regulations (42 FR 44672) is amended to delete the phrase "is unable to refinance the loan through another creditor" found in lines 12 and 13.

This requirement is already stated in FmHA's regulations regarding borrower graduation. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This amendment, however, is not published for proposed rulemaking since the purpose of the change is to delete a requirement which merely repeated a regulation published in FmHA's graduation regulations and there is not a resulting effect on the public. Publications for proposed rulemaking is, therefore, unnecessary.

Accordingly, § 1904.124 (a) (1) as amended reads as follows:

§ 1904.124 Renewal and reamortization.

(a) *Eligibility requirements.* (1) For OL and EM (made for operating purposes) loans the principal and interest balance on a loan note may be reamortized or renewed, as appropriate, when it is determined it will be in the best interest of the borrower and the Government to do so. The justification for the action being taken will be recorded in the running record of the borrower's case file and will include documentation that the borrower is making satisfactory progress under prevailing conditions, the need for the action is due to conditions beyond the borrower's control and the farm operating plan shows the borrower can reasonably expect to meet the revised payment schedule.

(7 U.S.C. 1989, sec. 10 Pub. L. 93-357, 88 Statute 392, delegation of authority by the Secretary of Agriculture, 7 CFR 2.23, delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 29, 1978.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

[FR Doc. 78-3735 Filed 2-8-78; 8:45 am]

[3410-07]

[FmHA Instruction 1904-C]

**PART 1904—LOAN AND GRANT PROGRAMS
(INDIVIDUAL)**

Subpart C—Farmer Program Loans

PAYMENT REQUIREMENTS

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) is revising repayment requirements in its farmer program loans. This change allows for deferred payments on new loans made to applicants such as young farmers, those with limited income and resources, or those who have had losses because of conditions beyond their control, or those with income too low for full payments because of depressed economic conditions.

This action will provide a deferred period for payment, not to exceed five years, which may be needed by loan applicants to generate sufficient income to meet full installments.

EFFECTIVE DATE: February 9, 1978.

ADDRESS: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

Carl O. Opstad, 202-447-4572.

SUPPLEMENTARY INFORMATION: The Farmers Home Administration is revising §§ 1904.170(e)(4), 1904.175(d)(1), and 1904.180(d)(2)(iii) of Subpart C, Part 1904, Chapter XVIII, Title 7 in the Code of Federal Regulations (42 FR 44668), to allow deferred loan payments under certain conditions. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts, shall be published for comment, notwithstanding the exceptions in 5 U.S.C. 553 with respect to such rules. This revision however, is not published for proposed rulemaking since many farmers are currently suf-

fering economic hardship and have an immediate need for this favorable servicing action and any delay in implementing this revision would thus be contrary to the public interest. Although this revision is published as a final rule, The Agency is interested in receiving comments which should be submitted to the address given above. Accordingly, §§ 1904.170(e)(4), 1904.175(d)(1), and 1904.180(d)(2)(iii) read as follows:

§ 1904.170 Emergency loans.

(e) Rates and terms. . . .

(4) *Deferment of installments.* Principal and interest payments (for EM loans other than the five subsequent annual operating loans) may be deferred in whole or in part up to five full crop years as appropriate, following the date of the note. However, the deferral will never extend beyond the final due date of the note.

(i) Deferments will generally apply to loans when:

(A) The productive capacity of the farm or the applicant's income has been adversely affected by a qualifying disaster, or

(B) The applicant is a young farmer or one with limited resources and income and his/her income situation is likely to improve in the future, or

(C) Economic conditions prevent full payments from being made.

(ii) Deferred payments may be authorized under the following conditions:

(A) The initial Farm and Home Plan and Business Analysis-Nonagricultural Enterprise, when appropriate, show installments cannot be paid during the deferred period; and

(B) A Long-Time Farm and Home Plan is prepared, when appropriate; and

(C) A typical Farm and Home Plan and Business Analysis-Nonagricultural Enterprise, when appropriate, for a full crop year following the deferred period indicates full installments can be paid under normal conditions; and

(D) Development and improvements have been provided for on Form FmHA 424-1, "Development Plan," when appropriate; and

(E) Provisions are made through use of the forms listed in (A), (B), (C), and (D) of this subdivision to finance the enterprises, development, and improvements with the FmHA loan or other sources, including cost-share programs (such as ASCS cost-share programs) when cost-share funds are available.

(iii) When payments of principal and interest are deferred in whole or in part, the repayment schedule as established at the end of the deferred period will contain both accrued interest and principal which will be amor-

tized over the balance of the years authorized. However, the applicant will be advised to make payments on the loan in accordance with his/her repayment ability, even though the deferment period has not expired.

§ 1904.175 Operating loans.

(d) Rates and terms. . . .

(1) Principal and interest payments may be deferred in whole or in part up to five years from the date of the note. However, not more than two January 1 installments will be deferred at any one time and the deferral will never extend beyond the final due date of the note. Bearing in mind these limitations, payments will be scheduled on the earliest date the Farm and Home Plan indicates full installments can be paid. Use of deferred payment authority will generally involve loans made to young farmers, applicants with limited income and resources, applicants who have had losses because of conditions beyond their control or when economic conditions prevent full payments.

(i) Deferred payments may be authorized under the following conditions:

(A) The initial Farm and Home Plan and Business Analysis-Nonagricultural Enterprise, when appropriate, show installments cannot be paid during the deferred period; and

(B) A Long-Time Farm and Home Plan is prepared, when appropriate; and

(C) A typical Farm and Home Plan and Business Analysis-Nonagricultural Enterprise, when appropriate, for a full crop year following the deferred period indicates full installments can be paid under normal conditions;

(ii) When payments of principal and interest are deferred in whole or in part the repayment schedule as established at the end of the deferred period will contain both accrued interest and principal which will be amortized over the balance of years authorized. However, the applicant will be advised to make payments on the loan in accordance with his/her repayment ability, even though the deferment period has not expired.

§ 1904.180 Individual Farm Ownership (FO), Soil and Water (SW), and Recreation Loans (RL).

(d) Rates and terms. . . .

(2)

(iii) Principal and interest payments may be deferred in whole or in part up

to five full crop years from the date of the note. However, the deferral will never extend beyond the final due date of the note. Bearing in mind these limitations, payments will be scheduled on the earliest date the Farm and Home Plan indicates full installments can be paid. Use of deferred payment authority will generally involve loans made to young farmers, applicants with limited income and resources, applicants who have had losses because of conditions beyond their control or when economic conditions prevent full payments.

(A) Deferred payments may be authorized under the following conditions:

(1) The initial Farm and Home Plan and Business Analysis-Nonagricultural Enterprise, when appropriate, show installments cannot be paid during the deferred period; and

(2) A Long-Time Farm and Home Plan is prepared; and

(3) A typical Farm and Home Plan and Business Analysis-Nonagricultural Enterprise, when appropriate, for a full crop year following the deferred period indicates full installments can be paid under normal conditions, and

(4) Development and improvements have been provided for on Form FmHA 424-1; and

(5) Provisions are made through use of the forms listed in (1), (2), (3), and (4) of this subdivision (iii)(A) to finance the enterprises, development, and improvements with the FmHA loan(s) or other sources, including cost-share programs (such as ASCS cost-share programs) when cost-share funds are available.

(B) When payments of principal and interest are deferred in whole or in part, the repayment schedule as established at the end of the deferred period will contain both accrued interest and principal which will be amortized over the balance of years authorized. However, the applicant will be advised to make payments on the loan in accordance with his/her repayment ability, even though the deferment period has not expired.

(7 U.S.C. 1989 delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

NOTE.—The Farmers Home Administration has determined that the document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 31, 1978.

GORDON CAVANAUGH,
Administrator, Farmers
Home Administration.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 17569, Amdt. 39-3137]

PART 39—AIRWORTHINESS DIRECTIVES

Mitsubishi Model MU-2B Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which supersedes an existing AD applicable to Mitsubishi Model MU-2B series airplane with defective cowlings between the engine nacelle upper door and side doors. It requires the removal of the existing latch links and the installation of new high strength links. The AD is needed to prevent separation of the upper cowl panel and possible loss of control of the airplane.

DATES: Effective February 23, 1978. Compliance required within the next 25 hours time in service after the effective date of this AD, unless already accomplished.

ADDRESSES: The applicable service bulletin may be obtained from Mitsubishi Heavy Industries, Ltd., Nagoya Aircraft Works, 10, Oye-cho, Minato-ku, Nagoya, Japan. A copy of the service bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Gary K. Nakagawa, Chief, Engineering and Manufacturing District Office, APC-210, Pacific-Asia Region, Federal Aviation Administration, P.O. Box 4009, Honolulu, Hawaii 96813; telephone 808-546-8650.

SUPPLEMENTARY INFORMATION: This AD supersedes Amendment 39-2695 (41 FR 34009), AD 76-16-05, which requires inspection and modification, as necessary, of the cowlings between the engine nacelle upper door and side doors on certain Mitsubishi MU-2B series airplanes. After issuing AD 76-16-05, the FAA in coordination with the Japan Civil Aviation Bureau (JCAB) and the manufacturer, Mitsubishi Heavy Industries, Ltd. (MHI), has determined, based on service experience, that a new high strength latch link is necessary, and further, that the reasons for issuing AD 76-16-05 are also applicable to additional model and serial numbered airplanes. Therefore, AD 76-16-05, Amendment 39-2695, is being superseded by a new AD which requires the

removal of the existing latch link and the installation of a new high strength link, P/N 016A-13322-3 and, additionally to make the AD applicable to certain serial numbered MU-2B-26 and MU-2B-36 model airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

The principal authors of the document are G. K. Nakagawa, Pacific-Asia Region; F. Kelley, Flight Standards Service, and P. Lynch, Office of the Chief Counsel.

ADOPTION OF AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

MITSUBISHI HEAVY INDUSTRIES, LTD. Applies to models MU-2B, MU-2B-10, MU-2B-15, MU-2B-20, MU-2B-25 and MU-2B-26 airplanes with serial numbers up through and including 347 except 313 and 321 and models MU-2B-30, MU-2B-35, and MU-2B-36 airplanes with serial numbers up through and including 696 except 652 and 661.

NOTE.—This AD is not applicable to MU-2B series airplanes having serial numbers with the suffix "SA."

Compliance is required as indicated. To prevent failure of the cowlings between the engine nacelle upper door and side doors, subsequent separation of the upper cowl panel, and possible loss of control of the airplane, accomplish the following:

Within the next 25 hours time in service after the effective date of this AD, unless already accomplished, replace the cowlings latch links between the engine nacelle upper door and side doors in accordance with the instructions contained in Mitsubishi MU-2 Service Bulletin No. 171A dated July 14, 1975, as supplemented by Mitsubishi MU-2 Service Bulletin No. 180 dated August 26, 1977, or Mitsubishi Service Bulletin No. 180A dated November 17, 1977, or an FAA-approved equivalent, approved by the Chief, Engineering and Manufacturing District Office, FAA, Pacific-Asia Region, Honolulu, Hawaii.

This supersedes amendment 39-2695 (41 FR 34009), AD 76-16-05.

This amendment becomes effective February 23, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1555(c); and 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 30, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.
[FR Doc. 78-3651 Filed 2-8-78; 8:45 am]

[4910-13]

[Docket No. 17568; Amdt. 39-3138]

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corp., Ltd., Viscount Model 744, 745D, and 810 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts an amendment to an existing airworthiness directive (AD) which requires inspections to detect failed rivets and repair, as necessary, the cockpit direct vision windows on Viscount Model 744, 745D, and 810 series airplanes to prevent the loss of these cockpit windows and cabin pressurization.

DATES: Effective February 23, 1978. Compliance required as indicated.

ADDRESSES: The applicable service bulletin may be obtained from: British Aircraft Corp., Ltd., Commercial Aircraft Division, Brooklands Road, Weybridge, Surrey, England. A copy of the service bulletin is contained in the Rules Docket, Rm. 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, Telephone 513.38.30.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to adopt an amendment to an existing airworthiness directive requiring inspections to detect failed rivets and repair, as necessary, the cockpit direct vision windows on Viscount Model 744, 745D, and 810 series airplanes to prevent the loss of these cockpit windows and cabin pressurization, was published in the FEDERAL REGISTER at 42 FR 38386 on July 28, 1977. The proposal was prompted by the determination that an additional area of the fuselage be added to the overall fuselage life inspections required for the subject aircraft.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received. Accordingly, the proposal is adopted without change.

The principal authors of this document are D. C. Jacobsen, Chief,

Europe, Africa, and Middle East Region, F. Kelley, Flight Standards Service, and K. May, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-129 (30 FR 11169), AD65-20-4, as amended by Amendments 39-2283 (40 FR 31595) and 39-2760 (41 FR 48511) is amended by redesignating paragraph (j) as paragraph (k) and adding a new paragraph (j) as follows:

BRITISH AIRCRAFT CORPORATION, LTD. Applies to Viscount Model 744, 745D, and 810 series airplanes.

(j) Cockpit window structure—section 10—rivets in the direct vision window area, located at the bottom rear corner from Stn. 102 to Stn. 108 at both Port and Starboard positions. Compliance is required as indicated in BAC PTL No. 221, Issue 8, or BAC PTL No. 94, Issue 8, as applicable, or an FAA-approved equivalent, within the next 2000 landings after the effective date of the Amendment or prior to the accumulation of 20,000 landings, whichever occurs later, and thereafter at intervals not to exceed 4,000 landings since the last compliance.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 30, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc. 78-3652 Filed 2-8-78; 8:45 am]

[4910-13]

[Docket No. 77-WE-39-AD; Amdt. 39-3135]

PART 39—AIRWORTHINESS DIRECTIVES

Ted Smith Aerostar Models 600, 601, and 601P Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing airworthiness directive (AD) applicable to Ted Smith Aerostar Model 600 Series airplanes by deleting the time in service criterion for accomplishment of a low fuel level warning light installation.

DATES: Effective February 13, 1978. Compliance schedule: As prescribed in the body of the AD.

ADDRESSES: The applicable service bulletin may be obtained from: Ted Smith Aerostar, Customer Service Department, 2560 Skyway Drive, Santa Maria, Calif. 93454. Copies of the AFM changes, placard and low fuel level warning light installation instructions and appropriate service bulletins are contained in: Rules Docket in Room 916, FAA, 800 Independence Avenue, SW., Washington, D.C. 20591, or Rules Docket in Room 6W14, FAA Western Region, 15000 Aviation Boulevard, Hawthorne, Calif. 90261.

FOR FURTHER INFORMATION CONTACT:

Kyle Olsen, Executive Secretary, Airworthiness Directives Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. Telephone: 213-536-6351.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39-3103 (42 FR 64111), AD 77-26-04 which currently requires the installation of a low fuel level warning light on Ted Smith Aircraft Model 600 Series airplanes within the next 100 hours time in service or 90 days from December 30, 1977, whichever occurs first.

The FAA considered that Amendment 39-3103 presented a reasonable balance of compliance time and exposure period. Subsequent to the issuance of Amendment 39-3103 the FAA has learned that certain operators of Ted Smith Aircraft Model 600 Series airplanes are achieving considerably higher utilization rates than were assumed in the drafting of Amendment 39-3103, thus creating a scheduling problem and potential economic burden.

The FAA now believes that the necessary level of safety can be maintained by maintaining the ninety day criterion and that the potential economic burden may be minimized by deleting the criterion relating to time in service.

Therefore the FAA is amending Amendment 39-3103 by deleting from Paragraph (b) all reference to hours time in service.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedures herein are unnecessary and the amendment may be made effective in less than 30 days.

DRAFTING INFORMATION

The principal authors of this document are Donald W. Watt, Aircraft Engineering Division, and Mark T. McDermott, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) Amendment 39-3103 (42 FR 64111), AD 77-26-04 is revised by amending Paragraph (b) to read:

(b) Within 90 days from December 30, 1977, install a low level fuel warning light in accordance with Ted Smith Aerostar Service Bulletin 600-71 dated December 12, 1977, or later FAA approved revision.

This amendment becomes effective February 13, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, Calif., on January 27, 1978.

FRANK HAPPY,
Acting Director,
FAA Western Region.

[FR Doc. 78-3656 Filed 2-8-78; 8:45 am]

[4910-13]

[Docket No. 77-NW-27-AD, Amdt. 39-3136]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 707 -100, -100B, and -200 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This airworthiness directive (AD) establishes repetitive inspection requirements for the upper rear spar chord horizontal leg and adjacent wing skin areas on Boeing Model 707 -100, -100B, and -200 series airplanes. It supersedes a previous AD which required a one-time inspection of the same areas.

DATE: Effective date: March 1, 1978.

ADDRESSES: Boeing service bulletins specified in this directive may be obtained upon request to the Boeing Commercial Airplane Co., P.O. Box 3707, Seattle, Wash. 98124. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108.

FOR FURTHER INFORMATION CONTACT:

Harold N. Wantiez, Airframe Section, ANW-212, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108, telephone 206-767-2516.

SUPPLEMENTARY INFORMATION: An NPRM (42 FR 57968) was issued which requested comments concerning the need for repetitive inspections on AD 77-06-03. Originally AD 77-06-03 required a one-time inspection of upper wing skin near the rear spar chord horizontal leg inboard of WS269. One comment was received which agreed with the need for continued inspections but requested that the time interval between inspections be extended to 1,500 landings instead of the proposed 1,000 landings. This request was based on the fact that out of 17 aircraft inspected by one operator, with over 20,000 total landings, only 4 spar cracks and 3 skin cracks were found and all the skin cracks were within the 750 landing deferral period. It was felt that 1,000 landing inspection interval would be unduly restrictive. Since the failsafe capability of the airplane is not compromised, the FAA agrees and the repetitive inspection interval has been extended to 1,500 landings.

DRAFTING INFORMATION

The principal authors of this document are Harold N. Wantiez, Engineering and Manufacturing Branch, Northwest Region, and Jonathan Howe, Regional Counsel, Northwest Region.

THE PROPOSED AMENDMENT

Accordingly, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended as follows:

BOEING: Applies to all Boeing 707-100/-100B/-200 series airplanes, certificated in all categories upon the accumulation of 20,000 landings.

Accomplish the following:

A. Within the next 750 landings, unless accomplished within the last 750 landings, and thereafter at intervals not to exceed 1,500 landings, X-ray inspect the upper rear spar chord horizontal leg and adjacent wing skin from the side of the body at BBL 70.5 to WS274 in accordance with Boeing Service Bulletin 3304, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. Wing skins or rear spar chords found cracked are to be repaired prior to further flight in accordance with paragraph B.

B. Repair in accordance with 1 or 2 below as applicable, prior to further flight except that the airplane may be flown in accordance with FAR 21.197 to a base where the repair can be performed:

1. Airplanes with skin cracks near the rear spar which do not extend beyond the fastener pattern of stringer No. 1 may continue in service for a maximum of 750 additional landings, subject to the following conditions:

(a) Crack ends must be stop drilled per Boeing Service Bulletin 3304.

(b) If crack ends in a fastener hole, the hole must be inspected per Boeing Service Bulletin 3304 to assure there is no crack

progression beyond fastener hole, then an additional 1/4" oversize must be made and an oversize fastener installed.

(c) Eddy current inspection per Boeing Service Bulletin 3304 of crack ends must be conducted at intervals not to exceed 50 landings. Any crack progression requires repair in accordance with 2 below prior to further flight.

(d) Cracks must be permanently repaired within 750 landings in accordance with 2 below.

2. Repair in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

C. For the purpose of complying with this AD, subject to acceptance by the assigned FAA maintenance inspector, the number of landings may be determined by dividing each airplane's hours time-in-service by the operator's fleet average from takeoff to landing for the airplane type.

This AD supersedes AD 77-06-03.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer, may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Wash. 98124. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108.

This amendment becomes effective March 1, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring the preparation of an economic impact statement under Executive Order 11821 as amended by Executive Order 11949, and OMB Circular A107.

Issued in Seattle, Wash., on January 31, 1978.

C. B. WALK, Jr.,
Director, Northwest Region.

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

[FR Doc. 78-3657 Filed 2-8-78; 8:45 am]

[4910-13]

[Docket No. 76-SO-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Manteo, N.C., Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule alters the existing 700-foot transition area in the vicinity of Manteo, N.C. It will lower the base of controlled airspace from 1200 to 700 feet above ground level. This

action provides necessary controlled airspace for accommodation of instrument flight rule (IFR) operations at the Manteo Airport.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

ADDRESS: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

C. Herman Thompson, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320; telephone 404-763-7648.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the *FEDERAL REGISTER* on February 26, 1976 (41 FR 8391) which proposed altering the Manteo, N.C., 700-foot transition area. The transition area is required to provide controlled airspace for aircraft executing a new NDB approach procedure to runway at the Manteo Airport.

The Department of the Air Force objected to the proposed transition area and the associated instrument approach procedure because it would infringe on the boundaries of a highly used Air Force/Navy Restricted Area, R-5314. The Department of the Navy strongly objected to the establishment and use of the NDB, Runway 4, approach to Manteo, N.C., and the proposed transition area because of the unacceptable encroachment it would have upon the Dare County target complex designated as Restricted Area, R-5314.

The objections received are not valid because the instrument approach procedure associated with the transition area is not authorized when Restricted Area R-5314 is in use. Therefore, there will be no impact upon the utilization of this airspace.

DRAFTING INFORMATION

The principal authors of this document are C. Herman Thompson, Airspace and Procedures Branch, Air Traffic Division, and Eddie L. Thomas, Office of Regional Counsel, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320.

ADOPTION OF AMENDMENT

Accordingly, Subpart G of Part 71, § 71.181, of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective 0901 G.m.t., March 23, 1978, by altering the Manteo, N.C., transition area as follows: "• • • 343° bearing • • •" would be deleted and "• • • 229° and 343° bearings • • •" would be substituted therefor and "• • • north of the RBN." would be deleted and "• • • southwest and north of the RBN." would be substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); sec. 6(c), De-

partment of Transportation Act (49 U.S.C. 1655(c)).

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in East Point, Ga., on January 27, 1978.

GEORGE R. LACAILLE,
Acting Director,
Southern Region.

(Docket No. 77-SO-58)

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Dayton, Tenn., Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule designates a 700-foot transition area in the vicinity of Dayton, Tenn. It will lower the base of controlled airspace from 1,200 to 700 feet above ground level. This action provides necessary controlled airspace for accommodation of instrument flight rules (IFR) operations at the Mark Anton Airport.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

ADDRESS: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

Ronald T. Niklasson, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320; telephone 404-763-7646.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the *FEDERAL REGISTER* on November 25, 1977, (42 FR 60161) which proposed the designation of the Dayton, Tenn., 700-foot transition area. No objections were received from this notice.

DRAFTING INFORMATION

The principal authors of this document are Ronald T. Niklasson, Airspace and Procedures Branch, Air Traffic Division, and Eddie L. Thomas, Office of Regional Counsel.

ADOPTION OF AMENDMENT

Accordingly, Subpart G of Part 71, § 71.181, of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective 0901 G.m.t., March 23, 1978, by adding the following:

DAYTON, TENN.

That airspace extending upward from 700 feet above the surface within a 14.5-mile radius of the Mark Anton Airport (lat. 35°29'09" N., long. 84°55'58" W.) excluding the portions that coincide with the Athens, Tenn., and Chattanooga, Tenn., transition areas.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in East Point, Ga., on January 27, 1978.

GEORGE R. LACAILLE,
Acting Director,
Southern Region.

(IFR Doc. 78-3654 Filed 2-8-78; 8:45 am)

[4910-13]

(Docket No. 77-SO-38)

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Mocksville, N.C., Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule designates a 700-foot transition area in the vicinity of Mocksville, N.C. It will lower the base of controlled airspace from 1,200 to 700 feet above ground level. This action provides necessary controlled airspace for accommodation of instrument flight rules (IFR) operations at the Twin Lakes Airport.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

ADDRESS: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

C. Herman Thompson, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320; telephone 404-763-7646.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking was published in the *FEDERAL REGISTER* on October 3, 1977 (42 FR 53632) which proposed the designation of the Mocksville, N.C., 700-foot transition area. The transition area is required to provide controlled airspace for aircraft executing a new NDB approach procedure to the runway at the Twin Lakes Airport.

SUMMARY: This amendment alters the Latrobe, Pa., and Wrightstown, N.J., transition areas and Latrobe, Pa., and Lakehurst, N.J., control zones by changing the reference to the Latrobe Airport and Naval Air Station Lakehurst, to Westmoreland County Airport and Naval Air Engineering Center (NAEC) Lakehurst respectively.

EFFECTIVE DATE: 0901 G.m.t., February 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank Trent, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 212-995-3391.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subparts F and G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to alter the subject control zones and transition areas. The rule resulted from a change in the name of the referenced airports.

The change in name is editorial and will impose no additional burden on any person and thus notice or public procedure hereon are unnecessary, and good cause exists for making the amendment effective in less than 30 days.

DRAFTING INFORMATION

The principal authors of this document are Frank Trent, Air Traffic Division, and Thomas C. Halloran, Esq., Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subparts F and G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective 0901 G.m.t., February 23, 1978, as follows:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to amend the description of the Latrobe, Pa. control zone by deleting, "Latrobe Airport" wherever it appears and by inserting, "Westmoreland County Airport," in lieu thereof.

2. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to amend the description of the Lakehurst, N.J. control zone by deleting, "NAS Lakehurst" and by inserting, "NAEC Lakehurst," in lieu thereof.

3. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to amend the description of the Latrobe, Pa. 700 foot floor transition area by deleting, "Latrobe Airport" wherever it appears and by inserting "Westmoreland County Airport," in lieu thereof.

4. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to

amend the description of the Wrightstown, N.J. 700 foot floor transition area by deleting, "NAS Lakehurst" and by inserting, "NAEC Lakehurst" in lieu thereof.

(Sec. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(c)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.69.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Jamaica, N.Y., on January 26, 1978.

L. J. CARDINALI,
Acting Director, Eastern Region.

(IFR Doc. 78-3658 Filed 2-8-78; 8:45 am)

[4910-13]

(Airspace Docket No. 77-SW-63)

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area: Waring, Tex.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This designates a transition area to provide controlled airspace for aircraft executing an RNAV instrument approach procedure to Rust Airport using the San Antonio VORTAC. Coincident with this action, the airport is changed from VFR to IFR.

EFFECTIVE DATE: May 18, 1978.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION:

HISTORY

On November 28, 1977, a notice of proposed rulemaking was published in the *FEDERAL REGISTER* (42 FR 60570) stating that the Federal Aviation Administration proposed to designate the Waring, Tex., transition area. Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the Federal Aviation Administration. All comments received were favorable.

THE RULE

This amendment to Subpart G of Part 71 of the Federal Aviation Regu-

lations (14 CFR Part 71) designates the Waring, Tex., transition area. This action provides controlled airspace from 700 feet above the ground for the protection of aircraft executing the RNAV instrument approach procedure to the Rust Airport.

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) is amended, effective 0901 G.m.t., May 18, 1978 as follows:

In Subpart G, 71.181 (43 FR 440), the following transition area is added:

WARING, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Rust Airport (latitude 29°57'25" N., longitude 98°45'25" W.) and within 2.5 miles either side of the 180° bearing from the runway 35 reference point, latitude 29°57'14" N., longitude 98°47'25" W.) extending 3 miles from the 5-mile radius, excluding that portion which overlies the San Antonio, Tex., transition area.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on January 31, 1978.

PAUL J. BAKER,
Acting Director,
Southwest Region.

[4910-13]

[Airspace Docket No. 77-NE-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Federal Airways and Jet Routes; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: In a rule published in the FEDERAL REGISTER of January 26, 1978, Volume 43, page 3553, the Martha's Vineyard 273° radial and the Kenne-

bunk 181° radial were incorrectly stated in the amendatory paragraph to § 71.123 on page 3554. This correction reflects the correct radial of Martha's Vineyard as 272° and Kennebunk as 180°.

EFFECTIVE DATE: February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION: FR Doc. 78-2180 was published on January 26, 1978, (43 FR 3553) with an effective date of March 23, 1978, and realigned a segment of V-130 via the INT of Norwich, Conn., 120° and Martha's Vineyard, Mass., 273° radials; and extended V-451 via INT Whitman, Mass., 041° and Kennebunk, Maine, 181° radials; INT Kennebunk 181° and Brunswick, Maine, 211° radials; Brunswick, Incorrect radials from Martha's Vineyard and Kennebunk were inadvertently published. The correct radials should have been Martha's Vineyard 272° and Kennebunk 180°. Action is taken herein to correct this error.

DRAFTING INFORMATION

The principal authors of this document are Mr. Richard Huff, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, FR Doc. 78-2180, appearing at page 3553 in the FEDERAL REGISTER of January 26, 1978, the amendatory language to § 71.123 appearing on page 3554, in the first column, under the paragraph entitled, "Adoption of the Amendment" is corrected by deleting the third line of V-130 and substituting "and Martha's Vineyard, Mass., 272° radials;" therefor, and deleting the third line of V-451 and substituting "Maine, 180° radials; INT Kennebunk 180°" therefor.

(Secs. 307(a), 313(a), 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a) and 1510); Executive Order 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on February 3, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[4910-13]

[Docket No. 17570; Amdt. No. 1104]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

FOR EXAMINATION

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591;
2. The FAA Regional Office of the region in which the affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

FOR PURCHASE

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue SW., Washington, D.C. 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

BY SUBSCRIPTION

Copies of all SIAPs, mailed once every 2 weeks, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Wash-

ington, D.C. 20402. The annual subscription price is \$135.00.

FOR FURTHER INFORMATION CONTACT:

William L. Bersch, Flight Procedures and Airspace Branch (AFS-730), Aircraft Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the FEDERAL REGISTER expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for

Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The principal authors of this document are Rudolph L. Floretti, Flight Standards Service, and Richard W. Danforth, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective on the dates specified, as follows:

1. By amending 97.23 VOR-VOR/DME SIAPs identified as follows:

• • • Effective April 6, 1978:

Jacksonville, FL—Craig Muni, VOR Rwy 13, Amdt. 2
Twin Falls, ID—Twin Falls City-County (Joslin Field), VOR/DME Rwy 7, Original
Howell, MI—Livingston County, VOR Rwy 31, Amdt. 3
Astoria, OR—Clatsop County, VOR Rwy 7, Amdt. 9
Knoxville, TN—Downtown Island, VOR-A, Amdt. 2
Knoxville, TN—Downtown Island, VOR/DME-B, Amdt. 1

• • • Effective March 23, 1978:

Oxnard, CA—Oxnard, VOR Rwy 7, Amdt. 8
Santa Barbara, CA—Santa Barbara Municipal, VOR/DME Rwy 25, Amdt. 1
Homerville, GA—Homerville, VOR/DME-A, Original
Sioux City, IA—Sioux City Muni, VOR/DME Rwy 13 (TAC), Amdt. 13
Sioux City, IA—Sioux City Muni, VOR Rwy 31 (TAC), Amdt. 21
West Union, IA—George L. Scott Muni, VOR/DME-A, Original
Patterson, LA—Harry P. Williams Memorial, VOR/DME-A, Amdt. 6
Raeeford, NC—Raeeford Muni, VOR/DME-A, Original
Dumas, TX—Dumas Municipal, VOR/DME-A, Original

• • • Effective March 9, 1978:

Georgetown, TX—Georgetown Municipal, VOR/DME Rwy 35, Amdt. 3, cancelled
• • • Effective February 23, 1978:

Visalia, CA—Visalia Muni, VOR Rwy 30, Amdt. 3, cancelled
Visalia, CA—Visalia Muni, VOR/DME Rwy 30, Original
Dubuque, IA—Dubuque Muni, VOR Rwy 13, Amdt. 6
Dubuque, IA—Dubuque Muni, VOR Rwy 31, Amdt. 9
Dubuque, IA—Dubuque Muni, VOR Rwy 36, Amdt. 2

Mason City, IA—Mason City Muni, VOR Rwy 35 (TAC), Amdt. 1
Mason City, IA—Mason City Muni, VOR/DME Rwy 17 (TAC), Original
Mason City, IA—Mason City Muni, VORTAC Rwy 17, Amdt. 7, cancelled
Waterloo, IA—Waterloo Muni, VOR Rwy 12, Amdt. 6
Waterloo, IA—Waterloo Muni, VOR/DME Rwy 30 (TAC), Amdt. 11
Lubbock, TX—Lubbock International, VOR-A, Amdt. 4
Lubbock, TX—Lubbock International, VOR/DME Rwy 26 (TAC), Amdt. 5

• • • Effective February 9, 1978:

Deland, FL—Deland Muni/Sidney H. Taylor Field, VOR-A, Amdt. 3

• • • Effective January 27, 1978:

Coatesville, PA—Chester County, G. O. Carlson, VOR Rwy 29, Amdt. 3

NOTE.—The FAA published an amendment in Docket No. 17555, Amdt. No. 1103 to Part 97 of the Federal Aviation Regulations (Vol. 43 FR No. 18 Page 3555; January 26, 1978) under § 97.23 effective March 9, 1978, which is hereby amended as follows: By deleting Minneapolis, MN—Minneapolis-St. Paul Intl. Wold-Chamberlain, RNAV Rwy 29R Amdt. 3 from § 97.23 and adding the above procedure to § 97.23 with an effective date of March 9, 1978.

2. By amending 97.25 SDF-LOC-LDA SIAPs identified as follows:

• • • Effective April 6, 1978:

Akron, OH—Akron Municipal, LOC Rwy 25, Amdt. 8
• • • Effective March 23, 1978:
Sioux City, IA—Sioux City Muni, LOC(BC) Rwy 13, Amdt. 16
Tyler, TX—Pounds Field, LOC BC Rwy 31, Amdt. 13

• • • Effective February 23, 1978:

Visalia, CA—Visalia Muni, LOC/DME Rwy 30, Original, cancelled
Dubuque, IA—Dubuque Muni, LOC/DME BC Rwy 13, Amdt. 2
Mason City, IA—Mason City Muni, LOC/DME BC Rwy 17, Amdt. 2
Waterloo, IA—Waterloo Muni, LOC/DME BC Rwy 30, Amdt. 4
Norwood, MA—Norwood Memorial, LOC Rwy 35, Original
Norwood, MA—Norwood Memorial, SDF Rwy 35, Amdt. 3, cancelled
Lubbock, TX—Lubbock International, LOC BC Rwy 35L, Amdt. 7

3. By amending 97.27 NDB/ADF SIAPs identified as follows:

• • • Effective April 6, 1978:

Sedona, AZ—Sedona, NDB-A, Amdt. 2
Twin Falls, ID—Twin Falls City-County (Joslin Field), NDB Rwy 25, Amdt. 4
Greenville, ME—Greenville Muni, NDB Rwy 3, Amdt. 3
Boyne Falls, MI—Boyne Mountain, NDB Rwy 35, Amdt. 1
Akron, OH—Akron Municipal, NDB Rwy 25, Amdt. 8
Marysville, OH—Union County, NDB Rwy 27, Amdt. 1
Blackstone, VA—Blackstone AAF-Allen C. Perkinson Muni, NDB-A, Amdt. 7

• • • Effective March 23, 1978

Alturas, CA—Alturas Municipal, NDB Rwy 31, Original

Sioux City, IA—Sioux City Muni, NDB Rwy 13, Amdt. 12
Sioux City, IA—Sioux City Muni, NDB Rwy 31, Amdt. 19
Cuba, MO—Cuba Muni, NDB Rwy 18, Original
Cuba, MO—Cuba Muni, NDB Rwy 36, Original
Tyler, TX—Pounds Field, NDB Rwy 13, Amdt. 10

• • • Effective February 23, 1978:

Dubuque, IA—Dubuque Muni, NDB Rwy 31, Amdt. 6
Mason City, IA—Mason City Muni, NDB Rwy 35, Amdt. 2
Waterloo, IA—Waterloo Muni, NDB Rwy 12, Amdt. 5
Norwood, MA—Norwood Memorial, NDB Rwy 35, Amdt. 4, canceled
Norwood, MA—Norwood Memorial, NDB Rwy 35, Original
Lubbock, TX—Lubbock International, NDB Rwy 8, Amdt. 1

Mason City, IA—Mason City Muni, ILS Rwy 35, Amdt. 2
Lubbock, TX—Lubbock International, ILS Rwy 17R, Amdt. 13

5. By amending 97.31 RADAR SIAPs identified as follows:

• • • Effective April 6, 1978:

Colorado Springs, CO—City of Colorado Springs Muni, RADAR-1, Amdt. 15
Jacksonville, FL—Craig Muni, RADAR-1, Amdt. 2
New Smyrna Beach, FL—New Smyrna Beach Muni, RADAR-1, Amdt. 1
Saginaw, MI—Tri City, RADAR-1, Amdt. 3

• • • Effective March 23, 1978:

Wetumpka, AL—Wetumpka Muni, RADAR-1, Original

• • • Effective February 23, 1978:

Lubbock, TX—Lubbock International, RADAR-1, Amdt. 4

6. By amending 97.33 RNAV SIAPs identified as follows:

• • • Effective March 23, 1978:

Sioux City, IA—Sioux City Muni, RNAV Rwy 17, Original
Sioux City, IA—Sioux City Muni, RNAV Rwy 35, Amdt. 2

• • • Effective February 23, 1978:

Dubuque, IA—Dubuque Muni, RNAV Rwy 38, Amdt. 2
Mason City, IA—Mason City Muni, RNAV Rwy 30, Amdt. 3
Lubbock, TX—Lubbock International, RNAV Rwy 8, Amdt. 1
Lubbock, TX—Lubbock International, RNAV Rwy 26, Amdt. 1

(Secs. 307, 313(a), 601, 1110, Federal Aviation Act of 1958 (49 U.S.C. 1349, 1354(a), 1421, 1510); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Delegation: 25 FR 6489 and Paragraph 802 of Order FS P 1100.1, as amended March 9, 1973.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11945, and OMB Circular A-107.

Issued in Washington, D.C., on February 3, 1978.

JAMES M. VINES,
Chief,
Aircraft Programs Division.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on May 12, 1969.

Title 15—Commerce and Foreign Trade

CHAPTER III—INDUSTRY AND TRADE ADMINISTRATION, BUREAU OF TRADE REGULATION, DEPARTMENT OF COMMERCE

PART 369—RESTRICTIVE TRADE PRACTICES OR BOYCOTTS

Interim Reporting Guidelines; Final Rules; Correction

AGENCY: Industry and Trade Administration (formerly Domestic and International Business Administration), Bureau of Trade Regulation, Department of Commerce.

ACTION: Interim Reporting Guidelines and Final Rules; Correction.

SUMMARY: There are provided in this document interim guidelines for the filing of boycott reports pursuant to Title 15, Chapter III, Code of Federal Regulations, Part 369. See Supplementary Information. This document also corrects the amendatory language that appeared in the final regulations on restrictive trade practices or boycotts which were published on January 25, 1978, at 43 FR 3508.

FOR ADDITIONAL INFORMATION CONTACT:

Vincent J. Rocque, telephone 202-377-5491, or Kent N. Knowles, telephone 202-377-2512.

SUPPLEMENTARY INFORMATION: Department of Commerce final regulations concerning restrictive trade practices or boycotts, Title 15, CFR Chapter III, Part 369, were published in the FEDERAL REGISTER on January 25, 1978 (43 FR 3508). Pursuant to those regulations, the old § 369.4, dealing with reporting requirements, has been redesignated as § 369.6, to remain in effect until later revised.

Proposed regulations to revise old § 369.4 (new § 369.6) concerning reporting requirements were published for comment in the FEDERAL REGISTER on December 30, 1977 (42 FR 65592). The comment period closed on January 30, 1978, and final regulations on reporting are expected to be issued by March 1, 1978. Until such final regulations are issued and become effective, the reporting requirements set forth in new § 369.6 remain in effect. References therein to §§ 369.2 and 369.3 should be construed as references to those sections as they appear in 15 CFR 369.2 and 369.3 (1977), respectively. However, reporting entities should delay filing reports of boycott requests received or actions taken until the final reporting regulations setting forth the manner of and time for reporting are issued and become effective.

CORRECTION

In FR Doc. 78-1921 appearing at page 3508 in the FEDERAL REGISTER of January 25, 1978, information appearing on page 3512, column three, in which sections of Part 369 are revoked, issued and redesignated, is corrected by adding at the end thereof the following sentences:

§ 369.5 [Redesignated as § 369.8] § 369.7 [Reserved].

The old § 369.5 of this part is redesignated as § 369.8. Section 369.7 is reserved.

Dated: February 6, 1978.

STANLEY J. MARCUSS,
Deputy Assistant Secretary
for Trade Regulation.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket 9050]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Block Drug Co., Inc., et al.

AGENCY: Federal Trade Commission.

ACTION: Final order to cease and desist.

SUMMARY: This order, among other things, requires a Jersey City, N.J., manufacturer and distributor of denture adhesives and denture cleansers to cease misrepresenting the effectiveness of its products and to cease making unsubstantiated performance claims.

DATES: Complaint issued July 29, 1975, Final Order issued Dec. 21, 1977.¹

FOR FURTHER INFORMATION CONTACT:

Albert H. Kramer, Director, Bureau of Consumer Protection, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580, 202-523-3727.

SUPPLEMENTARY INFORMATION: In the Matter of Block Drug Co., Inc., a corporation, and Grey Advertising, Inc., a corporation. The prohibited trade practices and/or corrective actions, as codified under 16 CFR 13, are as follows:

Subpart—Advertising Falsely or Misleadingly: § 13.20 Comparative data or merits; § 13.20-20 Competitors' products; § 13.170 Qualities or properties of product or service; § 13.170-30 Durability or permanence; § 13.190 Results; § 13.205 Scientific or other relevant facts. Subpart—Misrepresenting Oneself and Goods: § 13.1575 Comparative data or merits; § 13.1710 Qualities or properties; § 13.1730 Results; § 13.1740 Scientific or other relevant facts. Subpart—Offering Unfair, Improper and Deceptive Inducements to Purchase or Deal: § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.)

The Final Order, including further order requiring report of compliance therewith, is as follows:

FINAL ORDER

The administrative law judge, filed his initial decision in this matter on October 4, 1977, and service of the initial decision was completed on October 28, 1977. No appeal from the initial decision has been filed, and the Commission has determined that the initial decision and order contained therein shall become the decision and order of the Commission, with the following minor changes:

Page 2, line 1, change "is" to "it."
Page 5, finding 2, line 2, delete final "r" in "manufacturer."
Page 12, line 5, change "principle" to "principal."

¹ Copies of the Complaint, Initial Decision and Final Order, filed with the original document.

Therefore, it is ordered, That the initial decision (as modified above) and order contained therein, shall become the decision and order of the Commission on the date of issuance of this order.

CAROL M. THOMAS,
Secretary.

[6750-01]

[Docket C-2317]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Universal Figure Form of Youngstown, Inc., et al.

AGENCY: Federal Trade Commission.

ACTION: Order modifying final order.

SUMMARY: This is an order modifying a final order to cease and desist issued November 15, 1972, 37 FR 28281, 81 F.T.C. 785, by deleting paragraph III, which required that disclosure notice of third party purchase be incorporated into instruments of indebtedness.

DATES: Final order issued November 15, 1972, order modifying final order issued December 28, 1977.¹

FOR FURTHER INFORMATION CONTACT:

Albert H. Kramer, Director, Bureau of Consumer Protection, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580, 202-523-3727.

SUPPLEMENTARY INFORMATION: In the matter of Universal Figure Form of Youngstown, Inc., a corporation, and Jerome B. Kahn, George W. Jaconetti, and Donald W. Hudson, individually and as officers of said corporation. The prohibited trade practices and/or corrective actions, as codified under 16 CFR 13, remains unchanged.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.)

The order modifying final order, is as follows:

ORDER MODIFYING FINAL ORDER

Pursuant to section 3.72(b)(2) of the Commission's rules of practice, and after consideration of respondents' petition of October 6, 1977, to reopen and delete paragraph III of the final order to cease and desist dated November 15, 1972, and after further consideration of the response of the Bureau of Consumer Protection in support of such petition,

It is ordered, That the proceedings be, and they hereby are, reopened for

¹ Copies of the modifying order filed with the original document.

the limited purpose of deleting paragraph III from the final order to cease and desist.

It is further ordered, That paragraph III be deleted from the final order to cease and desist dated November 15, 1972.

CAROL M. THOMAS,
Secretary.

[4910-22]

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—PAYMENT PROCEDURES

PART 130—ADVANCE OF FUNDS

Advance Right-of-Way Revolving Funds; Amendment

AGENCY: Federal Highway Administration, DOT.

ACTION: Amendment to final rules.

SUMMARY: The Federal Highway Administration (FHWA) is amending the procedures and accounting requirements for advances from the right-of-way revolving fund to clarify the treatment of property management income received on such projects. The rule is necessary because differences of interpretation in FHWA field offices in the handling of property management income have occurred.

EFFECTIVE DATE: February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Harvey C. Wood, Office of Fiscal Services, 202-426-0562; or Ruth R. Johnson, Office of the Chief Counsel, 202-426-0781, Federal Highway Administration, 400 Seventh Street SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. EDT, Monday through Friday.

SUPPLEMENTARY INFORMATION: As previously issued, the procedures and accounting requirements were silent regarding the treatment of property management income. This resulted in differences of interpretation in some FHWA field offices in the proper handling of property management income for right-of-way revolving fund projects. This amendment clarifies the requirements to provide for the offset of such income against project expenses in the same manner as normal Federal-aid projects are administered.

This amendment to final rules was not issued in proposed form, and no comments were solicited, as the matters affected relate to grants, benefits, or contracts within the purview of 5 U.S.C. § 553(a)(2), thus general notice of proposed rulemaking was not required.

In consideration of the foregoing, Title 23, Code of Federal Regulations,

Chapter I, Subchapter B, Part 130, Subpart D is amended as follows:

§ 130.403 [Amended]

1. The citation in the first sentence reading "Section 7, Chapter 2, Volume 7 of the Federal-Aid Highway Program Manual" is changed to read "23 CFR 712, Subpart G" and the accompanying footnote is deleted;

2. Paragraph (b)(1) is amended to read as follows: "meet estimated needs for the next 90 days after deducting property management income for the current period, or";

3. Paragraph (b)(2) is amended to read as follows: "pay grantors based on net recorded liabilities or net actual disbursements, after deduction of any property management income.";

§ 130.409 [Amended]

4. In paragraph (a) the last sentence is amended to read as follows: "Any net income remaining from property management activities shall be repaid by separate check.";

5. In paragraph (b) the last sentence is amended to read as follows: "Any net income remaining from property management activities may be shown as a previous payment on the first voucher submission on the regularly funded project or repaid by check as in paragraph (a) of this section.";

6. A new paragraph (c) is added to read:

§ 130.409 Method of repayment.

(c) Any cash remaining to the credit of an active right-of-way revolving fund project for which no further expenditures are anticipated shall be remitted to the Federal Highway Administration. Separate checks for amounts advanced and for net income from property management are required as in paragraph (a) of this section.

NOTE.—The Federal Highway Administration has determined that this document does not contain a major proposal requiring the preparing of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

(23 U.S.C. §§ 108(c), 315; 49 CFR 1.48(b).)

Issued on: January 25, 1978.

WILLIAM M. COX,
Federal Highway Administrator.

[FR Doc. 78-3891 Filed 2-8-78; 8:45 am]

[4310-10]

Title 43—Public Lands: Interior

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 4—DEPARTMENT HEARINGS AND APPEALS PROCEDURES

Proceedings in Indian Probate; Miscellaneous Changes in Certain Rules

AGENCY: Department of the Interior, Office of Hearings and Appeals.

ACTION: Final rules.

SUMMARY: The amendments pertaining to the probate of individual Indian estates held in trust by the Federal Government as proposed are hereby finalized. The effect of these changes is to permit an Administrative Law Judge of proper jurisdiction to (1) reopen an estate after 3 years to prevent a manifest injustice without first obtaining permission to do so from the Interior Board of Indian Appeals (IBIA) located in Arlington, Va., (2) remove the limits on the scope of review on appeals to the IBIA from an Administrative Law Judge's ruling, and (3) require the IBIA to distribute its decisions to interested parties immediately on issuance.

EFFECTIVE DATE: February 9, 1978.
FOR FURTHER INFORMATION CONTACT:

Alexander H. Wilson, Room 1105, 4015 Wilson Boulevard, Arlington, Va. 22203, 703-557-1400.

SUPPLEMENTARY INFORMATION: The Secretary of the Interior hereby amends 43 CFR Part 4 at sections 4.242(h), 4.290, and 4.296.

Notice of these proposed amendments was published in the FEDERAL REGISTER on October 6, 1977 (42 FR 54434). Interested persons were invited to comment on or before November 7, 1977. Two comments were received and considered. One comment urged a relaxation of the lack of notice of the original probate proceeding requirement for those filing petitions to reopen a probate after more than 3 years, and the other urged that the Interior Board of Indian Appeals be limited in its scope of review to matters set out in a petition for rehearing. The comments were considered, but neither was adopted. Accordingly, the proposed amendments as originally published on October 6, 1977, are adopted without change as set out below.

Dated: February 1, 1978.

JAMES A. JOSEPH,
Under Secretary.

1. Section 4.242 is amended by revising paragraph (h) to read as follows:

§ 4.242 Reopening.

• • • • •

(h) If a petition for reopening is filed more than 3 years after the entry of a final decision in a probate, it shall be allowed only upon a showing that a manifest injustice will occur; that a reasonable possibility exists for correction of the error; that the petitioner had no actual notice of the original proceedings; and that petitioner was not on the reservation or otherwise in the vicinity at any time while the public notices were posted. A denial of such petition may be made by the Administrative Law Judge on the basis of the petition and available Bureau records. No such petition shall be granted, however, unless the Administrative Law Judge has caused copies of the petition and all other papers filed by the petitioner to be served on those persons whose interest in the estate might be adversely affected by the granting of the petition, and after allowing such persons an opportunity to resist such petition by filing answers, cross petitions or briefs as provided in (c) of this rule.

2. Section 4.290 is revised to read as follows:

§ 4.290 Who may appeal.

Any party in interest aggrieved by the action taken by an Administrative Law Judge on a petition for rehearing or on a petition for reopening shall have a right of appeal to the Board of Indian Appeals. The Board shall not be limited in its scope of review and may exercise the inherent authority of the Secretary to correct a manifest injustice or error where appropriate.

3. Section 4.296 is revised to read as follows:

§ 4.296 Decisions.

Decisions of the Board will be made in writing. Immediate distribution of decisions shall be made by the Board to all parties and offices concerned, including the Administrative Law Judge, the Superintendent, the title plant designated under § 4.236(b), and to such other persons as the Board in its discretion deems appropriate. Decisions of the Board, which are final upon issuance, shall not be executed prior to the expiration of 60 days following the date of issuance of the decision. Immediately upon expiration of such period, the Administrative Law Judge shall issue any implementing or supplemental order which may be necessary in accordance with the Board's decision and shall notify the same offices and parties who received the decision of the Board.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 21479; RM-2890]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Augusta, Ark.; Changes made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: Action taken herein assigns a first Class A FM channel to Augusta, Ark. The proposed assignment would bring a first full-time aural broadcast service to Augusta.

EFFECTIVE DATE: March 20, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING TERMINATED

Adopted: February 1, 1978.

Released: February 6, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Augusta, Ark.), Docket No. 21479, RM-2890.

1. The Commission herein considers the Notice of Proposed Rule Making adopted November 10, 1977, 42 FR 59764, in the above-entitled proceeding instituted in response to the petition filed by Service Communications, Inc. ("petitioner"). The petition proposed the assignment of Channel 249A to Augusta, Ark., as a first FM channel to that community. Petitioner filed supporting comments in which he reaffirmed his intention to file for the channel, if assigned. No other responses to the proposal were received.

2. Augusta (pop. 2,777) seat of Woodruff County (pop. 11,600) is located in east central Arkansas, approximately 97 kilometers (60 miles) northeast of Little Rock, Ark. Augusta receives local service from daytime-only AM Station KMCW, licensed to petitioner.

3. Petitioner states that Augusta is primarily an agricultural area. It also has some major industries, some of which are the Van Husen Corp., Royal Show Co., American Greeting Corp. and Nibco Corp. Petitioner asserts that the proposed assignment would fill an important need for prompt presentation of news items including

¹ Population figures are taken from the 1970 U.S. Census.

storm alerts and road reports as well as coverage of nighttime sports events.

4. We believe that the public interest would be served by the assignment of FM Channel 249A to Augusta, Ark. An interest has been shown for its use, and such an assignment would provide the community and Woodruff County with a first full-time local aural broadcast service.

5. Authority for the adoption of the amendment contained herein appears in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

6. Accordingly, it is ordered, That effective March 20, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, is amended, as it pertains to the community listed below:

City and Channel No.

Augusta, Ark., 249A.

7. It is further ordered, That this proceeding is terminated.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; (47 U.S.C. 154, 155, 303).)

FEDERAL COMMUNICATIONS COMMISSION,

WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[4910-62]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1-133]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation to the Commandant of the Coast Guard

AGENCY: Department of Transportation.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to delegate to the Commandant of the Coast Guard, functions vested in the Secretary by Pub. L. 95-75 (July 27, 1977, 91 Stat. 308, 33 U.S.C. 1601) which relates to the implementation of the Convention on the International Regulations for Preventing Collisions at Sea, 1972.

EFFECTIVE DATE: This amendment is effective on February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590, 202-426-1477.

SUPPLEMENTARY INFORMATION: Since this amendment relates to De-

partmental management, procedures, and practices, notice and public procedure thereon are unnecessary and it may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Booker Wade, Office of the General Counsel, and Lieutenant Edward J. Gill, Jr., Office of the Chief Counsel, U.S. coast Guard.

DISCUSSION OF DELEGATION

The following in the International Navigational rules Act of 1977 are powers vested in the Secretary which are delegated to the Commandant of the Coast Guard:

1. Exemption of certain vessels of special construction or purpose from any requirement of the International Regulations with respect to the number, positions, range, or arc of visibility of lights, with respect to shapes, or with respect to the disposition and character of sound-signaling appliances.

2. Promulgation of special rules with respect to additional station or signal lights for fishing vessels engaged in fishing as a fleet.

3. promulgation of rules and regulations to implement the Act and the International Regulations.

4. Assessment of civil penalties. Accordingly, Part 1 of Title 49 of the Code of Federal Regulations is amended by adding a new § 1.46(n)(11) to read as follows:

§ 1.46 Delegations to Commandant of the Coast Guard.

(n) • • • • •
(11) International Navigational Rules Act of 1977 (Pub. L. 95-75, 91 Stat. 308).

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)).)

Dated: Issued in Washington, D.C., February 1, 1978.

BROCK ADAMS,
Secretary of Transportation.

[FR Doc. 78-3696 Filed 2-8-78; 8:45 am]

[4910-62]

[OST Docket No. 1; Amdt. No. 1-132]

PART 1—ORGANIZATION AND DELEGATIONS OF POWERS AND DUTIES

Research and Special Program Directorate; Establishment

AGENCY: Department of Transportation.

ACTION: Final rule.

SUMMARY: This revision reflects the establishment of the Research and Special Program Directorate within the Department of Transportation. The Directorate consolidates, among other things, functions formerly assigned to the Materials Transportation Bureau. Consistent with the reorganization, the Secretarial delegations to the Director, Materials Transportation Bureau are rescinded and delegated to the Director, Research and Special Program Directorate with authority to redelegate.

EFFECTIVE DATE: September 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard R. Clark, Office of the General Counsel, Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590, 202-426-4723.

SUPPLEMENTARY INFORMATION: The persons responsible for the drafting of this document are Marie E. Birnbaum and Richard K. Pemberton, both of the Office of Management Systems. Richard R. Clark, Office of the General Counsel, is responsible for its legal sufficiency.

On July 20, 1977, the Secretary of Transportation determined that greater efficiencies could be accomplished in his management of the Department by reorganizing various offices within the Office of the Secretary. Consistent with that decision, the Research and Special Programs Directorate was established. The Directorate consolidates the functions formerly assigned in the Office of the Secretary and the Materials Transportation Bureau. This revision rescinds the delegations to the Director, Materials Transportation Bureau, and delegates the subject authorities to the Director, Research and Special Programs Directorate with authority for redelegation. This change also gives the Director the responsibility for coordinating individual Department-wide programs concerning cargo security.

Since this relates to Departmental management, procedures and practices, notice and public procedure thereon are unnecessary.

In consideration of the foregoing—(1) Section 1.53 of title 49, of Code of Federal Regulations is revised to read as follows:

§ 1.53 Delegations to the Director of the Research and Special Programs Directorate.

The Director of the Research and Special Programs Directorate is delegated authority to exercise powers and perform duties, including duties under the specified statutes as follows:

(a) *Pipelines.* (1) Natural Gas Pipeline Safety Act of 1968, as amended (49 U.S.C. 1671, et seq.).

(2) Mineral Leasing Act, as amended (Pub. L. 93-153, 30 U.S.C. 185).

(3) Deepwater Port Act of 1974 (Pub. L. 93-627; 33 U.S.C. 1501, et seq.) relating to the establishment, enforcement and review of regulations concerning the safe construction, operation or maintenance of pipelines on Federal lands and the Outer Continental Shelf (33 U.S.C. 1520).

(4) Section 5 of the International Bridge Act of 1972 (Pub. L. 92-434; 33 U.S.C. 535) as it relates to pipelines not over navigable waterways.

(5) Serves as the Department's point of contact and consults with the Environmental Protection Agency on matters arising under section 3003 of the Resources Conservation and Recovery Act (42 U.S.C. 6923) and section 9 of the Toxic Substances Control Act (15 U.S.C. 2608).

(b) *Hazardous materials.* (1) Sections 101-112 of the Hazardous Materials, Transportation Safety Act of 1974 (49 U.S.C. 1801-1811), except as delegated by §§ 1.46(t), 1.47(j), 1.48(u), and 1.49(s).

(2) Section 170 (7), (10), and (11) of title 46, United States Code, except as delegated by § 1.46(t).

(3) Sections 831-835 of title 18, United States Code, except as delegated by §§ 1.48(d) and 1.49(f).

(4) Sections 601(c) and 902(h)(1) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1421 and 1472(h)(1), respectively), as they relate to regulations governing the transportation of hazardous materials by air.

(c) *Passenger and Cargo Security.* (1) Serve as the Department's point of contact in relationships with Government, state, regional, local and private groups and organizations in matters relative to the Department-wide program for enhancing the safety and security of passengers and cargo in transit.

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)).

Issued in Washington, D.C., on December 16, 1977.

BROCK ADAMS,
Secretary of Transportation.
(FR Doc. 78-3697 Filed 2-8-78; 8:45 am)

[4910-59]

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION; DEPARTMENT OF TRANSPORTATION

[Docket No. 78-01; Notice 2]

PART 510—INFORMATION GATHERING POWERS

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Extension of comment period.

SUMMARY: This notice extends the period for comment on a notice which established an interim final rule on procedures for the agency's use of compulsory information gathering powers and proposed issuance of that rule on a permanent basis. This notice responds to a petition for an extension of the comment period.

DATE: The new comment closing date is March 2, 1978.

ADDRESS: Submit comments to Docket Section, Room 5108, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

David A. Zisser, Office of Chief Counsel, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-9511.

SUPPLEMENTARY INFORMATION: On December 27, 1977 (42 FR 64628), the National Highway Traffic Safety Administration (NHTSA) published an interim final rule and notice of proposed rulemaking relating to procedures for the agency's use of its authority to compel the submission of information in connection with carrying out its statutory responsibilities. The comment due date on the proposal was February 10, 1978. The law firm of Wilmer, Cutler & Pickering petitioned on behalf of the Motor Vehicle Manufacturers Association for a 30-day extension of the comment period. The petition states that the original comment due date does not provide sufficient time to review the proposal and prepare comments.

Although the NHTSA wishes to obtain and consider comments as soon as possible so that a permanent final rule can be promulgated, the agency also recognizes the need for well-developed, substantive comments. The agency believes that a 20-day extension of the comment period will allow all interested parties ample opportunity to submit well-reasoned, comprehensive comments without unduly delaying formulation of a permanent final rule. Therefore, the comment closing period is extended to March 2, 1978.

(National Traffic and Motor Vehicle Safety Act, as amended (sections 112 and 119, 15 U.S.C. 1401 and 1407), and the Motor Vehicle Information and Cost Savings Act, as amended (Titles I, II, IV and V), and the delegation of authority at 49 CFR 1.50.)

Issued: February 2, 1978.

JOAN CLAYBROOK,
Administrator.
(FR Doc. 78-3361 Filed 2-8-78; 8:45 am)

[4310-55]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 26—PUBLIC ENTRY AND USE

Opening of Certain National Wildlife Refuges to Public Access, Use, and Recreation: Arizona, California, New Mexico, Oklahoma, and Texas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to public access, use, and recreation of certain national wildlife refuges in Arizona, California, New Mexico, Oklahoma, and Texas is compatible with the objectives for which the areas were established, and will provide additional recreational opportunity to the public through a nonconsumptive use. This document establishes special regulations effective for the upcoming public entry and use season.

DATES: January 1, 1978 through December 31, 1978.

ADDRESSES: Contact the Refuge Manager at the address and/or telephone number listed below in the body of Special Regulations.

FOR FURTHER INFORMATION CONTACT:

W. O. Nelson, Jr., Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103, telephone: 505-766-2036.

SUPPLEMENTARY INFORMATION: Public access, use, and recreation is permitted on the National Wildlife Refuges indicated below in accordance with 50 CFR 26 and the following Special Regulations. Portions of refuges which are open to public access, use and recreation are designated by signs and/or delineated on maps available from addresses indicated below. No vehicle travel is permitted except on designated, maintained roads and trails. Special conditions applying to individual refuges are listed on leaflets available at refuge headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Public entry shall be in accordance with all applicable Federal and State laws and regulations subject to the following conditions:

§ 26.34 Special regulations; public access, use and recreation; for individual wildlife refuge areas.

Public access, use, and recreation is permitted on the following areas: Cabeza Prieta National Wildlife Refuge, P.O. Box 418, Ajo, Ariz. 85321.

Contact Kenneth W. Voget, Refuge Manager at 602-387-6483. Special Conditions: (1) For purposes of protecting human safety as well as the fragile environment of the 860,000-acre refuge, all entry, vehicular or otherwise, into the refuge is subject to the possession of a valid permit. Permits must be obtained in person at the refuge office at 1611 2nd Avenue, Ajo, between the hours of 8 a.m. and 5 p.m., Mondays through Fridays (except holidays). Permits may also be obtained at the Yuma, Ariz., office at 356 First Street during the same office hours.

Cibola National Wildlife Refuge, Box AP, Blythe, Calif. 92225. Contact George M. Constantino, Refuge Manager at 714-922-4433. Special Conditions: (1) Wildlife observation, photography, and hiking are permitted. (2) Possession of all handguns and all .22 caliber rimfire firearms is prohibited. Rifled firearms of legal caliber are only permitted on refuge lands during the State deer hunting season. (3) Carrying, possessing, or discharging firearms on the refuge is prohibited, except that firearms legal for a particular refuge hunt may be used during that open hunting season in designated areas. (4) Open campfires are permitted only on the ends of un-vegetated jetties. Charcoal fires are permitted only if contained in grills or similar equipment and all vegetation is cleared within an area scribed by a 10-foot radius of the fire. Fires must be closely attended and extinguished before leaving the site. (5) Waterskiing is prohibited in the Old River Channel section of the Colorado River north of Walter's Camp. This closure is due to submersed hazards to skiers and for the protection of wildlife values. The above-described waters lie north of the common line between Secs. 13 and 24, T. 2 S., R. 24 W. (6) Waterskiing is permitted in the Cibola Dry Cut section of the Colorado River. (7) Motorized vehicles, including motorcycles, are permitted only on designated, developed roads. Motorized vehicles must be licensed and registered, and in compliance with State vehicle codes, and vehicle operators must possess a valid State driver's license.

The degree of public access, use, and recreational activities permitted for the three refuge public use zones is described below. Zone I is marked by signs and described as including all lands bordered on the north by Baseline Road, on the east by the refuge boundary, on the south by an unimproved dirt road which enters the refuge from the east from a point on Cibola Road about four road miles south of the Gila and Salt River Meridian (base line). Within the refuge this unimproved road is common to the N $\frac{1}{2}$ SW $\frac{1}{4}$ and the S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 19, T. 1 S., R. 23 W.; thence turning southerly for one-fourth mile on a line

common to R. 23 W. and R. 24 W.; thence turning westerly to the Cibola Dry Cut channel of the Colorado River on a line common to Secs. 24 and 25, T. 1 S., R. 24 W. Zone I is bounded on the west by the center line of the Cibola Dry Cut channel of the Colorado River. The above-described lands include all refuge lands east of the Cibola Dry Cut section of the Colorado River lying within Secs. 1, 2, 11, 12, 13, 14, 23 and 24, T. 1 S., R. 24 W., and Secs. 6, 7, 18, and the NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ of Sec. 19, all T. 1 S., R. 23 W. Zone I is closed to hunting. Also closed to public entry and use in Zone I is that area within the above-described zone that lies east of the Bureau of Reclamation tie-back levee as marked by signs. Zone II is marked by signs and described as all refuge lands west of the Cibola Dry Cut section of the Colorado River and all refuge lands east of the Dry Cut, south of Zone I and north of Zone III. Zone II lands east of the Dry Cut include all refuge lands lying in the S $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 19, Secs. 30, 31 and 32, all T. 1 S., R. 23 W., and Secs. 5 and 6 and N $\frac{1}{2}$ Sec. 7, and the W $\frac{1}{2}$ NW $\frac{1}{4}$ Sec. 8, all T. 2 S., R. 23 W., and Sec. 25, T. 1 S., R. 24 W. Zone II is open to public recreation throughout the year under provisions and special conditions listed above in Special Conditions 1 through 7, and according to Title 50, U.S.C. Part 26. Zone III is described as including all lands bordered by the refuge boundary on the east and south, the center line of the Cibola Dry Cut section of the Colorado River in the west, and on the north by the Hartmine Wash levee which follows the east-west half section line that bisects Secs. 7 and 8, T. 2 S., R. 23 W. The above-described lands include all refuge lands east of the center line of the Cibola Dry Cut section of the Colorado River lying in the S $\frac{1}{2}$ Sec. 7, plus all refuge lands in Secs. 18, 19, 30, and 31, all T. 2 S., R. 23 W. Zone III is closed to hunting. It is also closed to camping, fishing, boating, and hiking from January 1 through March 15, 1978, and from September 6 through December 31, 1978. Wildlife observation and photography are permitted from within vehicles while traveling on designated routes of travel during these periods. Zone III is open to fishing, boating, hiking, wildlife observation, and photography from March 16 through September 5, 1978.

Havasu National Wildlife Refuge, P.O. Box A, Needles, Calif. 92363. Contact Tyrus W. Berry, Refuge Manager at 714-326-3853. Special conditions: (1) Waterskiing is permitted only on the channelized segment of the Colorado River except for that portion of the river called "Topock Gorge," which is designated by buoys and signs as being "Closed to Waterskiing." The north buoy line is located between the 1-40

highway bridge and the A.T. & S.F. Railroad bridge. The south buoy line is located on an imaginary line between the point one-fourth mile south of the southern entrance to Jops Landing on the Arizona shoreline and a point one-fourth mile south of the southern entrance to Clear Bay on the California shoreline. (2) The observer of a person(s) in tow behind a boat shall continuously observe the person(s) being towed and shall display a flag immediately after the towed person(s) falls into the water and during the time preparatory to sking while the person(s) is still in the water. Such flag shall be a bright or brilliant orange or red color, measuring no less than twelve inches on each side, mounted on a handle, and displayed as to be visible in every direction. (3) Camping is restricted to tent and boat camping along the Arizona shoreline below the buoy line designating the southern entrance to Topock Gorge. Camping is also prohibited at Mesquite Bay, located within this stretch of shoreline. Recreational vehicle and tent camping is permitted at Five Mile Landing and Catfish Paradise concessions for a nominal fee. All camping is limited to stays of no longer than 7 days. (4) Boating is permitted in all waters of the refuge except where restricted by appropriate signs. Wakeless speed only is permitted east of the buoys on Bill Williams River and within the harbors of Five Mile Landing and Catfish Paradise. (5) All wheeled vehicles, including motorcycles, are permitted on developed roads and parking areas only. Driving off roads or roads closed by sign or barrier is prohibited. (6) Swimming, wading, scuba diving and skin diving are permitted except where restricted by signs. (7) Fires may be built only in areas where camping is allowed. (8) Litter facilities are provided only for recreational users who are swimming, boating, picnicking, fishing, hunting, hiking, or camping. (9) Additional attachments to mobile homes and travel trailers located at refuge concessions must be limited to cabanas, awnings, or similar types of shades that are easily removable, portable and not permanently fixed to the ground. They may be equipped with wind-breaks of a similar portable nature that do not completely enclose the sides, but may not be utilized for regular living or sleeping space or to house household equipment other than lounge furniture. (10) Residents are required to maintain their lots and trailers in a neat, orderly and hazard-free condition. Trailer slabs, porches, and cabanas are not to be used for permanent living space, storage, or to house household goods or other miscellaneous items with the exception of lounge furniture. No storage will be allowed under the mobile home, travel

trailer or porch area. The interior of the mobile home, travel trailer, storage shed or storage yard are the only authorized storage areas. (11) Concession operators and tenants will maintain their facilities and residences in accordance with Title 25, Housing and Community Development; Chapter 5, Mobile Home Parks, Special Occupancy Trailer Parks and Campgrounds, California Administration Code; State of California. (12) All trailers, attachments and other structures on the lots must be capable of being moved within 24 hours of notice. All tires must remain on mobile home or travel trailer at all times. (13) The mooring of unattended boats is allowed only at designated boat slips at Five Mile Landing and Catfish Paradise concessions. (14) Concession residents who repeatedly violate refuge regulations can and will be barred from living on or using refuge lands and facilities.

Imperial National Wildlife Refuge, P.O. Box 2217, Martinez Lake, Ariz. 85364. Contact Gerald E. Duncan, Refuge Manager at 602-783-3400. Special conditions: (1) An area on the west end of Martinez Lake, consisting of approximately 175 acres, and an area of approximately 1,400 acres in the north end of Ferguson Lake, shall be closed to public entry during the periods from January 1 through March 1, 1978, and from October 1 through December 31, 1978. (2) Waterskiing and towing of any device with a person(s) aboard, for recreational purposes, is prohibited on certain sections of the main stream (channel) of the Colorado River where designated by signs. Backwaters are closed to waterskiing. (3) Boating is permitted in all waters of the refuge except where prohibited by appropriate signs and in those areas closed to public entry. (4) Blocking of boat ramps or routes of public access is prohibited. (5) Hiking, sightseeing, and photography are permitted except in those areas closed to public entry. (6) The removal or disturbance of sand, gravel or rock is prohibited. (7) Camping; i.e., overnight camping is prohibited. It has been determined that camping is detrimental to the accomplishment of refuge wildlife ecological objectives. (8) The removal or disturbance of deadwood is prohibited. (9) Pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animal.

Kofa Game Range, P.O. Box 1032, Yuma, Ariz. 85364. Contact Monte M. Dodson, Refuge Manager at 602-726-2619. Special conditions: (1) Camping is limited for each person to 14 days during any 12-month period. (2) Recreational (noncommercial) rockhounding, including digging with simple hand tools, is permitted only in the designated area known as Crystal Hill, described as follows:

GILA AND SALT RIVER MERIDIAN

T. 2 N., R. 18 W.,
Sec. 2, lots 3 and 4, S $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$;
Sec. 3, lots 1 to 4, inclusive, S $\frac{1}{4}$ NW $\frac{1}{4}$ and S $\frac{1}{4}$;
Sec. 4, lots 1 to 4 inclusive, S $\frac{1}{4}$ NW $\frac{1}{4}$ and S $\frac{1}{4}$;
Secs. 9 and 10;
Sec. 11, W $\frac{1}{4}$;
Sec. 14, NW $\frac{1}{4}$;
Sec. 15, N $\frac{1}{4}$.

The areas described aggregate 3,684.39 acres.

(3) On the remainder of the Kofa Game Range, outside the Crystal Hill area, collecting of rocks or minerals, or both, is restricted to materials that are exposed and collectible without the use of tools. Digging, including the use of simple hand tools, is prohibited except in the designated area known as Crystal Hill.

Bitter Lake National Wildlife Refuge, Box 7, Roswell, N. Mex. 88201. Contact LeMoyné B. Marlatt, Refuge Manager at 505-622-6755. Special conditions: (1) All visitors are required to register before entry into the public recreation area, as per posted instructions. (2) Sightseeing, nature observation, photography and hiking are permitted year-round within designated areas. (3) Picnicking is permitted in conjunction with the above-listed recreational activities, but only at designated picnic sites. (4) Fires are permitted in the picnic area grills only. Only dead and fallen brush and trees may be taken for firewood. (5) Boating is permitted only during the refuge waterfowl hunting season and within designated hunting areas.

Bosque del Apache National Wildlife Refuge, P.O. Box 1246, Socorro, N. Mex. 87801. Contact Richard W. Rigby, Refuge Manager at 505-835-1828. Special conditions: (1) Sightseeing, nature study, photography, and wildlife observation permitted year-round. (2) Vehicular access to refuge roads open to the public is permitted through the headquarters entrance only. The refuge is open to public access and use from one-half hour before sunrise to one-half hour after sunset only. (3) In the wilderness areas, entry is limited to foot travel only. Fires will be limited to self-contained camp stoves; open fires are not permitted. Only backpack-type camping is permitted. Horses are not permitted. Dogs may be used while hunting quail and doves; at all other times dogs and other pets must be on a leash and under the owner's physical control.

Salt Plains National Wildlife Refuge, Route 1, Box 76, Jet, Okla. 73749. Contact Ronald S. Sullivan, Refuge Manager at 405-626-4794. Special conditions: (1) The public is permitted to enter upon the Great Salt Plains from the west along designated routes of travel to collect gypsum (selenite) crystals from April 1 through

October 15, 1978, and only on Saturdays, Sundays, and holidays. (2) For the purpose of collecting selenite crystals, vehicles will be allowed only along such travel lanes and parking areas as are posted for the activity. (3) Each individual may collect for his/her personal use up to a maximum of 10 pounds plus one selenite crystal or selenite crystal cluster per day. (4) Digging for selenite crystals will be confined to areas posted for such activity.

Sequoyah National Wildlife Refuge, P.O. Box 398, Sallisaw, Okla. 74955. Contact Bert M. Anduss, Acting Refuge Manager at 918-775-4931. Special conditions: (1) An area of approximately 2,200 acres, south of Vian Creek and east of the refuge tour road, shall be closed, as posted, to all public access during the periods from January 1 through March 15, 1978, and from October 1 through December 31, 1978. This land is set aside to provide an area of minimum disturbance for waterfowl and other wildlife during the winter months. (2) Some refuge roads may be closed to vehicle entry from January 1 through March 15, 1978, and from October 1 through December 31, 1978, as posted, to prevent disturbance of wintering and migrating waterfowl. (3) Sightseeing, nature observation, photography and hiking are permitted. (4) Picnicking is permitted only at Vian Creek Recreation Area. Picnic fires may be built at the recreation area only in the fire grills provided or in camp stoves or charcoal grills. (5) Overnight camping is not permitted except for youth conservation groups supervised by adults. Permits must be obtained in advance from the Refuge Manager at the above-listed address. All other recreational uses are restricted to the period from 5 a.m. to 9 p.m. daily. (6) Firearms are prohibited except during authorized hunting seasons when only shotguns are permitted. Firearms being transported in a motor vehicle must be unloaded and dismantled or cased. Possession of any firearm on the refuge at night or in refuge areas closed to hunting is prohibited. Long bows and arrows are permitted only as authorized in current refuge hunting and State fishing regulations. (7) Boating is permitted in accordance with Federal and State regulations. (8) Waterskiing is prohibited in all refuge waters. (9) Pets must be confined or kept on a leash. Dogs may be used for hunting in accordance with refuge hunting regulations. (10) Pecan picking is limited to one gallon per person per day.

Washita National Wildlife Refuge, Route 2, Box 100, Butler, Okla. 73625. Contact Evan V. Klett, Refuge Manager at 405-473-2205. Special conditions: (1) Wildlife/wildland observation and photography are permitted from the observation platform located in Owl Cove Recreation Area and from vehicles using established routes of travel. Visitors may walk into other areas of the refuge during the public use season, from April 1 through October 14, 1978. (2) Parking is permitted only in locations designated by signs in hunter access and recreation areas. (3) Boating is permitted from April 1 through October 14, 1978. (4) Swimming, waterskiing and overnight camping are prohibited. (5) Overnight stays for organized youth and educational groups, with adult supervision, involved in wildlife/wildland associated activities are permitted. (6) Campstoves, charcoal burners and portable heaters may be used in recreation areas. Open fires are prohibited. (7) Dogs, cats and other pets must be leashed or otherwise confined.

Wichita Mountains Wildlife Refuge, P.O. Box 448, Cache, Okla. 73527. Contact Robert A. Karges, Refuge Manager at 405-429-3221. Special conditions: (1) Sightseeing, nature observation, and photography are permitted. (2) Hiking and backpacking are permitted during daylight hours only. (3) Camping is permitted only in recreational areas designated for that use, at the entrance, by sign. Exceeding posted unit capacities is prohibited. A written permit is required for stays exceeding 7 days. Campers must have shelter, bedding, cooking equipment and food. Any unnecessary noise or activity in camping areas after 10 p.m. is prohibited. No person, other than campers, shall enter or remain in a camping area between the hours of 10 p.m. and 6 a.m. (4) Picnicking with food and drink is permitted only in recreation areas designated for that use, at the entrance, by sign. Exceeding posted visiting hours or posted unit capacities is prohibited. (5) Fires are permitted only in recreation areas where camping or picnicking is allowed and only at such times or hours that the areas are open to these uses. Dead, fallen timber may be used. (6) Boating is permitted only on Elmer Thomas Lake. Under § 26.34 of this Subchapter C, all floating devices are prohibited on all other refuge waters unless permitted by other Federal regulations. Boating is prohibited in marked scuba diving and swimming areas. (7) Swimming, wading, snorkeling and skin diving are permitted only at swimming beaches designated by sign, and only when these beaches are manned by refuge supervised lifeguards. Lifejackets and buoyant vests may be worn while swimming. Food, beverages and pets are prohibited on swimming beaches. Beach users must comply with all official beach signs posted on the area and with the directions of authorized lifeguards. The use of any alcoholic beverage by anyone at a designated swimming beach or beach park-

ing area is prohibited. (8) Scuba diving is permitted only on Elmer Thomas Lake and only during daylight hours. Diving areas must be marked with appropriate warning flags when outside marked swimming areas. Flags must be removed before leaving the area. Inflatable vests may be worn while diving. (9) Pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animals. (10) The parking or leaving unattended of any vehicle is permitted only in those places which are designated for that purpose by sign, and only during daylight hours, except campers may park in camping areas, and fishermen may park in fishing areas during night hours. Vehicles found parked in any closed areas, any "no parking" area, or in any area after posted visiting hours may be removed from the area. Any charges or expenses incurred by such removal, including storage fees, shall be borne by the owner of the vehicle. (11) All recreational activities not permitted above are prohibited except those prescribed in 50 CFR 32.32 hunting regulations and in 50 CFR 33.5 fishing regulations. (12) Beer parties and other parties that are primarily for the purpose of using alcoholic beverages are prohibited. (13) Possession or use of any alcoholic beverage by persons under 21 years of age is prohibited.

Anahuac National Wildlife Refuge, P. O. Box 278, Anahuac, Tex. 77514. Contact Russel W. Clapper, Refuge Manager at 713-267-3337. Special conditions: (1) Sightseeing, hiking, nature observation, photography and sound recording of wildlife are permitted. (2) All motor vehicles, motor bikes and any other form of conveyance must be driven only on designated roads in a safe and responsible manner. Off-the-road travel is prohibited. (3) Boating is not permitted on any inland waters. Boats may be launched from the refuge into East Bay. (4) Dogs and other pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animal.

Aransas National Wildlife Refuge, P.O. Box 100, Austwell, Tex. 77950. Contact Frank Johnson, Refuge Manager at 512-286-3559. Special conditions: (1) Touring sightseeing, hiking, nature observation, photography and sound recording of wildlife are permitted along designated routes of travel except where restricted by appropriate signs. (2) Camping is not permitted. (3) Dogs and other pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animal.

Buffalo Lake National Wildlife Refuge, P.O. Box 228, Umbarger, Tex.

RULES AND REGULATIONS

79091. Contact Billy D. Long, Acting Refuge Manager at Muleshoe National Wildlife Refuge, P.O. Box 549, Muleshoe, Tex. 79347, telephone: 806-946-3341. Special conditions: (1) Touring, sightseeing, hiking, nature observation, photography and sound recording of wildlife are permitted along designated routes of travel except where restricted by appropriate signs. (2) Camping is not permitted. (3) Dogs and other pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animal.

Hagerman National Wildlife Refuge, Route 3, Box 123, Sherman, Tex. 75090. Contact Bert E. Blair, Jr., Refuge Manager at 214-786-2826. Special conditions: (1) Touring, sightseeing, nature study, photography and sound recording of wildlife are permitted along designated routes of travel except where restricted by appropriate signs. (2) Picnicking is permitted and fires may be built in access area fireplaces only and must be extinguished before leaving the area. (3) Pecan picking is permitted in areas not closed to access and is limited to one gallon per person per day. Commercial harvesting is not permitted. (4) Overnight camping is prohibited. (5) Dogs and pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animal.

Laguna Atascosa National Wildlife Refuge, P.O. Box 2683, Harlingen, Tex. 78550. Contact Robert H. Stratton, Jr., Refuge Manager at 512-423-8328. Special conditions: (1) Touring, sightseeing, hiking, nature observation, photography and sound recording of wildlife are permitted along designated routes of travel except where restricted by appropriate signs. (2) Camping is not permitted. (3) Dogs and other pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animal.

Muleshoe National Wildlife Refuge, P.O. Box 549, Muleshoe, Tex. 79347. Contact Billy D. Long, Acting Refuge Manager at 806-946-3341. Special conditions: (1) Touring, sightseeing, hiking, nature observation, photography and sound recording of wildlife are permitted along designated routes of travel except where restricted by appropriate signs. (2) Camping is not permitted. (3) Dogs and other pets are permitted only if they are confined or kept on a leash not to exceed 10 feet in length, one end of which is secured so as to restrict the movements of the animal.

The provisions of this special regulation supplement the regulations which govern public access, use and recrea-

tion on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 26. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

PART 33—SPORT FISHING

Opening of Cedar Creek Ponds, Lacreek National Wildlife Refuge, S. Dak. to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening of parts of the Lacreek National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: April 15, 1978 through October 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Harold H. Burgess, Refuge Manager, Lacreek National Wildlife Refuge, Martin, S. Dak. 57551, or telephone 605-685-6508.

SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on Cedar Creek Ponds Nos. 1 and 2, Lacreek National Wildlife Refuge, only on those areas designated by public fishing signs as being open to fishing. These areas are delineated on maps available at the refuge headquarters and at the office of the Area Manager, Federal Building, Pierre, S. Dak. Sport fishing shall be in accordance with all applicable State regulations subject to the following conditions:

1. The season for fishing on Cedar Creek Ponds 1 and 2 extends from April 15 through October 15, 1978, daylight hours only.
2. The use of boats and the use of live minnows as bait, on the Refuge portion of Cedar Creek are prohibited.

3. Public fishing on Lacreek National Wildlife Refuge may be closed by the manager whenever access roads are impassable, refuge wildlife need further protection from disturbances, or good refuge management dictates that the area be closed to the public.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-197.

HAROLD H. BURGESS,
Refuge Manager, Lacreek National Wildlife Refuge, Martin,
S. Dak. 57551.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 215—PRIBILOF ISLANDS

Administration of Pribilof Islands

AGENCY: National Marine Fisheries Service.

ACTION: Final rule.

SUMMARY: Wildlife research on the Pribilof Islands, other than research on North Pacific fur seals, is subject to certain conditions and prior approval of the Director, Pribilof Islands Program, National Marine Fisheries Service (NMFS). These regulations are considered necessary to protect the islands' wildlife and to facilitate the control of research conducted on the reservation.

EFFECTIVE DATE: February 9, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Walter Kirkness, Director, Pribilof Islands Program, National Marine Fisheries Service, 1700 Westlake Avenue North, Seattle, Washington 98109, telephone 206-442-7777.

SUPPLEMENTARY INFORMATION: The NMFS published proposed regulations in the FEDERAL REGISTER on December 22, 1977 (42 FR 64138), which would require researchers to obtain the approval of the Director of the Pribilof Islands Program, NMFS, prior to arriving on the Pribilof Islands to conduct research. These regulations

are considered necessary to protect the islands' wildlife and to facilitate the control of research conducted on the reservation.

No written comments were received on the proposed regulations. Therefore, these regulations, with minor changes to clarify their intent, are hereby adopted as originally proposed.

Dated: February 3, 1978.

WINFRED H. MEIBOHM,
Associate Director, National
Marine Fisheries Service.

§ 215.27 Wildlife research.

(a) Wildlife research, other than research on North Pacific fur seals, including specimen collection, may be permitted on the Pribilof Islands subject to the following conditions: (1) Any person or agency, seeking to conduct such research shall first obtain any Federal or State of Alaska permit required for the type of research involved.

(2) Any person seeking to conduct such research shall obtain prior approval of the Director, Pribilof Islands Program, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, 1700 Westlake Avenue North, Seattle, Wash. 98109, by filing with the Director an application which shall include:

(i) Copies of the required Federal and State of Alaska permits; and the required Federal and State of Alaska permits; and

(ii) A resume of the intended research program.

(3) All approved research shall be subject to all regulations and administrative procedures in effect on the Pribilof Islands, and such research shall not commence until approval from the Director is received.

(4) Any approved research program shall be subject to such terms and conditions as the Director, Pribilof Islands Program deems appropriate.

(5) Permission to utilize the Pribilof Islands to conduct an approved research program may be revoked by the Director, Pribilof Islands Program at any time for noncompliance with any terms and conditions, or for violations of any regulation or administrative procedure in effect on the Pribilof Islands.

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Taking of Marine Mammals Incidental to Commercial Fishing Operations

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce.

RULES AND REGULATIONS

ACTION: Final rule.

SUMMARY: The Assistant Administrator for Fisheries, National Marine Fisheries Service (NMFS), in consultation with the Department of State, finds that Costa Rica is in substantial conformance with U.S. regulations governing the taking of marine mammals (i.e., porpoise) incidental to commercial fishing operations. In finding that this nation is not fishing in a manner proscribed for persons subject to the jurisdiction of the United States, the Assistant Administrator for Fisheries exempts this nation from the yellowfin tuna and tuna products importation prohibition provisions of 50 CFR 216.24(e)(5).

EFFECTIVE DATE: February 6, 1978.

FOR FURTHER INFORMATION CONTACT:

William P. Jensen, Marine Mammal Program Manager, Marine Mammal and Endangered Species Division, National Marine Fisheries Service, Washington, D.C. 20235, telephone 202-634-7461.

SUPPLEMENTARY INFORMATION: The NMFS published regulations in the FEDERAL REGISTER on December 23, 1977 (42 FR 64551-64560) governing the taking of marine mammals incidental to commercial fishing operations (50 CFR 216.24). These regulations include provisions concerning the importation of yellowfin tuna and tuna products from nations known to be involved in the tuna purse seine fishery in the eastern tropical Pacific Ocean (ETP). Importation of certain yellowfin tuna and tuna products from these countries is contingent upon certain findings by the Assistant Administrator for Fisheries in accordance with § 216.24(e)(5).

Bermuda, Canada, Ecuador, Mexico, the Netherlands Antilles, Nicaragua, and Panama previously supplied the NMFS with adequate information to indicate that their tuna purse seine operations in the ETP are in substantial conformance with U.S. regulations. Subsequently, the Assistant Administrator for Fisheries published in the FEDERAL REGISTER (42 FR 56617, October 21, 1977, 42 FR 64121, December 22, 1977, 43 FR 1093, January 6, 1978, and 43 FR 3566, January 26, 1978) notice that yellowfin tuna and tuna products from those seven nations are exempted from the importation prohibition provisions which would have affected them after December 31, 1977. Costa Rica is hereby given a similar exemption.

This finding by the Assistant Administrator for Fisheries, made in accordance with § 216.24(e)(5)(i), exempts Costa Rica from the import provisions

concerning yellowfin tuna and tuna products listed in § 216.24(e)(2)(ii). However, the import documentation requirements listed in § 216.24(c)(4) will continue to apply. The Assistant Administrator considered all available information in making this finding. Information submitted by Costa Rica is available to the public at the information contact address set out above, and is summarized in the following:

COSTA RICA

(a) *Fleet.* Seven Costa Rican tuna purse seine vessels will operate in the ETP in 1978. Three of these vessels are small seiners not capable of intentionally setting on porpoise to catch tuna. Their annual tuna catch is largely comprised of skipjack tuna with yellowfin only represented incidentally. Three of the four remaining vessels have recently transferred from U.S. flag and are known to be equipped with the proper porpoise release gear. The fourth vessel in this group was recently constructed in the United States and is fully equipped with the latest porpoise release devices. Costa Rican law requires vessel operators to apply the most effective porpoise release procedures available.

(b) *Porpoise Mortality.* The Costa Rican government estimated the 1977 total porpoise mortality among their small purse seiners to be not more than 5 animals. This estimate was based on interviews with skippers.

The government further estimated that the recent addition of four new large purse seiners would raise the porpoise mortality by Costa Rican seiners to 2,500 animals. However, the kill rate per vessel, based on the observed performance of the three former U.S. flag seiners, was not expected to exceed the average 1977 kill rates for the U.S. fleet.

(c) *Miscellaneous.* Costa Rica, as a member of the Inter-American Tropical Tuna Commission (IATTC), will participate in the IATTC international tuna-porpoise research and observer program. Costa Rica has already informed the National Marine Fisheries Service that they wish to send two biologists to San Diego, California to attend an observer training course during 1978, prior to placement on their vessels.

This finding will be subject to an annual review. The NMFS will require an update of the items listed in § 216.24(e)(5)(ii) to ensure that the conditions which supported the original finding continue to exist.

The NMFS will continue monitoring the status of the international tuna purse seine fleet operating in the ETP. Changes to the list of nations affected by the importation prohibitions of yellowfin tuna and tuna products under § 216.24(e)(5) will be published in the FEDERAL REGISTER.

Dated: February 6, 1978.

WINFRED H. MEIBOHM,
National Marine
Fisheries Service.

[Docket No. 15376; Reference Notice No. 77-23]

PROPOSED NOISE AND SONIC BOOM REQUIREMENTS FOR CIVIL SUPERSONIC AIRPLANES

Public Hearing and Reopening of Comment Period

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of public hearing and reopening of comment period.

SUMMARY: This notice announces the final public hearing to be conducted on February 27, 1978, in Los Angeles, Calif., to receive the views and comments of interested persons regarding the proposed amendments contained in Notice No. 77-23, regarding noise and sonic boom requirements for civil supersonic airplanes, and their relationship to the amendments recommended by the U.S. Environmental Protection Agency contained in Notice Nos. 75-15 and 76-1. Notice No. 77-23 was published October 13, 1977, in the FEDERAL REGISTER (42 FR 55176). Consistent with this action, the comment period for Notice 77-23 is reopened and extended from January 31, 1978 to February 28, 1978. The comment periods for Notices 75-15 and 76-1 are also reopened and extended to February 28, 1978 to coincide with the extended comment period for Notice 77-23.

DATES: Public hearing: February 27, 1978, at 9:30 a.m. Comments concerning Notices 75-15, 76-1, and 77-23 must be received on or before: February 28, 1978.

ADDRESSES: Airport Marina Hotel, Savoy Room, 8601 Lincoln Boulevard, Los Angeles, Calif. 90045. Make requests to be heard at the hearing to: Federal Aviation Administration, Western Region, Attention: AWE-4, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. Telephone: 213-536-6231. Send comments on the proposals in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-24), Docket No. 15376, 800 Inde-

pendence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Tedrick, Program Management Branch (AEQ-220), Environmental Technical and Regulatory Division, Office of Environmental Quality, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; Telephone 202-755-9027.

SUPPLEMENTARY INFORMATION:

THE PUBLIC HEARING

At 9:30 a.m. on February 27, 1978, the Federal Aviation Administration (FAA) will hold, in Los Angeles, Calif., the last of a series of public hearings regarding proposed amendments to the Federal Aviation Regulations (14 CFR Chapter I). This hearing will afford interested persons a further opportunity to present views, data, and arguments regarding the substance and issues raised in the proposals contained in Notice No. 77-23, entitled "Proposed Noise and Sonic Boom Requirements for Civil Supersonic Airplanes," which was published in the FEDERAL REGISTER on October 13, 1977 (42 FR 55176). In addition, presentations and comments are specifically invited on the relationship of those proposals to the amendments recommended by the U.S. Environmental Protection Agency (EPA) contained in Notice Nos. 75-15 (40 FR 14093; March 28, 1975) and 76-1 (41 FR 6270; February 12, 1976), which are currently being considered by the FAA under section 611(c) of the Federal Aviation Act of 1958, as amended. Presentations and comments are also invited on the draft environmental impact statement prepared in conjunction with the notice.

The comment period for the proposal presented under Notice No. 77-23, as well as proposals presented under Notice Nos. 75-15 and 76-1 will close February 28, 1978.

HEARING PROCEDURE

The hearing will be informal in nature and will be conducted by a designated representative of the Administrator under 14 CFR 11.33. At the hearing, FAA spokesmen will make a brief opening statement regarding the proposals contained in the notice. Since the hearing will not be evidentiary or judicial in nature, there will be no cross-examination or other adju-

dicatory procedure applied to the presentations. However, interested persons wishing to make rebuttal statements will be given an opportunity to do so at the conclusion of the presentations in the same order in which initial statements are made.

Interested persons are invited to attend the hearing and to participate by making oral or written statements concerning the respective proposals. Written statements should be submitted in duplicate and will be made a part of the regulatory docket. Persons wishing to make oral statements at the hearing must notify the FAA that they desire to be heard, and indicate the amount of time requested for their initial statements. Presentations will be scheduled on a first-come-first-served basis, as time may permit. Requests to be heard at the hearing may be made by contacting the person identified above for that purpose.

WRITTEN COMMENTS TO THE RULES DOCKET INVITED

In addition to material presented for the purpose of the hearing, persons not participating in the hearing are invited to submit written comments to the regulatory docket established for the notice of proposed rulemaking. As stated in the notice, such written comments should identify the notice or docket number and be submitted in duplicate to the FAA Rules Docket at the address indicated above.

SCOPE OF INQUIRY

Notice No. 77-23 was issued by the FAA under section 611 of the Federal Aviation Act of 1958, as amended. The notice supplements FAA's review of several options for regulating the noise of civil supersonic airplanes proposed to the FAA by the U.S. Environmental Protection Agency (EPA) and previously published by the FAA pursuant to the Noise Control Act of 1972. These additional proposals would: (1) Require all SSTs, except Concorde with flight time before January 1, 1980, to comply with the Stage 2 noise limits of Part 36 in order to operate in the United States; (2) prohibit modifications of current SST types that increase their noise; (3) place operational restrictions on SSTs that do not comply with the Stage 2 noise limits of Part 36; and (4) add procedures adapting the flight test conditions of Part 36 to supersonic airplanes. A proposal to protect United States coastal areas from sonic boom is also included.

Those proposals respond to the public need for the control of sonic boom and of the noise of SSTs.

Notice Nos. 75-15, 76-1, and 77-23 contain the FAA's analysis of the background of the respective proposals and contain the material that is the subject of the public hearing. While all relevant comments are of interest, the FAA specifically invites statements or comments concerning the following:

(a) Available data relating to aircraft noise, including the results of research, development, testing, and related evaluation activities.

(b) The reviews and positions of other Federal, State, and interstate agencies.

(c) Whether the proposed regulations would be consistent with the highest degree of safety in air commerce and air transportation in the public interest.

(d) Whether the proposed regulations would be—

(1) Economically reasonable;

(2) Technologically practicable; and

(3) Appropriate for the particular types of aircraft, aircraft engines, appliances, or certificates to which they would apply.

(e) The extent to which the proposed regulations would contribute to providing protection to the public health and welfare by carrying out the purposes of section 611 of the Federal Aviation Act of 1958, as amended.

(f) The overall environmental impacts of the proposed regulations (including environmental factors other than noise).

(g) The economic impact that might result because of adoption of the proposed rules.

Before taking further action under section 611 of the Federal Aviation Act of 1958, the FAA will consider all statements presented at the hearing and all written statements and comments submitted to the regulatory docket. The specific terms and substance of proposals contained in the notice may be changed in the light of those statements and comments presented.

Transcripts of the hearing will be made and anyone may purchase copies from the reporter. A transcript of the hearing will be available for examination in the Rules Docket.

DRAFTING INFORMATION

The principal authors of this document are Richard N. Tedrick, Office of Environmental Quality Branch, and Richard W. Danforth, Office of the Chief Counsel.

REOPENING OF COMMENT PERIODS

In order to permit public comment following the public hearing, the comment period for Notice 77-23 is hereby reopened and extended to February

PROPOSED RULES

28, 1978. The issues involved in that notice may also affect decisions made in response to Environmental Protection Agency proposals contained in Notice No. 75-15, published in the FEDERAL REGISTER (40 FR 14093) and Notice No. 76-1, published in the FEDERAL REGISTER (41 FR 6270) on February 12, 1976. Therefore, the comment periods for those notices are also reopened and extended to February 28, 1978.

(Secs. 307, 313(a), 601(a), 603, 611, Federal Aviation Act of 1958, as amended (49 U.S.C. 1348, 1354(a), 1421(a), 1423, 1431); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Title I, National Environmental Policy Act of 1969 (42 U.S.C. 1421 et seq.); Executive Order 11514; March 5, 1970; 14 CFR 11.45; and 44 U.S.C. 1508.)

Issued in Washington, D.C., on February 3, 1978.

JAMES E. DENSMORE,
Acting Director of
Environmental Quality.

[4910-13]

[14 CFR Part 71]

[Airspace Docket No. 77-WA-24]

FEDERAL AIRWAYS

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter a segment of the V-7/V-115 airway northwest of Montgomery, Ala. Such action would reduce the airway distance between Birmingham, Ala., and Montgomery. Also airspace would be made available for a new high altitude instrument approach procedure to Dannelly Field at Montgomery.

DATES: Comments must be received on or before March 9, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Southern Region, Attention: Chief, Air Traffic Division, Docket No. 77-WA-24, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation

Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga., 30320. All communications received on or before March 9, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter a segment of V-7 and V-115 (an identical route) between Montgomery, Ala., and Birmingham, Ala., by using a radial from Montgomery that is 15° north of the present radial. Both V-7 and V-115 would then be aligned via the INT of Montgomery 323° T (320° M) and Birmingham 177° T (175° M) radials.¹

DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR

¹Map filed as part of the original document.

Part 71) as republished (43 FR 307) as follows:

1. In V-7 "INT Montgomery 308" is deleted and "INT Montgomery 323" is substituted therefor.
2. In V-115 "INT Montgomery 308" is deleted and "INT Montgomery 323" is substituted therefor.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 31, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[FR Doc. 78-3663 Filed 2-8-78; 8:45 am]

[4910-13]

[14 CFR Part 71]

[Docket No. 78-SO-11]

DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Proposed Designation of Transition Area,
Bunnell, Fla.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

Summary: Public use instrument approach procedures are being developed for the Flagler County Airport, Bunnell, Fla., and additional controlled airspace is required for containment of Instrument Flight Rules (IFR) operations. This proposed rule will designate the Bunnell, Fla., transition area and will lower the base of controlled airspace in the vicinity of the airport from 1,200 to 700 feet to accommodate the anticipated IFR operations.

DATE: Comments must be received on or before March 8, 1978.

ADDRESS: Send comments on the proposal to: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

Donald Ross, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320; telephone: 404-763-7848.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submit-

ting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Federal Aviation Administration, Attention: Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before March 8, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate the Bunnell, Fla., 700-foot transition area. This action will provide additional controlled airspace to accommodate aircraft performing IFR operations at Flagler County Airport.

DRAFTING INFORMATION

The principal authors of this document are Donald Ross, Airspace and Procedures Branch, Air Traffic Division, and Ronald R. Hagadone, Office of Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by adding the following:

BUNNELL, FLA.

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Flagler County Airport (Lat. 29°27'35" N, Long. 81°12'30" W) excluding that portion that coincides with the Daytona Beach, Florida, transition area.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); sec. 6(c), De-

partment of Transportation Act (49 U.S.C. 1655 (c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in East Point, Ga., on January 17, 1978.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc. 78-3664 Filed 2-8-78; 8:45 am]

[6740-02]

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[18 CFR Part 141]

[Docket No. RM77-2]

STATEMENTS AND REPORTS (SCHEDULES)

Public Conference

AGENCY: Federal Energy Regulatory Commission.

ACTION: Public Conference.

SUMMARY: On August 15, 1977 the Federal Power Commission issued a rulemaking notice in which it proposed to limit the public availability of data it presently collects on Form 423—Monthly Report of Cost and Quality of Fuels for Electric Plants, 42 FR 51609. The rulemaking was initiated in response to a petition by twelve electric utilities that the Commission discontinue data collection or provide the public only with monthly summaries of the data. The utilities allege that the current reporting system places "the reporting utilities at a decided disadvantage in negotiations for available fuel supplies" and may "set the stage for anticompetitive behavior." The comment period ended October 28, 1977.

Complete and comprehensive discussion of the issues raised in the rulemaking has not been provided in the comments. Several parties requested a public conference. In response to the requests and because the issues raised in the rulemaking are complex, the Staff believes that the public interest would be served by providing interested parties a further opportunity to present their views, the reason for this Notice.

A Public Conference will be convened in Washington, D.C. beginning on March 9, 1978 to receive oral and written comments. Participants are requested to focus on the issues raised in Sections A, B, C, and D of the Notice.

DATES: Parties intending to make an oral presentation should signify intent by March 1, 1978. Public Conference will be convened in Washington, D.C. on March 9, 1978.

ADDRESSES: Parties intending to make oral presentation should write to: Secretary, Federal Energy Regulatory Commission, Washington, D.C. 20426 Public Conference to be held at: Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. at 10 a.m.

FOR FURTHER INFORMATION CONTACT:

Bernard Tenenbaum, Office of Regulatory Analysis, 202-275-4110, Charles F. Reusch, Office of the General Counsel, 202-275-4328.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, (September 15, 1977), 42 FR 46267, the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of Section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by Section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —: Provided, That this proceeding would be continued before the FERC takes action in this proceeding in accordance with the above mentioned authorities.

Pursuant to § 1.3 of the Commission's rules of practice and procedure, 18 CFR 1.3, notice is hereby given that a public conference shall be convened on March 9, 1978, at the offices of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426 at 10 a.m. to address certain matters relating to this Docket.

On August 15, 1977, the Commission issued a Notice of Proposed Rulemaking in Docket No. RM77-2, 42 FR 51609, in which it proposed to continue collecting the information presently required on Form No. 423, but to limit the distribution of the information once it is collected. The comment period was to run until September 30, 1977.

Publication of the Notice of Proposed Rulemaking in the FEDERAL REGISTER did not occur until September 29, 1977, 42 FR 51609. On October 13, 1977, the Office of Consumer Affairs (OCA), U.S. Department of Health, Education, and Welfare, requested a further extension of time in the period for filing comments. The Secretary granted the request. By Notice of Further Extension of Time issued October 14, 1977, the date for filing comments was extended to and including October 28, 1977, 42 FR 56756.

By request filed October 14, 1977, OCA requested a conference with the Commission's Staff concerning Docket No. RM77-2. In its comments filed on October 14, 1977, the Information Industry Association also requested a conference. By letter dated October 14, 1977, the U.S. Justice Department supported OCA's request for a conference. The FERC Staff also believes that a conference is necessary. Therefore, in response to these various requests and because of the complexity of the issues raised by this proposed rulemaking, the Staff believes that the public interest would be served by providing interested parties with a further opportunity to present their views on this matter. Consequently, a public conference in Docket No. RM77-2 will be convened in Washington, D.C. beginning on March 9, 1978, to receive oral and written comments.

The comments submitted to date have presented issues and raised questions on many aspects of the rulemaking. Complete discussion of the issues and proposed answers to the questions has not always been provided. The Staff believes it has the obligation to develop as complete a record as possible in this proceeding.

Therefore, participants in the public conference are requested to focus on the issues raised in Sections A, B, C and D below. The participants should provide as much factual data as they can that relate to the issues and they should provide a clear statement of all assumptions underlying their conclusions.

A. The petitioners allege that the current reporting system places "... the reporting utilities at a decided disadvantage in negotiations for available fuel supplies" and may "set the stage for anti-competitive behavior." Implicit in these allegations are certain assumptions regarding markets and market behavior.

¹See *Union Oil Company of California v. FPC*, 542 F. 2d 1036 (9th Cir. 1976), and *Pennzoil Company v. FPC*, 534 F. 2d 627 (5th Cir. 1976).

²Petition of Certain Electric Utilities for Amendment of Commission's Regulations with Respect to Form 423, October 15, 1976, pp. 5 and 12.

1. What are the relevant markets? Are they regional or national? Are the relevant markets limited to individual fuels or to all fuels used by utilities?

2. Is the allegation that the public disclosure of Form 423 data is creating a disincentive for fuel suppliers to lower prices, and/or facilitates supplier price coordination, based on the implicit assumption of an oligopolistic fuel market?

3. Is the allegation equally plausible if the fuel market is a bilateral oligopoly (a few buyers facing a few sellers)?

4. If the relevant market is found to be oligopsonistic (a few buyers facing many sellers), does the disclosure of Form 423 data place a restraint on the ability of utilities to exercise their market power? If so, is this desirable?

5. If the relevant market is determined to be competitive, would the adoption of the petitioners' recommendation (i.e. disclosure limited to average prices) tend to increase or decrease the average price of fuel for utilities? Would there be an increase or decrease in the variance of prices?

6. What direct evidence can be presented to support the petitioner's allegation that fuel suppliers have engaged in market conduct that has raised the price of fuel? Cite specific instances of such conduct and provide estimates of the impact on utility fuel costs. Estimate the overall impact of public availability of Form 423 data on utility fuel costs.

7. If the availability of Form 423 data improves the bargaining position of an individual fuel supplier, is it always correct to characterize this effect as "anti-competitive"? Which of the instances cited above can be considered anti-competitive? What criteria should the Commission use in deciding whether the price behavior of one or more fuel suppliers is "anti-competitive"?

B. Several parties submitting comments have stated that the proposal to release data averaged by plant or by utility will not provide sufficient information and detail to enable non-government intervenors to monitor fuel purchases and to participate effectively in cases before regulatory agencies.

1. Show, by means of sample problem, how the detailed data are presently used to monitor fuel purchases, and how the detailed data are used in the preparation of cases before Federal or state regulatory agencies.

2. If monthly disclosure of Form 423 is limited to the summary presently published, as shown in Appendix A, would this format provide sufficient information to allow non-government intervenors to perform the monitoring function?

3. Is there any other method by which the data could be summarized and still provide enough detail for monitoring utility fuel purchases?

PROPOSED RULES

4. Comment on the following alternative method for disclosing the Form 423 data: (1) summary disclosure as shown in Appendix A for deliveries from non-captive sources, and (2) detailed reporting, as is done presently, for deliveries from captive sources.

C. Several state commissions have contended that verification of fuel cost adjustment charges and comparisons of fuel costs between neighboring utilities require data on individual fuel deliveries as provided by the current Form 423 reporting system.

1. Show, by means of a sample problem, how the detailed data which are presently available are used to perform these two functions.

2. Show how summarized price and quantity data by plant and utility (as shown in Appendix A) is insufficient for these two functions.

D. There are some indications that certain state commissions are likely to continue making public data on specific fuel transactions, gathered by the state commissions, even if the FERC were to decide to limit disclosure to averaged data. Is it possible that such differences in information availability could affect utility fuel prices?

1. Is there any evidence which shows that prior to July 1972 (when Form

423 reporting was initiated) publicly owned utilities, which were generally required by law to reveal all bids received, paid a higher average price for fuel than utilities that were not subject to such a requirement?

2. If the FERC were to limit disclosure to average price data, would this tend, once again, to create a two-tier market? (The upper tier would include almost all publicly owned utilities and those investor-owned utilities which operate in states where complete fuel transaction data are made public by state regulatory commission. The lower tier would include all remaining utilities, largely private, that purchase a fuel without public disclosure of their individual transactions.)

3. Would utilities in the upper tier be placed at a competitive disadvantage vis-a-vis utilities in the lower tier in any markets where they might compete?

4. Is the two-tier market likely to develop only in a fuel market which is oligopolistic?

The conference is open to the public. One need not have submitted comments in this rulemaking previously in order to make a presentation, oral or written, at this conference. Appendix B is a list of those who submitted com-

ments in Docket No. RM77-2 subsequent to issue of the Notice of Proposed Rulemaking on August 15, 1977, 42 FR 51609.

The conference, which will be held before Staff, will consist of two parts. During Part I, parties may offer their responses to the questions posed above. Following each response, additional time will be set aside for questioning of the party by members of the FERC Staff. Parties intending to present material orally should signify their intent to do so in writing to the Secretary, Federal Energy Regulatory Commission, Washington, D.C. 20426, on or before March 1 1978. during Part II, parties may discuss other issues they deem relevant to this rule-making. Parties desiring to place written material into the record should provide the Staff with at least one original and fourteen copies of that material. Written material should be accompanied by a verification. If many parties wish to make oral statements, the presiding officer may set a time limit for each party's presentation.

The Secretary shall cause prompt publication of this Notice to be made in the FEDERAL REGISTER.

KENNETH F. PLUMB,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 11]

LAW AND ORDER ON INDIAN RESERVATIONS

Courts of Indian Offenses

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Proposed rulemaking.

SUMMARY: It is proposed to include in 25 CFR 11.1(a) a complete list of all CFR courts (also known as Courts of Indian Offenses). These are the Indian courts that derive the core of their substantive law from 25 CFR Part 11. All other Indian courts derive their substantive law from tribal codes or customs. The purpose of this amendment is to inform the public which reservations are governed by these regulations. With the exception of the Kootenai Reservation, which is being established at this time all reservations listed, presently have operating CFR courts.

In the future, CFR courts will be officially established or disestablished by amendments to 25 CFR 11.1(a). The Couer d'Alene and Navajo Reservations now have tribal courts rather than CFR Courts. For that reason, the special sections applicable to those tribes are deleted. Although the Hopi Reservation also has a tribal court, the tribe's attorney has asked that the special grazing regulations applicable to that reservation be retained.

DATE: Comments must be received on or before April 10, 1978.

ADDRESS: Written comments should be directed to: Director, Office of Indian Services, Bureau of Indian Affairs, Department of the Interior, Washington, D.C. 20245.

FOR FURTHER INFORMATION CONTACT:

Patrick A. Hayes, Judicial Services Officer, Division of Tribal Government Services, Office of Indian Services, Bureau of Indian Affairs, Department of the Interior, Washington, D.C. 20245. Telephone: 202-343-7885

SUPPLEMENTARY INFORMATION: The primary author of this document is: David C. Etheridge, Attorney, Division of Indian Affairs, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240, 202-343-6967.

This revision is proposed under the authority contained in 5 U.S.C. 301 and 25 U.S.C. 2 and delegated by the Secretary of the Interior to the Assistant Secretary for Indian Affairs by

tant Secretary for Indian Affairs by 230 DM 2.

1. It is proposed to revise § 11.1(a) of Subchapter B, Chapter I, of Title 25 of the Code of Federal Regulations to read as follows:

§ 11.1 Application of regulations.

(a) Except as otherwise provided in this part, § 11.1-11.87H of this part apply to the following Indian reservations:

- (1) Omaha (Nebraska)
- (2) Wind River (Wyoming)
- (3) Flandreau (South Dakota)
- (4) Yankton (South Dakota)
- (5) Menominee (Wisconsin)
- (6) Isabella (Michigan)
- (7) Cocopah (Arizona)
- (8) Fort Mojave (Arizona)
- (9) Kaibab (Arizona)
- (10) Yavapai-Prescott (Arizona)
- (11) Skull Valley (Nevada)
- (12) Duckwater (Nevada)
- (13) Fallon (Nevada)
- (14) Goshute (Nevada)
- (15) Lovelock (Nevada)
- (16) Reno Sparks (Nevada)
- (17) Te-Moak (Nevada)
- (18) Walker River (Nevada)
- (19) Washoe (Nevada)
- (20) Winnemucca (Nevada)
- (21) Yomba (Nevada)
- (22) Nez Perce (Idaho)
- (23) Kootenai (Idaho)
- (24) Nooksack (Washington)
- (25) Choctaw (Mississippi)

§§ 11.2CA, 11.3CA, 11.5CA, 11.6CA, 11.8CA, 11.22CA, 11.24CA, 11.25CA, 11.28CA, 11.30CA, 11.31CA, 11.33CA, 11.37CA, 11.49CA, 11.52CA, 11.53CA, 11.63CA, 11.75CA, and 11.76CA. [Reserved].

2. It is proposed to delete the following sections as set forth above.

§§ 11.77NH-11.85NH [Amended]

3. It is proposed to delete the letter "N" from section numbers § 11.77NH-11.85NH so that these sections will not apply to the Navajo Reservation.

FORREST G. GERARD,
Assistant Secretary for
Indian Affairs.

[FR Doc. 78-3701 Filed 2-8-78; 8:45 am]

PROPOSED RULES

[4830-01]

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

AMENDMENT OF SUBPART F REGULATIONS TO CONFORM TO THE FOREIGN BASE COMPANY SHIPPING INCOME REGULATIONS AND TO THE REPEAL OF SUBPART F EXCEPTION FOR INVESTMENTS IN LESS DEVELOPED COUNTRIES

Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the taxation of earnings and profits of controlled foreign corporations and their shareholders. Changes to the applicable tax law were made by the Tax Reduction Act of 1975. The regulations would provide the public with the guidance needed to comply with that Act and would affect United States shareholders of controlled foreign corporations.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 27, 1978. In general, the amendments are proposed to be effective for taxable years of United States shareholders of controlled foreign corporations ending after December 31, 1975.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

Jacob Feldman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3459, not a toll free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under the Internal Revenue Code of 1954 and to proposed amendments to such regulations made by the notices of proposed rule making published in the FEDERAL REGISTER (41 FR 33285) on August 9, 1976 (relating to foreign base company shipping operations), and (42 FR 12199) on March 3, 1977 (relating to repeal of section 963), in order to conform the regulations and amendments to certain provisions of section 602 of the Tax Reduction Act of 1975 (89

Stat. 58) (hereinafter referred to as "the Act"), relating to the taxation of earnings and profits of controlled foreign corporations and their shareholders. The regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

FOREIGN CORPORATIONS

Under present law foreign corporations are generally taxed at the corporate level by the United States only to the extent that they are engaged in business in the United States (and to some extent on other income derived here). As a result, the United States generally does not impose a tax at the corporate level on the foreign source income of a foreign corporation even though it is owned or controlled by a U.S. corporation or by individual U.S. citizens or residents. A foreign corporation is generally subject to tax at the corporate level, if at all, only by the foreign country in which it operates.

In addition, the foreign source income of a foreign corporation is generally subject to U.S. income tax at the shareholder level only when it is actually remitted to the U.S. corporate or individual shareholders as a dividend. The practice of not imposing a U.S. tax in this case at either the corporate or the shareholder level until (and unless) the income is distributed to the U.S. shareholders is sometimes referred to as tax deferral.

FOREIGN BASE COMPANY INCOME

Present law, however, provides for an exception to the general rule of deferral under the so-called subpart F provisions of the Code (sections 951 through 964). Under these provisions income from so-called tax haven activities ("foreign base company income") is currently taxed as income of the shareholder whether or not it is actually received in the form of a dividend. These rules apply only to U.S. shareholders owning 10 percent or more of the voting power of a foreign corporation, and only if more than 50 percent of the voting power in the corporation is owned by U.S. shareholders who each own 10 percent or larger interests.

PRIOR LAW

Before the enactment of the Act, section 954(b)(1) excluded from foreign base company income certain dividends, interest, and gains from qualified investments in less developed countries. Under sections 951(a)(1)(A)(ii) and 955, a U.S. shareholder was taxed on its pro rata share of this excluded income only when it was withdrawn from investment in less developed countries.

INVESTMENT IN LESS DEVELOPED COUNTRIES

Section 602(c) of the Act repealed the section 954(b)(1) exclusion from foreign base company income for certain dividends, interest, and gains from qualified investments in less developed countries. In addition, section 602(c) of the Act also repealed the provisions of section 955, but retained the section 951(a)(1)(A)(ii) imposition of tax on a U.S. shareholder's pro rata share of the controlled foreign corporation's previously excluded subpart F income withdrawn from investment in less developed countries. As a result of the retention of section 951(a)(1)(A)(ii), repealed section 955 (as in effect before amendment by the Act) retains its vitality after the enactment of the Act.

FOREIGN BASE SHIPPING INCOME

Section 602(d) of the Act provided for a new category of foreign base company income called "foreign base company shipping income." Under section 954(b)(2), foreign base company income does not include foreign base company shipping income to the extent such income does not exceed the increase in qualified investments in foreign base company shipping operations. Under sections 951(a)(1)(A)(iii) and 955 (as amended by the Act), previously excluded subpart F income withdrawn from investment in foreign base company shipping operations is included in the gross income of the U.S. shareholders. Proposed amendments to the Income Tax Regulations setting forth the general rules relating to foreign base company shipping income were published in the appendix to the notice of proposed rulemaking for August 9, 1976 (41 FR 33285).

PROPOSED REGULATIONS

The amendments proposed in this document generally provide for the repeal of the less developed country exception to subpart F and coordinate the existing subpart F regulations, including those pertaining to the withdrawal of previously excluded subpart F income from qualified investment in less developed countries, with the foreign base company shipping income regulations proposed on August 9, 1976. The proposed amendments also update and correct certain cross-references to and within the subpart F regulations.

In addition, the proposed amendments change certain reporting requirements under subpart F by requiring that taxpayer identification numbers also be furnished in cases in which taxpayer names and addresses are currently required to be furnished. The requirement that taxpayer identification numbers be furnished applies

only with respect to reports filed more than 30 days after the date on which this document is published as a Treasury decision.

All references in this document to provisions that would be amended by the proposed regulations published on August 9, 1976 (41 FR 33285), are to such provisions as they would be amended.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations was Jacob Feldman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation both on matters of substance and style.

PROPOSED AMENDMENTS TO THE REGULATIONS

The proposed amendments to 26 CFR Part 1 are as follows:

PARAGRAPH 1. Section 1.864-5(d)(2) is amended as follows:

1. Subdivision (i) is revised.
2. Subdivision (ii) is revised by changing "30 percent" to "10 percent."
3. Subdivision (ii) is revised by inserting "(30 percent in the case of taxable years of foreign corporations ending before January 1, 1976)" immediately after "10 percent."

The revised provision reads as follows:

§ 1.864-5 Foreign source income effectively connected with U.S. business.

(d) Excluded foreign source income. . . .
(2) Subpart F income of a controlled foreign corporation. . . .

(i) Foreign base company shipping income which is excluded under section 954(b)(2).
(ii) Foreign base company income amounting to less than 10 percent (30 percent in the case of taxable years of foreign corporations ending before January 1, 1976) of gross income which by reason of section 954(b)(3)(A) does not become subpart F income for the taxable year.

PAR. 2. Section 1.881-1 (e)(4)(i) is amended to read as follows:

§ 1.881-1 Manner of taxing foreign corporations.

(e) Other provisions applicable to foreign corporations. . . .

(4) Controlled foreign corporations.—(i) Subpart F income and increase of earnings invested in U.S. property. For the mandatory inclusion in the gross income of the U.S. shareholders of the subpart F income, of the previously excluded subpart F income withdrawn from investment in less developed countries, of the previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, and of the increase in earnings invested in U.S. property, of a controlled foreign corporation, see sections 951 through 964, and the regulations thereunder.

PAR. 3. Section 1.951 is deleted.

PAR. 4. Section 1.951-1 is amended as follows:

1. Paragraph (a)(2) is revised as follows:

a. Subdivision (ii) is revised by deleting "paragraph (c)" and inserting in lieu thereof "paragraph (c) (1)," and by deleting the word "and" at the end thereof.

b. Subdivision (iii) is redesignated as subdivision (iv).

c. Immediately after subdivision (ii) new subdivision (iii) is added.

2. Paragraph (b)(1) is revised by deleting "paragraph (a)(1)" and inserting in lieu thereof "paragraph (a)(2) (i)."

3. Paragraph (c) is revised.

4. Paragraph (d) is revised by deleting "paragraph (a)(3)" both times it appears and inserting in lieu thereof "paragraph (a)(2)(iv)."

5. Paragraph (e)(1) is revised. The added and revised provisions read as follows:

§ 1.951-1 Amounts included in gross income of U.S. shareholders.

(a) In general. . . .

(2)

(iii) Such shareholder's pro rata share (determined under paragraph (c)(2) of this section) of the corporation's previously excluded subpart F income withdrawn from investment in foreign base company shipping operations for such taxable year of the corporation, and

(c) Limitation on a United States shareholder's pro rata share of previously excluded subpart F income withdrawn from investments.—(1) Investments in less developed countries.

For purposes of paragraph (a)(2)(i) of this section, a United States shareholder's pro rata share (determined in accordance with the rules of paragraph (e) of this section) of the foreign corporation's previously excluded subpart F income withdrawn from investment in less developed countries for the taxable year of such corporation shall not exceed an amount which bears the same ratio to such shareholder's pro rata share of such income withdrawn (as determined under section 955(a)(3), as in effect before the enactment of the Tax Reduction Act of

1975, and paragraph (c) of § 1.955-1) for such taxable year as the part of such year during which such corporation is a controlled foreign corporation bears to the entire taxable year. See paragraph (c)(2) of § 1.955-1 for a special rule applicable to exclusions and withdrawals occurring before the date on which the United States shareholder acquires his stock.

(2) Investments in foreign base company shipping operations. For purposes of paragraph (a)(2)(iii) of this section, a United States shareholder's pro rata share (determined in accordance with the rules of paragraph (e) of this section) of the foreign corporation's previously excluded subpart F income withdrawn from investment in foreign base company shipping operations for the taxable year of such corporation shall not exceed an amount which bears the same ratio to such shareholder's pro rata share of such income withdrawn (as determined under section 955(a)(3) and paragraph (c) of § 1.955A-1) for such taxable year as the part of such year during which such corporation is a controlled foreign corporation bears to the entire taxable year. See paragraph (c)(2) of § 1.955A-1 for a special rule applicable to exclusions and withdrawals occurring before the date on which the United States shareholder acquires his stock.

(e) "Pro rata share" defined.—(1) In general. For purposes of paragraphs (b), (c), and (d) of this section, a United States shareholder's pro rata share of a controlled foreign corporation's subpart F income, previously excluded subpart F income withdrawn from investment in less developed countries, previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, or increase in earnings invested in United States property, respectively, for any taxable year is his pro rata share determined under paragraph (a) of § 1.952-1, paragraph (c) of § 1.955-1, paragraph (c) of § 1.955A-1, or paragraph (c) of § 1.956-1, respectively.

PAR. 5. Section 1.951-3 is amended as follows:

1. Example (4) is revised as follows:
a. Paragraph (a) is revised by deleting "paragraph (b)(1) of § 1.954-1" in the third sentence and inserting in lieu thereof "26 CFR 1.954-1(b)(1) (Rev. as of Apr. 1, 1975)" and by inserting in the sixth sentence "as in effect before the enactment of the Tax Reduction Act of 1975," immediately after "section 955(a)."

b. A new paragraph (c) is added.
2. Example (5) is revised by deleting "paragraph (a)(3)" each time it appears in paragraphs (a) and (b) and inserting in lieu thereof "paragraph (a)(2)(iv)."

The added provision reads as follows:

§ 1.951-3 Coordination of subpart F with foreign personal holding company provisions.

Example (4). . . .

(c) The principles of this example also apply to withdrawals (determined under sec-

tion 955(a), as in effect before the enactment of the Tax Reduction Act of 1975) or previously excluded subpart F income from investment in less developed countries effected after the effective date of such Act, and to withdrawals (determined under section 955(a), as amended by such Act) of previously excluded subpart F income from investment in foreign base company shipping operations.

PAR. 6. Section 1.952-1 is amended as follows:

1. Paragraph (a)(2) is revised by deleting "1.954-5," and inserting in lieu thereof "1.954-7)."

2. Paragraph (b)(1) is revised to read as follows:

§ 1.952-1 Subpart F income defined.

(b) Exclusion of U.S. income.—(1) Taxable years beginning before January 1, 1967. For rules applicable to taxable years beginning before January 1, 1967, see 26 CFR 1.952-1(b)(1) (Rev. as of April 1, 1975).

PAR. 7. Section 1.952-2(c)(5)(i) is amended to read as follows:

§ 1.952-2 Determination of gross income and taxable income of a foreign corporation.

(c) Special rules for purposes of this section. . . .

(5) Treatment of capital loss and net operating loss. . . .

(i) Capital loss carryback and carryover. The capital loss carryback and carryover provided by section 1212(a) shall not be allowed.

PAR. 8. The first sentence of § 1.954-1(b)(3)(v), as amended by paragraph 4 of the appendix to the notice of proposed rule making published on August 9, 1976 (41 FR 33290), is further amended by deleting "paragraph (d)(6)" and inserting in lieu thereof "paragraph (d)(7)," and by deleting "Corporate Tax Division" and inserting in lieu thereof "Corporation Tax Division."

PAR. 9. Section 1.954-2(d)(2)(iv)(b)(2) is amended as follows:

1. Subdivision (ii) is revised by deleting "and" at the end thereof.

2. Subdivision (iii) is revised by deleting the period at the end thereof and inserting in lieu thereof "and".

3. A new subdivision (iv) is added to read as follows:

§ 1.954-2 Foreign personal holding company income.

(d) Certain income received from unrelated persons in the active conduct of a trade or business. . . .

(2) Dividends, interest, and gains on securities, received in banking or other financing business from unrelated persons. . . .

(iv) Income of foreign corporations owned by Edge Act or Agreement corporations. . . .
(b) Foreign corporations included. . . .
(2)

(iv) Foreign base company shipping income, as defined in § 1.954-6.

§ 1.954-3 [Amended]

PAR. 10. Section 1.954-3(b) is amended as follows:

1. The first sentence of subparagraph (2)(i)(d) is revised by deleting "paragraph (b)(3)(iv)" and inserting in lieu thereof "paragraph (b)(4)(iv)".

2. The second sentence of subparagraph (3) is revised by deleting "30 percent" and inserting in lieu thereof "10 percent".

PAR. 11. Section 1.954-5 is amended to read as follows:

§ 1.954-5 Increase in qualified investments in less developed countries; taxable years of controlled foreign corporations beginning before January 1, 1976.

For rules applicable to taxable years of controlled foreign corporations beginning before January 1, 1976, see section 954(b)(1) (as in effect before the enactment of the Tax Reduction Act of 1975) and 26 CFR 1.954-5 (Rev. as of April 1, 1975).

§ 1.955 [Deleted]

PAR. 12. Section 1.955 is deleted.

PAR. 13. Section 1.955-0(a), as reserved in paragraph 9 of the appendix to the notice of proposed rule making published on August 9, 1976 (41 FR 33296), is proposed to read as follows:

§ 1.955-0 Effective dates.

(a) Section 955 as in effect before the enactment of the Tax Reduction Act of 1975.—

(1) In general. In general, §§ 1.955-1 through 1.955-6 are applicable with respect to withdrawals of previously excluded subpart F income from qualified investment in less developed countries for taxable years of foreign corporations beginning after December 31, 1962, and to taxable years of United States shareholders (as defined in section 951(b)) within which or with which such taxable years of such foreign corporations end. However, such sections are effective with respect to withdrawals of amounts invested in less developed country shipping companies described in section 955(c)(2) (as in effect before the enactment of the Tax Reduction Act of 1975) only for taxable years of foreign corporations beginning before January 1, 1976, and for taxable years of United States shareholders (as defined in section 951(b)) within which or with which such taxable years of such foreign corporations end. For rules applicable to withdrawals of amounts invested in less developed country shipping companies described in section 955(c)(2) (as in effect before such enactment), in taxable years of foreign corporations beginning after December 31, 1975, see section 955(b)(5) (as in effect after amendment by the Tax Reduction Act of 1975) and §§ 1.955A-1 through 1.955A-4. For effective dates, see § 1.955-0.

PAR. 15. Section 1.955-3 is amended as follows:

1. The first sentence of paragraph (a) is revised by deleting "In lieu of determining the increase under" and inserting in lieu thereof "In lieu of determining the increase for a taxable year of a foreign corporation beginning before January 1, 1976, under".

2. Immediately after the last sentence of paragraph (b)(1) a new sentence is added to read as follows:

§ 1.955-3 Election as to date of determining qualified investments in less developed countries

(2) References. Except as otherwise provided therein, all references contained in

§§ 1.955-1 through 1.955-6 to section 954 or 955 or to the regulations under section 954 are to those sections and regulations as in effect before the enactment of the Tax Reduction Act of 1975. For regulations under section 954 (as in effect before such enactment), see 26 CFR 1.954-1 through 1.954-5 (Rev. as of April 1, 1975). For taxable years of foreign corporations beginning after December 31, 1975, and for taxable years of United States shareholders (as described in section 951(b)) within which or with which such taxable years of such foreign corporations end, the definitions of less developed countries and less developed country corporations contained in section 902(d) (as amended by such Act) and § 1.902-2 apply for purposes of determining the credit for corporate stockholders in foreign corporations under section 902.

PAR. 14. Paragraph (a) of § 1.955-1 is amended to read as follows:

§ 1.955-1 Shareholder's pro rata share of amount of previously excluded subpart F income withdrawn from investment in less developed countries.

(a) In general. Pursuant to section 951(a)(1)(A)(i) and the regulations thereunder, a United States shareholder of a controlled foreign corporation must include in its gross income its pro rata share (as determined in accordance with paragraph (c) of this section) of the amount of such controlled foreign corporation's previously excluded subpart F income which is withdrawn for any taxable year from investment in less developed countries. Section 955 provides rules for determining the amount of a controlled foreign corporation's previously excluded subpart F income for any taxable year of the corporation beginning after December 31, 1962, that is withdrawn from investment in less developed countries for any taxable year of the corporation beginning before January 1, 1976. Except for investments in less developed country shipping companies, section 955 also provides rules for determining the amount of a controlled foreign corporation's previously excluded subpart F income for any taxable year of the corporation beginning after December 31, 1962, which is withdrawn from investment in less developed countries in taxable years of the corporation beginning after December 31, 1975. To determine the amount of a controlled foreign corporation's previously excluded subpart F income withdrawn from investment in less developed country shipping companies described in section 955(c)(2) in taxable years of a controlled foreign corporation beginning after December 31, 1975, see section 955(b)(5) (as in effect after amendment by the Tax Reduction Act of 1975) and §§ 1.955A-1 through 1.955A-4. For effective dates, see § 1.955-0.

PAR. 15. Section 1.955-3 is amended as follows:

1. The first sentence of paragraph (a) is revised by deleting "In lieu of determining the increase under" and inserting in lieu thereof "In lieu of determining the increase for a taxable year of a foreign corporation beginning before January 1, 1976, under".

2. Immediately after the last sentence of paragraph (b)(1) a new sentence is added to read as follows:

§ 1.955-3 Election as to date of determining qualified investments in less developed countries

(b) *Time and manner of making election.*—(1) *Without consent.* . . . For taxable years of a foreign corporation beginning after December 31, 1975, no election under this section with respect to a controlled foreign corporation may be made without the consent of the Commissioner.

PAR. 16. The first sentence of § 1.958-1(a) is amended to read as follows:

§ 1.958-1 *Direct and indirect ownership of stock.*

(a) *In general.* Section 958(a) provides that, for purposes of sections 951 to 964 (other than sections 955(b)(1) (A) and (B) and 955(c)(2)(A)(ii) (as in effect before the enactment of the Tax Reduction Act of 1975), and 960(a)(1)), stock owned means—
(1) Stock owned directly; and
(2) Stock owned with the application of paragraph (b) of this section.

PAR. 17. Section 1.959-1 is amended as follows:

1. The second and third sentences of paragraph (a) are revised.
2. The third sentence of paragraph (b) is revised.
3. The second sentence of paragraph (c) is revised.
4. Paragraph (d)(2) is revised.
The revised provisions read as follows:

§ 1.959-1 *Exclusion from gross income of United States persons of previously taxed earnings and profits.*

(a) *In general.* . . . The amounts so taxed to certain United States shareholders are described as subpart F income, previously excluded subpart F income withdrawn from investment in less developed countries, previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, and increases in earnings invested in United States property. Section 959 provides that amounts taxed as subpart F income, as previously excluded subpart F income withdrawn from investment in less developed countries, or as previously excluded subpart F income withdrawn from investment in foreign base company shipping operations are not taxed again as increases in earnings invested in United States property. . . .

(b) *Actual distributions to United States persons.* . . . Thus, earnings and profits attributable to amounts which are, or have been, included in the gross income of a United States shareholder of a foreign corporation under section 951 (a)(1)(A)(i) as subpart F income, under section 951 (a)(1)(A)(ii) as previously excluded subpart F income withdrawn from investment in less developed countries, under section 951 (a)(1)(A)(iii) as previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, or under section 951 (a)(1)(B) as earnings invested in United States property, shall not be again included in the gross income of such shareholder when such amounts are actually distributed, directly or indirectly, to such shareholder. . . .

(c) *Excludable investment of earnings in United States property.* . . . Thus, earnings and profits attributable to amounts which are, or have been, included in the gross income of a United States shareholder of a foreign corporation under section 951 (a)(1)(A)(i) as subpart F income, under section 951 (a)(1)(A)(ii) as previously excluded subpart F income withdrawn from investment in less developed countries, or under section 951 (a)(1)(A)(iii) as previously excluded subpart F income withdrawn from investment in foreign base company shipping operations may be invested in United States property without being again included in such shareholder's income under section 951 (a). . . .

(d) *Application of exclusions to shareholder's successor in interest.* . . .
(2) The name, address, and taxpayer identification number of the person from whom the stock interest was acquired;

§ 1.959-3 [Amended]

PAR. 18. Section 1.959-3 is amended as follows:

1. Paragraph (a) is amended by inserting "previously excluded subpart F income withdrawn from investment in foreign base company shipping operations," immediately after "countries."
2. Paragraph (b) is amended by deleting "Earnings" the first time it appears in the fourth sentence of the flush material following subparagraph (3) and inserting in its place "For example, earnings".

3. Paragraph (b) is amended further by inserting "or foreign base company shipping operations" immediately after "assets" in the fourth sentence of the flush material following subparagraph (3).
4. Paragraph (c) is amended by deleting "or foreign base company shipping operations" immediately after "assets" in the fourth sentence of the flush material following subparagraph (3).

PAR. 19. Section 1.964-1 is amended as follows:

1. The second sentence of the flush material following paragraph (b)(2)(ii) is revised by inserting a comma after "section 957)", and by inserting a comma after "or (3)(B)", and by inserting before the period "or pays a dividend that is included in the foreign base company shipping income of a controlled foreign corporation under § 1.954-6(f)".

2. The first sentence of example (2) of paragraph (b)(3) is revised by deleting "Corporation N" and inserting in lieu thereof "In 1973, Corporation N".

3. The first sentence of paragraph (c)(2) is revised by inserting a comma after "section 957)", by inserting a comma after "or (3)(B)", and by deleting "section 952(d)", and inserting in lieu thereof "section 952(d), or pays a dividend that is included in the foreign base company shipping income of a controlled foreign corporation under § 1.954-6(f)".

4. Paragraph (c)(3)(ii) is revised.

5. Paragraph (c)(5) is revised by adding at the end thereof a new sentence.

6. Paragraph (c)(6) is revised as follows:

a. Subdivision (ii) is revised by deleting "section 955(c)" and inserting in lieu thereof "section 955(c), as in effect before the enactment of the Tax Reduction Act of 1975)".

b. Subdivision (iii) is revised by deleting the word "or" from the end thereof.

c. Subdivision (iv) is revised by deleting the period from the end thereof and inserting in lieu thereof "; or".

d. A new subdivision (v) is added.

e. The second sentence of the flush material following new subdivision (v) is revised by inserting immediately before the period "or pays a dividend that is included in the foreign base company shipping income of a controlled foreign corporation under § 1.954-6(f)".

The revised and added provisions read as follows:

§ 1.964-1 *Determination of the earnings and profits of a foreign corporation.*

(c) *Tax adjustments.* . . .
(3) *Action on behalf of a corporation.* . . .

(ii) *Written statement.* The written statement required by subdivision (i) of this subparagraph shall be jointly executed by the controlling United States shareholders, shall be filed with the Director of the Internal Revenue Service Center, 11601 Roosevelt Blvd., Philadelphia, Pennsylvania 19155, within 180 days after the close of the taxable year of the foreign corporation with respect to which the election is made or the adoption or change of method effected, or before May 1, 1965, whichever is later, and shall set forth the name and country or organization of the foreign corporation, the names, addresses, taxpayer identification numbers, and stock interests of the controlling United States shareholders, the nature of the action taken, the names, addresses, and taxpayer identification numbers of all other United States shareholders notified of the election or adoption or change of method, and such other information as the Commissioner may by forms require.

(5) *Controlling United States shareholders.* . . .

In the event that a foreign corporation is not a controlled foreign corporation but pays a dividend to a controlled foreign corporation that is attributable to foreign base company shipping income under § 1.954-6(f), the controlling United States shareholders (as defined in this subparagraph) of the controlled foreign corporation shall be considered the controlling United States shareholders of the foreign corporation.

(6) *Action not required until significant.* . . .

(v) It is sought to be established that the corporation has foreign base company shipping income (within the meaning of section 954(f)).

§ 1.964-2 [Amended]

PAR. 20. Section 1.964-2 (a) and (b)(1) are revised by inserting "(as in effect both before and after the enactment of the Tax Reduction Act of 1975)" immediately after "section 955".

PAR. 21. Section 1.964-2(c)(1) (i)(b) and (ii) are revised to read as follows:

§ 1.964-2 *Treatment of blocked earnings and profits.*

(c) *Removal of restriction or limitation—*
(1) *In general.* . . .

(i) *Treatment of deferred income.* . . .

(b) The applicable limitations under paragraph (c) of § 1.952-1, paragraph (b)(2) of § 1.955-1, paragraph (b)(2) of § 1.955A-1, or paragraph (b) of § 1.956-1, determined as of the last day of the immediately preceding taxable year, taking into account the provisions of subdivision (ii) of this subparagraph.

(ii) *Treatment of earnings and profits.* For purposes of sections 952, 955 (as in effect both before and after the enactment of the Tax Reduction Act of 1975), and 956, the earnings and profits which are no longer subject to a currency or other restriction or limitation shall be treated as included in the corporation's earnings and profits for the year in which such earnings and profits were derived.

PAR. 22. Section 1.964-3 is amended as follows:

1. Paragraph (b) is revised as follows:
a. Subparagraphs (3) and (4) are redesignated subparagraphs (4) and (5) respectively.

b. A new subparagraph (3) is inserted immediately after subparagraph (2).

2. Paragraph (c)(1)(i) is revised.
The added and revised provisions read as follows:

§ 1.964-3 *Records to be provided by United States shareholders.*

(b) *Records to be provided.* . . .
(3) The previously excluded subpart F income of such corporation withdrawn from investment in foreign base company shipping operations;

(c) *Special rules.* . . .
(1) . . .

(i) The locus and nature of such corporation's activities were such as to make it unlikely that the foreign base company income of such corporation (determined in accordance with paragraph (c)(3) of § 1.952-3) exceeded 5 percent of its gross income (determined in accordance with paragraph (b)(1) of § 1.952-3) for the taxable year. (For taxable years to which § 1.952-3 does not apply, such amounts shall be determined under 26 CFR 1.954-1(d)(3) (i) and (ii) (Rev. as of April 1, 1975)). and . . .

PAR. 23. Section 1.964-4 is amended as follows:

1. Paragraph (d) is revised as follows:
a. Subparagraphs (4) and (5) are revised.

b. Subparagraphs (6) and (7) are redesignated subparagraphs (7) and (10), respectively.

c. New subparagraphs (6), (8), and (9) are added.

d. Subparagraph (10) as redesignated is revised by changing "(1) through (6)" to "(1) through (9)".

2. Paragraph (g) is redesignated paragraph (g-1) and revised as follows:
a. The heading is revised by inserting "in less developed countries" immediately after "investment".

b. Subparagraph (1) is revised by inserting "(both as in effect for taxable years beginning before January 1, 1976, see 26 CFR 1.954 and 1.954-1(b)(1) (Rev. as of April 1, 1975))" immediately after "§ 1.954-1".

c. Subparagraph (2) is revised by inserting "(as in effect before the enactment of the Tax Reduction Act of 1975)" immediately after "section 955(a)".

d. Subparagraph (3) is revised by inserting "(as in effect before the enactment of the Tax Reduction Act of 1975)" immediately after "section 955(a)".

3. A new paragraph (g-2) is added immediately after redesignated paragraph (g-1).

The revised and added provisions read as follows:

§ 1.964-4 *Verification of certain classes of income.*

(d) *Foreign base company income and exclusions therefrom.* . . .

(4) *Qualified investments in less developed countries.* For rules in effect for taxable years of foreign corporations beginning before January 1, 1976, see 26 CFR 1.964-4(d)(4) (Rev. as of April 1, 1975).

(5) *Income derived from aircraft or ships.* For rules in effect for taxable years of foreign corporations beginning before January 1, 1976, see 26 CFR 1.964-4(d)(5) (Rev. as of April 1, 1975).

(6) *Foreign base company shipping income.* The foreign base company shipping income to which section 954(f) and § 1.954-6 apply, for which purpose there must be established—

(i) Gross income derived from, or in connection with, the use (or hiring or leasing for use) of any aircraft or vessel in foreign commerce, as determined under § 1.954-6(c),
(ii) Gross income derived from, or in connection with, the performance of services directly related to the use of any aircraft or vessel in foreign commerce, as determined under § 1.954-6(d),
(iii) Gross income incidental to income described in subdivisions (i) and (ii) of this subparagraph, as determined under § 1.954-6(e).

(iv) Gross income derived from the sale, exchange, or other disposition of any aircraft or vessel used (by the seller or by a person related to the seller) in foreign commerce,
(v) Dividends, interest, and gains described in § 1.954-6(f).

(vi) Income described in § 1.954-6(g) (relating to partnerships, trusts, etc.), and
(vii) Exchange gain, to the extent allocable to foreign base company shipping income, as determined under § 1.952-2(c)(2)(v)(b).

If the controlled foreign corporation has income derived from or in connection with, the use (or hiring or leasing for use) of any aircraft or vessel in foreign commerce, or derived from, or in connection with, the performance of services directly related to the use of any aircraft or vessel in foreign commerce, it shall be necessary to establish, from the books and records of the controlled foreign corporation, that such aircraft or vessel was used in foreign commerce within the meaning of subparagraphs (3) and (4) of § 1.954-6(b).

(8) *Qualified investments in foreign base company shipping operations.* The foreign base company shipping income that is excluded from foreign base company income under section 954(b)(2) and § 1.954-1(b)(1).

(9) *Special rule for shipping income.* The distributions received through a chain of ownership described in section 958 (a) which are excluded from foreign base company income under section 954(b)(6)(B) and § 1.954-1(b)(2).

(g-2) *Withdrawal of previously excluded subpart F income from investment in foreign base company shipping operations.* Books or records sufficient to verify the previously excluded subpart F income of the controlled foreign corporation withdrawn from investment in foreign base company shipping for the taxable year must establish—

(1) The sum of the amounts of income excluded from foreign base company income under section 954(b)(2) and paragraph (b)(1) of § 1.954-1 for all prior taxable years.

(2) The sum of the amounts of previously excluded subpart F income withdrawn from investment in foreign base company shipping operations for all prior taxable years, as determined under section 955(a) and paragraph (b) of § 1.955A-1.

(3) The amount withdrawn from investment in foreign base company shipping operations for the taxable year as determined under section 955(a) and paragraph (b) of § 1.955A-1, and

(4) If the carryover (as described in § 1.955A-1(b)(3)) of amounts relating to investments in less developed country shipping companies (as described in § 1.955-5(b)) is applicable, (i) the amount of the corporation's qualified investments (determined under § 1.955-2 other than paragraph (b)(5) thereof) in less developed country shipping companies at the close of the last taxable year of the corporation beginning before January 1, 1976, and (ii) the amount of the limitation with respect to previously excluded subpart F income (determined under § 1.955-1(b)(2)(i)(b)) for the first taxable year of the corporation beginning after December 31, 1975.

§ 1.970-1 [Amended]

PAR. 24. Section 1.970-1(c)(1) is amended by inserting "(as in effect before the enactment of the Tax Reduction Act of 1975)" immediately after "section 955".

§ 1.972-1 [Amended]

PAR. 25. Section 1.972-1(b)(3) is amended by inserting "(as in effect before the enactment of the Tax Reduction Act of 1975)" immediately after "section 955".

JEROME KURTZ,
Commissioner of Internal Revenue.

§ 1.864-5 Foreign source income effectively connected with U.S. business.

(d) *Excluded foreign source income.* Notwithstanding paragraphs (b) and (c) of this section, no income from sources without the United States shall be treated as effectively connected for any taxable year with the conduct of a trade or business in the United States by a nonresident alien individual or a foreign corporation if the income consists of—

(1) *Dividends, interest, or royalties paid by a related foreign corporation.* Dividends, interest, or royalties paid by a foreign corporation in which the nonresident alien individual or the foreign corporation described in paragraph (a) of this section owns, within the meaning of section 958(a), or is considered as owning, by applying the ownership rules of section 958(b), at the time such items are paid more than 50 percent of the total combined voting power of all classes of stock entitled to vote.

(2) *Subpart F income of a controlled foreign corporation.* Any income of the foreign corporation described in paragraph (a) of this section which is subpart F income for the taxable year, as determined under section 952(a), even though part of the income is attributable to amounts which, if distributed by the foreign corporation, would be distributed with respect to its stock which is owned by shareholders who are not U.S. shareholders within the meaning of section 951(b). This subparagraph shall not apply to any income of the foreign corporation which is excluded in determining its subpart F income for the taxable year for purposes of section 952(a). Thus, for example, this subparagraph shall not apply to—

(i) Foreign base company shipping income which is excluded under section 954(b)(2).

(ii) Foreign base company income amounting to less than 10 percent (30 percent in the case of taxable years of foreign corporations ending before January 1, 1976) of gross income which by reason of section 954(b)(3)(A) does not become subpart F income for the taxable year.

§ 1.881-1 Manner of taxing foreign corporations.

(e) *Other provisions applicable to foreign corporations—(1) . . .*

(4) *Controlled foreign corporations—(i) Subpart F income and increase of earnings invested in U.S. property.* For the mandatory inclusion in the gross income of the U.S. shareholders of the subpart F income, of the previously excluded subpart F income withdrawn from investment in less developed countries, of the previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, and of the increase in earnings invested in U.S. property, of a controlled foreign corporation, see sections 951 through 964, and the regulations thereunder.

CONTROLLED FOREIGN CORPORATIONS

§ 1.951-1 Amounts included in gross income of United States shareholders.

(a) *In general.* If a foreign corporation is a controlled foreign corporation (within the meaning of section 957) for an uninterrupted period of 30 days or more (determined under paragraph (f) of this section) during any taxable year of such corporation beginning after December 31, 1962, every person—

(i) Who is a United States shareholder (as defined in section 951(b) and paragraph (g) of this section) of such corporation at any time during such taxable year, and

(2) Who owns (within the meaning of section 958(a)) stock in such corporation on the last day, in such year, on which such corporation is a controlled foreign corporation shall include in his gross income for his taxable year in which or with which such taxable year of the corporation ends, the sum of—

(i) Except as provided in section 963, such shareholder's pro rata share (determined under paragraph (b) of this section) of the corporation's subpart F income (as defined in section 952) for such taxable year of the corporation.

(ii) Such shareholder's pro rata share (determined under paragraph (c)(1) of this section) of the corporation's previously excluded subpart F income withdrawn from investment in less developed countries for such taxable year of the corporation.

(iii) Such shareholder's pro rata share (determined under paragraph (c)(2) of this section) of the corporation's previously excluded subpart F income withdrawn from investment in foreign base company shipping operations for such taxable year of the corporation, and

(iv) Such shareholder's pro rata share (determined under paragraph (d) of this section) of the corporation's increase in earnings invested in United States property for such taxable year of the corporation (but only to the

extent such pro rata share is not excluded from such shareholder's gross income for his taxable year under section 959(a)(2)).

For purposes of determining whether a United States shareholder which is a domestic corporation is a personal holding company under section 542 and § 1.542-1, the character of the amount includible in gross income of such domestic corporation under this paragraph shall be determined as if such amount were realized directly by such corporation from the source from which it is realized by the controlled foreign corporation. See paragraph (a) of § 1.957-2 for special limitation on the amount of subpart F income in the case of a controlled foreign corporation described in section 957(b). See section 970(a) and § 1.970-1 which provides for the reduction of subpart F income of export trade corporations.

(b) *Limitation on a United States shareholder's pro rata share of subpart F income—(1) In general.* For purposes of paragraph (a)(2)(i)(I) of this section, a United States shareholder's pro rata share (determined in accordance with the rules of paragraph (e) of this section) of the foreign corporation's subpart F income for the taxable year of such corporation is—

(i) The amount which would have been distributed with respect to the stock which such shareholder owns (within the meaning of section 958(a)) in such corporation if on the last day, in such corporation's taxable year, on which such corporation is a controlled foreign corporation it had distributed pro rata to its shareholders an amount which bears the same ratio to its subpart F income for such taxable year as the part of such year during which such corporation is a controlled foreign corporation bears to the entire taxable year, reduced by—

(ii) The amount of distributions received by any other person during such taxable year as a dividend with respect to such stock, by only to the extent that such distributions do not exceed the dividend which would have been received by such other person if the distributions by such corporation to all its shareholders had been the amount which bears the same ratio to the subpart F income of such corporation for the taxable year as the part of such year during which such shareholder did not own (within the meaning of section 958(a)) such stock bears to the entire taxable year.

(c) *Limitation on a United States shareholder's pro rata share of previously excluded subpart F income withdrawn from investments—(1) Investments in less developed countries.* For purposes of paragraph (a)(2)(ii) of this section, a United States shareholder's

pro rata share (determined in accordance with the rules of paragraph (e) of this section) of the foreign corporation's previously excluded subpart F income withdrawn from investment in less developed countries for the taxable year of such corporation shall not exceed an amount which bears the same ratio to such shareholder's pro rata share of such income withdrawn (as determined under section 955(a)(3), as in effect before the enactment of the Tax Reduction Act of 1975, and paragraph (c) of § 1.955-1) for such taxable year as the part of such year during which such corporation is a controlled foreign corporation bears to the entire taxable year. See paragraph (c)(2) of § 1.955-1 for a special rule applicable to exclusions and withdrawals occurring before the date on which the United States shareholder acquires his stock.

(2) *Investments in foreign base company shipping operations.* For purposes of paragraph (a)(2)(iii) of this section, a United States shareholder's pro rata share (determined in accordance with the rules of paragraph (e) of this section) of the foreign corporation's previously excluded subpart F income withdrawn from investment in foreign base company shipping operations for the taxable year of such corporation shall not exceed an amount which bears the same ratio to such shareholder's pro rata share of such income withdrawn (as determined under section 955(a)(3) and paragraph (c) of § 1.955A-1) for such taxable year as the part of such year during which such corporation is a controlled foreign corporation bears to the entire taxable year. See paragraph (c)(2) of § 1.955A-1 for a special rule applicable to exclusions and withdrawals occurring before the date on which the United States shareholder acquires his stock.

(d) *Limitation on a United States shareholder's pro rata share of increase in investment in United States property.* For purposes of paragraph (a)(2)(iv) of this section, a United States shareholder's pro rata share (determined in accordance with the rules of paragraph (e) of this section) of the foreign corporation's increase in earnings invested in United States property for the taxable year of such corporation shall not exceed an amount which bears the same ratio to such shareholder's pro rata share of such increase (as determined under section 956(a)(2) and paragraph (c) of § 1.956-1) for such taxable year as the part of such year during which such corporation is a controlled foreign corporation bears to the entire taxable year. The amount determined under the preceding sentence, however, shall be taken into account under paragraph (a)(2)(iv) of this section only to the extent such amount is not ex-

cluded from such shareholder's gross income for his taxable year under section 959(a)(2) and the regulations thereunder.

(e) *"Pro rata share" defined—(1) In general.* For purposes of paragraphs (b), (c), and (d) of this section, a United States shareholder's pro rata share of a controlled foreign corporation's subpart F income, previously excluded subpart F income withdrawn from investment in less developed countries, previously excluded subpart F income withdrawn from foreign base company shipping operations, or increase in earnings invested in United States property, respectively, for any taxable year is his pro rata share determined under paragraph (a) of § 1.952-1, paragraph (c) of § 1.955-1, paragraph (c) of § 1.955A-1, or paragraph (c) of § 1.956-1, respectively.

(2) *More than one class of stock.* If a controlled foreign corporation for a taxable year has more than one class of stock outstanding, the amount of such corporation's subpart F income, withdrawal, or increase in investment, for the taxable year which shall be taken into account with respect to any one class of such stock for purposes of subparagraph (1) of this paragraph shall be that amount which bears the same ratio to the total of such subpart F income, withdrawal, or increase in investment for such year as the earnings and profits which would be distributed with respect to such class of stock if all earnings and profits of such corporation for such year were distributed on the last day of such corporation's taxable year on which such corporation is a controlled foreign corporation bear to the total earnings and profits of such corporation for such taxable year. For purposes of the preceding sentence, if an arrearage in dividends for prior taxable years exists with respect to a class of preferred stock of such corporation, the earnings and profits for the taxable year shall be attributed to such arrearage only to the extent such arrearage exceeds the earnings and profits of such corporation remaining from prior taxable years beginning after December 31, 1962.

§ 1.951-3 Coordination of subpart F with foreign personal holding company provisions.

Example (4). (a) A, a United States shareholder, owns 100 percent of the only class of stock of controlled foreign corporation P, organized on January 1, 1963. Both A and P Corporation use the calendar year as a taxable year. During 1963, 1964, and 1965, P Corporation is not a foreign personal holding company as defined in section 552(a); in each of such years, P Corporation derives

dividend income of \$10,000 which constitutes foreign personal holding company income (within the meaning of § 1.954-2) but under 26 CFR 1.954-1(b)(1) (Rev. as of April 1, 1975) excludes such amounts from foreign base company income as dividends received from, and reinvested in, qualified investments in less developed countries. Corporation P's earnings and profits accumulated for 1963, 1964, and 1965 and determined under paragraph (b)(2) of § 1.955-1 are \$40,000. For 1966, P Corporation is a foreign personal holding company, has pre-distribution earnings and profits of \$10,000, derives \$10,000 of income which is both foreign personal holding company income within the meaning of section 553 and subpart F income within the meaning of section 952, distributes \$8,000 to A, and has undistributed foreign personal holding company income of \$2,000 within the meaning of section 556. In addition, for 1966 P Corporation has a withdrawal (determined under section 955(a), as in effect before the enactment of the Tax Reduction Act of 1975, but without regard to its earnings and profits for such year) of \$25,000 of previously excluded subpart F income from investment in less developed countries. A is required under section 551(b) to include in his gross income for 1966 as a dividend the \$2,000 undistributed foreign personal holding company income. The \$8,000 distribution is includible in A's gross income for 1966 under sections 61(a)(7) and 301 as a distribution to which section 316(a)(2) applies. Corporation P's \$25,000 withdrawal of previously excluded subpart F income from investment in less developed countries is includible in A's gross income for 1966 under section 951(a)(1)(A)(ii) and paragraph (a)(2) of § 1.951-1.

(b) If P Corporation's earnings and profits accumulated for 1963, 1964, and 1965 were \$15,000, instead of \$40,000, the result would be the same as in paragraph (a) of this example, except that a withdrawal of only \$15,000 of previously excluded subpart F income from investment in less developed countries would be includible in A's gross income for 1966 under section 951(a)(1)(A)(ii) and paragraph (a)(2) of § 1.951-1.

(c) The principles of this example also apply to withdrawals (determined under section 955(a), as in effect before the enactment of the Tax Reduction Act of 1975) of previously excluded subpart F income from investment in less developed countries effected after the effective date of such Act, and to withdrawals (determined under section 955(a), as amended by such Act) of previously excluded subpart F income from investment in foreign base company shipping operations.

Example (5). (a) The facts are the same as in paragraph (a) of example (4), except that, instead of having a \$25,000 decrease in qualified investments in less developed countries for 1966, P Corporation invests \$20,000 in tangible property (not described in section 956(b)(2)) located in the United States and such investment constitutes an increase (determined under section 956(a) but without regard to the earnings and profits of P Corporation for 1966) in earnings invested in United States property. Corporation P's earnings and profits accumulated for 1963, 1964, and 1965 and determined under paragraph (b)(1) of § 1.956-1 are \$22,000. The result is the same as in paragraph (a) of example (4), except that instead of including the \$25,000 withdrawal, A must include \$20,000 in his gross income for

1966 under section 951(a)(1)(B) and paragraph (a)(2)(iv) of § 1.951-1 as an investment of earnings in United States property.

(b) If P Corporation's earnings and profits accumulated for 1963, 1964, and 1965 were \$9,000 instead of \$22,000, the result would be the same as in paragraph (a) of this example, except that only \$9,000 would be includible in A's gross income for 1966 under section 951(a)(1)(B) and paragraph (a)(2)(iv) of § 1.951-1 as an investment of earnings in United States property.

§ 1.952-1 Subpart F income defined.

(a) *In general.* For purposes of sections 951 through 964, a controlled foreign corporation's subpart F income for any taxable year shall, except as provided in paragraph (b) of this section and subject to the limitations of paragraphs (c) and (d) of this section, consist of the sum of—

(1) The income derived by such corporation for such year from the insurance of United States risks (determined in accordance with the provisions of section 953 and §§ 1.953-1 through 1.953-6), and

(2) The income derived by such corporation for such year which constitutes foreign base company income (determined in accordance with the provisions of section 954 and §§ 1.954-1 through 1.954-7).

Pursuant to section 951 (a)(1)(A)(i) and § 1.951-1, a United States shareholder of such controlled foreign corporation must include his pro rata share of such subpart F income in his gross income for his taxable year in which or with which such taxable year of the foreign corporation ends. See section 952(a). However, see paragraph (a) of § 1.957-2 for special rule limiting the subpart F income to the income derived from the insurance of United States risks in the case of certain controlled foreign corporations described in section 957(b).

(b) *Exclusion of U.S. income.*—(1) *Taxable years beginning before January 1, 1967.* For rules applicable to taxable years beginning before January 1, 1967, see 26 CFR § 1.952-1(b)(1) (Rev. as of April 1, 1975).

§ 1.952-2 Determination of gross income and taxable income of a foreign corporation.

(c) *Special rules for purposes of this section.*—(1) *Nonapplication of certain provisions.* Except where otherwise distinctly expressed, the provisions of subchapters F, G, H, L, M, N, S, and T of chapter 1 of the Code shall not apply.

(5) *Treatment of capital loss and net operating loss.* In determining taxable

income of a foreign corporation for any taxable year—

(i) *Capital loss carryback and carryover.* The capital loss carryback and carryover provided by section 1212(a) shall not be allowed.

(ii) *Net operating loss deduction.* The net operating loss deduction under section 172(a) or the operations loss deduction under section 812 shall not be allowed.

§ 1.954-1 Foreign base company income.

(b) *Exclusions from foreign base company income.*

(The foreign base company shipping income notice redesignated this provision as subparagraph (3); formerly was subparagraph (4).)

(3) *Income of controlled foreign corporations not availed of to substantially reduce income or similar taxes.*

(v) *Manner of demonstrating lack of tax reduction purpose.* It is the U.S. shareholder's responsibility, in accordance with § 1.964-3 and paragraph (d)(7) of § 1.964-4, to provide the district director with books or records sufficient to verify the gross income excluded from foreign base company income under section 954(b)(4) and this subparagraph. However, if the U.S. shareholder of a controlled foreign corporation desires to establish in respect of a proposed transaction that neither the creation or organization (or acquisition) of such corporation under the laws of the foreign country or possession of the United States in which it is incorporated nor the effecting through such corporation of the transaction giving rise to an item or items of income has as one of its significant purposes a substantial reduction of income, war profits, excess profits, or similar taxes, he may forward a statement setting forth sufficient facts and circumstances to the Commissioner of Internal Revenue, Attention: Corporation Tax Division, Washington, D.C. 20224, for a ruling. Where the Commissioner determines that a ruling is appropriate, a letter setting forth the Commissioner's determination will be mailed to the taxpayer. If the Commissioner determines that, upon the basis of the facts presented, the exclusion of section 954(b)(4) and this subparagraph applies to the income involved, the taxpayer should retain a copy of the Commissioner's letter as authority for excluding such income from foreign

base company income for the taxable year.

§ 1.954-2 Foreign personal holding company income.

(d) *Certain income received from unrelated persons in the active conduct of a trade or business.*—(1) *Rents and royalties.*—(i) *In general.*

(2) *Dividends, interest, and gains on securities, received in banking or other financing business from unrelated persons.*—(i) *In general.*

(iv) *Income of foreign corporations owned by Edge Act or Agreement corporations.*—(a) *In general.*

(b) *Foreign corporations included.*

(2) For each taxable year of such controlled foreign corporation beginning after December 31, 1962, not more than 20 percent of the gross income (determined before the application of paragraph (d) of § 1.954-1) of such corporation consists of—

(i) Foreign personal holding company income, determined as provided in § 1.954-2 but by excluding from such foreign personal holding company income dividends, interest, and the excess of gains over losses from sales or exchanges of stock or securities,

(ii) Foreign base company sales income, as defined in § 1.954-3,

(iii) Foreign base company services income, as defined in § 1.954-4, and

(iv) Foreign base company shipping income, as defined in § 1.954-6.

§ 1.954-3 Foreign base company sales income.

(b) *Branches of controlled foreign corporation treated as separate corporations.*—(1) *General rules for determining when to apply separate treatment.*—(i) *Sales or purchase branch.*—(a)

(2) *Special rules.*—(i) *Determination of treatment as a wholly owned subsidiary corporation.*

(d) *Determination of hypothetical tax.* To the extent applicable, the prin-

ciples of paragraph (b)(4)(iv) of § 1.954-1 shall be used in determining, under subdivision (i) of subparagraph (1) of this paragraph, the effective rate of tax which would apply to the income of the branch or similar establishment under the laws of the country in which the controlled foreign corporation is created or organized, or in determining, under subdivision (ii) of such subparagraph, the effective rate of tax which would apply to the income of the branch or similar establishment under the laws of the country in which the manufacturing, producing, constructing, growing, or extracting branch or similar establishment is located.

(3) *Inclusion of amounts in gross income of United States shareholders.* A branch or similar establishment of a controlled foreign corporation and the remainder of such corporation shall be treated as separate corporations under this paragraph solely for purposes of determining the foreign base company sales income of each such corporation and for purposes of including an amount in subpart F income of the controlled foreign corporation under section 952(a). See section 954(b)(3) and paragraph (d)(4) of § 1.954-1 for rules relating to the treatment of a branch or similar establishment of a controlled foreign corporation and the remainder of such corporation as separate corporations for purposes of independently determining if the foreign base company income of each such corporation is less than 10 percent, or more than 70 percent, of its gross income. For all other purposes, however, a branch or similar establishment of a controlled foreign corporation and the remainder of such corporation shall not be treated as separate corporations. For example, if the controlled foreign corporation has a deficit in earnings and profits to which section 952(c) applies, the limitation of such section on the amount includible in the subpart F income of such corporation will apply. Moreover, income, war profits, or excess profits taxes paid by a foreign country will be treated as having been paid by the controlled foreign corporation for purposes of section 960 (relating to special rules for foreign tax credit) and the regulations thereunder. Also, income of a branch or similar establishment, treated as a separate corporation under this paragraph, will not be treated as dividend income of the controlled foreign corporation of which it is a branch or similar establishment.

§ 1.954-5 Increase in qualified investments in less developed countries; taxable years of controlled foreign corporations beginning before January 1, 1976.

For rules applicable to taxable years of controlled foreign corporations beginning before January 1, 1976, see section 954(b)(1) (as in effect before the enactment of the Tax Reduction Act of 1975) and 26 CFR 1.954-5 (Rev. as of April 1, 1975).

§ 1.955-0 Effective dates.

(a) *Section 955 as in effect before the enactment of the Tax Reduction Act of 1975.*—(1) *In general.* In general, §§ 1.955-1 through 1.955-6 are applicable with respect to withdrawals of previously excluded subpart F income from qualified investment in less developed countries for taxable years of foreign corporations beginning after December 31, 1962, and to taxable years of United States shareholders (as defined in section 951(b)) within which or with which such taxable years of such foreign corporations end. However, such sections are effective with respect to withdrawals of amounts invested in less developed country shipping companies described in section 955(c)(2) (as in effect before the enactment of the Tax Reduction Act of 1975) only for taxable years of foreign corporations beginning before January 1, 1976, and for taxable years of United States shareholders (as defined in section 951(b)) within which or with which such taxable years of such foreign corporations end. For rules applicable to withdrawals of amounts invested in less developed country shipping companies described in section 955(c)(2) (as in effect before such enactment) in taxable years of foreign corporations beginning after December 31, 1975, see section 955(b)(5) (as amended by such Act) and §§ 1.955A-1 through 1.955A-4.

(2) *References.* Except as otherwise provided therein, all references contained in §§ 1.955-1 through 1.955-6 to section 954 or 955 or to the regulations under section 954 are to those sections and regulations as in effect before the enactment of the Tax Reduction Act of 1975. For regulations under section 954 (as in effect before such enactment), see 26 CFR 1.954-1 through 1.954-5 (Rev. as of April 1, 1975). For taxable years of foreign corporations beginning after December 31, 1975, and for taxable years of United States shareholders (as described in section 951(b)) within which or with which such taxable years of such foreign corporations end, the definitions of less developed countries and less developed country corporations contained in section 902(d) (as amended by such Act) and § 1.902-2 apply for purposes of determining the credit.

(b) *Section 955 as amended by the Tax Reduction Act of 1975.* Except as

otherwise provided therein, §§ 1.955A-1 through 1.955A-4 are applicable to taxable years of foreign corporations beginning after December 31, 1975, and to taxable years of United States shareholders (as defined in section 951(b)) within which or with which such taxable years of such foreign corporations end.

§ 1.955-1 Shareholder's pro rata share of amount of previously excluded subpart F income withdrawn from investment in less developed countries.

(a) *In general.* Pursuant to section 951(a)(1)(A)(ii) and the regulations thereunder, a United States shareholder of a controlled foreign corporation must include in its gross income its pro rata share (as determined in accordance with paragraph (c) of this section) of the amount of such controlled foreign corporation's previously excluded subpart F income which is withdrawn for any taxable year from investment in less developed countries. Section 955 provides rules for determining the amount of a controlled foreign corporation's previously excluded subpart F income for any taxable year of the corporation beginning after December 31, 1962 that is withdrawn from investment in less developed countries for any taxable year of the corporation beginning before January 1, 1976. Except for investments in less developed country shipping companies, section 955 also provides rules for determining the amount of a controlled foreign corporation's previously excluded subpart F income for any taxable year of the corporation beginning after December 31, 1962 which is withdrawn from investment in less developed countries in taxable years of the corporation beginning after December 31, 1975. To determine the amount of a controlled foreign corporation's previously excluded subpart F income withdrawn from investment in less developed country shipping companies described in section 955(c)(2) in taxable years of a controlled foreign corporation beginning after December 31, 1975, see section 955(b)(5) (as in effect after amendment by the Tax Reduction Act of 1975) and §§ 1.955A-1 through 1.955A-4. For effective dates, see § 1.955-0.

§ 1.955-3 Election as to date of determining qualified investments in less developed countries.

(a) *Nature of election.* In lieu of determining the increase for a taxable year of a foreign corporation beginning before January 1, 1976, under the provisions of section 954(f) and paragraph (a) of § 1.954-5, or the decrease under the provisions of section 955(a)(2) and paragraph (b) of § 1.955-1, in a controlled foreign corporation's qualified investments in less developed countries for a taxable year in the

manner provided in such provisions, a United States shareholder of such controlled foreign corporation may elect, under the provisions of section 955(b)(3) and this section, to determine such increase in accordance with the provisions of paragraph (b) of § 1.954-5 and to determine such decrease by ascertaining the amount by which—

(1) Such controlled foreign corporation's qualified investments in less developed countries at the close of such taxable year exceed its qualified investments in less developed countries at the close of the taxable year immediately following such taxable year, and reducing such excess by

(2) The amount determined under paragraph (b)(1)(ii) of § 1.955-1 for such taxable year,

subject to the limitation provided in paragraph (b)(2) of § 1.955-1 for such taxable year. An election under this section may be made with respect to each controlled foreign corporation with respect to which a person is a United States shareholder within the meaning of section 951(b), but the election may not be exercised separately with respect to the increases and the decreases of such controlled foreign corporation. If an election is made under this section to determine the increase of a controlled foreign corporation in accordance with the provisions of paragraph (b) of § 1.954-5, subsequent decreases of such controlled foreign corporation shall be determined in accordance with this paragraph and not in accordance with paragraph (b) of § 1.955-1.

(b) *Time and manner of making election*—(1) *Without consent*. An election under this section with respect to a controlled foreign corporation shall be made without the consent of the Commissioner by a United States shareholder's filing a statement to such effect with his return for his taxable year in which or with which ends the first taxable year of such controlled foreign corporation in which—

(i) Such shareholder owns, within the meaning of section 958(a), or is considered as owning by applying the rules of ownership of section 958(b), 10 percent or more of the total combined voting power of all classes of stock entitled to vote of such controlled foreign corporation, and

(ii) Such controlled foreign corporation realizes foreign base company income from which amounts are excluded under section 954(b)(1) and paragraph (b)(1) of § 1.954-1.

The statement shall contain the name and address of the controlled foreign corporation and identification of such first taxable year of such corporation. For taxable years of a foreign corporation beginning after December 31, 1975, no election under this section

with respect to a controlled foreign corporation may be made without the consent of the Commissioner.

§ 1.958-1 Direct and indirect ownership of stock.

(a) *In general*. Section 958(a) provides that, for purposes of sections 951 to 964 (other than sections 955(b)(1)(A) and (B) and 955(c)(2)(A)(ii) (as in effect before the enactment of the Tax Reduction Act of 1975), and 960(a)(1)), stock owned means—

(1) Stock owned directly; and
(2) Stock owned with the application of paragraph (b) of this section.

The rules of section 958(a) and this section provide a limited form of stock attribution primarily for use in determining the amount taxable to a United States shareholder under section 951(a). These rules also apply for purposes of other provisions of the Code and regulations which make express reference to section 958(a).

§ 1.959-1 Exclusion from gross income of United States persons of previously taxed earnings and profits.

(a) *In general*. Sections 951 through 964 provide that certain types of income of controlled foreign corporations will be subject to United States income tax even though such amounts are not currently distributed to the United States shareholders of such corporations. The amounts so taxed to certain United States shareholders are described as subpart F income, previously excluded subpart F income withdrawn from investment in less developed countries previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, and increases in earnings invested in United States property. Section 959 provides that amounts taxed as subpart F income, as previously excluded subpart F income withdrawn from investment in less developed countries, or as previously excluded subpart F income withdrawn from investment in foreign base company shipping operations are not taxed again as increases in earnings invested in United States property. Section 959 also provides an exclusion whereby none of the amounts so taxed are taxed again when actually distributed directly, or indirectly through a chain of ownership described in section 958(a), to United States shareholders or to such shareholders' successors in interest. The exclusion also applies to amounts taxed to United States shareholders as income of one controlled foreign corporation and later distributed to another controlled foreign corporation in such a chain of ownership where such amounts would otherwise be again included in the

income of such shareholders or their successors in interest as subpart F income of the controlled foreign corporation to which they are distributed. Section 959 also provides rules for the allocation of distributions to earnings and profits and for the non-dividend treatment of actual distributions which are excluded from gross income.

(b) *Actual distributions to United States persons*. The earnings and profits for a taxable year of a foreign corporation attributable to amounts which are, or have been, included in the gross income of a United States shareholder of such corporation under section 951(a) shall not, when such amounts are distributed to such shareholder directly, or indirectly through a chain of ownership described in section 958(a), be again included in the gross income of such United States shareholder. See section 959(a)(1). Thus, earnings and profits attributable to amounts which are, or have been, included in the gross income of a United States shareholder of a foreign corporation under section 951(a)(1)(A)(i) as subpart F income, under section 951(a)(1)(A)(ii) as previously excluded subpart F income withdrawn from investment in less developed countries, under section 951(a)(1)(A)(iii) as previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, or under section 951(a)(1)(B) as earnings invested in United States property, shall not be again included in the gross income of such shareholder when such amounts are actually distributed, directly or indirectly, to such shareholder. See paragraph (d) of this section for exclusion applicable to such shareholder's successor in interest. The application of this paragraph may be illustrated by the following example:

Example. (a) A, a United States shareholder, owns 100 percent of the only class of stock of R Corporation, a corporation organized on January 1, 1963, which is a controlled foreign corporation throughout the period here involved. Both A and R Corporation use the calendar year as a taxable year.

(b) During 1964, R Corporation derives \$100 of subpart F income, and A includes such amount in his gross income under section 951(a)(1)(A)(i). Corporation R's current and accumulated earnings and profits (before taking into account distributions made during 1964) are \$150. Also, during 1964, R Corporation distributes \$50 to A. The \$50 distribution is excludable from A's gross income for 1964 under this paragraph and § 1.959-3 because such distribution represents earnings and profits attributable to amounts which are included in A's gross income for such year under section 951(a).

(c) If instead of deriving the \$100 of subpart F income in 1964, R Corporation derives such amount during 1963 and has earnings and profits for 1963 in excess of \$100, A must include \$100 in his gross income for 1963 under section 951(a)(1)(A)(i). However, the \$50 distribu-

tion made by R Corporation to A during 1964 is excludable from A's gross income for such year under this paragraph and § 1.959-3 because such distribution represents earnings and profits attributable to amounts which have been included in A's gross income for 1963 under section 951(a).

(d) If, with respect to 1964—

(1) Instead of owning the stock of R Corporation directly, A owns such stock through a chain of ownership described in section 958(a), that is, A owns 100 percent of M Corporation which owns 100 percent of N Corporation which owns 100 percent of R Corporation.

(2) Both M and N Corporations use the calendar year as a taxable year and are controlled foreign corporations throughout the period here involved.

(3) Corporation R derives \$100 of subpart F income and has earnings and profits in excess of \$100.

(4) Neither M Corporation nor N Corporation has earnings and profits or a deficit in earnings and profits, and

(5) The \$50 distribution is from R Corporation to N Corporation to M Corporation to A.

A must include \$100 in his gross income for 1964 under section 951(a)(1)(A)(i) by reason of his indirect ownership of R Corporation. However, the \$50 distribution is excludable from A's gross income for 1964 under this paragraph and § 1.959-3 because such distribution represents earnings and profits attributable to amounts which are included in A's gross income for such year under section 951(a) and are distributed indirectly to A through a chain of ownership described in section 958(a).

(c) *Excludable investment of earnings in United States property*. The earnings and profits for a taxable year of a foreign corporation attributable to amounts which are, or have been, included in the gross income of a United States shareholder of such corporation under section 951(a)(1)(A) shall not, when such amounts would, but for section 959(a)(2) and this paragraph, be included under section 951(a)(1)(B) in the gross income of such shareholder directly, or indirectly through a chain of ownership described in section 958(a), be again included in the gross income of such United States shareholder. Thus, earnings and profits attributable to amounts which are, or have been, included in the gross income of a United States shareholder of a foreign corporation under section 951(a)(1)(A)(i) as subpart F income, under section 951(a)(1)(A)(ii) as previously excluded subpart F income withdrawn from investment in less developed countries, or under section 951(a)(1)(A)(iii) as previously excluded subpart F income withdrawn from investment in foreign base company shipping operations may be invested in United States property without being again included in such shareholder's income under section 951(a). Moreover, the first amounts deemed invested in United States property are amounts previously included in the gross income of a United States shareholder under sec-

tion 951(a)(1)(A). See paragraph (d) of this section for exclusion applicable to such shareholder's successor in interest. The application of this paragraph may be illustrated by the following example:

Example. (a) A, a United States shareholder, owns 100 percent of the only class of stock of R Corporation, a corporation organized on January 1, 1963, which is a controlled foreign corporation throughout the period here involved. Both A and R Corporation use the calendar year as a taxable year.

(b) During 1964, R Corporation derives \$35 of subpart F income, and A includes such amount in this gross income under section 951(a)(1)(A)(i). During 1964, R Corporation also invests \$50 in tangible property (other than property described in section 956(b)(2)) located in the United States. Corporation R makes no distributions during the year, and its current earnings and profits are in excess of \$50. Of the \$5 investment of earnings in United States property, \$35 is excludable from A's gross income for 1964 under section 959(a)(2) because such amount represents earnings and profits which are attributable to amounts which are included in A's gross income for such year under section 951(a)(1)(A)(i) and therefore may be invested in United States property without again being included in A's gross income. The remaining \$15 is includible in A's gross income for 1964 under section 951(a)(1)(B).

(c) If, instead of deriving \$35 of subpart F income in 1964, R Corporation has no subpart F income for 1964 but derives the \$35 of subpart F income during 1963 and has earnings and profits for such year in excess of \$35. A must include \$35 in his gross income for 1963 under section 951(a)(1)(A)(i). However, of the \$50 investment of earnings in United States property made by R Corporation during 1964, \$35 is excludable from A's gross income for 1964 under section 959(a)(2) because such amount represents earnings and profits attributable to amounts which have been included in A's gross income for 1963 under section 951(a)(1)(A)(i). The remaining \$15 is includible in A's gross income for 1964 under section 951(a)(1)(B).

(d) *Application of exclusions to shareholder's successor in interest*. If a United States person (as defined in § 1.957-4) acquires from any person any portion of the interest in the foreign corporation of a United States shareholder referred to in paragraph (b) or (c) of this section, the rules of such paragraph shall apply to such acquiring person but only to the extent that the acquiring person establishes to the satisfaction of the district director his right to the exclusion provided by such paragraph. The information to be furnished by the acquiring person to the district director with his return for the taxable year to support such exclusion shall include:

(1) The name, address, and taxable year of the foreign corporation from which the distribution is received and of all other corporations, partnerships, trusts, or estates in any applicable chain of ownership described in section 958(a);

(2) The name, address, and taxpayer identification number of the person from whom the stock interest was acquired;

(3) A description of the stock interest acquired and its relation, if any, to a chain of ownership described in section 958(a);

(4) The amount for which an exclusion under section 959(a) is claimed; and

(5) Evidence showing that the earnings and profits for which an exclusion is claimed are attributable to amounts which were included in the gross income of a United States shareholder under section 951(a), that such amounts were not previously excluded from the gross income of a United States person, and the identity of the United States shareholder including such amounts.

The acquiring person shall also furnish to the district director such other information as may be required by the district director in support of the exclusion.

Example. (a) A, a United States shareholder, owns 100 percent of the only class of stock of R Corporation, a corporation organized on January 1, 1964, and a controlled foreign corporation throughout the period here involved. Both A and R Corporation use the calendar year as a taxable year.

(b) During 1964, R Corporation has \$100 of subpart F income and earnings and profits in excess of \$100. A includes \$100 in his gross income for 1964 under section 951(a)(1)(A)(i). During 1965, A sells 40 percent of his stock in R Corporation to B, a United States person who uses the calendar year as a taxable year. In 1965, R Corporation has no earnings and profits and experiences no increase in earnings invested in United States property. Corporation R distributes \$40 to B on December 1, 1965. If B establishes his right to the exclusion to the satisfaction of the district director, he may exclude \$40 from his gross income for 1965 under section 959(a)(1).

(c) If, instead of selling his 40-percent interest directly to B, A sells on February 1, 1965, 40 percent of his stock in R Corporation to C, a nonresident alien, and on October 1, 1965, B acquires the 40-percent interest in R Corporation from C, the result is the same as in paragraph (b) of this example, if B establishes his right to the exclusion to the satisfaction of the district director.

(d) If, instead of acquiring 40 percent, B acquires only 5 percent of A's stock in R Corporation and R Corporation distributes \$5 to B during 1965, B is not a United States shareholder (within the meaning of section 951(b)) with respect to R Corporation since he owns only 5 percent of the stock of R Corporation. Notwithstanding, B may exclude the \$5 distribution from his gross income for 1965 under section 959(a)(1) if he establishes his right to the exclusion to the satisfaction of the district director.

(e) If the facts are assumed to be the same as in paragraphs (a) and (b) of this example except that—

(1) A owns the stock of Corporation indirectly through a chain of ownership described in section 958(a), that is, A owns 100 percent of M Corporation which owns 100

percent of N Corporation— which owns 100 percent of R Corporation.

(2) B acquires from N Corporation 40 percent of the stock in R Corporation.

(3) Both M Corporation and N Corporation are controlled foreign corporations which use the calendar year as a taxable year.

(4) Neither M Corporation nor N Corporation has any amount in 1964 or 1965 which is includible in gross income of United States shareholders under section 951(a), and

(5) Neither M Corporation nor N Corporation has a deficit in earnings and profits for 1964;

the result is the same as in paragraph (b) of this example if B establishes his right to the exclusion to the satisfaction of the district director.

§ 1.959-3 Allocation of distributions to earnings and profits of foreign corporations.

(a) *In general.* For purposes of §§ 1.959-1 and 1.959-2, the source of the earnings and profits from which distributions are made by a foreign corporation as between earnings and profits attributable to increases in earnings invested in United States property, previously taxed subpart F income, previously excluded subpart F income withdrawn from investment in less developed countries, previously excluded subpart F income withdrawn from investment in foreign base company shipping operations, and other amounts shall be determined in accordance with section 959(c) and paragraphs (b) through (e) of this section.

(b) *Applicability of section 316(a).* For purposes of this section, section 316(a) shall be applied, in determining the source of distributions from the earnings and profits of a foreign corporation, by first applying section 316(a)(2) and then by applying section 316(a)(1)—

(1) First, as provided by section 959(c)(1), to earnings and profits attributable to amounts included in gross income of a United States shareholder under section 951(a)(1)(B) (or which would have been so included but for section 959(a)(2) and paragraph (c) of § 1.959-1).

(2) Secondly, as provided by section 959(c)(2), to earnings and profits attributable to amounts included in gross income of a United States shareholder under section 951(a)(1)(A) (but reduced by amounts not included in such gross income under section 951(a)(1)(B) because of the exclusion provided by section 959(a)(2) and paragraph (c) of § 1.959-1), and

(3) Finally, as provided by section 959(c)(3), to other earnings and profits. Thus, distributions shall be considered first attributable to amounts, if any, described in subparagraph (1) of this paragraph (first for the current taxable year and then for prior taxable years beginning with the most recent prior taxable year), secondly to

amounts, if any, described in subparagraph (2) of this paragraph (first for the current taxable year and then for prior taxable years beginning with the most recent prior taxable year), and finally to the amounts, if any, described in subparagraph (3) of this paragraph (first for the current taxable year and then for prior taxable years beginning with the most recent prior taxable year). See, however, paragraph (e) of § 1.963-3 for a special rule for determination of the source of distributions counting as minimum distributions. Earnings and profits are classified as to year and as to section 959(c) amount in the year in which such amounts are included in gross income of a United States shareholder under section 951(a) and are reclassified as to section 959(c) amount in the year in which such amounts would be so included but for the provisions of section 959(a)(2); any subsequent distribution of such amounts to a higher tier in a chain of ownership described in section 958(a) does not of itself change such classifications. For example, earnings and profits of a foreign corporation attributable to amounts of previously excluded subpart F income withdrawn from investment in less developed countries (or from investments in export trade assets or foreign base company shipping operations) shall be reclassified as amounts to which subparagraph (2), rather than subparagraph (3), of this paragraph applies for purposes of determining priority of distribution, and such earnings and profits shall be considered attributable to the taxable year in which the withdrawal occurs. This paragraph shall apply to distributions by one foreign corporation to another foreign corporation and by a foreign corporation to a United States person. The application of this paragraph may be illustrated by the following example:

Example. . . .

§ 1.964-1 Determination of the earnings and profits of a foreign corporation.

(b) Accounting adjustments—(1) In general. . . .

(2) *Historical cost.* For purposes of this section, the historical cost of an asset acquired by the foreign corporation during a taxable year beginning before January 1, 1963, shall be determined, if it is so elected by or on behalf of such corporation—

(i) In the event that the foreign corporation became a majority owned subsidiary of a United States person (within the meaning of section 7701(a)(30)) after December 31, 1949,

but before October 27, 1964, and the asset was held by such foreign corporation at that time, as though the asset was purchased on the date during such period the foreign corporation first became a majority owned subsidiary at a price equal to its then fair market value, or

(ii) In the event that subdivision (i) of this subparagraph is inapplicable but the asset was acquired by the foreign corporation during a taxable year beginning before January 1, 1950, as though the asset were purchased on the first day of the first taxable year of the foreign corporation beginning after December 31, 1949, at a price equal to the un depreciated cost (cost or other basis minus book depreciation) of that asset as of that date as shown on the books of account of such corporation regularly maintained for the purpose of accounting to its shareholders.

For purposes of this subparagraph, a foreign corporation shall be considered a majority owned subsidiary of a United States person if, taking into account only stock acquired by purchase (as defined in section 334(b)(3)), the United States person owns (within the meaning of section 958(a)) more than 50 percent of the total combined voting power of all classes of stock of the foreign corporation entitled to vote. The election under this subparagraph shall be made for the first taxable year beginning after December 31, 1962, in which the foreign corporation is a controlled foreign corporation (within the meaning of section 957), or for which it is included in a chain or group under section 963(c)(2)(B) or (3)(B), or has a deficit in earnings and profits sought to be taken into account under section 952(d), or pays a dividend that is included in the foreign base company shipping income of a controlled foreign corporation under § 1.954-6(f). Once made, such an election shall be irrevocable. For the time and manner in which an election may be made on behalf of a foreign corporation, see paragraph (c)(3) of this section.

(3) *Illustrations.* The application of this paragraph may be illustrated by the following examples:

Example (1). Corporation M is a controlled foreign corporation which regularly maintains books of account for the purpose of accounting to its shareholders in accordance with the accounting practices prevalent in country X, the country in which it operates. As a consequence of those practices, the profit and loss statement prepared from these books of account reflects an allocation to an arbitrary reserve out of current income and depreciation allowances based on replacement values which are greater than historical cost. Adjustments are necessary to conform such statement to accounting principles generally accepted in the United States. Assuming these adjustments to be material, the unacceptable practices

will have to be eliminated from the statement, an increase in the amount of profit (or a decrease in the amount of loss) thereby resulting.

Example (2). In 1973, Corporation N is a foreign corporation which is not a controlled foreign corporation but which is included in a chain, for minimum distribution purposes, under section 963(c)(2)(B). Corporation N regularly maintains books of account for the purpose of accounting to its shareholders in accordance with the accounting practices of country Y, the country in which it operates. As a consequence of those practices, the profit and loss statement prepared from these books of account reflects the inclusion in income of stock dividends and of corporate distributions representing a return of capital. Adjustments are necessary to conform such statement to accounting principles generally accepted in the United States. Assuming these adjustments to be material, the unacceptable practices will have to be eliminated from the statement, a decrease in the amount of profit (or increase in the amount of loss) thereby resulting.

(c) *Tax adjustments—(1) In general.* The tax accounting standards to be applied in making the adjustments required by paragraph (a)(3) of this section shall be the following: . . .

(2) *Adoption of method.* For the first taxable year beginning after December 31, 1962, in which the foreign corporation is a controlled foreign corporation (within the meaning of section 957), or for which it is included in a chain or group under section 963(c)(2)(B) or (3)(B), or has a deficit in earnings and profits sought to be taken into account under section 952(d), or pays a dividend that is included in the foreign base company shipping income of a controlled foreign corporation under § 1.954-6(f), there may be adopted or made by such corporation or on its behalf any method of accounting or election allowable under this section notwithstanding that, in previous years, its earnings and profits were computed, or its books or financial statements prepared, on a different basis and notwithstanding that such election is required by the Code or regulations to be made in a prior taxable year. For purposes of determining the amount of a deficit in earnings and profits taken into account pursuant to section 952(c)(1)(B), if a different basis is used in previous years, ratable adjustments shall be made in the earnings and profits attributable to such previous years to prevent any duplication or omission of amounts that would otherwise result from the adoption of such method or the making of such election. See subparagraph (3) of this paragraph for the manner in which a method of accounting or an election may be adopted or made on behalf of the foreign corporation.

(3) *Action on behalf of corporation—(i) In general.* An election shall be deemed made, or an adoption or change in method of accounting deemed effectuated, on behalf of the foreign corporation only if its controlling United States shareholders (as defined in subparagraph (5) of this paragraph)—

(a) Satisfy for such corporation any requirements imposed by the Code or applicable regulations with respect to such election or such adoption or change in method, such as the filing of forms, the execution of consents, securing the permission of the Commissioner, or maintaining books and records in a particular manner,

(b) File the written statement described in subdivision (ii) of this subparagraph at the time and in the manner prescribed therein, and

(c) Provide the written notice required by subdivision (iii) of this subparagraph at the time and in the manner prescribed therein.

For purposes of the preceding sentence, the books of the foreign corporation shall be considered to be maintained in a particular manner if the controlling United States shareholders or the foreign corporation regularly keep the records and accounts required by section 964(c) and the regulations thereunder in that manner. Any election required to be made or information required to be filed with a tax return shall be deemed made or furnished on behalf of the foreign corporation if its controlling United States shareholders file the written statement described in subdivision (ii) of this subparagraph with respect to such election within the period specified therein. For a special rule postponing the time for taking action by or on behalf of a foreign corporation until the amount of its earnings and profits becomes significant, see subparagraph (6) of this paragraph.

(ii) *Written statement.* The written statement required by subdivision (i) of this subparagraph shall be jointly executed by the controlling United States shareholders, shall be filed with the Director of the Internal Revenue Service Center, 11601 Roosevelt Blvd., Philadelphia, Pennsylvania 19155, within 180 days after the close of the taxable year of the foreign corporation with respect to which the election is made or the adoption or change of method effected, or before May 1, 1965, whichever is later, and shall set forth the name and country of organization of the foreign corporation, the names, addresses, taxpayer identification numbers, and stock interests of the controlling United States shareholders, the nature of the action taken, the names, addresses, and taxpayer identification numbers of all other United States shareholders notified of the election or adoption or

change of method, and such other information as the Commissioner may by forms require.

(iii) *Notice.* Prior to the filing of the written statement described in subdivision (ii) of this subparagraph, the controlling United States shareholders shall provide written notice of the election made or the adoption or change of method effected to all other persons known by them to be United States shareholders who own (within the meaning of section 958(a)) stock of the foreign corporation. Such notice shall set forth the name and country of organization of the foreign corporation, the names, addresses, and stock interests of the controlling United States shareholders, the nature of the action taken, and such other information as the Commissioner may by forms require. However, the failure of the controlling United States shareholders to provide such notice to a person required to be notified thereunder shall not invalidate the election made or the adoption or change of method effected, if it is established to the satisfaction of the Commissioner that reasonable cause existed for such failure.

(4) *Effect of action by controlling United States shareholders.* Any action taken by the controlling United States shareholders on behalf of the foreign corporation pursuant to subparagraph (3) of this paragraph shall be reflected in the computation of the earnings and profits of such corporation under this section to the extent that it bears upon the tax liability of a United States shareholder who either—

(i) Was a controlling United States shareholder with respect to the action taken;

(ii) Received the written notice provided by subparagraph (3)(iii) of this paragraph;

(iii) Failed to file any of the returns required by section 6046 and the regulations thereunder within the period prescribed by section 6046(d); or

(iv) Was notified by the Director of the Philadelphia Service Center of the action taken—

(a) Within 61 days after the last day (including extensions of time) prescribed with respect to the taxable year of the foreign corporation by subparagraph (3)(ii) of this paragraph for filing the written statement described in such subparagraph, or

(b) Within 180 days after the close of the first taxable year in which such shareholder becomes a United States shareholder, whichever is later.

To the extent that the computation of the earnings and profits of the foreign corporation bears upon the tax liability of any United States shareholder other than those enumerated in the preceding sentence, the computation shall reflect the action taken only if such shareholder assents to such

treatment. Such assent may be given at any time, but not later than 90 days after the shareholder is first apprised of such action by the Director of the Philadelphia Service Center. The shareholder shall signify his assent by filing a written statement with the Director of the Internal Revenue Service Center, 11601 Roosevelt Blvd., Philadelphia, Pennsylvania 19155, setting forth the name and country of organization of the foreign corporation, his own name, address, and stock interest in the corporation, the nature of the action being assented to, and such other information as the Commissioner may by forms require.

(5) *Controlling United States shareholders.* For purposes of this paragraph the controlling United States shareholders of a foreign corporation shall be those United States shareholders (as defined in section 951(b)), who, in the aggregate, own (within the meaning of section 958(a)) more than 50 percent of the total combined voting power of all classes of the stock of such corporation entitled to vote and who undertake to act on its behalf. In the event that the foreign corporation is not a controlled foreign corporation but is included in a chain or group under section 963(c)(2)(B) or (3)(B), the controlling United States shareholder with respect to such foreign corporation shall be deemed to be the domestic corporation which elects to receive the minimum distribution from such chain or group. In the event that the foreign corporation is neither a controlled foreign corporation nor included in a chain or group under section 963(c)(2)(B) or (3)(B) but has a deficit in earnings and profits sought to be taken into account under section 952(d), the controlling United States shareholder with respect to such foreign corporation shall be the shareholder seeking to take such deficit into account. In the event that the foreign corporation is a controlled foreign corporation but the United States shareholders (as defined in section 951(b)) do not, in the aggregate, own (within the meaning of section 958(a)) more than 50 percent of the total combined voting power of all classes of the stock of such corporation entitled to vote, the controlling United States shareholders of the foreign corporation shall be all those United States shareholders who own (within the meaning of section 958(a)) stock of such corporation. In the event that a foreign corporation is not a controlled foreign corporation but pays a dividend to a controlled foreign corporation that is attributable to foreign base company shipping income under § 1.954-6(f), the controlling United States shareholders (as defined in this subparagraph) of the controlled foreign corporation shall be considered the controlling United States shareholders of the foreign corporation.

(6) *Action not required until significant.* Notwithstanding any other provision of this paragraph, action by or on behalf of a foreign corporation (other than a foreign corporation subject to tax under section 882) to make an election or to adopt a method of accounting shall not be required until 180 days after the close of the first taxable year for which—

(i) An amount is includable in gross income with respect to such corporation under section 951(a);

(ii) It is sought to be established that such corporation is a less developed country corporation (within the meaning of section 955(c)), as in effect before the enactment of the Tax Reduction Act of 1975;

(iii) An amount is excluded from subpart F income (within the meaning of section 952) by section 952(c), section 952(d), or section 970(a);

(iv) Such corporation is the subject of an election to secure an exclusion under section 963; or

(v) It is sought to be established that the corporation has foreign base company shipping income (within the meaning of section 954(f)).

In the event that action by or on behalf of the foreign corporation is not undertaken by the time specified in the preceding sentence and such failure is shown to the satisfaction of the Commissioner to be due to inadvertence or a reasonable cause, such action may be undertaken during any period of at least 30 days occurring after such showing is made which the Commissioner may specify as appropriate for this purpose. Where the action necessary to make an election or to adopt a method of accounting is undertaken by or on behalf of the foreign corporation in accordance with this subparagraph, such election shall be deemed to have been made, or such adoption of accounting method effected, for the first taxable year of the foreign corporation beginning after December 31, 1962, in which such corporation is a controlled foreign corporation (within the meaning of section 957) or for which it is included in a chain or group under section 963(c)(2)(B) or (3)(B) or has a deficit in earnings and profits sought to be taken into account under section 952(d) or pays a dividend that is included in the foreign base company shipping income of a controlled foreign corporation under § 1.954-6(f). For special rules for computing earnings and profits for purposes of section 1248 or income for purposes of applying an exclusion set forth in section 954(b) where the taxable year of the foreign corporation occurs prior to the making of elections or the adoption of methods of accounting under this subparagraph, see the regulations under section 952 and section 1248.

§ 1.964-2 Treatment of blocked earnings and profits.

(a) *General rule.* If, in accordance with paragraph (d) of this section, it is established to the satisfaction of the district director that any amount of the earnings and profits of a controlled foreign corporation for the taxable year (determined under § 1.964-1) was subject to a currency or other restriction or limitation imposed under the laws of any foreign country (within the meaning of paragraph (b) of this section) on its distribution to United States shareholders who own (within the meaning of section 958(a)) stock of such corporation, such amount shall not be included in earnings and profits for purposes of section 952, 956, (as in effect both before and after the enactment of the Tax Reduction Act of 1975) and 956 for such taxable year.

(b) *Rules of application.* For purposes of paragraph (a) of this section—

(1) *Period of restriction or limitation.* An amount of earnings and profits of a controlled foreign corporation for any taxable year shall not be included in earnings and profits for purposes of sections 952, 955, (as in effect both before and after the enactment of the Tax Reduction Act of 1975) and 956 only if such amount of earnings and profits is subject to a currency or other restriction or limitation (within the meaning of subparagraph (2) of this paragraph) throughout the 150-day period beginning 90 days before the close of the taxable year and ending 60 days after the close of such taxable year.

(c) *Removal of restriction or limitation—(1) In general.* If, during any taxable year, a currency or other restriction or limitation (within the meaning of paragraph (b) of this section) imposed under the laws of a foreign country on the distribution of earnings and profits of a controlled foreign corporation to its United States shareholders is removed—

(i) *Treatment of deferred income.* Each United States shareholder of such corporation on the last day in such year that such corporation is a controlled foreign corporation shall include in his gross income for such taxable year the amounts attributable to such earnings and profits which would have been includable in his gross income under section 951(a) for prior taxable years but for the existence of the currency or other restriction or limitation except that the amounts included under this subdivision (i) shall not exceed his pro rata share of—

(a) The earnings and profits upon which the restriction was removed determined on the basis of his stock own-

ership on the last day of the immediately preceding taxable year, and

(b) The applicable limitations of paragraph (c) of § 1.952-1, paragraph (b)(2) of § 1.955-1, paragraph (b)(2) of § 1.955A-1, or paragraph (b) of § 1.956-1, determined as of the last day of the immediately preceding taxable year, taking into account the provisions of subdivision (ii) of this subparagraph.

(ii) *Treatment of earnings and profits.* For purposes of sections 952, 955, (as in effect both before and after the enactment of the Tax Reduction Act of 1975) and 956, the earnings and profits which are no longer subject to a currency or other restriction or limitation shall be treated as included in the corporation's earnings and profits for the year in which such earnings and profits were derived.

Amount with respect to which a currency or other restriction or limitation is removed shall be translated into United States dollars at the appropriate exchange rate for the translation period during which such currency or other restriction or limitation is removed. See paragraph (d) of § 1.964-1. Amounts with respect to which a currency or other restriction or limitation is removed shall not be taken into account in determining whether a deficiency distribution (within the meaning of § 1.963-6) is required to be made for the year in which such earnings and profits were derived.

§ 1.964-3 Records to be provided by United States shareholders.

(a) *Shareholder's responsibility for providing records.* For purposes of verifying his income tax liability in respect of amounts includable in income under section 951 for the taxable year of a controlled foreign corporation each United States shareholder (as defined in section 951(b)) who owns (within the meaning of section 958(a)) stock of such corporation shall, within a reasonable time after demand by the district director, provide the district director—

(1) Such permanent books of account or records as are sufficient to satisfy the requirements of section 6001 and section 964(c), or true copies thereof, as are reasonably demanded, and

(2) If such books or records are not maintained in the English language, either (i) an accurate English translation of such books or records or (ii) the services of a qualified interpreter satisfactory to the district director.

If such books or records are being used by another district director, the United States shareholder upon whom the district director has made a demand to provide such books or records shall file a statement of such

fact with his district director, indicating the location of such books or records. For the length of time the United States shareholder of a controlled foreign corporation must cause such books or records as are under his control to be retained, see paragraph (e) of § 1.6001-1.

(b) *Records to be provided.* Except as otherwise provided in paragraph (c) of this section, the requirements of section 6001 and section 964(c) for record keeping shall be considered satisfied if the books or records produced are sufficient to verify for the taxable year—

(1) The subpart F income of the controlled foreign corporation and, if any part of such income is excluded from the income of the United States shareholder under section 963 or section 970(a), the application of such exclusion.

(2) The previously excluded subpart F income of such corporation withdrawn from investment in less developed countries.

(3) The previously excluded subpart F income of such corporation withdrawn from investment in foreign base company shipping operations.

(4) The previously excluded export trade income of such corporation withdrawn from investment, and

(5) The increase in earnings invested by such corporation in United States property.

(c) *Special rules.* Verification of the subpart F income of the controlled foreign corporation for the taxable year shall not be required if—

(1) It can be demonstrated to the satisfaction of the district director that—

(i) The locus and nature of such corporation's activities were such as to make it unlikely that the foreign base company income of such corporation (determined in accordance with paragraph (c)(3) of § 1.952-3) exceeded 5 percent of its gross income (determined in accordance with paragraph (b)(1) of § 1.952-3) for the taxable year (For taxable years to which § 1.952-3 does not apply, such amounts shall be determined under 26 CFR 1.954-1(d)(3) (i) and (ii) (Rev. as of April 1, 1975).), and

(ii) If such corporation reinsures or issues insurance or annuity contracts in connection with United States risks, the 5-percent minimum premium requirement prescribed in paragraph (b) of § 1.953-1 has not been exceeded for the taxable year, or

(2) The United States shareholder's pro rata share of such subpart F income is excluded in full from his income under section 963 and the books or records verify the application of such exclusion.

§ 1.964-4 Verification of certain classes of income.

(d) *Foreign base company income and exclusions therefrom.*

(4) *Qualified investments in less developed countries.* For rules in effect for taxable years of foreign corporations beginning before January 1, 1976, see 26 CFR 1.964-4(d)(4) (Rev. as of April 1, 1975).

(5) *Income derived from aircraft or ships.* For rules in effect for taxable years of foreign corporations beginning before January 1, 1976, see 26 CFR 1.964-4(d)(5) (Rev. as of April 1, 1975).

(6) *Foreign base company shipping income.* The foreign base company shipping income to which section 954(f) and § 1.954-6 apply, for which propose there must be established—

(i) Gross income derived from, or in connection with, the use (or hiring or leasing for use) of any aircraft or vessel in foreign commerce, as determined under § 1.954-6(c).

(ii) Gross income derived from, or in connection with, the performance of services directly related to the use of any aircraft or vessel in foreign commerce, as determined under § 1.954-6(d).

(iii) Gross income incidental to income described in subdivisions (i) and (ii) of this subparagraph, as determined under § 1.954-6(e).

(iv) Gross income derived from the sale, exchange, or other disposition of any aircraft or vessel used (by the seller or by a person related to the seller) in foreign commerce.

(v) Dividends, interest, and gains described in § 1.954-6(f).

(vi) Income described in § 1.954-6(g) (relating to partnerships, trusts, etc.), and

(vii) Exchange gain, to the extent allocable to foreign base company shipping income, as determined under § 1.952-2(c)(2)(v)(b).

If the controlled foreign corporation has income derived from, or in connection with, the use (or hiring or leasing for use) of any aircraft or vessel in foreign commerce, or derived from, or in connection with, the performance of services directly related to the use of any aircraft or vessel in foreign commerce, it shall be necessary to establish, from the books and records of the controlled foreign corporation, that such aircraft or vessel was used in foreign commerce within the meaning of subparagraphs (3) and (4) of § 1.954-6(b).

(7) *Income on which taxes are not substantially reduced.* The gross income excluded from foreign base company income under section 954(b)(4) and paragraph (b) (3) or (4) of § 1.954-1 in the case of a controlled foreign corporation not availed of to substantially reduce income taxes, the

income or similar taxes incurred with respect thereto, and all other factors necessary to verify the application of such exclusion.

(8) *Qualified investments in foreign base company shipping operations.* The foreign base company shipping income that is excluded from foreign base company income under section 954(b)(2) and § 1.954-1(b)(1).

(9) *Special rule for shipping income.* The distributions received through a chain of ownership described in section 958(a) which are excluded from foreign base company income under section 954(b)(6)(B) and § 1.954-1(b)(2).

(10) *Deductions.* The deductions allocable, under paragraph (c) of § 1.954-1, to each of the classes and subclasses of gross income described in subparagraphs (1) through (9) of this paragraph.

(e) *Exclusion under section 963.* Books or records sufficient to verify the application of the exclusion provided by section 963 with respect to the subpart F income for the taxable year of a controlled foreign corporation must establish that the conditions set forth in paragraph (a)(2) of § 1.963-1 have been met.

(f) *Exclusion under section 970(a).* Books or records sufficient to verify the application for the taxable year of the exclusion provided by section 970(a) in respect of export trade income which is foreign base company income must establish for such year—

(1) That the controlled foreign corporation is an export trade corporation, as defined in section 971(a) and paragraph (a) of § 1.971-1.

(2) The export trade income, as determined under section 971(b) and paragraph (b) of § 1.971-1, which constitutes foreign base company income.

(3) The export promotion expenses, as determined under section 971(d) and paragraph (d) of § 1.971-1, which are allocable to the excludable export trade income.

(4) The gross receipts, and the gross amount on which is computed compensation included in gross receipts, from property in respect of which the excludable export trade income is derived, as described in section 970(a)(1)(B) and paragraph (b)(2)(ii) of § 1.970-1, and

(5) The increase in investments in export trade assets, as determined under section 970(c)(2) and paragraph (d)(2) of § 1.970-1.

(g-1) *Withdrawal of previously excluded subpart F income from qualified investment in less developed countries.* Books or records sufficient to verify the previously excluded subpart F income of the controlled foreign corporation withdrawn from investment in less developed countries for the taxable year must establish—

(1) The sum of the amounts of income excluded from foreign base company income under section

954(b)(1) and paragraph (b)(1) of § 1.954-1 (both as in effect for taxable years beginning before January 1, 1976, see 26 CFR 1.954 and 1.954-1(b)(1) (Rev. as of April 1, 1975)) for all prior taxable years.

(2) The sum of the amounts of previously excluded subpart F income withdrawn from investment in less developed countries for all prior taxable years, as determined under section 955(a) (as in effect before the enactment of the Tax Reduction Act of 1975) and paragraph (b) of § 1.955-1, and

(3) The amount withdrawn from investment in less developed countries for the taxable year as determined under section 955(a) (as in effect before the enactment of the Tax Reduction Act of 1975) and paragraph (b) of § 1.955-1.

(g-2) *Withdrawal of previously excluded subpart F income from investment in foreign base company shipping operations.* Books or records sufficient to verify the previously excluded subpart F income of the controlled foreign corporation withdrawn from investment in foreign base company shipping operations for the taxable year must establish—

(1) The sum of the amounts of income excluded from foreign base company income under section 954(b)(2) and paragraph (b)(1) of § 1.954-1 for all prior taxable years.

(2) The sum of the amounts of previously excluded subpart F income withdrawn from investment in foreign base company shipping operations for all prior taxable years, as determined under section 955(a) and paragraph (b) of § 1.955A-1.

(3) The amount withdrawn from investment in foreign base company shipping operations for the taxable year as determined under section 955(a) and paragraph (b) of § 1.955A-1, and

(4) If the carryover (as described in § 1.955A-1(b)(3)) of amounts relating to investments in less developed country shipping companies (as described in § 1.955-5(b)) is applicable, (i) the amount of the corporations qualified investments (determined under § 1.955-2 other than paragraph (b)(5) thereof) in less developed country shipping companies at the close of the last taxable year of the corporation beginning before January 1, 1976, and

(ii) the amount of the limitation with respect to previously excluded subpart F income (determined under § 1.955-1(b)(2)(i)(b)) for the first taxable year of the corporation beginning after December 31, 1975.

§ 1.970-1 Export trade corporations.

(c) *Withdrawal of previously excluded export trade income—(1) Inclusion of withdrawal in income of United States shareholders.* If—

(i) A controlled foreign corporation

was an export trade corporation for any taxable year,

(ii) Such corporation in any such taxable year derived subpart F income which, under the provisions of section 970(a) and paragraph (b) of this section, was reduced, and

(iii) Such corporation has in a subsequent taxable year a decrease in investments in export trade assets,

every person who is a United States shareholder, as defined in section 951(b), of such corporation on the last day of such subsequent taxable year on which such corporation is a controlled foreign corporation shall include in his gross income, under section 951(a)(1)(A)(ii) and the regulations thereunder as an amount to which section 955 (as in effect before the enactment of the Tax Reduction Act of 1975) applies, his pro rata share of the amount of such decrease in investments but only to the extent that such pro rata share does not exceed the limitations determined under subparagraph (2) of this paragraph. A United States shareholder's pro rata share of a controlled foreign corporation's decrease for any taxable year in investments in export trade assets shall be his pro rata share of such corporation's decrease for such year determined under section 970(c)(3) and paragraph (d)(3) of this section.

§ 1.972-1 Consolidation of group of export trade corporations.

(b) *Effect of consolidation.* * * *

(3) *Determination of pro rata share of consolidated withdrawal of previously excluded export trade income—*

(i) *In general.* If for any taxable year, there is a decrease in investments in export trade assets under section 970(b) and paragraph (c) (1) of § 1.970-1, determined on a consolidated basis, of export trade corporations includible in a consolidated chain of such corporations, each United States shareholder who has elected under paragraph (a) of this section to consolidate his interest in such chain of corporations shall include in his gross income, under section 951(a)(1)(A)(ii) and the regulations thereunder as an amount to which section 955 (as in effect before the enactment of the Tax Reduction Act of 1975) applies, his pro rata share of the amount of such consolidated decrease in investments but only to the extent such pro rata share does not exceed the lesser of the limitations provided by section 970 (b) and paragraph (c)(2) of § 1.970-1 with respect to such shareholder determined on a consolidated basis. The consolidated decrease in investments and the consolidated limitations shall be determined by aggregating the applicable amounts determined under paragraph (c) of § 1.970-1 with respect to such

shareholder's interest in each corporation includible in the consolidation.

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

[36 CFR Parts 313, 322, 327]

PUBLIC USE OF WATER RESOURCE DEVELOPMENT PROJECTS ADMINISTERED BY THE CHIEF OF ENGINEERS

Notice of Proposed Rulemaking

AGENCY: Corps of Engineers, DOD.

ACTION: Proposed rule.

SUMMARY: The proposed rule and regulation deletes Parts 313 and 322 and amends Part 327 of Title 36 of the Code of Federal Regulations. The purpose is to clarify and strengthen existing rules and regulations and eliminate duplication of regulations. It will provide more effective management of Corps of Engineer water resource development projects.

DATES: Comments must be received on or before March 27, 1978.

ADDRESSES: Send comments to: HQDA (DAEN-CWO-R) Washington, D.C. 20314.

FOR FURTHER INFORMATION CONTACT:

Ray Mitchell, Recreation Resource Management Branch, Construction-Operations Division, Office, Chief of Engineers 202-693-7177.

SUPPLEMENTARY INFORMATION:

DELETIONS

The regulations contained in part 313 apply only to the Sam Rayburn Reservoir Area, Angelina River, Tex., which is administered as a joint venture by the Corps of Engineers and the U.S. Forest Service, Department of Agriculture, each operating under their respective laws and regulations. Each of the two agencies separate regulations are comparable and comprehensive enough to effectively manage their respective areas or jurisdiction. Part 327 contains those basic rules and regulations governing public use of Corps of Engineers water resource development projects; therefore Part 313 is duplicative and unnecessary.

The same rationale applies to Part 322 which contains rules and regulations for a joint venture of the Corps of Engineers with the U.S. Fish and Wildlife Service, Department of the Interior, at Great Salt Plains Dam and Reservoir Area, Okla.

AMENDMENT

The amendments to Part 327 are necessary to reflect new and increasing recreation activities and to clarify and strengthen selected rules and regulations for more effective management and enhanced public enjoyment of Corps water resource development projects.

Section 327.25 has been amended to allow for greater flexibility in establishing special recreation use fees for specific projects in accordance with the provisions of subsection 4(b) and 4(c) of Pub. L. 88-574 (78 Stat. 897) as amended.

NOTE.—The U.S. Army Corps of Engineers has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement Under Executive Order 11821 and OMB Circular A-107.

The proposed changes to the Rules and Regulations Governing Public Use of Water Resource Development Projects Administered by the Chief Of Engineers (36 CFR Chapter III) are as follows:

PART 313—WATER RESOURCE DEVELOPMENT PROJECTS HAVING JOINT REGULATIONS [DELETED]

1. Part 313 is deleted.

PART 322—PUBLIC USE OF SALT PLAINS NATIONAL WILDLIFE REFUGE AND GREAT SALT PLAIN DAM AND RESERVOIR AREA, SALT FORK OF ARKANSAS RIVER, OKLA. [DELETED]

2. Part 322 is deleted.

PART 327—RULES AND REGULATIONS GOVERNING PUBLIC USE OF WATER RESOURCE DEVELOPMENT PROJECTS ADMINISTERED BY THE CHIEF OF ENGINEERS

3. The Table of Contents to Part 327 is revised as follows:

AUTHORITY: Sec. 4, Act of December 22, 1944, 58 Stat. 889, as amended, 16 U.S.C. 460 d; sec. 210 of Pub. L. 90-483, 82 Stat. 746; and Pub. L. 88-578, 78 Stat. 897, as amended, 16 U.S.C. 4601-6a.

4. Sections 327.0 through 327.3 are revised as follows:

§ 327.0 Applicability.

The regulations covered in this Part 327 shall be applicable to water resource development projects completed or under construction, administered by the Chief of Engineers, and to those portions of jointly administered water resource development projects which are under the administrative jurisdiction of the Chief of Engineers. All other Federal, State and local laws and regulations remain in full force and effect where applicable to those water resource development projects.

§ 327.1 Policy.

(a) It is the policy of the Secretary of Army acting through the Chief of Engineers to manage the natural and cultural resources of each project in the public interest, providing the public with safe and healthful recreational opportunities while protecting and enhancing these resources.

(b) Unless otherwise indicated herein, the term "District Engineer" shall include the authorized representatives of the District Engineer.

(c) The term "project" or "water resource development project" as used herein refers to all federally owned fee lands and all water areas and all facilities therein or thereon that are contained in any water resource development project.

(d) All water resource development projects open for public use shall be available to the public without regard to sex, race, color, creed, or national

origin. No lessee, licensee, or concessionaire providing a service to the public shall discriminate against any person because of sex, race, creed, color or national origin in the conduct of the operations under the lease, license or concession contract.

§ 327.2 Vehicles.

(a) This section pertains to all vehicles, including, but not limited to, automobiles, motorcycles, mini-bikes, trail bikes, snowmobiles, dune buggies, all terrain vehicles, bicycles, and trailers, campers or any other such equipment.

(b) Vehicles shall not be parked in violation of posted restrictions, or in such manner as to endanger any person or property. The owner of any vehicle parked in violation of this section shall be presumed to have parked it, and unless rebutted such presumption will be sufficient to sustain a conviction as provided for in § 327.27.

(c) The operation of a vehicle off roadways is prohibited except at locations and times designated by the District Engineer.

(d) (1) Vehicles shall be operated only in accordance with posted regulations. (2) No person shall operate any vehicle in a careless, negligent or reckless manner so as to endanger any person (including the operator and/or passenger(s) of the vehicle) or property.

(e) At developed areas, vehicles shall be used only for ingress and egress unless otherwise posted.

(f) Except as authorized by the District Engineer no person shall operate any motorized vehicle without a proper and effective exhaust muffler, or with an exhaust muffler cutout open, or in any other manner which renders the exhaust muffler ineffective in muffling the sound of engine exhaust.

§ 327.3 Vessels.

(a) The placement and/or operation of any vessel or watercraft for a fee or profit upon project waters or lands is prohibited except as authorized by permit, lease, license or concession contract with the Department of Army. This paragraph shall not apply to the operation of commercial tows or passenger carrying vessels not based at a Corps project which utilize project waters as a link in continuous transit over navigable waters of the United States.

(b) (1) Vessels or other watercraft may be operated in project waters, except in prohibited or restricted areas designated by the District Engineer. (2) The operation of vessels or other watercraft in a careless, negligent or reckless manner so as to endanger any property or person (including the operator and/or user(s) of the vessel or watercraft) is prohibited.

(c) Vessels or other watercraft shall not be utilized for overnight occupancy
